Present Land Use/Zoning/General Plan Designation:

Citywide streets (sewer line improvements) and existing WWTP plant / public areas

Project Description: *(please use a separate page if necessary)*

The City of Huron owns and operates a citywide sewer collection system and wastewater treatment plant under Water Discharge Requirements (WDR) No. 87-012. A condition survey of the sewer collection system was recently conducted and revealed that approximately 13,501 linear feet (lf) of gravity sewer mains need rehabilitation and that approximately 9,237 lf of gravity sewer mains need replacing. In addition, improvements are needed at the City's WWTP to provide more efficient and cost-effective sludge management. The proposed project thus consists of rehabilitating or replacing defective lines and constructing improvements at the City's WWTP.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".
