Stockton, California 95202

Project Title: Harrison Elementary Active Transportation Improvements

Project Location: See attached vicinity map

Description of Nature, Purpose, and Beneficiaries: See attached project description

Public Agency Approving Project: San Joaquin County Public Works Department

Name of Agency Carrying Out Project: San Joaquin County Public Works Department

This is to advise that the San Joaquin County Public Works Department has approved the above described project on 5/21/24 and has made the determination that the project is exempt due to the following:

Exempt Status (check one):

- ☐ Ministerial (Sec. 21080 (b) (1); 15268)
- ☐ Declared Emergency (Sec. 21080 (b) (3); 15269(a))
- ☐ Emergency Project (Sec. 21080 (B) (4); 15269(b) (c))
- ☒ Categorical Exemption: Existing Facilities (Sec. 15301)
- ☐ Statutory Exemption (Sec. 15282(l))

Reason(s) why project is exempt: The project would introduce "minor alterations" along existing streets – it would not "expand" the use because residents are already using the street shoulders as a sidewalk, and the new constructed sidewalks merely would improve the surface for walking & pedestrian safety.

# HARRISON ELEMENTARY ACTIVE TRANSPORTATION IMPROVEMENTS

## Project Description

### Project Location:

**Sanguinetti Lane:** Wilson Way to Alpine Avenue, **Alpine Avenue:** Sanguinetti Lane to Wilson Way, **Wilson Way:** Alpine Avenue to Sanguinetti Lane, **Mistletoe Avenue:** Sanguinetti Lane to Wilson Way, **E Street:** Wilson Way to Alpine Avenue. See attached Vicinity Map.

### Project Justification:

The residential neighborhood surrounding Harrison Elementary School is a disadvantaged community in northeast Stockton, California. The elementary school opened in 1980, with many of the surrounding residential homes constructed between 1920 & 1950. No sidewalks currently exist on multiple roadways that are part of this project. Alpine Avenue, E Street, and Mistletoe Avenue each provide two travel lanes, one in each direction with on-street parking and no pedestrian facilities.

While people do walk along Wilson Way, the high speeds and long distances between crossing opportunities have contributed to multiple collisions along the corridor. The lack of sidewalks within the community is currently a barrier to walking. Pedestrians are forced to travel in the roadway or on uneven dirt shoulders, and there is no provision for those with disabilities to travel comfortably on Alpine Avenue, Wilson Way, or Mistletoe Avenue without being directly in the roadway.

### Scope of Work:

This project will include construction of new sidewalks and buffered bike lanes, as well as enhanced intersections and storm drainage improvements on roads throughout the project area. A breakdown, by roadway, of the preliminary project scope is as follows:

#### Alpine Avenue:

- New sidewalks and landscaping on the north and south sides of the street between Sanguinetti Lane and Wilson Way.
- Roadway widening up to 56-ft between Sanguinetti Ln and Wilson Way. Reconfigure striping to add buffered bike lanes and parking lanes in each direction, between Sanguinetti Lane and Wilson Way.
- Add high visibility pedestrian crosswalk markings at Sanguinetti Lane and E Street intersection.
- Upgraded ADA curb ramps at the southeast and southwest corners of the Alpine Avenue/Sanguinetti Lane intersection.
- Add ADA curb ramps at each corner of the Alpine Ave/E St intersection.
- Add ADA curb ramps at each corner of the Alpine Ave/Belvedere Ave intersection.
- Add ADA curb ramps at the northwest corner of the Alpine Ave/Wilson Way intersection, for each incoming crosswalk.
- Update pedestrian crosswalk striping at the Alpine Ave/Wilson Way intersection to high visibility markings.
- Add ADA curb ramps at the two-way and three-way crosswalk medians at the Alpine Avenue/Wilson Way intersection.
- Existing storm drain inlet adjustments at sidewalk installations.

# HARRISON ELEMENTARY ACTIVE TRANSPORTATION IMPROVEMENTS

## Project Description

### Sanguinetti Lane:

- Add corner curb extensions (bulb-outs) at Mistletoe Avenue intersection, with ADA curb ramps.
- Add pedestrian crosswalk [Continental markings] south of Mistletoe Ave intersection, with center refuge island. Provide curb extensions with ADA ramps and rectangular rapid flashing beacons (RRFB) at each end of the crosswalk.
- Update pedestrian crosswalk striping at the Sanguinetti Lane/Wilson Way intersection to ladder-style markings.
- Add ADA curb ramps to the three-way crosswalk median at the Sanguinetti Lane/Wilson Way intersection.
- Add ADA curb ramp at the northwest corner of the Sanguinetti Lane/Wilson Way intersection.

### Wilson Way:

- Add sidewalk to the north side of Wilson Way between Sanguinetti Lane and Alpine Avenue.
- Add lighted traffic signal to the Wilson Way/E Street intersection.
- Add high visibility pedestrian crosswalk markings to the north, west, and south approaches of the Wilson Way and E Street intersection.
- Add ADA curb ramps at the northeast, northwest, and southwest corners of the Wilson Way/E Street intersection.
- Add concrete median strips east & west of E Street, to divide Wilson Way traffic.
- Add ADA curb ramps at the Belvedere Ave/Wilson Way intersection.
- Existing storm drain inlet adjustments at sidewalk installations

### Mistletoe Avenue:

- Add sidewalk to the north side of Mistletoe Ave between Sanguinetti Ln and E Street.
- Add sidewalk on the south side of Mistletoe Ave along Parcel 11905045.
- Reconstruct driveway on Parcel 11905003.
- Abandon section of Mistletoe Ave between Wilson Way and E St; redesign the abandoned roadway as landscaping.
- Add concrete median on the south side of the Wilson Way/Mistletoe Ave intersection, with ADA curb ramps for pedestrian crossing.
- Add storm drain inlets and 12" reinforced concrete drain pipe to tie into existing storm drain system

### E Street:

- Add sidewalk to the west side of E Street.
- Add sidewalk on the east side of E St along Parcel 11905042
- Add ladder-style pedestrian crosswalk markings on the north approach, and standard pedestrian crosswalk markings on the west side of the Mistletoe Ave/E St intersection.
- Add storm drain inlets and 12" reinforced concrete drain pipe to tie into existing storm drain system.

## HARRISON ELEMENTARY ACTIVE TRANSPORTATION IMPROVEMENTS

### Project Description

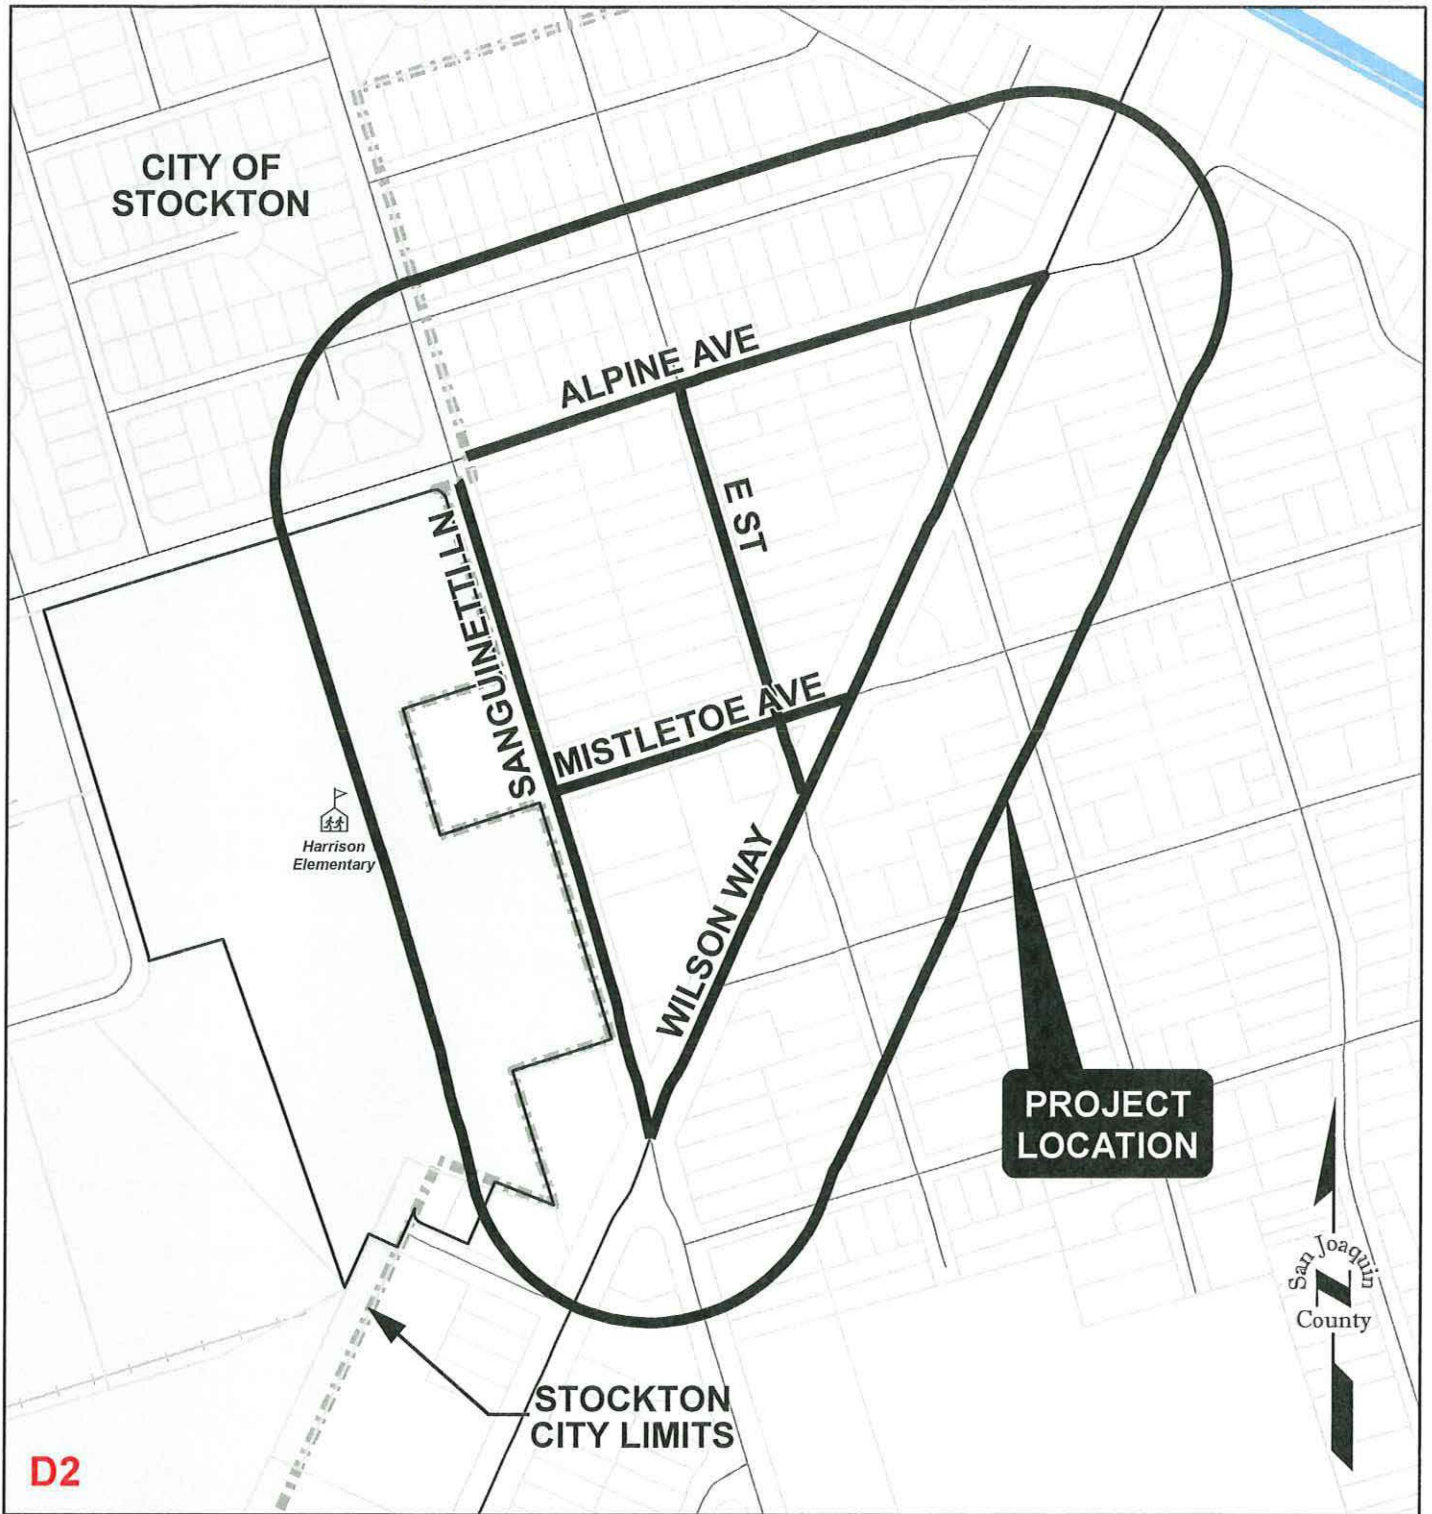

#### **Environmental Setting:**

In these portions of the San Joaquin County, land usage is primarily **residential with single family homes**.

**There are many large trees adjacent to the project area.** Nesting and migratory birds, protected by the Migratory Bird Treaty Act, may nest within these trees. Furthermore, the Swainson's Hawk, a raptor species of concern within the State of California and listed as threatened may nest adjacent to or within the project area. A pre-construction survey for nesting Swainson's Hawks and other migratory birds is recommended if construction is scheduled to occur from February 15<sup>th</sup> to September 1<sup>st</sup>.

#### **Beneficiaries:**

The public will see increased safety and fewer hazards while utilizing multi-modal facilities, such as sidewalks and bicycle lanes.
