Present Land Use/Zoning/General Plan Designation:

Land Use: recreation; General Plan Designation: public land; Zoning: unclassified - interim mineral resource

Project Description: (please use a separate page if necessary)

The Reading Island Boat Ramp Improvement Project proposes to replace the original floating boat dock and improve access to an existing motorized boat ramp on Anderson Creek near its confluence with the Sacramento River. Accumulated in-stream material would be excavated to improve boat access. The ramp would be cleared of debris and sediment to create a 2-foot-wide shoulder on either side, increasing access and ease of use. Roadway shoulder improvements would allow for easier navigation on the entrance road. The development of Americans with Disabilities Act (ADA)-compliant parking is also proposed. The entry gate would be updated with an automated gate for programmed opening and closing. Portable toilets may also be placed adjacent to the proposed ADA-compliant parking spaces. Depending on recreation use levels, a potential gravel overflow parking lot and permanent vault toilets are proposed, if needed.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
