Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA

LUST:

Name: HAP'S BAIT SHOP - 2ND GENERATION TANK SYSTEM
Address: 84 MAIN ST
City,State,Zip: RIO VISTA, CA 94571
Lead Agency: SOLANO COUNTY LOP
Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609500421
Global Id: T0609500421
Latitude: 38.155842713188
Longitude: -121.690511405468
Status: Completed - Case Closed
Status Date: 01/30/2013
Case Worker: Not reported
RB Case Number: 480181
Local Agency: SOLANO COUNTY
File Location: Local Agency
Local Case Number: 70028
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History:

Based on historical file reviews, underground storage tanks (USTs) have been operated on the site since approximately 1937. The locations of the USTs appeared to have changed overtime indicating that there were likely at least two generations of tank systems that existed on the property over time. Based on the location of the dispenser island canopy identified on maps and photos, the oldest First Generation tank system was located along the western corner of the site, along Main and Front Street and operated from approximately 1937 through 1958 when the dispenser island and canopy were removed or closed after 1958. After removal of the first generation tank system, there was no physical evidence of a service station operating at the site between 1958 through 1972. The Second Generation USTs consisting of two gasoline tanks were installed in 1972 and removed in 1998. Subsurface investigations were conducted around the second generation tank system from approximately 1989 through 2011. Periodic groundwater monitoring of four onsite monitoring wells performed since 1989 demonstrated that the areas adjacent and downgradient of the second generation gasoline tanks (MW-1, MW-3 and MW-4) reported low to below detectable concentrations of gasoline constituents over time. The case associated with the second generation tank system was determined to be low threat and is being considered for no further action. However groundwater concentrations from well MW-2, located in the approximate area of the first generation tank system has shown increasing concentrations over time. Since well MW-2 is located up and cross gradient from the second generation tank system, impact reported in well MW-2 was determined to be associated with the first generation tank system. Based on the results of the work, an unauthorized release of petroleum hydrocarbons has occurred associated with the former first generations USTs. The extent and magnitude of the impact has not been defined, therefore, additional corrective action is warranted regarding the first generation UST release. See site documents for additional historical site information.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Background Info: The Rio Vista Army Reserve Center (RVARC) occupies about 27.8 acres in Solano County. Past Army activities have resulted in some release of contaminants into the environment. RVARC was used by the Army primarily for training of army reserve units for amphibious assaults, ship maintenance, and stevedoring. The SI data indicates there are several petroleum contaminated sites resulting from underground storage tank leaks. There is metals contamination in several small sites and in the Marine Railway. There is also dioxin contamination in the vicinity of the incinerator. The installation is scheduled for closure by the BRAC 95 Commission and will be transferred to the City of Rio Vista under public law.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Title:	ACL R5-2013-0572 for Rio Vista City
Description:	ACLO R5-2013-0572 issued in the amount of \$15,000 for effluent limitation violations which occurred from 1 October 2010 through 31 March 2013. There are 5 serious violations subject to MMPs. The Order provides that in lieu of paying the mandatory minimum penalty, the entire \$15,000 penalty is deemed satisfied by the Central Valley Water Board through the Discharger's completion of a compliance project.

Description:	PER NRC REPORT, " CALLER STATES AN UNKNOWN MATERIAL WAS RELEASED INTO THEIR WASTE WATER TREATMENT SYSTEM DUE TO UNKNOWN REASONS. AS A RESULT ALL THE ORGANISMS IN THE TREATMENT SYSTEM WERE KILLED. THIS HAS ALSO CAUSED DISCOLORATION TO THE WATER. THE MATERIAL IS DESCRIBED AS TAN WITH A YEAST OR ORGANIC SMELL. THE PH LEVEL WAS LESS THAN 4.0."

FINDS:

Registry ID: 110055986394

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
STATE MASTER

Address: 1000 BEACH
City,State,Zip: RIO VISTA, CA 94571
Site ID: 61733
CERS ID: 252771
CERS Description: NPDES Wastewater and Stormwater

Violations:

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 10-23-2001
Citation: California Water Code
Violation Description: Not reported
Violation Notes: No effluent flow measurements for the month of July 2001. Replaced flow meter.
Violation Division: Water Boards
Violation Program: NPDUNIOTH
Violation Source: CIWQS,

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 01-10-2003
Citation: California Water Code
Violation Description: Not reported
Violation Notes: November 2002 DSMR is deficient. Did not conduct monitoring for TDS (missed last two quarters results were due in Nov and August) and no chronic toxicity and standard minerals has been conducted since June 2001, reqd annually.

Violation Division: Water Boards
Violation Program: NPDUNIOTH
Violation Source: CIWQS,

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 02-11-2010
Citation: California Water Code
Violation Description: Not reported
Violation Notes: The effluent concentrations at monitoring location EFF-001 for dibromochloromethane and dichlorobromomethane were not reported. These are required to be monitored at least once per month, in accordance with MRP Provision IV.A.1.

Violation Division: Water Boards
Violation Program: NPDUNIOTH
Violation Source: CIWQS,

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 01-16-2009
Citation: California Water Code
Violation Description: Not reported
Violation Notes: Discharge exceeded daily effluent Dibromochloromethane limitation of 2.8 g/L with 08-Oct-2008 result of 12 g/L.

Violation Division: Water Boards

Violation Description: Not reported
Violation Notes: Exceeded the 7 day average BOD with an average of 51 mg/l on the week of January 7/8.
Violation Division: Water Boards
Violation Program: NPDMUNIOTH
Violation Source: CIWQS,

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 03-09-2009
Citation: California Water Code
Violation Description: Not reported
Violation Notes: Discharge exceeded daily effluent Dibromochloromethane limitation of 2.8 g/L with 15-Jan-2009 result of 11 g/L.
Violation Division: Water Boards
Violation Program: NPDMUNIOTH
Violation Source: CIWQS,

Site ID: 61733
Site Name: Beach Wastewater Treatment Facility
Violation Date: 10-24-2005
Citation: California Water Code
Violation Description: Not reported
Violation Notes: On 7/13/05, the discharge exceeded the daily max TC effluent limit of 500 MPN/100 ml with a result of >1600 MPN/100 ml.
Violation Division: Water Boards
Violation Program: NPDMUNIOTH
Violation Source: CIWQS,

Agency Contact: BRADLEY BAXTER
Agency Telephone: 7073746451
Agency Type: City
SIC Code: 4952
SIC Code 2: Not reported
Primary Waste Type: Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.

Primary Waste: DOMEST
Waste Type2: Not reported
Waste2: Domestic Sewage
Primary Waste Type: Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.

Secondary Waste: Not reported
Secondary Waste Type: Not reported
Design Flow: 1
Baseline Flow: 0
Reclamation: No reclamation requirements associated with this facility.
POTW: The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.

Treat To Water: Moderate Threat to Water Quality. A violation could have a major adverse impact on receiving biota, can cause aesthetic impairment to a significant human population, or render unusable a potential domestic or municipal water supply. Awsthetic impairment would include nuisance from a waste treatment facility.

Complexity: Category B - Any facility having a physical, chemical, or biological waste treatment system (except for septic systems with subsurface disposal), or any Class II or III disposal site, or facilities without treatment systems that are complex, such as marinas with petroleum products, solid wastes, and sewage pump out facilities.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

S121755949

Violation Description: 1, Section(s) 265.31
Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to the air, soil, or surface water which could threaten human health or the environment..

Violation Notes: Secondary containment around used oil tank showing cracks. Properly clean up and dispose of oil in secondary containment, repair secondary containment, and revise used oil tank transfer procedures to prevent future spills

Violation Division: Solano County Environmental Health
Violation Program: HW
Violation Source: CERS,

Site ID: 2634
Site Name: Abel Chevrolet Buick
Violation Date: 01-15-2014
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)

Violation Description: Failure to ensure employees are familiar with the handling and compliance of hazardous waste regulations and emergency response.

Violation Notes: Last employee training records from 11/8/2012. Ensure employees trained annually on emergency response procedures. Send training records to CUPA within 30 days

Violation Division: Solano County Environmental Health
Violation Program: HW
Violation Source: CERS,

Site ID: 2634
Site Name: Abel Chevrolet Buick
Violation Date: 01-15-2014
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Please properly label all containers, including used oil and antifreeze, with complete information, including facility information.

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:

Site ID: 68805
Site Name: Solano County Public Works
Violation Date: 06-27-2022
Citation: 22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter 11, Section(s) 66261.7

Violation Description: Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.

Violation Notes:

Returned to compliance on 06/27/2022. Observed 55 gallon drum with hazardous waste label being empty. Had conversation with Scott about labeling the container with a piece of tape that states EMPTY and the date emptied. The tape needs to be removed and the accumulation date on the hazardous waste label needs to be filled in when accumulation

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Facility Status: Open - Verification Monitoring
Status Date: 07/05/2018
Global Id: SL185412913
Lead Agency: CENTRAL VALLEY RWQCB (REGION 5S)
Lead Agency Case Number: Not reported
Latitude: 38.155979277
Longitude: -121.68963
Case Type: Cleanup Program Site
Case Worker: JJH
Local Agency: Not reported
RB Case Number: SL185412913
File Location: Regional Board
Potential Media Affected: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Diesel, Gasoline
Site History: The Site is adjacent to the Sacramento River and was developed in the late 1800s. Standard Oil Company (now Chevron) operated a petroleum product distribution facility at the Site from the early 1920s until 1974. Since 1974, the Site has been used for offices, limited residential use, and storage of tractors and farm equipment. In 2004, Chevron excavated approximately 5,000 cubic yards of soil at the Site.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource
Conservation and Recovery Act (RCRA) program through the tracking of
events and activities related to facilities that generate, transport,
and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA
program staff to track the notification, permit, compliance, and
corrective action activities required under RCRA.

Design Flow: 2
Baseline Flow: 0
Reclamation: No reclamation requirements associated with this facility.
POTW: The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category B - Any facility having a physical, chemical, or biological waste treatment system (except for septic systems with subsurface disposal), or any Class II or III disposal site, or facilities without treatment systems that are complex, such as marinas with petroleum products, solid wastes, and sewage pump out facilities.

ASTA SAND PIT (Continued)

S106483649

File Location: Not reported
Potential Media Affected: Under Investigation
Potential Contaminants of Concern: Other Solvent or Non-Petroleum Hydrocarbon
Site History: Solano County's closure memo states that natural gas discharge water had been discharged to the sand pit, leaving an oily residue. About 5,630 cubic yards of petroleum-impacted soil was excavated to a depth of 11 feet. Groundwater monitoring wells did not contain petroleum compounds.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Incident Date: 08/10/2020
Admin Agency: Solano County Environmental Management
Amount: Not reported
Contained: Stopped, Contained
Site Type: Sacramento River
E Date: Not reported
Substance: Vegetable Hydraulic fluid
Quantity Released: 1
Unknown: Not reported
Substance #2: Not reported
Substance #3: Not reported
Evacuations: Not reported
Number of Injuries: Not reported
Number of Fatalities: Not reported
#1 Pipeline: No
#2 Pipeline: No
#3 Pipeline: No
#1 Vessel >= 300 Tons: No
#2 Vessel >= 300 Tons: No
#3 Vessel >= 300 Tons: No
Evacs: No
Injuries: No
Fataals: No
Comments: Not reported
Description: Reporting party states that a hydraulic hammer was being used, when a hydraulic line was severed. This caused the release of the vegetable base hydraulic fluid into the Sacramento River.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

STATE MASTER

UORS (California - Used Oil Recycling System). California Integrated Waste Management Board (CIWMB) helps communities establish and promote convenient collection opportunities for used oil and used oil filters.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
