Page 1 of 3

**Project Title:** 117<sup>th</sup> Area Fringe Annexation  
**Project Location:** Whitewood Road and Clinton Keith Road  
**City:** Murrieta  
**County:** Riverside

Removed: By: Deputy

**Description of Nature, Purpose, and Beneficiaries of Project:** The project consists of a request by Eastern Municipal Water District (EMWD) to the Riverside Local Agency Formation Commission to initiate and conduct a "reorganization proceeding" pursuant to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 for 17.26 net acres of land located along Whitewood Road and Clinton Keith Road in the City of Murrieta, County of Riverside. The beneficiaries of this project would be EMWD as the project would allow for highly reliable operation facilities and would extend the useful life of assets.

**Public Agency Approving and Carrying Out Project:** Eastern Municipal Water District

**Exempt Status:**

Categorical Exemption.

CEQA exemption in accordance with PRC 21083.3 and CEQA Guidelines Section 15183.

**Reasons why project is exempt:** Project impacts associated with future EMWD service improvements were included within the scope of the Project, and as such were considered to have been previously evaluated and mitigated by the City of Murrieta. There are no environmental effects peculiar to the Project site, or the associated annexation of the site into EMWD's service area. In addition, there are no environmental effects that were not addressed as significant effects in the City's 2011 Environmental Impact Report (EIR) and the 2020 Supplemental Environmental Impact Report (SEIR), and no potentially significant off-site impacts and cumulative impact which were not discussed in the City's 2011 EIR and 2020 SEIR. There is no new information not known at the time the City's 2020 SEIR was certified that could result in the project having a more severe adverse impact than discussed in the City's 2011 EIR and 2020 SEIR. The proposed annexation would not result in any significant impacts beyond those identified for the Project analyzed in the City's 2011 EIR, 2020 SEIR, and Project initial study.
