SUBJECT: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to State Clearinghouse): 2024081319

Project Title: Humboldt Regional Climate Action Plan and CEQA GHG Emissions Thresholds

Project Applicant: City of Eureka

Project Location (include county): City of Eureka, Humboldt County

Project Description: The project consists of the City of Eureka's adoption of the Humboldt Regional Climate Action Plan (RCAP) for City planning and implementation purposes. The RCAP is a countywide, policy-level framework adopted by Humboldt County that establishes regional greenhouse gas reduction goals and coordinated strategies consistent with State climate law. Adoption of the RCAP does not approve or authorize any specific development, infrastructure project, or funding commitment, but provides guidance for future planning and coordination. Humboldt County served as the CEQA Lead Agency and prepared and certified a Program Environmental Impact Report (EIR) for the RCAP (State Clearinghouse No. 2024081319), as corrected by the Final EIR Errata dated November 25, 2025. The City of Eureka is acting as a CEQA Responsible Agency. The City has reviewed and considered the County-certified Final EIR and Errata, has relied on that environmental document, and has reached its own independent conclusions regarding approval of the project, as appropriate under CEQA Guidelines section 15096. Any future projects implementing RCAP strategies would require separate discretionary approvals and environmental review, as applicable.

This is to advise that the City of Eureka has approved the above (Lead Agency or Responsible Agency)

described project on February 3, 2026 and has made the following determinations regarding the above (date) described project.

- 1. The project will have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
