Present Land Use/Zoning/General Plan Designation:

Niblick Road is an existing arterial street.

Project Description: (please use a separate page if necessary)

Project Description: The proposed Project would utilize an ATP Cycle 6 Grant for the replacement of the existing westbound Class II bike lane and north side sidewalk with a raised 10-foot-wide multi-use path along the Niblick Road Corridor (Niblick Road between Spring Street and Creston Road). The Project would incorporate sustainable bicycle and pedestrian components to encourage multimodal transportation. No land use and zoning changes would be required for Project implementation. The Corridor would be modified to enable the construction of a raised multi-use path for bicyclists and pedestrians within the existing City right-of-way. The existing curbs and gutters would be removed and reconstructed to City design standards. The multi-use path would be installed with raised path separators and Americans with Disabilities Act (ADA)-compliant ramps between multi-use path sections interrupted by driveways and streets. Raised path separators would provide pedestrians and cyclists separation from vehicular traffic. Additional sidewalk would be constructed on the south side of the Corridor between Rambouillet Road and Creston Road to create a more consistent sidewalk. Class II bike lane striping and green paint would also be added to the existing eastbound Class III bike lane per City and Caltrans standards. After Project completion, the Corridor would remain a four-lane roadway (with additional turn lanes) between Spring Street and Creston Road.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
