Description of Nature, Purpose and Beneficiaries of Project:

The City of Mendota is preparing an update to its existing Housing Element, a State-mandated policy document that is a component of the Mendota General Plan. The overall purpose of the Housing Element Update is to identify current and projected housing needs; show locations where housing can be built; and set goals, policies, and programs to meet the community's housing needs. The foundation of the Housing Element is the Regional Housing Needs Allocation (RHNA), which is 642 units. The City has identified sufficient sites with adequate development capacity to build up to 655 new housing units with existing land use regulations and zoning designations.
