Project Description (Proposed actions, location, and/or consequences).

The project would allow the City to take delivery of drinking water treated by the South San Joaquin Irrigation District (SSJID) as part of the South County Water Supply Project (SCWSP). The project proposes to install two parallel water pipelines, each 18 inches in diameter, or a single pipeline 24 inches in diameter, along Jack Tone Road from River Road in Ripon to French Camp Road, where the lines would connect to an existing 48-inch diameter SWSCP potable water line managed by SSJID. The total length of the project would be approximately 4.5 miles. The project would tie into the City of Ripon water systems in the vicinity of River Road my means yet to be determined.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.
