D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- [x] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- [x] 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- [x] 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- [ ] 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- [x] 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- [ ] 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- [ ] 1. BELLS;
- [x] 2. HORNS/SIRENS;
- [x] 3. VERBAL (I.E., SHOUTING);
- [ ] 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

- [x] EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- [x] 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. Maintenance Shop	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. Maintenance Shop	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.

	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)	H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)	H6.	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	H8.
☐ 3. PORTABLE GAS CYLINDERS			H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR	DATE SIGNED K1.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	11/10/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:		
	AMBULANCE, FIRE, POLICE AND CHP	9-1-1
	CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
	NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
	POISON CONTROL CENTER	(800) 222-1222
	LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	(951) 358-5055 C3.
	OTHER (Specify): C4.	C5.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: Riverside Community Hospital C6. (951) 275-9000 C7.

AGENCY NOTIFICATION PHONE NUMBERS:		
	CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
	REGIONAL WATER QUALITY CONTROL BOARD	(951) 782-4130 C8.
	U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
	CALIFORNIA DEPT OF FISH AND GAME (DFG)	(916) 358-2900
	U.S. COAST GUARD	(202) 267-2180
	CAL/OSHA	(916) 263-2800
	STATE FIRE MARSHAL	(916) 445-8200
	OTHER (Specify): C9.	C10.
	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. Maintenance Shop	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. Maintenance Shop	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. Maintenance Shop	G17.
	9. ☒ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18. Maintenance Shop	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. Maintenance Shop	G27.
	14. ☐ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. Maintenance Shop	G35.
	18. ☒ ABSORBENT MATERIAL	G36. Maintenance Shop	G37.
	19. ☒ CONTAINER FOR USED ABSORBENT	G38. Maintenance Shop	G39.
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☒ BROOM	G42. Maintenance Shop	G43.
	22. ☒ SHOVEL	G44. Maintenance Shop	G45.
	23. ☒ SHOP VAC	G46. Maintenance Shop	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.

	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. Throughout	G61.
	31. ☒ INTERCOM / PA SYSTEM	G62. Throughout	G63.
	32. ☒ PORTABLE RADIOS	G64. Employees	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	I11.	Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	I18.
☐ 3. PORTABLE GAS CYLINDERS			I19.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		North of Maintenance Shop	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR		DATE SIGNED	K1.

STA- Riverside Facility
Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

STA- Riverside Facility
Employee Training Plan

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	11/10/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:		
	AMBULANCE, FIRE, POLICE AND CHP	9-1-1
	CALIFORNIA EMERGENCY MANAGEMENT AGENCY (CAL/EMA)	(800) 852-7550
	NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
	POISON CONTROL CENTER	(800) 222-1222
	LOCAL UNIFIED PROGRAM AGENCY (UPA/CUPA)	(951) 358-5055 C3.
	OTHER (Specify): C4.	C5.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: Riverside Community Hospital C6. (951) 275-9000 C7.

AGENCY NOTIFICATION PHONE NUMBERS:		
	CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
	REGIONAL WATER QUALITY CONTROL BOARD	(951) 782-4130 C8.
	U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
	CALIFORNIA DEPT OF FISH AND GAME (DFG)	(916) 358-2900
	U.S. COAST GUARD	(202) 267-2180
	CAL/OSHA	(916) 263-2800
	STATE FIRE MARSHAL	(916) 445-8200
	OTHER (Specify): C9.	C10.
	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. Maintenance Shop	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. Maintenance Shop	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. Maintenance Shop	G17.
	9. ☒ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18. Maintenance Shop	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. Maintenance Shop	G27.
	14. ☐ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. Maintenance Shop	G35.
	18. ☒ ABSORBENT MATERIAL	G36. Maintenance Shop	G37.
	19. ☒ CONTAINER FOR USED ABSORBENT	G38. Maintenance Shop	G39.
	20. ☐ BERMING / DIKING EQUIPMENT	G40.	G41.
	21. ☒ BROOM	G42. Maintenance Shop	G43.
	22. ☒ SHOVEL	G44. Maintenance Shop	G45.
	23. ☒ SHOP VAC	G46. Maintenance Shop	G47.
	24. ☐ EXHAUST HOOD	G48.	G49.
	25. ☐ EMERGENCY SUMP / HOLDING TANK	G50.	G51.
	26. ☐ CHEMICAL NEUTRALIZERS	G52.	G53.
	27. ☐ GAS CYLINDER LEAK REPAIR KIT	G54.	G55.
	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. Throughout	G61.
	31. ☒ INTERCOM / PA SYSTEM	G62. Throughout	G63.
	32. ☒ PORTABLE RADIOS	G64. Employees	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	I11.	Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	I18.
☐ 3. PORTABLE GAS CYLINDERS			I19.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		North of Maintenance Shop	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR		DATE SIGNED	K1.
		11/10/15

STA- Riverside Facility
Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

STA- Riverside Facility

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1 CERS ID	A1 DATE OF PLAN PREPARATION/REVISION A2
	10510207	6/1/2017

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3
NewBasis

BUSINESS SITE ADDRESS 103
2626 Kansas Avenue

BUSINESS SITE CITY 104		ZIP CODE 105
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply)	H1	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Throughout Facility	H2
☒ 2. PROCESS LINES / PIPING		Throughout Facility	H3
☐ 3. LABORATORY			H4
☐ 4. WASTE TREATMENT AREA			H5

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS (Check all that apply)	H6	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Throughout Facility	H7
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8
☒ 3. PORTABLE GAS CYLINDERS		Welding Area	H9
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10
☒ 5. SPRINKLER SYSTEMS		Throughout Facility	H11
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1

☐ 1. FORMAL CLASSROOM; ☒ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☒ 4. STUDY GUIDES / MANUALS (Specify): _____ I2

☐ 5. OTHER (Specify): _____ I3

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

BUSINESS SITE ADDRESS A5.
2626 Kansas Avenue

BUSINESS SITE CITY A6.		ZIP CODE A7.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A8.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:

1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:

1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

- [ ] 6. PORTABLE RADIO

EMERGENCY COORDINATOR CONTACT INFORMATION: C13.

PRIMARY EMERGENCY COORDINATOR NAME: PHONE NO.: PHONE NO.:

ALTERNATE EMERGENCY COORDINATOR NAME: PHONE NO.: PHONE NO.:

- [ ] Check if additional Emergency Coordinator contact and address information is available onsite or by calling PHONE NO.:

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [x] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [x] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Parking Lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.
☑ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS	Throughout Facility
☑ 2. PROCESS LINES AND PIPING	Throughout Facility
☐ 3. LABORATORY	
☐ 4. WASTE TREATMENT AREA	

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.	LOCATIONS: H4.
☑ 1. SHELVES, CABINETS AND/OR RACKS	Throughout Facility
☐ 2. TANKS AND SHUT-OFF VALVES	
☑ 3. PORTABLE GAS CYLINDERS	Welding Area
☑ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES	See Site Map
☑ 5. SPRINKLER SYSTEMS	Throughout Facility
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☑ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☑ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): _____ I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☑ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

FACILITY ID # A1.	CERS ID # A2. 10510207	DATE OF PLAN PREPARATION/REVISION (MM/DD/YYYY) A3. 02/28/2020

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* A4.
New Basis

BUSINESS SITE ADDRESS A5.
2626 Kansas Avenue

BUSINESS SITE CITY A6.		ZIP CODE A7.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A8.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:

1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:

1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [x] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [x] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Parking Lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.
☑ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS	Throughout Facility
☑ 2. PROCESS LINES AND PIPING	Throughout Facility
☐ 3. LABORATORY	
☐ 4. WASTE TREATMENT AREA	

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.	LOCATIONS: H4.
☑ 1. SHELVES, CABINETS AND/OR RACKS	Throughout Facility
☐ 2. TANKS AND SHUT-OFF VALVES	
☑ 3. PORTABLE GAS CYLINDERS	Welding Area
☑ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES	See Site Map
☑ 5. SPRINKLER SYSTEMS	Throughout Facility
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☑ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☑ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): _____ I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☑ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [x] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [x] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Parking Lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS	On Personnel/Supply Area	
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On Personnel/Supply Area	
	3. ☒ CHEMICAL PROTECTIVE BOOTS	On Personnel/Supply Area	
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On Personnel/Supply Area	
	5. ☒ HARD HATS	On Personnel/Supply Area	
	6. ☒ AIR-PURIFYING RESPIRATORS	On Personnel/Supply Area	
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	Throughout Facility	
	9. ☒ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER		
	10. ☐ PORTABLE EYEWASH KITS AND/OR STATION		
	11. ☐ OTHER		
Fire Fighting	12. ☒ PORTABLE FIRE EXTINGUISHERS	Throughout Facility	
	13. ☒ FIXED FIRE SUPPRESSION SYSTEMS AND/ OR SPRINKLERS	Throughout Facility	
	14. ☐ FIRE ALARM BOXES		
	15. ☐ OTHER		
Spill Control and Clean-Up	16. ☒ ALL-IN-ONE SPILL KIT	Throughout Facility	
	17. ☒ ABSORBENT MATERIAL	Throughout Facility	
	18. ☒ CONTAINER FOR USED ABSORBENT		
	19. ☐ BERM AND/OR DIKING EQUIPMENT		
	20. ☒ BROOM	Throughout Facility	
	21. ☒ SHOVEL	Throughout Facility	
	22. ☒ VACUUM	Throughout Facility	
	23. ☐ EXHAUST HOOD		
	24. ☐ SUMP AND/OR HOLDING TANK		
	25. ☐ CHEMICAL NEUTRALIZERS		
	26. ☐ GAS CYLINDER LEAK REPAIR KIT		
	27. ☐ SPILL OVERPACK DRUMS		
	28. ☐ OTHER		
Communi-cations and Alarm Systems	29. ☒ TELEPHONES (e.g., Cellular)	Throughout Facility/On Personnel	
	30. ☐ INTERCOM AND/OR PA SYSTEM		
	31. ☒ PORTABLE RADIOS	On Personnel	
	32. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT		
Other	33. ☐ OTHER		
	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.
☑ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS	Throughout Facility
☑ 2. PROCESS LINES AND PIPING	Throughout Facility
☐ 3. LABORATORY	
☐ 4. WASTE TREATMENT AREA	

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.	LOCATIONS: H4.
☑ 1. SHELVES, CABINETS AND/OR RACKS	Throughout Facility
☐ 2. TANKS AND SHUT-OFF VALVES	
☑ 3. PORTABLE GAS CYLINDERS	Welding Area
☑ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES	See Site Map
☑ 5. SPRINKLER SYSTEMS	Throughout Facility
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☑ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☑ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): _____ I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☑ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

☑ 1. NO ATTACHMENTS ARE REQUIRED; or

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	11/10/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	I11.	Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	I18.
☐ 3. PORTABLE GAS CYLINDERS			I19.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		North of Maintenance Shop	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

STA- Riverside Facility
Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	1/27/2023

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

	OTHER (Specify): C9.	C10.
	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- [x] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- [x] 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- [x] 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- [ ] 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- [x] 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- [ ] 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- [ ] 1. BELLS;
- [x] 2. HORNS/SIRENS;
- [x] 3. VERBAL (I.E., SHOUTING);
- [ ] 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

- [x] EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- [x] 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*

	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)	H1.	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)	H6.	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	H8.
☐ 3. PORTABLE GAS CYLINDERS			H9.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

STA- Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

Facility Information Accepted Jan 15, 2019

Submitted on 11/27/2018 1:47:24 PM by *Alexander Zec* of New Basis (Riverside, CA)
Submittal was ***Accepted*** on 1/15/2019 7:38:23 AM by Guerrero Guerrero
Comments by regulator: The oversight of the Hazardous Materials Business Plan (HMBP) for this facility is regulated by the City of Riverside Fire Dept. Although the Facility Information section has been accepted by Riverside County Department of Environmental Health staff, your HMBP will not be considered complete until all required sections are submitted and approved by your local fire department. You will receive separate emails from cers@calepa.ca.gov detailing the compliance status for each section submitted. Thank you.

- Site Map (Official Use Only)
  - *Annotated Site Map (Official Use Only)* (Adobe PDF, 266KB)

Guidance Messages

- **Warning:**
  1. Hazardous Material Inventory - This inventory contains 10 trade secret material(s). Trade secret information must meet the criteria specified in California Civil Code 3426.1(d) and Government Code 6254.7

Aboveground Petroleum Storage Act **Not Applicable Nov 29, 2018**

Submitted on 11/28/2018 10:43:58 AM by *Alexander Zec* of New Basis (Riverside, CA)
Submittal was ***Not Applicable*** on 11/29/2018 10:36:43 AM by David Larez

- Aboveground Petroleum Storage Act Documentation
  - For the purpose of 40 CFR 112, the CWA Section 311 (b)(2) identifies hazardous substances under 40 CFR 116, which are not considered oils. Styrene, the product in questions is listed under 40 CFR 116 as a hazardous substance.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	11/10/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION	CAPABILITY *(If applicable)*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, OR VESTS	G2.	G3.
	2. ☒ CHEMICAL PROTECTIVE GLOVES	G4. Maintenance Shop	G5.
	3. ☐ CHEMICAL PROTECTIVE BOOTS	G6.	G7.
	4. ☒ SAFETY GLASSES / GOGGLES / SHIELDS	G8. Maintenance Shop	G9.
	5. ☐ HARD HATS	G10.	G11.
	6. ☐ CARTRIDGE RESPIRATORS	G12.	G13.
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)	G14.	G15.
	8. ☒ FIRST AID KITS / STATIONS	G16. Maintenance Shop	G17.
	9. ☒ PLUMBED EYEWASH FOUNTAIN / SHOWER	G18. Maintenance Shop	G19.
	10. ☐ PORTABLE EYEWASH KITS	G20.	G21.
	11. ☐ OTHER	G22.	G23.
	12. ☐ OTHER	G24.	G25.
Fire Fighting	13. ☒ PORTABLE FIRE EXTINGUISHERS	G26. Maintenance Shop	G27.
	14. ☐ FIXED FIRE SYSTEMS / SPRINKLERS / FIRE HOSES	G28.	G29.
	15. ☐ FIRE ALARM BOXES OR STATIONS	G30.	G31.
	16. ☐ OTHER	G32.	G33.
Spill Control and Clean-Up	17. ☒ ALL-IN-ONE SPILL KIT	G34. Maintenance Shop	G35.
	18. ☒ ABSORBENT MATERIAL	G36. Maintenance Shop	G37.

	28. ☐ SPILL OVERPACK DRUMS	G56.	G57.
	29. ☐ OTHER	G58.	G59.
Communi-cations and Alarm Systems	30. ☒ TELEPHONES (Includes cellular)	G60. Throughout	G61.
	31. ☒ INTERCOM / PA SYSTEM	G62. Throughout	G63.
	32. ☒ PORTABLE RADIOS	G64. Employees	G65.
	33. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT	G66.	G67.
Other	34. ☐ OTHER	G68.	G69.
	35. ☐ OTHER	G70.	G71.

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	I11.	Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	I18.
☐ 3. PORTABLE GAS CYLINDERS			I19.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		North of Maintenance Shop	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR		DATE SIGNED	K1.
		11/10/15

STA- Riverside Facility
Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

STA- Riverside Facility

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

BUSINESS SITE ADDRESS			103
BUSINESS SITE CITY	104	CA	ZIP CODE 105

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS 15

(You may also be required to provide additional information by your CUPA or local agency.)

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Tony Hennessey	Telephone: 951-313-2593
Name: Luis Ramos	Telephone: 951-203-4206

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Riverside Community Hospital
Medical Facility Address: 4445 Magnolia Avenue
Medical Facility City: Riverside
Hospital Phone: 951-788-3000

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Hazardous materials that are stored on-site include materials that have flammable and combustible characteristics and also pose adverse health effects to humans. All materials are stored in containers that are in good condition and containers are regularly visually inspected. In order to prevent employee exposure to hazardous materials/wastes, all employees are trained in the proper handling of hazardous materials/wastes. In addition, the facility will be kept in a neat and orderly condition, therefore reducing the potential for a hazard to occur.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

All employees are trained in the use of MSDSs. Absorbent materials are maintained on-site and are inspected regularly. Small spills will be contained using materials from the on-site spill response kit. For larger spills, a cleanup firm will be contacted. Small fires will be extinguished using on-site fire extinguishers. For larger fires, all persons will be evacuated from the building, 911 will be called, and all electrical power and natural gas will be shut off, if possible. In the event of an explosion, all persons will be evacuated from the premises, and 911 will be called from an off-site location. In the event of a release of hazardous material/waste that requires the evacuation of the facility, immediate action will be taken to evacuate all persons located at the facility through the safest exits. All persons will be asked to assemble in the employee staging area or at a safe upwind location. All persons evacuated will be accounted.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Small spills are cleaned using absorbent materials. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. Senior management will determine if the spill, release, or threatened release is reportable. If it is determined to be reportable, this person will immediately report the release or spill to the emergency response agency by calling 911. He/she will also notify the County of Riverside Haz Mat Management Division (651-358-5055), State Office of Emergency Services (800-852-7550), First Student, Inc. Headquarters (513-241-2200), and Strata Environmental (865-539-2077). In the event of a release that can not be handled by on-site personnel, HMHTTC of Pomona will be called to complete cleanup (800-927-9303).

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Employees will be notified verbally, by telephone, or pager that immediate evacuation of the facility is required. The facility evacuation map is prominently displayed. An employee will be assigned who will be responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Hazardous Waste/Hazardous Materials Storage Areas will be inspected as soon as safe after an earthquake. The following equipment will also be inspected as soon as possible following an earthquake: Utilities, Racks, Cabinets, Shelves, Gas Cylinders, Tanks, and Shutoff Valves.

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

All hazardous wastes are stored in containers that are in good condition. In order to prevent employee exposure to hazardous wastes, all employees are trained in the proper handling of hazardous wastes. In addition, the facility will be kept in a neat and orderly condition, therefore reducing the potential for a hazard to occur. Absorbent materials are maintained on-site and are inspected regularly. Small spills will be contained using materials from the on-site spill response kit. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. For larger spills, a cleanup firm will be contacted. In the event of a release of hazardous waste that requires the evacuation of the facility, immediate action will be taken to evacuate all persons located at the facility through the safest exits. All persons will be asked to assemble in the employee staging area or at a safe upwind location. All persons evacuated will be accounted. Small spills are cleaned using absorbent materials. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. Senior management will determine if the spill, release, or threatened release is reportable. If it is determined to be reportable, this person will immediately report the release or spill to the emergency response agency by calling 911. He/she will also notify the County of Riverside Haz Mat Management Division (651-358-5055), State Office of Emergency Services (800-852-7550), First Student, Inc. Headquarters (513-241-2200), and Strata Environmental (865-539-2077). If a release was beyond the scope of on-site personnel, an emergency response contractor would be contacted.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

This section does not apply to the facility as there are no USTs on-site.

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS 15

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Ruth Cox	Telephone: 951-212-8422
Name: Luis Ramos	Telephone: 951-203-4206

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Riverside Community Hospital
Medical Facility Address: 4445 Magnolia Avenue
Medical Facility City: Riverside
Hospital Phone: 951-788-3000

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Hazardous materials that are stored on-site include materials that have flammable and combustible characteristics and also pose adverse health effects to humans. All materials are stored in containers that are in good condition and containers are regularly visually inspected. In order to prevent employee exposure to hazardous materials/wastes, all employees are trained in the proper handling of hazardous materials/wastes. In addition, the facility will be kept in a neat and orderly condition, therefore reducing the potential for a hazard to occur.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

All employees are trained in the use of MSDSs. Absorbent materials are maintained on-site and are inspected regularly. Small spills will be contained using materials from the on-site spill response kit. For larger spills, a cleanup firm will be contacted. Small fires will be extinguished using on-site fire extinguishers. For larger fires, all persons will be evacuated from the building, 911 will be called, and all electrical power and natural gas will be shut off, if possible. In the event of an explosion, all persons will be evacuated from the premises, and 911 will be called from an off-site location. In the event of a release of hazardous material/waste that requires the evacuation of the facility, immediate action will be taken to evacuate all persons located at the facility through the safest exits. All persons will be asked to assemble in the employee staging area or at a safe upwind location. All persons evacuated will be accounted.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Small spills are cleaned using absorbent materials. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. Senior management will determine if the spill, release, or threatened release is reportable. If it is determined to be reportable, this person will immediately report the release or spill to the emergency response agency by calling 911. He/she will also notify the County of Riverside Haz Mat Management Division (651-358-5055), State Office of Emergency Services (800-852-7550), First Student, Inc. Headquarters (513-241-2200), and Strata Environmental (865-539-2077). In the event of a release that can not be handled by on-site personnel, HMHTTC of Pomona will be called to complete cleanup (800-927-9303).

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Employees will be notified verbally, by telephone, or pager that immediate evacuation of the facility is required. The facility evacuation map is prominently displayed. An employee will be assigned who will be responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Hazardous Waste/Hazardous Materials Storage Areas will be inspected as soon as safe after an earthquake. The following equipment will also be inspected as soon as possible following an earthquake: Utilities, Racks, Cabinets, Shelves, Gas Cylinders, Tanks, and Shutoff Valves.

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

All hazardous wastes are stored in containers that are in good condition. In order to prevent employee exposure to hazardous wastes, all employees are trained in the proper handling of hazardous wastes. In addition, the facility will be kept in a neat and orderly condition, therefore reducing the potential for a hazard to occur. Absorbent materials are maintained on-site and are inspected regularly. Small spills will be contained using materials from the on-site spill response kit. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. For larger spills, a cleanup firm will be contacted. In the event of a release of hazardous waste that requires the evacuation of the facility, immediate action will be taken to evacuate all persons located at the facility through the safest exits. All persons will be asked to assemble in the employee staging area or at a safe upwind location. All persons evacuated will be accounted. Small spills are cleaned using absorbent materials. All absorbent materials used in the clean up of spills will be stored in a 55 gallon drum until the appropriate vendor removes the materials off-site. Senior management will determine if the spill, release, or threatened release is reportable. If it is determined to be reportable, this person will immediately report the release or spill to the emergency response agency by calling 911. He/she will also notify the County of Riverside Haz Mat Management Division (651-358-5055), State Office of Emergency Services (800-852-7550), First Student, Inc. Headquarters (513-241-2200), and Strata Environmental (865-539-2077). If a release was beyond the scope of on-site personnel, an emergency response contractor would be contacted.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

This section does not apply to the facility as there are no USTs on-site.

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☒ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

FIRE DEPARTMENT

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Steve Guzman	Telephone: 951-427-2151 cell
Name: Thomas Moore	Telephone: 951-427-2154 cell

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: The Industrial Clinic of Riverside
Medical Facility Address: 4444 Magnolia Ave.
Medical Facility City: Riverside
Hospital Phone: 951-274-3420

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

New oil, Waste oil.
Approved containers - Double walled tanks
Proper warning labels on containers
Tanks stored in secured areas

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

Notify Emergency Responce Agencies
Contain spill
Immediate Responce - contain, clean & dispose.
Inspect equiptment before continuing

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Contain oil spill using spill kit containers.
Dispose of aterials involved in clean up.
Notify Safety - Kleen for pick up.
City of Riverside Fire Department Prevention Division
California Office of Emergency Services
National Responce Center

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Evacuate via Identified Routes

Notify Employees by audible, visual or verbal alarm, public address or loud speakers.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☒ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(You may also be required to provide additional information by your CUPA or local agency.)

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Steve Guzman	Telephone: 951-427-2151 cell
Name: Thomas Moore	Telephone: 951-427-2154 cell

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: The Industrial Clinic of Riverside
Medical Facility Address: 4444 Magnolia Ave.
Medical Facility City: Riverside
Hospital Phone: 951-274-3420

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

New oil, Waste oil.
Approved containers - Double walled tanks
Proper warning labels on containers
Tanks stored in secured areas

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

Notify Emergency Responce Agencies
Contain spill
Immediate Responce - contain, clean & dispose.
Inspect equiptment before continuing

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Contain oil spill using spill kit containers.
Dispose of aterials involved in clean up.
Notify Safety - Kleen for pick up.
City of Riverside Fire Department Prevention Division
California Office of Emergency Services
National Responce Center

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Evacuate via Identified Routes

Notify Employees by audible, visual or verbal alarm, public address or loud speakers.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☒ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: E. Annie Van Scyoc	Telephone: 951-903-6945 cell
Name: Thomas Moore	Telephone: 951-427-2154 cell

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: The Industrial Clinic of Riverside
Medical Facility Address: 4444 Magnolia Ave.
Medical Facility City: Riverside
Hospital Phone: 951-274-3420

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

New oil, Waste oil.
Approved containers - Double walled tanks
Proper warning labels on containers
Tanks stored in secured areas

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

Notify Emergency Responce Agencies
Contain spill
Immediate Responce - contain, clean & dispose.
Inspect equiptment before continuing

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Contain oil spill using spill kit containers.
Dispose of aterials involved in clean up.
Notify Safety - Kleen for pick up.
City of Riverside Fire Department Prevention Division
California Office of Emergency Services
National Responce Center

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Evacuate via Identified Routes

Notify Employees by audible, visual or verbal alarm, public address or loud speakers.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☒ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(You may also be required to provide additional information by your CUPA or local agency.)

CITY OF RIVERSIDE
FIRE DEPARTMENT

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: E. Annie Van Scyoc	Telephone: 951-903-6945 cell
Name: Thomas Moore	Telephone: 951-427-2154 cell

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: U.S. Health Works Medical Group
Medical Facility Address: 1760 Chicago Ave.,STE J3
Medical Facility City: Riverside
Hospital Phone: 951-781-2200

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

New oil, Waste oil.
Approved containers - Double walled tanks
Proper warning labels on containers
Tanks stored in secured areas

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

Notify Emergency Responce Agencies
Contain spill
Immediate Responce - contain, clean & dispose.
Inspect equiptment before continuing

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Contain oil spill using spill kit containers.
Dispose of aterials involved in clean up.
Notify Safety - Kleen for pick up.
City of Riverside Fire Department Prevention Division
California Office of Emergency Services
National Responce Center

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Evacuate via Identified Routes

Notify Employees by audible, visual or verbal alarm, public address or loud speakers.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: E. Annie Van Scyoc	Telephone: 951-903-6945 cell
Name: Thomas Moore	Telephone: 951-427-2154 cell

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: U.S. Health Works Medical Group
Medical Facility Address: 1760 Chicago Ave.,STE J3
Medical Facility City: Riverside
Hospital Phone: 951-781-2200

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

New oil, Waste oil.
Approved containers - Double walled tanks
Proper warning labels on containers
Tanks stored in secured areas

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

Notify Emergency Responce Agencies
Contain spill
Immediate Responce - contain, clean & dispose.
Inspect equiptment before continuing

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Contain oil spill using spill kit containers.
Dispose of aterials involved in clean up.
Notify Safety - Kleen for pick up.
City of Riverside Fire Department Prevention Division
California Office of Emergency Services
National Responce Center

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

Evacuate via Identified Routes

Notify Employees by audible, visual or verbal alarm, public address or loud speakers.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Air Compressor - Shop Oil Lines.
Buses that may be on jack stands
Inspect to insure bus is still safe and secure on jack stands.
Check new and waste oil tanks
Deactivate any emergency shut off valves

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Joe Durkee	Telephone: (909) 268-3132
Name: Ruchir Shanbhag	Telephone: (951) 787-0600

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupational Medicine Providers
Medical Facility Address: 4300 Central Avenue
Medical Facility City: Riverside
Hospital Phone: (951) 222-2208

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact and is instructed to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received, they are classified by the receiving supervisor by using their Safety Data Sheet (SDS) and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away from dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs, the first step is to keep the problem from escalating by closing off the area affected if possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the Emergency Coordinators at the facility. The Emergency Coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any portable fans, 4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE when cleaning, and 7) Inert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1. Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2. Tell the supervisor the nature of the emergency.
3. The supervisor will then determine if the facility should be evacuated.

4. The shift supervisor will call the appropriate authorities.
5. All employees on the shift should evacuate the building and report to the designated waiting area.
6. Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7. This information should be told to the shift supervisors.
8. The shift supervisor should call Head Supervisor.
9. The Head Supervisor will make the determination on whether to call the CEO and the Director of Human Resources.
10. Employees trained in first aid should administer assistance where required.
11. All employees should keep clear of the building after they evacuate.
12. Do not re-enter the building unless directed to do so by a supervisor or manager.
13. Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	Welding area
Argon, Carbon Dioxide	Welding area
Calcium Carbonate	Production building in storage shed
Methyl Ethyl Ketone Peroxide	S/W corner of building, Stockroom
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production
Acetone	Facility
Gel Coat Misc. Colors	Inside Northwest corner of west building
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox D-50	Building #2
Bluesil V-330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.
Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact and is instructed to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received, they are classified by the receiving supervisor by using their Safety Data Sheet (SDS) and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away from dry materials, acids stored

away from bases, and oxidizers stored away from flammables.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1 CERS ID	A1 DATE OF PLAN PREPARATION/REVISION A2
	10510207	6/1/2017

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3
NewBasis

BUSINESS SITE ADDRESS 103
2626 Kansas Avenue

BUSINESS SITE CITY 104		ZIP CODE 105
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions, and preventing and mitigating associated harm to persons, property, and the environment.) D1

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☐ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify): D2

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1

- ☒ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify): E2

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1

- ☐ 1. HAVE BEEN DETERMINED NOT NECESSARY, *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify) F2

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1	LOCATION	CAPABILITY *(If applicable)*

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply)	H1	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Throughout Facility	H2
☒ 2. PROCESS LINES / PIPING		Throughout Facility	H3
☐ 3. LABORATORY			H4
☐ 4. WASTE TREATMENT AREA			H5

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS (Check all that apply)	H6	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Throughout Facility	H7
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8
☒ 3. PORTABLE GAS CYLINDERS		Welding Area	H9
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10
☒ 5. SPRINKLER SYSTEMS		Throughout Facility	H11
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1

☐ 1. FORMAL CLASSROOM; ☒ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☒ 4. STUDY GUIDES / MANUALS (Specify): _____ I2

☐ 5. OTHER (Specify): _____ I3

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1 CERS ID	A1 DATE OF PLAN PREPARATION/REVISION A2
	10510207	6/1/2017

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3
NewBasis

BUSINESS SITE ADDRESS 103
2626 Kansas Avenue

BUSINESS SITE CITY 104		ZIP CODE 105
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

EMERGENCY RESPONSE PHONE NUMBERS:

	OTHER (Specify) C11	C12

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions, and preventing and mitigating associated harm to persons, property, and the environment.) D1

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☐ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☐ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify): D2

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1

- ☒ 1. BELLS;
- ☐ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify): E2

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1

- ☐ 1. HAVE BEEN DETERMINED NOT NECESSARY, *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify) F2

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

TYPE	EQUIPMENT AVAILABLE G1	LOCATION	CAPABILITY *(If applicable)*

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply)	H1	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Throughout Facility	H2
☒ 2. PROCESS LINES / PIPING		Throughout Facility	H3
☐ 3. LABORATORY			H4
☐ 4. WASTE TREATMENT AREA			H5

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS (Check all that apply)	H6	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Throughout Facility	H7
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8
☒ 3. PORTABLE GAS CYLINDERS		Welding Area	H9
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10
☒ 5. SPRINKLER SYSTEMS		Throughout Facility	H11
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1

☐ 1. FORMAL CLASSROOM; ☒ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☒ 4. STUDY GUIDES / MANUALS (Specify): _____ I2

☐ 5. OTHER (Specify): _____ I3

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1

☒ 1. NO ATTACHMENTS ARE REQUIRED, *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED J2

K. SIGNATURE / CERTIFICATION

Certification: Based on my inquiry of those individuals responsible for obtaining the information, I certify under penalty of law that I have personally examined and am familiar with the information submitted and believe the information is true, accurate, and complete, and that a copy is available on site.

SIGNATURE OF OWNER/OPERATOR	DATE SIGNED K1
	6/12/17

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Facility Information Accepted Nov 26, 2018

Submitted on 11/14/2018 10:57:56 AM by *Alexander Zec* of New Basis (Riverside, CA)
Submittal was ***Accepted*** on 11/26/2018 10:22:03 AM by Powell Powell
Comments by regulator: The oversight of the Hazardous Materials Business Plan (HMBP) for this facility is regulated by the City of Riverside Fire Dept. Although the Facility Information section has been accepted by Riverside County Department of Environmental Health staff, your HMBP will not be considered complete until all required sections are submitted and approved by your local fire department. You will receive separate emails from cers@calepa.ca.gov detailing the compliance status for each section submitted. Thank you.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**Yes**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1 CERS ID	A1 DATE OF PLAN PREPARATION/REVISION A2
	10510207	6/1/2017

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3
NewBasis

BUSINESS SITE ADDRESS 103
2626 Kansas Avenue

BUSINESS SITE CITY 104		ZIP CODE 105
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☐ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply)	H1	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Throughout Facility	H2
☒ 2. PROCESS LINES / PIPING		Throughout Facility	H3
☐ 3. LABORATORY			H4
☐ 4. WASTE TREATMENT AREA			H5

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS (Check all that apply)	H6	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Throughout Facility	H7
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8
☒ 3. PORTABLE GAS CYLINDERS		Welding Area	H9
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10
☒ 5. SPRINKLER SYSTEMS		Throughout Facility	H11
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1

☐ 1. FORMAL CLASSROOM; ☒ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☒ 4. STUDY GUIDES / MANUALS (Specify): _____ I2

☐ 5. OTHER (Specify): _____ I3

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply)	H1	LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA		Throughout Facility	H2
☒ 2. PROCESS LINES / PIPING		Throughout Facility	H3
☐ 3. LABORATORY			H4
☐ 4. WASTE TREATMENT AREA			H5

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS (Check all that apply)	H6	LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS		Throughout Facility	H7
☐ 2. TANKS (EMERGENCY SHUTOFF)			H8
☒ 3. PORTABLE GAS CYLINDERS		Welding Area	H9
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		See Map	H10
☒ 5. SPRINKLER SYSTEMS		Throughout Facility	H11
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1

☐ 1. FORMAL CLASSROOM; ☒ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☒ 4. STUDY GUIDES / MANUALS (Specify): _____ I2

☐ 5. OTHER (Specify): _____ I3

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

TYPE OF BUSINESS (e.g., Painting Contractor) A8.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.
Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:

1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:

1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [x] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [x] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Parking Lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS	On Personnel/Supply Area	
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On Personnel/Supply Area	
	3. ☒ CHEMICAL PROTECTIVE BOOTS	On Personnel/Supply Area	
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On Personnel/Supply Area

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.
☑ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS	Throughout Facility
☑ 2. PROCESS LINES AND PIPING	Throughout Facility
☐ 3. LABORATORY	
☐ 4. WASTE TREATMENT AREA	

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.	LOCATIONS: H4.
☑ 1. SHELVES, CABINETS AND/OR RACKS	Throughout Facility
☐ 2. TANKS AND SHUT-OFF VALVES	
☑ 3. PORTABLE GAS CYLINDERS	Welding Area
☑ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES	See Site Map
☑ 5. SPRINKLER SYSTEMS	Throughout Facility
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☑ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☑ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): _____ I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☑ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

Manufactures below ground enclosures	

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:

1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:

1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [x] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [ ] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [x] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [x] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [x] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [x] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [x] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [x] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [x] 1. BELLS;
- [ ] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Parking Lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [ ] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS	On Personnel/Supply Area	
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On Personnel/Supply Area	
	3. ☒ CHEMICAL PROTECTIVE BOOTS	On Personnel/Supply Area	
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On Personnel/Supply Area	
	5. ☒ HARD HATS	On Personnel/Supply Area	
	6. ☒ AIR-PURIFYING RESPIRATORS	On Personnel/Supply Area	
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	Throughout Facility	
	9. ☒ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER		
	10. ☐ PORTABLE EYEWASH KITS AND/OR STATION		
	11. ☐ OTHER		
Fire Fighting	12. ☒ PORTABLE FIRE EXTINGUISHERS	Throughout Facility	
	13. ☒ FIXED FIRE SUPPRESSION SYSTEMS AND/ OR SPRINKLERS	Throughout Facility	
	14. ☐ FIRE ALARM BOXES		
	15. ☐ OTHER		
Spill Control and Clean-Up	16. ☒ ALL-IN-ONE SPILL KIT	Throughout Facility	
	17. ☒ ABSORBENT MATERIAL	Throughout Facility	
	18. ☒ CONTAINER FOR USED ABSORBENT		
	19. ☐ BERM AND/OR DIKING EQUIPMENT		
	20. ☒ BROOM	Throughout Facility	
	21. ☒ SHOVEL	Throughout Facility	
	22. ☒ VACUUM	Throughout Facility	
	23. ☐ EXHAUST HOOD		
	24. ☐ SUMP AND/OR HOLDING TANK		
	25. ☐ CHEMICAL NEUTRALIZERS		
	26. ☐ GAS CYLINDER LEAK REPAIR KIT		
	27. ☐ SPILL OVERPACK DRUMS		
	28. ☐ OTHER		
Communi-cations and Alarm Systems	29. ☒ TELEPHONES (e.g., Cellular)	Throughout Facility/On Personnel	
	30. ☐ INTERCOM AND/OR PA SYSTEM		
	31. ☒ PORTABLE RADIOS	On Personnel	
	32. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT		
Other	33. ☐ OTHER		
	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.
☑ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS	Throughout Facility
☑ 2. PROCESS LINES AND PIPING	Throughout Facility
☐ 3. LABORATORY	
☐ 4. WASTE TREATMENT AREA	

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.	LOCATIONS: H4.
☑ 1. SHELVES, CABINETS AND/OR RACKS	Throughout Facility
☐ 2. TANKS AND SHUT-OFF VALVES	
☑ 3. PORTABLE GAS CYLINDERS	Welding Area
☑ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES	See Site Map
☑ 5. SPRINKLER SYSTEMS	Throughout Facility
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☑ 2. VIDEOS ☑ 3. SAFETY MEETINGS ☑ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): _____ I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☑ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

☑ 1. NO ATTACHMENTS ARE REQUIRED; or

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # A1. | CERS ID # A2. | DATE OF PLAN PREPARATION/REVISION (MM/DD/YYYY) A3. 02/28/2023

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* A4.
New Basis

BUSINESS SITE ADDRESS A5.
2626 Kansas Avenue

BUSINESS SITE CITY A6. | | ZIP CODE A7.
Riverside | CA | 92507

TYPE OF BUSINESS (e.g., Painting Contractor) A8.
Manufactures underground utility enclosures

INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:
1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:
1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

EMERGENCY RESPONSE PHONE NUMBERS:

AMBULANCE, FIRE, POLICE AND CHP	9-1-1
CALIFORNIA STATE WARNING CENTER (CSWC)/CAL OES.	(800) 852-7550
NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
POISON CONTROL CENTER	(800) 222-1222
LOCAL UNIFIED PROGRAM AGENCY (UPA)	(951) 358-5055 C1.
OTHER (Specify): C2.	C3.

NEAREST MEDICAL FACILITY / HOSPITAL NAME: U.S. Healthworks Medical Groups C4. (951) 781-2200 C5.

AGENCY NOTIFICATION PHONE NUMBERS:

CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
REGIONAL WATER QUALITY CONTROL BOARD (RWQCB).	(951) 782-4130 C6.
U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
CALIFORNIA DEPT. OF FISH AND WILDLIFE (CDFW)	(916) 358-2900
U.S. COAST GUARD (USCG)	(202) 267-2180
CAL OSHA	(916) 263-2800
CAL FIRE OFFICE OF THE STATE FIRE MARSHAL (OSFM)	(916) 323-7390
OTHER (Specify): C7.	C8.
OTHER (Specify): C9.	C10.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR BY (Check all that apply): C11.

☒ 1. VERBAL WARNINGS; ☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☒ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY (Check all that apply): C12.

☒ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☒ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

EMERGENCY COORDINATOR CONTACT INFORMATION: C13.

PRIMARY EMERGENCY COORDINATOR NAME: Adrian Garcia PHONE NO.:(951) 787-0600 PHONE NO.: (951) 522-8110

ALTERNATE EMERGENCY COORDINATOR NAME: Darryl Butler PHONE NO.:(951) 787-0600 PHONE NO.: (909) 731-3951

☐ Check if additional Emergency Coordinator contact and address information is available onsite or by calling PHONE NO.:

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
☐ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
☐ 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
☐ 5. LINED TRENCH DRAINS AND/OR SUMPS;
☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
☒ 8. STOP PROCESSES AND/OR OPERATIONS;
☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
☒ 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
☒ 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
☒ 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
☐ 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
☐ 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
☐ 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

☒ 1. BELLS; E2.
☐ 2. HORNS/SIRENS;
☒ 3. VERBAL (i.e., Shouting);
☐ 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Justin Hendricks

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

☒ 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
☒ 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
☐ 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

☐ 1. HAVE BEEN DETERMINED NOT NECESSARY;
☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS	On Personnel/Supply Area	
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On Personnel/Supply Area	
	3. ☒ CHEMICAL PROTECTIVE BOOTS	On Personnel/Supply Area	
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On Personnel/Supply Area	
	5. ☒ HARD HATS	On Personnel/Supply Area	
	6. ☒ AIR-PURIFYING RESPIRATORS	On Personnel/Supply Area	
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	Throughout Facility	
	9. ☒ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER	Throughout Facility	
	10. ☐ PORTABLE EYEWASH KITS AND/OR STATION		
	11. ☐ OTHER		
Fire Fighting	12. ☒ PORTABLE FIRE EXTINGUISHERS	Throughout Facility	
	13. ☒ FIXED FIRE SUPPRESSION SYSTEMS AND/ OR SPRINKLERS	Throughout Facility	
	14. ☐ FIRE ALARM BOXES		
	15. ☐ OTHER		
Spill Control and Clean-Up	16. ☒ ALL-IN-ONE SPILL KIT	Throughout Facility	
	17. ☒ ABSORBENT MATERIAL	Throughout Facility	
	18. ☒ CONTAINER FOR USED ABSORBENT	Throughout Facility	
	19. ☐ BERM AND/OR DIKING EQUIPMENT		
	20. ☒ BROOM	Throughout Facility	
	21. ☒ SHOVEL	Throughout Facility	
	22. ☒ VACUUM	Throughout Facility	
	23. ☐ EXHAUST HOOD		
	24. ☐ SUMP AND/OR HOLDING TANK		
	25. ☐ CHEMICAL NEUTRALIZERS		
	26. ☐ GAS CYLINDER LEAK REPAIR KIT		
	27. ☐ SPILL OVERPACK DRUMS		
	28. ☐ OTHER		
Communi-cations and Alarm Systems	29. ☒ TELEPHONES (e.g., Cellular)	Throughout Facility/On Personnel	
	30. ☐ INTERCOM AND/OR PA SYSTEM		
	31. ☒ PORTABLE RADIOS	On Personnel	
	32. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT		
Other	33. ☐ OTHER		
	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.

- [x] 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS
- [x] 2. PROCESS LINES AND PIPING
- [ ] 3. LABORATORY
- [ ] 4. WASTE TREATMENT AREA

LOCATIONS (e.g., Shop, outdoor shed, lab): H2.

Throughout Facility

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.

- [x] 1. SHELVES, CABINETS AND/OR RACKS
- [ ] 2. TANKS AND SHUT-OFF VALVES
- [x] 3. PORTABLE GAS CYLINDERS
- [x] 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES
- [■] 5. SPRINKLER SYSTEMS
- [ ] 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)

LOCATIONS: H4.

Throughout Facility & Welding Area

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

- [ ] 1. FORMAL CLASSROOM
- [x] 2. VIDEOS
- [x] 3. SAFETY MEETINGS
- [x] 4. STUDY GUIDES / MANUALS I1.
- [ ] 5. OTHER (Specify): I2.
- [ ] 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES
- [ ] 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.
- [x] 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

- [x] 1. NO ATTACHMENTS ARE REQUIRED; or
- [ ] 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID # A1. | CERS ID # A2. | DATE OF PLAN PREPARATION/REVISION (MM/DD/YYYY) A3. 02/28/2023

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* A4.
New Basis

BUSINESS SITE ADDRESS A5.
2626 Kansas Avenue

BUSINESS SITE CITY A6. | | ZIP CODE A7.
Riverside | CA | 92507

TYPE OF BUSINESS (e.g., Painting Contractor) A8.
Manufactures underground utility enclosures

INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☒ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:
1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:
1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

EMERGENCY RESPONSE PHONE NUMBERS:

AMBULANCE, FIRE, POLICE AND CHP	9-1-1
CALIFORNIA STATE WARNING CENTER (CSWC)/CAL OES.	(800) 852-7550

CAL FIRE OFFICE OF THE STATE FIRE MARSHAL (OSFM)	(916) 323-7390
OTHER (Specify): C7.	C8.
OTHER (Specify): C9.	C10.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR BY (Check all that apply): C11.

☒ 1. VERBAL WARNINGS; ☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☒ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY (Check all that apply): C12.

☒ 1. VERBAL WARNINGS; ☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM; ☒ 3. TELEPHONE;
☐ 4. PAGERS; ☐ 5. ALARM SYSTEM; ☐ 6. PORTABLE RADIO

EMERGENCY COORDINATOR CONTACT INFORMATION: C13.

PRIMARY EMERGENCY COORDINATOR NAME: Adrian Garcia PHONE NO.:(951) 787-0600 PHONE NO.: (951) 522-8110

ALTERNATE EMERGENCY COORDINATOR NAME: Darryl Butler PHONE NO.:(951) 787-0600 PHONE NO.: (909) 731-3951

☐ Check if additional Emergency Coordinator contact and address information is available onsite or by calling PHONE NO.:

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
☐ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
☐ 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
☐ 5. LINED TRENCH DRAINS AND/OR SUMPS;
☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
☒ 8. STOP PROCESSES AND/OR OPERATIONS;
☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
☒ 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
☒ 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
☒ 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
☐ 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
☐ 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
☐ 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

☒ 1. BELLS; E2.
☐ 2. HORNS/SIRENS;
☒ 3. VERBAL (i.e., Shouting);
☐ 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

Justin Hendricks

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

☒ 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
☒ 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
☐ 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

☐ 1. HAVE BEEN DETERMINED NOT NECESSARY;
☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☒ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS	On Personnel/Supply Area	
	2. ☒ CHEMICAL PROTECTIVE GLOVES	On Personnel/Supply Area	
	3. ☒ CHEMICAL PROTECTIVE BOOTS	On Personnel/Supply Area	
	4. ☒ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS	On Personnel/Supply Area	
	5. ☒ HARD HATS	On Personnel/Supply Area	
	6. ☒ AIR-PURIFYING RESPIRATORS	On Personnel/Supply Area	
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	Throughout Facility	
	9. ☒ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER	Throughout Facility	
	10. ☐ PORTABLE EYEWASH KITS AND/OR STATION

	26. ☐ GAS CYLINDER LEAK REPAIR KIT		
	27. ☐ SPILL OVERPACK DRUMS		
	28. ☐ OTHER		
Communi-cations and Alarm Systems	29. ☒ TELEPHONES (e.g., Cellular)	Throughout Facility/On Personnel	
	30. ☐ INTERCOM AND/OR PA SYSTEM		
	31. ☒ PORTABLE RADIOS	On Personnel	
	32. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT		
Other	33. ☐ OTHER		
	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.

- [x] 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS
- [x] 2. PROCESS LINES AND PIPING
- [ ] 3. LABORATORY
- [ ] 4. WASTE TREATMENT AREA

LOCATIONS (e.g., Shop, outdoor shed, lab): H2.

Throughout Facility

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.

- [x] 1. SHELVES, CABINETS AND/OR RACKS
- [ ] 2. TANKS AND SHUT-OFF VALVES
- [x] 3. PORTABLE GAS CYLINDERS
- [x] 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES
- [■] 5. SPRINKLER SYSTEMS
- [ ] 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)

LOCATIONS: H4.

Throughout Facility & Welding Area

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

- [ ] 1. FORMAL CLASSROOM
- [x] 2. VIDEOS
- [x] 3. SAFETY MEETINGS
- [x] 4. STUDY GUIDES / MANUALS I1.
- [ ] 5. OTHER (Specify): I2.
- [ ] 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES
- [ ] 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.
- [x] 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

Check one of the following: J1.

- [x] 1. NO ATTACHMENTS ARE REQUIRED; or
- [ ] 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
B. Procedures for coordination with local emergency response organizations;
C. Proper use of personal protective equipment;
D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

All employee training shall be documented and updated annually

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	Yes

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	No

Hazardous Waste

Is your facility a Hazardous Waste Generator?	Yes
Does your facility treat hazardous waste on-site?	No
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	No
Does your facility consolidate hazardous waste generated at a remote site?	No
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	No
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	No
Is your facility a Household Hazardous Waste (HHW) Collection site?	No

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	No

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	No

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	No

Additional Information

No additional comments provided.

CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS)

CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN

Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW

FACILITY ID #	1. CERS ID	A1. DATE OF PLAN PREPARATION/REVISION A2.
	10413247	11/10/2015

BUSINESS NAME *(Same as Facility Name or DBA - Doing Business As)* 3.
Student Transportation of America - Riverside

BUSINESS SITE ADDRESS 103.
1989 Massachusetts Avenue

BUSINESS SITE CITY 104.		ZIP CODE 105.
Riverside	CA	92507

TYPE OF BUSINESS (e.g., Painting Contractor) A3.	INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A4.
Bus Terminal And Service Facility	n/a

THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING: (Check all that apply) A5.

☒ 1. HAZARDOUS MATERIALS; ☒ 2. HAZARDOUS WASTES

B. INTERNAL RESPONSE

INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR VIA: (Check all that apply) B1.

☒ 1. CALLING PUBLIC EMERGENCY RESPONDERS (i.e., 9-1-1)
☒ 2. CALLING HAZARDOUS WASTE CONTRACTOR
☐ 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator (or his/her designee when the Emergency Coordinator is on call) shall:

1. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
2. Notify appropriate local authorities (i.e., call 9-1-1).
3. Notify the California Emergency Management Agency at (800) 852-7550.

Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall notify the California Department of Toxic Substances Control (DTSC), the local Unified Program Agency (UPA), and the local fire department's hazardous materials program that the facility is in compliance with requirements to:

1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR VIA: (Check all that apply) C1.

☒ 1. VERBAL WARNINGS;	☒ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☒ 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY: (Check all that apply) C2.

☒ 1. VERBAL WARNINGS;	☐ 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;	☒ 3. TELEPHONE;
☐ 4. PAGERS;	☒ 5. ALARM SYSTEM;	☐ 6. PORTABLE RADIO

	OTHER (Specify): C11.	C12.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and, preventing and mitigating associated harm to persons, property, and the environment.)

D1.

- ☒ 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- ☐ 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
- ☒ 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
- ☐ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
- ☒ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
- ☐ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- ☒ 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
- ☒ 8. STOP PROCESSES AND/OR OPERATIONS;
- ☐ 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- ☒ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
- ☒ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
- ☒ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
- ☒ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
- ☐ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
- ☒ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
- ☒ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- ☒ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☐ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
- ☒ 19. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
- ☒ 20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;
- ☐ 21. OTHER (Specify):

D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (CHECK ALL THAT APPLY): E1.

- ☐ 1. BELLS;
- ☒ 2. HORNS/SIRENS;
- ☒ 3. VERBAL (I.E., SHOUTING);
- ☐ 4. OTHER (Specify):

E2.

THE FOLLOWING LOCATION(S) IS/ARE EVACUEE EMERGENCY ASSEMBLY AREA(S) (i.e., Front parking lot, specific street corner, etc.) E3.

See Site Map.

Note: The Emergency Coordinator must account for all on site employees and/or site visitors after evacuation.

☒ EVACUATION ROUTE MAP(S) POSTED AS REQUIRED E4.

Note: The map(s) must show primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas, and must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

Explanation of Requirement: Advance arrangements with local fire and police departments, hospitals, and/or emergency services contractors should be made as appropriate for your facility. You may determine that such arrangements are not necessary.

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following) F1.

- ☒ 1. HAVE BEEN DETERMINED NOT NECESSARY; *or*
- ☐ 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify):

F2.

G. EMERGENCY EQUIPMENT

Check all boxes that apply to list emergency response equipment available at the facility and identify the location(s) where the equipment is kept and the equipment's capability, if applicable. [e.g., ☒ CHEMICAL PROTECTIVE GLOVES | Spill response kit | One time use, Oil & solvent resistant only.]

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases / spills due to earthquake-related motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS: (Check all that apply)		LOCATIONS (e.g., shop, outdoor shed, forensic lab)	
☒ 1. HAZARDOUS MATERIALS / WASTE STORAGE AREA	I11.	Maintenance Shop, Flammables Cabinet(s)	H2.
☐ 2. PROCESS LINES / PIPING			H3.
☐ 3. LABORATORY			H4.
☐ 4. WASTE TREATMENT AREA			H5.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS: (Check all that apply)		LOCATIONS	
☒ 1. SHELVES, CABINETS AND RACKS	H6.	Flammables Cabinet(s), Materials Storage Area(s)	H7.
☒ 2. TANKS (EMERGENCY SHUTOFF)		Maintenance Shop	I18.
☐ 3. PORTABLE GAS CYLINDERS			I19.
☒ 4. EMERGENCY SHUTOFF AND/OR UTILITY VALVES		North of Maintenance Shop	H10.
☐ 5. SPRINKLER SYSTEMS			H11.
☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane dispensing tank)			H12.

I. EMPLOYEE TRAINING

Explanation of Requirement: Employee training is required for all employees handling hazardous materials and hazardous wastes in day-to-day or clean-up operations including volunteers and/or contractors. Training must be:

- Provided within 6 months for new hires;
- Amended as necessary prior to change in process or work assignment;
- Given upon modification to the Emergency Response / Contingency Plan, and updated/refreshed annually for all employees.

Required content includes all of the following:

- Material Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Fire hazards of materials / processes;
- Conditions likely to worsen emergencies;
- Coordination of emergency response;
- Notification procedures;
- Applicable laws and regulations;
- Communication and alarm systems;
- Personal protective equipment;
- Use of emergency response equipment (e.g. Fire extinguishers, respirators, etc.);
- Decontamination procedures;
- Evacuation procedures;
- Control and containment procedures;
- UST monitoring system equipment and procedures (if applicable).

INDICATE HOW EMPLOYEE TRAINING PROGRAM IS ADMINISTERED (Check all that apply) I1.

☒ 1. FORMAL CLASSROOM; ☐ 2. VIDEOS; ☒ 3. SAFETY / TAILGATE MEETINGS;

☐ 4. STUDY GUIDES / MANUALS (Specify): _____ I2.

☐ 5. OTHER (Specify): _____ I3.

☐ 6. NOT APPLICABLE BECAUSE FACILITY HAS NO EMPLOYEES

Large Quantity Generator (LQG) Training Records: Large quantity hazardous waste generators (i.e., who generate more than 270 gallons/1,000 kilograms of hazardous waste per month) must retain written documentation of employee hazardous waste management training sessions which includes:

- A written outline/agenda of the type and amount of both introductory and continuing training that will be given to persons filling each job position having responsibility for the management of hazardous waste (e.g., labeling, manifesting, compliance with accumulation time limits, etc.).
- The name, job title, and date of training for each hazardous waste management training session given to an employee filling such a job position; and
- A written job description for each of the above job positions that describes job duties and the skills, education, or other qualifications required of personnel assigned to the position.
- Current employee training records must be retained until closure of the facility.
- Former employee training records must be retained at least three years after termination of employment.

J. LIST OF ATTACHMENTS

(Check one of the following) J1.

☒ 1. NO ATTACHMENTS ARE REQUIRED; *or*

☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

K. SIGNATURE / CERTIFICATION

STA- Riverside Facility
Employee Training Plan

Facility employees and contractor personnel using the facility are trained in and informed of the Best Management Practices (BMPs) in place at the facility. Employee training is conducted once a year to inform employees of the BMPs and the hazardous materials emergency response and contingency plan. The Record of Annual Employee Briefing and Training Form, filled out during the annual training session, is filed on-site.

BUSINESS ACTIVITIES

I. FACILITY IDENTIFICATION

FACILITY ID # (Agency Use Only)	FA0013994/PR0 [1]	EPA ID # (Hazardous Waste Only) [2]	CAD981385420
BUSINESS NAME (Same as Facility Name of DBA-Doing Business As) [3]	Newbasis		
BUSINESS SITE ADDRESS [103]			
BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(You may also be required to provide additional information by your CUPA or local agency.)

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Eddie Elizarraraz	Telephone: 951-288-4164
Name: Jim Mcdowell	Telephone: (951) 318-4012

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production

Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

(one page per material per building or area)

☐ ADD ☐ DELETE ☐ REVISE 200 | Page ___ of ___

I. FACILITY INFORMATION

BUSINESS NAME (Same as FACILITY NAME or DBA – Doing Business As) 3
Newbasis

CHEMICAL LOCATION 201
S/W Corner Of Building #1, Chemical Storage Room

CHEMICAL LOCATION CONFIDENTIAL EPCRA 202
☐ YES

FACILITY ID # 1
F A 0 0 1 3 9 9 4 / P R 0

MAP# (optional) 203
Facility Drawing

GRID# (optional) 204

II. CHEMICAL INFORMATION

CHEMICAL NAME 205
2, 2, 4- TRIMETHYL- 1, 3,- PENTANEDIOL DIISOBUTYRATE

TRADE SECRET ☐ Yes 206
If Subject to EPCRA, refer to instructions

COMMON NAME 207
Luperox

EHS* ☐ Yes 208

CAS# 209

*If EHS is "Yes", all amounts below must be in lbs.

FIRE CODE HAZARD CLASSES (Complete if required by CUPA) 210
None

HAZARDOUS MATERIAL TYPE (Check one item only) ○ a. PURE ◉ b. MIXTURE ○ c. WASTE 211

RADIOACTIVE ☐ Yes 212

CURIES 213

PHYSICAL STATE (Check one item only) ○ a. SOLID ◉ b. LIQUID ○ c. GAS 214

LARGEST CONTAINER 8.0 215

FED HAZARD CATEGORIES (Check all that apply) 216
☒ a. FIRE ☒ b. REACTIVE ☐ c. PRESSURE RELEASE ☒ d. ACUTE HEALTH ☐ e. CHRONIC HEALTH

AVERAGE DAILY AMOUNT 217	MAXIMUM DAILY AMOUNT 218	ANNUAL WASTE AMOUNT 219	STATE WASTE CODE 220
540.0	1080.0		

UNITS* (Check one item only) ○ a. GALLONS ○ b. CUBIC FEET ◉ c. POUNDS ○ d. TONS 221
* If EHS, amount must be in pounds.

DAYS ON SITE: 222

STORAGE CONTAINER 223
☐ a. ABOVE GROUND TANK ☐ b. UNDERGROUND TANK ☐ c. TANK INSIDE BUILDING ☐ d. STEEL DRUM ☐ e. PLASTIC/NONMETALLIC DRUM ☐ f. CAN ☐ g. CARBOY ☐ h. SILO ☐ i. FIBER DRUM ☐ j. BAG ☐ k. BOX ☐ l. CYLINDER ☐ m. GLASS BOTTLE ☐ n. PLASTIC BOTTLE ☐ o. TOTE BIN ☐ p. TANK WAGON ☐ q. RAIL CAR ☐ r. OTHER

STORAGE PRESSURE ◉ a. AMBIENT ○ b. ABOVE AMBIENT ○ c. BELOW AMBIENT 224

STORAGE TEMPERATURE ◉ a. AMBIENT ○ b. ABOVE AMBIENT ○ c. BELOW AMBIENT ○ d. CRYOGENIC 225

	%WT	HAZARDOUS COMPONENT (For mixture or waste only)	EHS	CAS #
1	64.0 (226)	2, 2, 4- Trimethyl- 1, 3- pentanediol diisobutyrate (227)	☐ Yes (228)	6846-50-0 (229)
2	34.0 (230)	Methyl ethyl ketone peroxide (231)	☐ Yes (232)	1338-23-4 (233)
3	(234)	(235)	☐ Yes (236)	(237)
4	(238)	(239)	☐ Yes (240)	(241)
5	(242)	(243)	☐ Yes (244)	(245)

If more hazardous components are present at greater than 1% by weight if non-carcinogenic, or 0.1% by weight if carcinogenic, attach additional sheets of paper capturing the required information.

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Eddie Elizarraraz	Telephone: 951-288-4164
Name: Jim Mcdowell	Telephone: (951) 318-4012

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production

Motor Oil	Facility
Paint Flammable Liquid	Facility
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☐ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Eddie Elizarraraz	Telephone: 951-288-4164
Name: Jim Mcdowell	Telephone: (951) 318-4012

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production
Acetone	Facility
Gel Coat Misc. Colors	Inside Northwest corner of west building
Motor Oil	Facility
Paint Flammable Liquid	Facility
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS SITE ADDRESS [103]			
BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☒ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Joe Durkee	Telephone: 951-268-3132
Name: Ruchir Shanbhag	Telephone: 951-787-0600

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production

Gel Coat Misc. Colors	Inside Northwest corner of west building
Motor Oil	Facility
Paint Flammable Liquid	Facility
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS SITE ADDRESS [103]			
BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☒ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

II. CHEMICAL INFORMATION

CHEMICAL NAME 205
Petrolatum

TRADE SECRET ☐ Yes 206
If Subject to EPCRA, refer to instructions

COMMON NAME 207
Penreco White Petrolatum USP

EHS* ☐ Yes 208

CAS# 209
8009-03-8

*If EHS is "Yes", all amounts below must be in lbs.

FIRE CODE HAZARD CLASSES (Complete if required by CUPA) 210
None

HAZARDOUS MATERIAL TYPE (Check one item only) ◉ a. PURE ○ b. MIXTURE ○ c. WASTE 211

RADIOACTIVE ☐ Yes 212

CURIES 213

PHYSICAL STATE (Check one item only) ◉ a. SOLID ○ b. LIQUID ○ c. GAS 214

LARGEST CONTAINER 400.0 215

FED HAZARD CATEGORIES (Check all that apply) ☒ a. FIRE ☐ b. REACTIVE ☐ c. PRESSURE RELEASE ☐ d. ACUTE HEALTH ☐ e. CHRONIC HEALTH 216

AVERAGE DAILY AMOUNT 217	MAXIMUM DAILY AMOUNT 218	ANNUAL WASTE AMOUNT 219	STATE WASTE CODE 220
400.0	800.0		

UNITS* (Check one item only) ○ a. GALLONS ○ b. CUBIC FEET ◉ c. POUNDS ○ d. TONS 221
* If EHS, amount must be in pounds.

DAYS ON SITE: 365.0 222

STORAGE CONTAINER 223
- ☐ a. ABOVE GROUND TANK
- ☐ b. UNDERGROUND TANK
- ☐ c. TANK INSIDE BUILDING
- ◉ d. STEEL DRUM
- ☐ e. PLASTIC/NONMETALLIC DRUM
- ☐ f. CAN
- ☐ g. CARBOY
- ☐ h. SILO
- ☐ i. FIBER DRUM
- ☐ j. BAG
- ☐ k. BOX
- ☐ l. CYLINDER
- ☐ m. GLASS BOTTLE
- ☐ n. PLASTIC BOTTLE
- ☐ o. TOTE BIN
- ☐ p. TANK WAGON
- ☐ q. RAIL CAR
- ☐ r. OTHER

STORAGE PRESSURE ◉ a. AMBIENT ○ b. ABOVE AMBIENT ○ c. BELOW AMBIENT 224

STORAGE TEMPERATURE ◉ a. AMBIENT ○ b. ABOVE AMBIENT ○ c. BELOW AMBIENT ○ d. CRYOGENIC 225

	%WT	HAZARDOUS COMPONENT (For mixture or waste only)	EHS	CAS #

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Joe Durkee	Telephone: 951-268-3132
Name: Ruchir Shanbhag	Telephone: 951-787-0600

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production
Acetone	Facility
Gel Coat Misc. Colors	Inside Northwest corner of west building
Motor Oil	Facility
Paint Flammable Liquid	Facility
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

BUSINESS NAME (Same as Facility Name of DBA-Doing Business As) [3]	Newbasis		
BUSINESS SITE ADDRESS [103]			
BUSINESS SITE CITY [104]		CA	ZIP CODE [105]

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☒ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☒ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Joe Durkee	Telephone: 951-268-3132
Name: Ruchir Shanbhag	Telephone: 951-787-0600

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupatoinal Medicine Providers
Medical Facility Address: 4300 Central Ave.
Medical Facility City: Riverside
Hospital Phone: (951)-222-2206

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	
Calcium Carbonate	Production building in storage shed
Carbon Dioxide	
Methyl Ethyl Ketone Perox	S/W corner of building
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production

Cadox M-30a	Building #2
Titanium Dioxide	Building #2
Aerosil	Building #2
Petroleum Distillates	Building #2
Rhodorsil V330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact, and is instructd to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received they are classified by the receiving supervisor by using their MSDS and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away form dry materials, acids stored away from bases, and oxidizers stored away from flammables.

When an incident occurs the first step is to keep the problem from escalating by closing off the area affected if
possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the emergency coordinators at the facility. The emergency coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any
portable fans,4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE. When cleaning. 7) Insert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility…	If Yes, please complete these pages of the UPCF….	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ YES	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ YES	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ YES	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☒ YES	You may need to submit an ABOVEGROUND PETROLEUM STORAGE TANK FACILITY STATEMENT. Click for details
E. HAZARDOUS WASTE Generate hazardous waste?	☒ YES	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ YES	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ YES	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ YES	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ YES	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ YES	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ YES	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ YES	See CUPA for required forms.

F. LOCAL REQUIREMENTS [15]

CITY OF RIVERSIDE
FIRE DEPARTMENT

HAZARDOUS MATERIAL BUSINESS EMERGENCY PLAN
EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

1. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately Call

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service	(951) 922-3210
City of Corona Fire Department	(951) 736-2220
City of Riverside Fire Department	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: Joe Durkee	Telephone: (909) 268-3132
Name: Ruchir Shanbhag	Telephone: (951) 787-0600

B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Medical Facility: Central Occupational Medicine Providers
Medical Facility Address: 4300 Central Avenue
Medical Facility City: Riverside
Hospital Phone: (951) 222-2208

CITY OF RIVERSIDE
FIRE DEPARTMENT

2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to help prevent an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact and is instructed to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received, they are classified by the receiving supervisor by using their Safety Data Sheet (SDS) and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away from dry materials, acids stored away from bases, and oxidizers stored away from flammables.

3. MITIGATION

Describe the procedures to be followed to reduce the severity of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

When an incident occurs, the first step is to keep the problem from escalating by closing off the area affected if possible. In case of a spill, floor and storm drains are plugged and all sources of ignition are removed. Small fires are put out with appropriate fire extinguishers. When emergency situations necessitate evacuation from the building, an Emergency Coordinator will make the announcement over the PA system, and employees will immediately evacuate by way of established routes.

4. ABATEMENT

Describe what you would do to stop and remove each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

In the event of a chemical or waste spill or hazardous gas release, the personnel at the spill location must immediately report it to one of the Emergency Coordinators at the facility. The Emergency Coordinator will assess the magnitude and nature of the spill, and if appropriate, take necessary action of notifying other potentially affected employees and reporting it to the relevant local and state agencies. Steps to remove the hazard are as follows: 1) Identify the source of the spill and cause of the spill, 2) Remove all sources of ignition from the spill area, 3) Ventilate the area by opening doors to the outside, windows and turning on any portable fans, 4) Clear the area of other objects or additional hazardous materials, 5) Prevent the spill from spreading or going down any drains, 6) Wear PPE when cleaning, and 7) Inert absorbent material should be sprinkled and collected in a container and shipped as hazardous waste.

5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

1.Use the closest telephone to page the Supervisor. Use the term Code Red when paging.
2.Tell the supervisor the nature of the emergency.
3.The supervisor will then determine if the facility should be evacuated.
4.The shift supervisor will call the appropriate authorities.
5.All employees on the shift should evacuate the building and report to the designated waiting area.
6.Team leaders on the shift should determine if all of the employees scheduled to work on the shift are at the meeting point.
7.This information should be told to the shift supervisors.
8.The shift supervisor should call Head Supervisor.
9.The Head Supervisor will will make the determination on whether to call the CEO and the Director of Human Resources.
10.Employees trained in first aid should administer assistance where required.
11.All employees should keep clear of the building after they evacuate.
12.Do not re-enter the building unless directed to do so by a supervisor or manager.
13.Do not leave the designated waiting area until instructed to do so.

6. EARTHQUAKES

Identify the areas and equipment in your business, which would require immediate inspection or isolation due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

Acetone NC 2- Propanone, D	Stored at the southeast corner
Acetylene	Welding area
Argon	Welding area
Argon, Carbon Dioxide	Welding area
Calcium Carbonate	Production building in storage shed
Methyl Ethyl Ketone Peroxide	S/W corner of building, Stockroom
Oxygen	Welding area
Propane	Outside by work building
Styrene	Northeast yard, Production
Acetone	Facility
Gel Coat Misc. Colors	Inside Northwest corner of west building
Paint Flammable Liquid	Facility
Polyester Resin	Aboveground Tank, North end West building Bunker
Cadox D-50	Building #2
Bluesil V-330	Building #2

7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of hazardous waste generated at your business. This section only applies to hazardous waste generators.

Each new employee is instructed in the safe handling of all hazardous substances which their duties require them to contact and is instructed to avoid all areas which they are not authorized. All chemicals are inspected upon receipt for integrity of the packaging and content. Hazardous materials whose combination may pose risk to public health and safety are stored in separate storage areas. When materials are received, they are classified by the receiving supervisor by using their Safety Data Sheet (SDS) and are separated from incompatible materials. Incompatible materials are stored in designated areas; liquids stored away from dry materials, acids stored away from bases, and oxidizers stored away from flammables.

8. UNAUTORIZED RELEASE REPONSE PLAN

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an underground storage tank (UST). The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

N/A

9. SITE SECURITY

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis. Details of this assessment should not be included in this plan as it is a public document.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**Yes**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

June 16, 2017

Ms. Michelle Douglas
Inspector
City of Riverside Fire Department
3900 Main Street, 3rd Floor
Riverside, CA 92522

Subject: **Fire Inspection Report** 2626 Kansas
NewBasis, LLC (CERS ID: 10510207)

Dear Ms. Douglas:

For the Fire Inspection report dated May 19, 2017 (See Attachment A), NewBasis, LLC (NewBasis) is respectfully notifying you that the following corrections have been made for the Business Emergency Plan (BEP) program:

- The Owner/Operator ID & Business Activity has been updated and submitted via CERS program (See Attachment B).
- Employee training plan has been submitted via CERS. The sign in sheet for the refresher training has been conducted (See Attachment C).
- An updated Emergency Contingency Plan has been uploaded via CERS (See Attachment D).

Should you have any questions, please do not hesitate to contact us at (951) 741-0920. Thank you.

Respectfully,

Miguel Arceo
Manufacturing Floor Supervisor

Subject: **Fire Inspection Report** 2626 Kansas
NewBasis, LLC (CERS ID: 10510207)

Dear Ms. Douglas:

For the Fire Inspection report dated May 25, 2017 (See Attachment A), NewBasis, LLC (NewBasis) is respectfully notifying you that the following corrections have been made for the Business Emergency Plan (BEP) program:

- The Material Safety Data Sheet binder has been updated and is readily available on site (See Attachment B).
- Containers that are empty have been labeled with "EMPTY" (See Attachment C).
- Riverside Building and Safety has been contacted with regards to the permitting of the new oven equipment for the heating of Epoxy Resin Blend.
- Materials used in "Lattice Composite" has been updated on CERS and site map (See Attachment D).

Should you have any questions, please do not hesitate to contact us at (951) 741-0920. Thank you.

Respectfully,

Miguel Arceo
Manufacturing Floor Supervisor

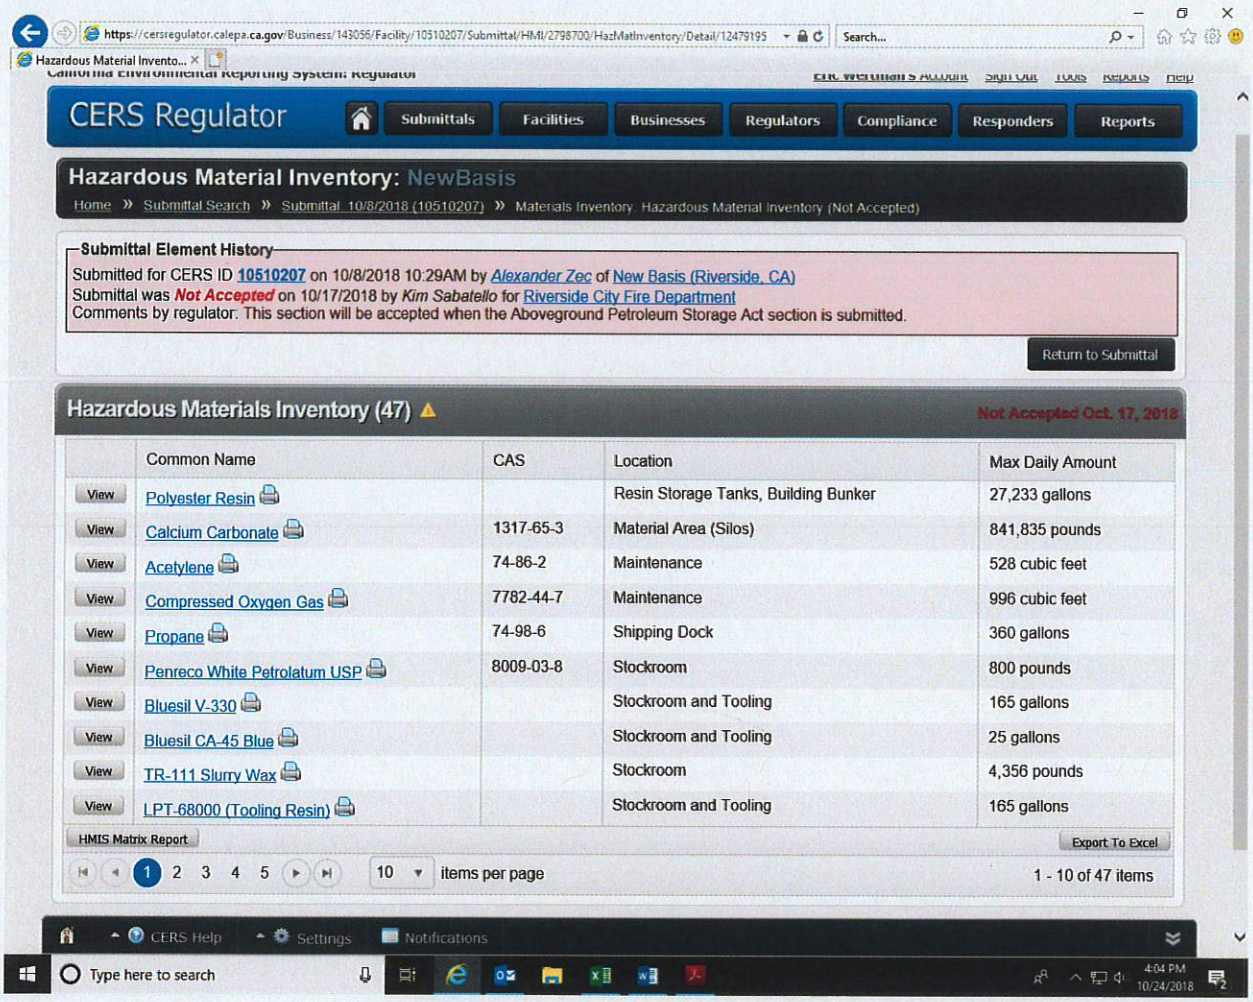
FIRE INSPECTION REPORT

Thursday May 25, 2017

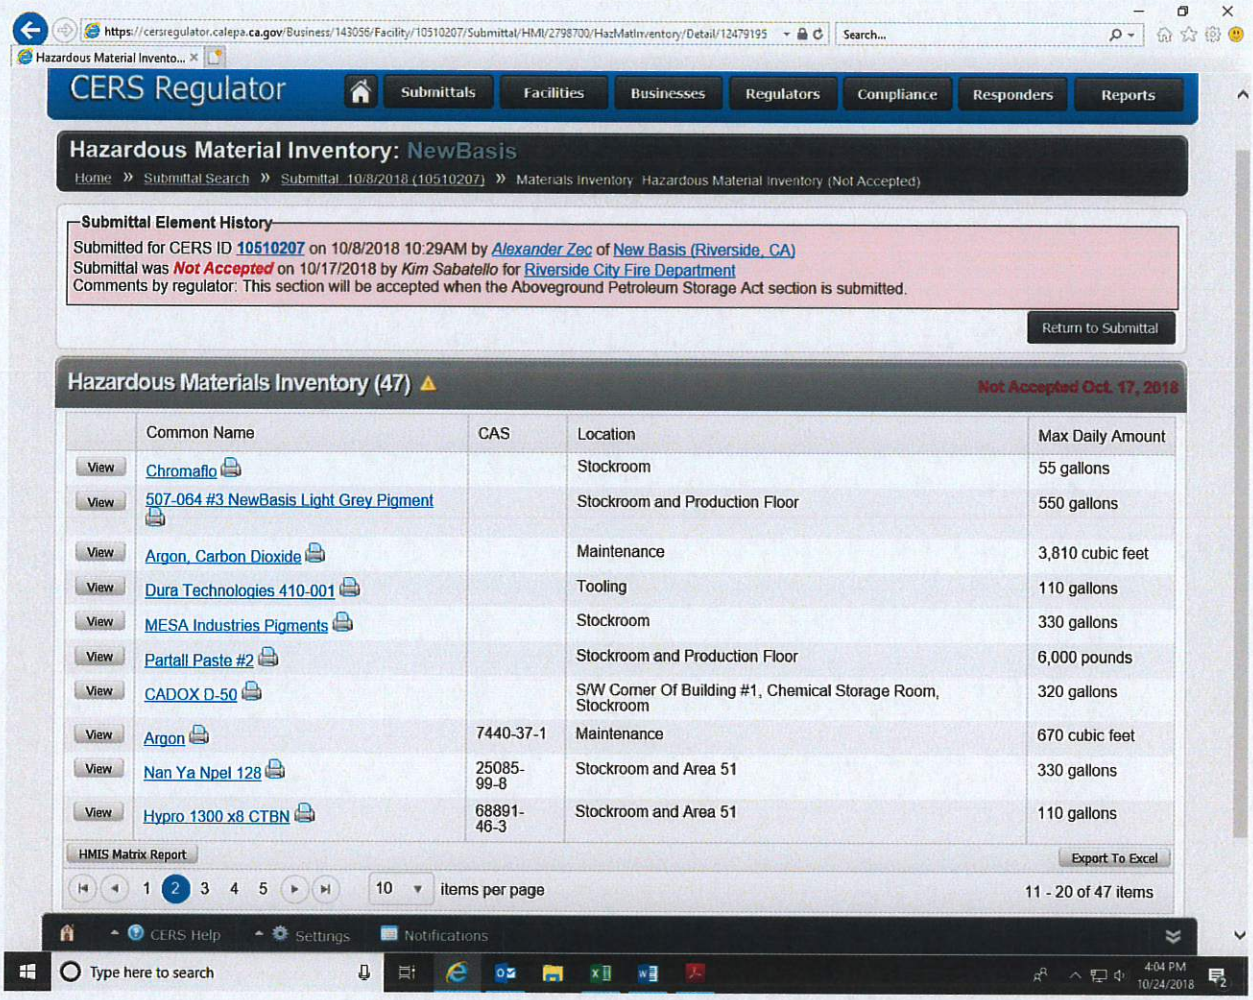
Newbasis
2626 Kansas AVE
B
Riverside, CA 92507

An inspection of your facility on Friday May 19, 2017 revealed the violations listed below.
Once you have corrected the violations, you may notify us by sending an email to prev@riversideca.gov.
If possible, please include digital photos or copies of receipts as evidence of compliance. Thank you.



CORRECTION NOTICE: The items listed below must be corrected in order to comply with California State law.
A follow-up inspection to verify compliance will be conducted on or around Monday June 26, 2017.

Failure to correct violations, by the date listed, may result in an Administrative Citation with fines starting at $100.



Violation
CFC SECITON 5003.4 Material Safety Data Sheets Update Material Safety Data Sheet binder to ensure chemical information is readily available.
CFC SECTION 5703.5 Warning Labels Provide Signage "EMPTY" to identify containers that are empty.
CFC SECTION 105 PERMITS REQUIRED Permit is required for the installation of new oven equipment used to heat Apoxy Resin blend. Contact Riverside Building and Safety at 951-826-5697 for plan submittal information.
1010005 Submit Annotated Site Map ADD NEW CHEMICALS ONTO BUSINESS EMERGENCY PLAN MAP THAT ARE USED FOR "LATTICE COMPOSITE"
1010006 Significant Change To HMBP Submit Within 30 days ADD CHEMICALS TO BUSINESS EMERGENCY PLAN (CERS) USED IN AREA FOR "LATTICE COMPOSITE"

BUSINESS EMERGENCY PLAN

RECEIVED
DEC 18 1989
CITY OF RIVERSIDE FIRE DEPT
BY

DATE: 12-11-89

Reporting Period: 1/1 to 12/31, 1990

SECTION I: GENERAL FACILITY INFORMATION AND PROCEDURE

A. **Business Identification:**

BUSINESS NAME: Associated Plastics, Inc.

BUSINESS ADDRESS: 2626 Kansas Ave
number street suite

MAILING ADDRESS: Same
number street suite

Riverside, California 92507
city state zip

BUSINESS PHONE: 714-787-0600

PRIMARY CONTACT: Joe Arthur Plant Manager
first name last name title

PHONE #: 714-787-0600 (work) 714-657-4315 (residence)

NATURE OF BUSINESS: Manufacturing
(i.e., retail, manufacturing, research, etc.)

HOURS OF OPERATION: 8-24 NUMBER OF WORK SHIFTS: 1-3

NUMBER OF EMPLOYEES: 50

SIC CODE:* _____ DUN and BRADSTREET #:** _____

For State/Fed planning: We handle Extremely Hazardous Substances (Acutely Hazardous Materials). **YES** [ ] **NO** [XX]

There are school(s), hospital(s), or extended care facilities within 1000 ft (straight line distance) of my facility. **YES** [ ] **NO** [XX]

* SIC #: Enter the primary Standard Industrial Classification (SIC) code number for your facility. If your business does not know this information, contact Cal OSHA Consultation Service at (213) 861-9993 to obtain your business SIC code.

** Dun and Bradstreet #: Enter the Dun and Bradstreet number for your business. If your business does not have this information, contact the Regional Office of Dun and Bradstreet at (714) 937-0869 to obtain your business's number.

B. **Emergency Contact Information (after business hours):**

1. A business shall appoint an Emergency Coordinator and Alternate Emergency Coordinator.

2. In the event of a release or threatened release of a hazardous material the Emergency Coordinator will be responsible for initiating response actions by the business, to include mitigation, control, and evacuation of the facility personnel.

3. The Emergency Coordinator shall have full access to the facility, site familiarity, and authority to make decisions for the business.

EMERGENCY COORDINATOR: Joe Arthur (First Name / Last Name) TITLE Plant Manager

PHONE #: Work 714-787-0600 Residence 714-657-4315

ALTERNATE EMERGENCY COORDINATOR: John Allen (First Name / Last Name) TITLE Production Manager

PHONE #: Work 714-787-0600 Residence 714-845-8104

C. **Emergency Notification:**

A handler of hazardous materials is required to immediately report any release or threatened release of a hazardous material to:

	Phone Number
1. Riverside Fire Department	911
2. Office of Emergency Services	(800) 852-7550 or (916) 427-4341

INFORMATION REQUIRED:

- The name of person reporting and phone number
- The name of the business and business street address
- Location of the incident or threatened incident
- Type of incident (spill, gas release, threatened release, etc.)
- Hazardous material involved (chemical name or identity of substance)
- Media in to which the release occurred (solid, liquid, or gas)
- An estimate of the quantity of hazardous materials involved
- Is the chemical on the Section 302 list, (if known)
- Time and duration of the release
- Precautions to take, if known
- Possible hazards to human health and/or the environment
- Extent of injuries, if any

FAILURE TO REPORT A RELEASE OR THREATENED RELEASE OF A HAZARDOUS MATERIAL MAY RESULT IN CIVIL AND/OR CRIMINAL PROSECUTION.

A LATE FEE OF 50% SHALL BE ASSESSED IF THESE FORMS ARE NOT RECEIVED WITHIN 30 DAYS OF THE DATE DUE.

FAILURE TO SUBMIT A BUSINESS EMERGENCY PLAN AND/OR CHEMICAL INVENTORY IS A MISDEMEANOR AND SHALL RESULT IN PROSECUTION.

CHECK BOX IF APPLICABLE:

[ ] I HAVE DETERMINED THAT I DO NOT MEET THE REQUIREMENTS FOR SUBMITTING A BUSINESS EMERGENCY PLAN AND AM THEREFORE RETURNING ONLY THE FACILITY INFORMATION FORMS.

I DECLARE UNDER PENALTY OF LAW THAT I HAVE REVIEWED THIS EMERGENCY BUSINESS PLAN AND UNDERSTAND MY RESPONSIBILITIES; AND THAT THE INFORMATION PROVIDED IN THIS AND ALL ATTACHED DOCUMENTS IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE.

SIGNATURE OF OWNER/OPERATOR: _____ DATE: 12-11-89

PRINT NAME OF OWNER/OPERATOR: Joe Arthur TITLE : Plant Manager

PRINT NAME OF DOCUMENT PREPARER: Same DATE: 12-11-89

A COPY OF THIS PLAN
SHALL BE RETAINED AT YOUR BUSINESS.

BUSINESS EMERGENCY PLAN

SECTION II: EMERGENCY RESPONSE PLANS AND PROCEDURES

A. Your business is required by State Law to provide an immediate verbal report of any release or threatened release of a hazardous material to local fire emergency response personnel, the Local Administering Agency and the Office of Emergency Services. If you have a release or threatened release of hazardous materials, immediately call:

Fire/Paramedics/Police
Phone: 911

Individual responsible for calling **9-1-1** _____

After the local emergency response personnel are notified, you shall then notify the Local Administering Agency and the Office of Emergency Services.

Local Administering Agency: (714) 782-5322

State Office of Emergency Services: (800) 852-7550 or
(916) 427-4341

Individual responsible for calling the Local Administering Agency and the State Office of Emergency Services.

_____

B. List the local emergency medical facility that will be used by your business in the event of an accident of injury caused by a release or threatened release of hazardous materials.

Hospital/Clinic: Riverside Community Hospital

Address: 4445 Magnolia Ave

City: Riverside, CA. 92501

Phone: 714-788-3000

C. Does your business have a private on-site emergency response team?

Yes [ ] No [XX]

If yes, describe what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

State Law requires your business to complete all sections of this Emergency Response Procedure listed below. "N/A" is not acceptable.

D. Briefly describe your business standard operating procedures in the event of a release or threatened release of hazardous materials:

1. Prevention - Describe what policies and procedures your business will follow to prevent a release or threatened release of hazardous materials.

All materials are in bunkers or retaining areas designed to limit both on premise and off premise release.

2. Mitigation - Describe what policies and procedures your business will follow to reduce the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials.

Areas involved are designed to reduce hazard and maintain a minimal expose to persons & property as well as to facilitate clean-up efforts in the event of release.

3. Abatement - Describe what policies and procedures your business will follow to remove the hazard to persons, property or the environment caused by a release or threatened release of hazardous materials.

We have existing and consisting hazardous materials companies to assist with any possible release and/or clean-up efforts should a release occur.

4. **Describe what policies and procedures your business will follow to immediately notify and evacuate your facility in the event of a release or threatened release of hazardous materials.**

We have existing training for employees with emergency evacuation plans encluding routes and meeting areas.

5. **Your business is required by State Law to keep a copy of this Business Emergency Plan, including the Inventory and Site Layout. Describe where this copy is located at your business.**

ABOVE GROUND STORAGE TANK

REMOVAL WORK PLAN

prepared for

ASSOCIATED PLASTICS
2626 KANSAS AVENUE
RIVERSIDE, CA. 92507

SEPTEMBER 16, 1994

ENVIRONMENTAL STORAGE TANK REMOVAL WORK PLAN

Table of Contents

Section	Topic
1	Tank Removal Preparation
2	Tank Decontamination Process
3	Tank Removal Procedures
4	Site Restoration

Section 1 - Tank Removal Preparation Procedure

A. Submit Above ground storage tank removal work plan.

B. Obtain permits and provide notification to all governing agencies prior to start of work.

C. Upon approval of the underground storage tank removal plan all materials and equipment will be moved away from the tank excavation area to ensure safety and mobility.

D. All associated electrical if applicable will be properly removed or capped off.

E. Tank product levels will be checked and verified as solidified resin.

F. Prior to start of work, a "No Smoking" zone will be posted within 50' of the excavation area. No eating or drinking will be permitted in this zone.

G. A minimum of two (2) hand-held class-B fire extinguisher will be onsite and readily available.

H. Barricades and caution tape will be arranged to provide a safety margin between work and persons and/or equipment not directly involved with the above ground storage tanks removal.

I. All associated plumbing will be properly drained and removed from the above ground tanks.

J. Tanks will be ready for decontamination process.

Section 2 - Tank Decontamination Procedures

A. Ground wires will be used on all equipment and using a venturi or equivalent, tanks will be degassed.

B. L.E.L. level will be checked until below 5% by use of an L.E.L. meter calibrated to hexane.

C. Inspector will be informed if safe levels cannot be achieved.

D. Top of the tank will be cut using a pneumatic cutting chisel (cold cut) to the solidified resin level in the tank.

E. After hole/s is/are cut, the section of the tank with no resin will be scrapped, and the section containing solidified resin will be transported as non hazardous to Laid Law (See Attached).

Section 3 - Tank Removal Procedures

A. The contents of the tanks in native form had a vapor pressure of 4.3 which is below that of 5.6 established by Southoast Air Quality Management and required Rule 1166 compliance.

B. Upon approval from inspector, remaining portion of the tank will be pulled from the work area using a crane (subcontractor) and placed on a pick up truck and/or trailer.

C. Tank will be properly secured and residual soil material will be cleaned off of tank to ensure safe transportation.

D. Tank will be transported for certification from Laid Law.

E. Top portion of tanks without solidified resin will be dispensed of at American Metal Recycling in Ontario, CA.

Section 4 - Site Restoration Plan

A. Barricades will be removed and work area returned to its normal use.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**Yes**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**

Aboveground Petroleum Storage

Does your facility own or operate aboveground petroleum storage tanks or containers AND: * have a total aboveground petroleum storage capacity of 1,320 gallons or more, OR * have one or more petroleum tanks in an underground area?	**No**

Regulated Substances

Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

Request for Records Search to the
Cal Fire – Office of the State Fire Marshal and
Response Obtained from that Agency

shannon environmentalsupportservices.com

From: CALFIRE PRA Records Center <calfire@govqa.us>
Sent: Monday, October 7, 2024 6:13 PM
To: shannon environmentalsupportservices.com
Subject: Public Records Request :: R015772-100724

RE: PUBLIC RECORDS REQUEST of 10/7/2024, Reference # R015772-100724

Dear Shannon Castagno,
Thank you for your interest in public records of CAL FIRE. Your request has been received and is being processed in accordance with the California Public Records Act, Government Code section 7920.000 et seq. Your request was received on October 07, 2024 and given the reference number R015772-100724 for tracking purposes.

Records Requested: Site: 1989 & 2069 Massachusetts Avenue, and 2626 Kansas Avenue, Riverside, CA, Parcels 210-130-015, 210-130-016, and 210-130-020. ESS requests the following information concerning the subject site which your agency may have on file: 1. utilization, manufacture, storage, or discharge of hazardous materials/waste. 2. previous or on-going site investigations/remediations pertaining to hazardous materials/waste. 3. hazardous materials disclosures concerning the site. 4. pipelines. 5. information regarding underground storage tank present or previously found at the site. 6. Reportable Spills, Releases, Notices of Violations (NOVs) and any Environmental Reportable Issues.

Your request will be forwarded to the relevant CAL FIRE department(s) to locate the information you seek and to determine the volume and any costs that may be associated with satisfying your request. You will be contacted about the availability and/or provided with copies of the records in question. PLEASE NOTE: The California Public Records Act does not require a governmental body to create new information, to do legal research, or to answer questions.

You can monitor the progress of your request at the link below and you'll receive an email when your request has been completed.

--- Please respond above this line ---

RE: PUBLIC RECORDS REQUEST of October 07, 2024, Reference # R015772-100724

Dear Shannon Castagno,

CAL FIRE received a California Public Records Act (CPRA) request from you on October 07, 2024. Your request mentioned:

"Site: 1989 & 2069 Massachusetts Avenue, and 2626 Kansas Avenue, Riverside, CA, Parcels 210-130-015, 210-130-016, and 210-130-020. ESS requests the following information concerning the subject site which your agency may have on file: 1. utilization, manufacture, storage, or discharge of hazardous materials/waste. 2. previous or on-going site investigations/remediations pertaining to hazardous materials/waste. 3. hazardous materials disclosures concerning the site. 4. pipelines. 5. information regarding underground storage tank present or previously found at the site. 6. Reportable Spills, Releases, Notices of Violations (NOVs) and any Environmental Reportable Issues."

We recommend that you visit the California Regulated Site Portal at https://siteportal.calepa.ca.gov/nsite/map/help

To search for nearby pipelines please visit: https://www.npms.phmsa.dot.gov/

To search for open fire code violations please submit a records request with your local jurisdiction.

Information on facilities or locations/areas that have been reported to the State Warning Center for hazardous materials spills or releases may be found on the Governor' s Office of Emergency Services (Cal OES) HazMat Spill Release Reporting Database (https://w3.calema.ca.gov/operational/malhaz.nsf/$defaultview).

If you have any questions or need additional information, you can manage your request through the CAL FIRE PRA Records Center.

Sincerely,
Shilo Wilson
Public Records Act Coordinator
Sacramento - HQ - Legal Office

Student Transportation

- **This is a routine inspection. STA (Student Transportation of America) is a student bus transportation facility that does the maintenance on the buses. I have met with Tom Moore to conduct the facility inspection. Inspection of the steam cleaning area found the trench drain needs to be cleaned, there are debris and sludge. See Enforcement. Inspection of the clarifier found to be in good condition with at most two inches of settled debris in the first chamber. Inspection of the records found to be on-site. Inspection of the waste fluids storage area found spilled fluid on ground and on top of drums as well in in the spill containment. See Enforcement. Inspection of the procedures for spills found employees use a mop or rags depending on the size of the spill. waste fluid is poured into drums of waste coolant. The shop rags are serviced on a weekly basis. Inspection of the outside area of the maintenance shop found brake drums, rotors, and A/C cooling system on a pallet, that is too small for the amount of parts on it. See Enforcement. Inspection of the shop area found to be clean. Inspection of the parking area for the buses found to be clean.**
- **This is a follow-up inspection. Inspection of the area outside the maintenance shop found to have been cleaned. Inspection of the waste fluids area found the spill pallets, drums and floor have been cleaned. Inspection of the steam cleaning trench drains found to have been cleaned.**
- **This is a routine NSIU inspection of a bus transportation company that performs fleet maintenance and vehicle washing on site. Environmental Compliance Inspector (ECI) met with the Shop Manager, Travis Shaw, and Payroll Coordinator, Rebecca Dapper, to gain access to the site. There are two clarifiers on site and there is no pumping manifest available for review. ECI educated staff on record keeping requirements. The waste oil and parts wash water was last picked up on 05/27/15 by Safety Kleen. The used oil filters were last picked up on 05/14/15 by Safety Kleen. The brake cleaner was last picked up on 03/09/15 by Safety Kleen. ECI was able to determine that the New Industrial General Permit process has begun. ECI provided education material regarding the application process. Inspection of the clarifier at the rear of the bus wash found it to be acceptable with 6" of solids in chamber one. Inspection of the interceptor to the rear of the maintenance shop found it to be acceptable with 4" of solids in chamber one and no access to chamber two. Inspection of the outside area found a few areas of grease on the ground and ECI educated staff on proper cleaning methods. Inspection of the storm swales found sediment and debris. ECI was unable to determine the location of the sites outfall and has requested IU to research the information prior to follow-up inspection. Inspection of the trash containment area found the trash bin lids open and ECI educated staff on keeping them closed at all times. Inspection of the bus wash station found that it is no longer used. The washing now takes place by an outside company and the water is properly contained and disposed of off-site. The area has an air filter wash station that uses steam. Inspection of the chemicals on-site found that they are not all properly contained (see enforcement) and ECI has requested confirmation that the two large containers are double walled construction. Inspection of the of the maintenance shop found evidence of spills surrounding the waste oil and the waste coolant containment (see enforcement.) Inspection of the used battery storage found no containment. 06/08/15.**

Inspection of the chemical storage area found evidence of spills. Inspection to the storm swales found sediment and debris. IU shall have the areas cleaned using the appropriate method by the due date. 06/08/15. Inspection of the chemicals and used batteries found that they do not all have proper containment. IU shall inspect all areas and provide proper containment for all chemicals and used batteries.

- **This is a routine inspection with camera of a lateral line of a Non-Significant Industrial User, Student Transportation of America by Environmental Compliance Inspector (ECI) Ridley and Senior ECI (SECI) Munoz. ECI deployed the camera down stream from the clarifier sample box. The line turned and ECI was unable to push the camera through the turn. ECI then put the camera down a clean out downstream (approx. 40' toward the fence line) of the bus wash area clarifier. ECI televised approx. 120' of the sewer line with no visible connection within the section of line. ECI dye traced the sample box of the clarifier and found that the effluent line is connected to the clean out and line that runs towards Roberta . ECI also observed domestic waste in the lateral accessed through the clean out.**
- **SrECI Tim King has made serval attempt to have the City water leak near the water meter repaired. This is causing water to be constantly flowing down the street on Roberta. The leaking pipe shall be repaired by 3/3/2020 or further enforcement action may be required.**
- **This is a storm water inspection for the new Industrial General Permit (IGP). This facility is school bus transportation facility. Environmental Compliance Inspector (ECI) Abigail Gomez met with Rick Baumgarte, Division Fleet Maintenance Manager (IU) and was escorted throughout the property. At time of inspection IU could not produce a copy of the Storm Water Pollution Prevention Plan (SWPPP) or a WDID# (see enf.). IU stated that he has very recently moved into this position and was still familiarizing himself with all the required documents for this location. Inspection began with a walk through of the overflow parking. IU stated that the overflow parking area is broken up into 2 areas. Area 1 is for overflow operation bus parking and Area 2 is for buses that are ready to be auctioned and or scrapped (see enf.). ECI observed approximately 15 buses is area 2, of which 2-3 had minimal oil staining. IU stated that he has spill pans and a spill kit readily available and had staff address the issues while ECI was onsite. All other outside areas were inspected and found satisfactory. ECI provided and reviewed storm water best management practices and IGP materials at time of inspection. AG2221 10/6/16. IU shall obtain a copy of the current SWPPP and WDID# for ECI and ensure there is a copy on site for inspection by 10/20/16. IU shall implement all practices necessary to ensure that all oil staining is immediately addresses by 10/20/16. IU shall develop a spill prevention program and train all required staff to ensure oil staining does not occur in any of the outside areas by 10/20/16. No person shall discharge or cause to be discharged onto the ground, into any permeable sump, pit, or well, storm drain, surface, pipe or waterway leading to a storm drain, whether currently carrying water or not, any pollutant or wastewater which could: 1. Impair the useful function of the storm drain; 2. Cause undue storm drain maintenance expense to the City or other public agency; 3. Create a public nuisance or public hazard; 4. Pollute natural surface or subsurface waters; or 5. Violate any regulation, order, or**

requirement of the Regional Board, including NPDES Non-Point Source (Storm Water) Permit requirements. Per City of Riverside Ordinance Section 14.12.315 Surface Discharge Prohibitions.

- **This is a storm water inspection of activities observed at the City of Riverside Acorn Fueling Station (AFS) at 5961 Acorn. At approximately 8:40 a.m. Environmental Compliance Inspector (ECI) Abigail Gomez observed a Student Transportation of America (STA) staff discharging wash water from inside of the bus and then leave the site. Upon becoming aware of what was happening ECI attempted to photograph the bus driver and instead photographed the adjacent vehicle, bus #6506. While photographing vehicle 6506 ECI was confronted by the driver about taking pictures of "Her" bus. ECI identified herself and informed the driver that she was attempting to photograph the driver adjacent to her. ECI also informed the driver that the AFS is a public space and City or Riverside property. ECI informed the driver that she would be contacting STA management and requiring them to educate staff on appropriate storm water and vehicle washing practices. Upon leaving the site ECI observed identical staining on adjacent fueling station, see attached photographs. At approximately 09:19 a.m. ECI received a call regarding the photographs taken at the AFS from 951 840-1988. The caller made inappropriate remarks about ECI's and her actions. The caller then requested the corporation number for the City of Riverside so that she could "file a complaint". ECI informed the caller that the City was not a corporation and that she could call the 311 call center for the City of Riverside. ECI ended the call due to the callers' aggressive and harassing manner. ECI arrived at the STA Main Offices, 1989 Massachusetts at approximately 9:35 a.m. and spoke to Chris Hubbell, Operations Manager 951 283-6781 (IU) and made him aware of both situations. ECI requested the callers contact information for the storm water report and suggested calling the number with management. When the caller answered ECI requested her contact information. The caller declined to provide the information and ended the call. IU apologized for the callers' actions and comments about ECI and requested a copy of the photographs and final report. ECI informed IU that he would receive the requested documents within 24 hours.**

2626 Kansas

- **IR# 80962 10/30/13. This is a routine inspection of an underground utility vault manufacture. This facility uses fiberglass, polyester resin, various mixtures of sand, and polymer concrete to manufacture the utility vault. Building one manufactures utility vaults from fiberglass and building two manufactures polymer concrete utility vaults. IU stated that there are no floor sinks inside of either building with the exception of sanitary toilets. The storage areas and storm drains between building one and two was found unsatisfactory (see enf.). The main storm drain new on the east side of the facility had an excessive amount of debris (see enf.). Both buildings had multiple resin storage areas without secondary containment (see enf.). EC staff observed that some of the grate covers for the secondary containment structures in both buildings were covered with plaster (see enf.). The area behind building one had several containers without secondary containment (see enf.). The hazardous waste area berm was recently damages and there were no sandbags or BMP's in place to contain any spills (see enf.). The compressor area behind building one had several containers of oil without secondary containment (see enf.). IU could not identify the water discharged into a sewer connection adjacent to the silos behind building one (see enf.). EC staff provided and reviewed storm water BMP's with IU. This report was reviewed with Miguel Ochoa. No person shall discharge or cause to be discharged onto the ground, into any permeable sump, pit, or well, storm drain, surface, pipe or waterway leading to a storm drain, whether currently carrying water or not, any pollutant or wastewater. Per City of Riverside Ordinance 14.12.315 Surface Discharge Prohibitions. Spill containment systems shall consist of dikes, walls, barriers, berms, or other devices designed to contain spillage of the liquid contents of containers. Spill containment systems shall be constructed of materials that are impermeable and non-reactive to the liquids being contained. Per City of Riverside 14.12.395 Spill Containment System. All records must be kept on the site of the wastewater generation for a minimum period of three years. Per City of Riverside Ordinance 14.12.230 Record Keeping.**

- **This is a follow-up inspection to GM 204005062014. Inspection of the storm drains found to have been cleaned. Inspection of the silos found the calcium carbonate has been cleaned from the ground. Inspection of the back area near the roll off trash bins found the area has been cleaned.**
- **Environmental Compliance Inspector (ECI) Abigail Gomez met Joe Durkee, Production Manager (IU) and provided informational packet about the Industrial General Permit and notified IU that New Basis has not re-certified their WDID # as of 4/24/15.**
- **06/18/15. This is a routine NSIU inspection of a facility that manufactures fiberglass, concrete and resin vaults for use underground. Environmental Compliance Inspector (ECI) met with Joe Durkee to gain access to the site. Fiber glass is mixed with polyester resin and sprayed in a designated area. The concrete used in the process is a mix of sand, polyester resin and calcium carbonate. The vaults are also wrapped with a fiberglass mesh. The resin, sand and calcium carbonate is stored in silos. The components are mixed in mixers and stored in totes and 55 gallon containers prior to**

use in the equipment. Some of the resin and calcium carbonate mixture is batched in one building and transported outside to the next building without proper containment (see enforcement.) ECI educated staff on proper chemical containment. ECI advised IU that no chemicals shall be transported from building unless properly contained to prevent accidental spill. Inspection of the outside area found evidence of evidence of calcium carbonate and fiberglass (see enforcement.) Inspection of the storm swales found debris and sediment (see enforcement.) Inspection of the loading dock pit found excessive debris and sediment (see enforcement.) Inspection of the on-site storm drains found sand bags in place to prevent large debris from entering the catch basin. Inspection of the trash containment area found that the bins are not covered (see enforcement.) ECI advised IU to consult their stormwater professional regarding the need for coverage. Inspection of the compressors found no evidence of leaks. Inspection of the outside storage area found excessive debris and sediment (see enforcement.) Inspection of the production floor found excessive resin, sand, calcium carbonate and fiberglass that is being tracked outside (see enforcement.) Inspection of the properties perimeter found evidence of fiber glass leaving the site (see enforcement.) A written Warning is being issued for the fiberglass in the City storm swale. 06/19/15. Inspection of the mixing area found that some of the resin and calcium carbonate mixture is batched in one building and transported outside to the next building without proper containment. Inspection of the outside area found evidence of calcium carbonate and fiberglass. Inspection of the storm swales found debris and sediment. Inspection of the loading dock pit found excessive debris and sediment. Inspection of the trash containment area found that the bins are not covered. Inspection of the outside storage area found excessive debris and sediment. Inspection of the production floor found excessive resin, sand, calcium carbonate and fiberglass that is being tracked outside. Inspection of the properties perimeter found evidence of fiber glass leaving the site. IU shall clean the facility and the outside area to remove the excessive resin, sand, calcium carbonate and fiber glass. IU shall clean all stromwater swales and catch basins associated with the site, including the storm swale along Kansas to remove fiberglass, debris and sediment. IU shall provide containment for the mixture that is being transported outside or secure barrels with a lid prior to transport.

- **07/30/15. This is a follow-up inspection to SS4481-06/19/15. Previous inspection of the mixing area found that some of the resin and calcium carbonate mixture is batched in one building and transported outside to the next building without proper containment. Previous inspection of the outside area found evidence of evidence of calcium carbonate and fiberglass. Previous inspection of the storm swales found debris and sediment. Previous inspection of the loading dock pit found excessive debris and sediment. Previous inspection of the trash containment area found that the bins are not covered. Previous inspection of the outside storage area found excessive debris and sediment. Previous inspection of the production floor found excessive resin, sand, calcium carbonate and fiberglass that are being tracked outside. Inspection of the properties perimeter found evidence of fiber glass leaving the site. IU has cleaned the facility and the outside are to remove the excessive resin, sand, calcium carbonate and**

fiber glass. IU has cleaned all stormwater swales and catch basins associated with the site and in the City storm swale to remove fiberglass, debris and sediment. IU has provided containment and or secured the mixture that is being transported outside.

- **This is an inspection in response to water observed coming off the property, into the street and gutter. ECI met with the Safety Manager (IU) aochoa@newbasis.com, 951-313-7624. IU indicated that Fire Safety First was onsite to flush the sprinkler system and risers. Inspection found that three risers were flushed and water was exiting the property. ECI indicated that this activity is allowed under the city ordinance as long as the water is not picking up excess pollutants on its way to the street, gutter and storm drain. ECI found that the water was picking up a lot of silica from the site's activities and ponding in the loading dock (see enforcement). IU indicated that the dock has a storm drain with a filter and the filter is capturing any pollutants. ECI asked that the filters be cleaned or replaced once the fire system flush was complete. IU also mentioned that the site has staff cleaning outdoors daily with a sweeper. ECI recommended that outdoor cleaning be conducted prior to the next scheduled fire system flushing so that no pollutants are carried to the storm drain system with the water.**
- **This is a follow-up to stormwater inspection. ECI previously observed water coming off the property and discharging to the street. The site had a third-party contactor onsite testing fire sprinkler and risers. ECI also observed that some water with some of the industry's product was entering an onsite storm drain that contains a filter (in a covered loading dock). Today's inspection found that the covered loading dock still has water and that the filter has not yet been changed out. IU indicated that once the water evaporates then the site will change out the storm drain filter. ECI granted the site an extension.**
- **This is a modified follow-up due to COVID-19. The contact has indicated to ECI that, "As of right now all the drains in the warehouse have been cleaned and changed out on the filters. The one located in the loading dock is in the process of being drained so we can clean the debris and switch out the filters that are in use. As of now we have no work on any of the standup pipes or fire hydrants so no additional water has been accumulated at the source." ECI grants the site an extension to have the loading dock storm drain filter replaced by 1/4/2021.**
- **This is a follow-up inspection to previously observed water running off the property and into the street from fire sprinkler testing. The site has cleaned the storm drain filters in the loading dock and water is no longer in the area**
- **This is an inspection in response to a complaint of an unusual discharge witness in the sewer downstream of the Industrial User (IU) New Basics done by Environmental Compliance Inspectors (ECI) Sabrina Chantler and Anthony Swanson. ECI met with manager Vanessa for the inspection. This facility manufactures below ground enclosures made out of cement and fiber glass. The manager walked the ECIs through the process. The IU manufactures the covers by pouring cement into a mold, then spraying fiberglass for reinforcement, and then pouring cement again. The fiber glass is sprayed onto the mold within a spray booth. Buckets of cement were found on spill containment pallets ready to be poured onto the mold. The manager stated that once**

the buckets dry completely, they are thrown away. Their tools are cleaned with acetone and the "dirty" acetone is hauled off. The IU also contains a drum of wax that is used during their demolding process.

- **After the product is removed from the mold, it is sent through their water jetting machine to be trimmed. The sludge accumulated from this process is left out to dry and then thrown away. Occasionally the water jetting machine needs routine maintenance and generates some oily water which the IU hauls off. The water jet is also equipped with a filtration system. Once trimmed, a cement ring is made and added to the product.**
- **The inspection lead to their batch mixing process. The IU is equipped with silos of silica and of calcium carbonate that is sent to a weigh hopper for a specific cement mix. The resin is added to the mix from a tank that is pumped into the mixing barrel. Any residual resin and/or cement mix is poured into a spill pallet, left to dry, and then thrown away.**
- **Inspection of the outside areas found their stormwater drains to be equipped with filters. The manager stated that they are changed weekly and that they are equipped with a stormwater permit. The IU stores their finished products outside on wooden pallets ready for delivery. Their hazardous materials storage area is also located outside within a concrete berm. The IU stated that they do not conduct any washing and only sweep for cleaning with a sweeping compound. The manager provided records from Worldwide that their acetone was last picked-up on 8/06/24 and oily water(manifest #026461291JJK).**

RE: PUBLIC RECORDS REQUEST of October 08, 2024, Reference # W016859-100824

Dear Shannon,

The Public Records Advocate received the below records request on October 08, 2024.

Site: 1985 Massachusetts Avenue, Riverside, CA. ESS requests the following information concerning the subject address which your agency may have on file: 1. copies of applications and permits for industrial waste discharge; and 2. copies of any and all violations concerning industrial waste discharge.

The City of Riverside has determined there are no responsive documents to your request.

If you have any questions, or wish to discuss this further, you may contact me.

Sincerely,

Carmen Soto
City Clerk's Office
(951) 826-5557
CSoto@riversideca.gov

To monitor the progress or update this request please log into the Riverside Records Portal.

RE: PUBLIC RECORDS REQUEST of October 07, 2024, Reference # W016850-100724

Dear Shannon,

The Public Records Advocate received the below records request from you on October 07, 2024.

Site: 1989 & 2069 Massachusetts Avenue, and 2626 Kansas Avenue, Riverside, CA, Parcels 210-130-015, 210-130-016, and 210-130-020.
I hereby request copies of all building permits and certificates of occupancy for the above address.

For building permits, Certificates of Occupancy, underground and above ground storage tanks, or any other related building and safety documents please use the Building and Safety Department online search at: Search Permits | CEDD (riversideca.gov). The records available in the online portal are all that Building & Safety has on file, excluding cancelled or expired permits, and any recent building permits for new construction that may be in progress.

If you have any questions or need help with your search, please contact Building and Safety at (951) 826-5697.

Sincerely,

Carmen Soto
City Clerk's Office

HAZARDOUS MATERIALS DISCLOSURE STATEMENT

PROJECT ADDRESS: 1989 Massachusetts PLAN CHECK #: 97-3040

BUSINESS NAME/USE: Penske Truck Leasing Facility

(X) YES ( ) NO Do you manufacture, store, or use hazardous materials at this facility?

( ) YES (X) NO Will the applicant or future occupant handle a hazardous material or a mixture containing a hazardous material equal to or greater than the amounts specified on the list of acutely hazardous materials? (See APPENDIX D, LIST OF ACUTELY HAZARDOUS MATERIALS)

(X) YES ( ) NO Do you generate, store, treat or use hazardous waste at this facility?

(X) YES ( ) NO Will the applicant or future occupant be installing an underground storage tank at this facility?

(X) YES ( ) NO Will the applicant or future occupant be installing an aboveground storage tank greater than 660 gallons or with a cumulative storage capacity of greater than 1320 gallons?

( ) YES (X) NO Will your facility or the proposed building or modified facility be within 1000 feet of the outer boundary of a school, hospital, or long-term health care facility?

( ) YES (X) NO Will the intended use of the building by the applicant or future building occupant require a permit for construction or modification from the South Coast Air Quality Management District? (See APPENDIX A, PERMITTING CHECKLIST, for guidelines)

I have read the Hazardous Materials Disclosure Requirements and the SCAQMD Permitting Checklist. I understand the requirements under California Health and Safety Code Section 25505,25533,25534,42303, and the requirements of the City of Riverside Fire Department regarding hazardous materials.

NOTES: _____

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class C39 Lic. No 719946 Date 11/22/96

Contractor Signature _____

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

Date ___/___/___ Owner Signature _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☑ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier National Union

Policy Number 4184428966

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 11/22/96 Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES, AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,00), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lenders' Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class _____ Lic. No. _____ Date 10 / 30 / 92

Contractor Signature _____

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

Date / / Owner Signature _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. _____ Company _____

☐ Certified copy is hereby furnished.

☑ Certified copy is filed with the Department of Building & Safety.

Date 10 30 92 Applicant Signature _____

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

(This section need not be completed if the permit is for one hundred dollars ($100) or less.)
I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date / / Applicant Signature _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ.C.).

NOTES:

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class B01 Lic. No. 455382 Date 10.4.93

Contractor Signature X [signature]

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

Date ___/___/___ Owner Signature _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

Policy No. _____ Company _____

☐ Certified copy is hereby furnished.

☐ Certified copy is filed with the Department of Building & Safety.

Date ___/___/___ Applicant Signature _____

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

(This section need not be completed if the permit is for one hundred dollars ($100) or less.)
I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date 10.4.93 Applicant Signature X [signature]

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ.C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the information contained herein is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

Permit Description: REGENERATNE THERMAL OXIDIZER

Last Approved Inspection Type and Date: 4-20-2006 PHIL IRVIN.

Staff Initials PS

☒ Your Request to Reactivate the Expired Permit is Approved.

The reactivation will require the payment of certain fees and processing of the reactivation permit. Please come to the Building and Safety Division at 3900 Main Street, 3rd floor, to process the reactivation of this permit. Please keep in mind that the City Approved Plans (if any) will be required to be available for the Building Inspector at the time of the inspections. If you do not have the Approved Plans, make arrangements to obtain a copy from the City. Additional fees are required if copies of the City Approved plans are needed. Reactivated permits will generally expire again if work is not completed within 180 days of payment of the reactivation fee. Permits may only be reactivated one time. Failure to complete all work within the 180 day time frame will require a new permit, payment of new fees, and new plans to reflect current code requirements.

FINDINGS OF DISABLED ACCESS UNREASONABLE HARDSHIP

Project Name: Associated Plastics **Permit Number:** 99-2519

Project Address: 2626 Kansas Ave., Riverside, CA **Date:** October 12, 1999

THE ABOVE NAMED PROJECT HAS BEEN GRANTED AN EXCEPTION FROM THE REQUIREMENTS OF THE STATE OF CALIFORNIA CCR-TITLE 24 (REGULATIONS FOR THE ACCOMMODATIONS OF THE DISABLED) BASED ON THE CRITERIA:

1. What type of facility is this ?: Plastics Manufacturing

2. How is this facility used by the general public ?: NO PUBLIC ACCESS - Employee use only

3. What is the total cost of construction ?
(FROM LINE [3] OF WORKSHEET): $ 97,500

4. What is the cost of providing disabled access ?
(FROM LINE [2g] OF WORKSHEET): $ 62,500

5. What disabled access features would be gained or lost in this project ?:
GAINED: 1) "VAN ACCESSIBLE" Parking 2) An Accessible Route to the Area of Remodel
3) An Accessible Entrance
LOST: Accessible Restrooms

6. How will the Title -24 accessibility improvements impact the financial feasibility of this project ?:
The estimated costs to bring the existing building into full compliance with all current disabled access regulations is more than a 175% increase over the initial construction costs.

THE FOLLOWING PERSON PROVIDED INFORMATION FOR THE ABOVE REFERENCED PROJECT:

NAME: Bryan Benso **FIRM:** GaFcon Inc.
ADDRESS: 23832 Rockfield Blvd., Lake Forest, CA 92630
TELEPHONE: (909) 768-9165

(CONTINUED ON PAGE TWO)

THE DETERMINATION OF UNREASONABLE HARDSHIP AND THIS DOCUMENTATION DO NOT ALLOW FOR BLANKET EXCEPTION FROM THE CCR-TITLE 24 ACCESS REGULATIONS. THE EXCEPTION PROVIDED FOR ON THIS FORM APPLIES ONLY TO THE FOLLOWING ITEMS OF THE IDENTIFIED PROJECT:

1) The existing restroom(s) may remain "as is" and without disabled access modifications.

CERTIFIED BY TITLE 24 (CHECK ONE):

() 1. Equivalent Facilitation will be provided as specified in Section_____.

() 2. Equivalent Facilitation will be provided as determined by this enforcing body. See Section_____.
Equivalent Facilitation will be:_____

(X) 3. No provision of Equivalent Facilitation is necessary. See Section 1134B.2.1 EX.#1
The legal constraints are: No legal constraints
The physical constraints are: Extensive demolition and reconstruction of existing plumbing, electrical, mechanical and structural components.

() 4. The approval of an Appeals Board is required to ratify the determination of Unreasonable Hardship.
See Section_____and Section 101.17.11, Item 4.
The legal constraints are:_____
The physical constraints are:_____

THIS DOCUMENTATION OF UNREASONABLE HARDSHIP WAS DEVELOPED IN CONSULTATION WITH:

DISABLED ACCESS UNREASONABLE HARDSHIP REQUEST

Project Name: Associated Plastics TPermit Number: Plan check 99-2519.2

Project Address: 2626 Kansas Ave. Date: 9-20-99

1. What type of facility is this ?: Manufacturing
2. How is this facility used by the general public ?: None - Employee use only
3. What is the total cost of construction (FROM LINE [3] OF WORKSHEET) ?: 97,500
4. What is the cost of providing access (FROM LINE [2g] OF WORKSHEET) ?: 62,500
5. What disabled access features would be gained or lost in this project ?: Accessible Entrance, Route, & Parking will be gained.
6. How will the Title -24 accessibility improvements impact the financial feasibility of this project ?:
   They will Financially prohibit this project.
7. How will Equivalent Facilitation will be provided ?: None
8. Additional Information (use reverse side if necessary): All walls surrounding existing restrooms structural masonry. Existing Masonry corridor less than 44". Existing doors less than 36"
9. The determination of Unreasonable Hardship does not allow for blanket exception from the CCR-Title 24 Access Regulations. The exceptions requested for applies only to those items listed on this form.

DISABLED ACCESS UNREASONABLE HARDSHIP WORKSHEET

Project Name Associated Plastics TI Permit Number Plan check 99-2519.2

An **UNREASONABLE HARDSHIP** exists where the cost of providing an accessible entrance, path of travel, sanitary facilities, drinking fountains and public phones is disproportionate to the total cost of construction (exceeding 20% of the cost of the project).

LINE 1) **WHAT IS THE PERMIT VALUATION OF THIS PROJECT ?** ..... $ 35,000
(WITHOUT providing disabled access improvements listed below)

Where the cost of alterations necessary to make these features fully accessible is disproportionate, **ACCESS SHALL BE PROVIDED TO THE EXTENT THAT IT CAN BE** without incurring disproportionate cost.

LINE 2) **WHAT IS THE ESTIMATED COST OF PROVIDING EACH OF THE DISABLED ACCESS IMPROVEMENTS LISTED BELOW ?**

a) **ACCESSIBLE ENTRANCE:** ..... $ 15,000
[INCLUDING DOOR SIZE, KICKPLATE, THRESHOLD, HARDWARE, LANDINGS and STRIKE EDGE CLEARANCES]

b) **ACCESSIBLE ROUTE TO THE ALTERED AREA(S):** ..... $ 2500
[INCLUDING VAN ACCESSIBLE PARKING and PATH OF TRAVEL ELEMENTS]

c) **AT LEAST ONE ACCESSIBLE RESTROOM FOR EACH SEX:** $ 40,000
[A UNISEX RESTROOM IS PERMITTED IF THERE WILL BE NO MORE THAN FOUR (4) EMPLOYEES]

d) **ACCESSIBLE PUBLIC TELEPHONES:** ..... $ N/A - None exist
[IF PUBLIC TELEPHONES ALREADY EXIST]

e) **ACCESSIBLE DRINKING FOUNTAINS:** ..... $ N/A - None exist → Storage NIC
[IF DRINKING FOUNTAINS ALREADY EXIST] → Alarms 5000

f) **ACCESSIBLE PARKING, STORAGE and ALARMS:** ..... $ Parking inc. in 2b.

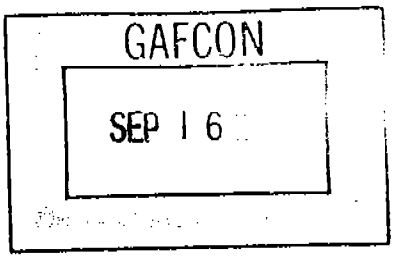
g) **TOTAL COST OF PROVIDING ACCESSIBLE FEATURES:** ..... $ 62,500
[ADD LINES (2a) THROUGH (2f)]

LINE 3) **TOTAL COST OF CONSTRUCTION INCLUDING ACCESSIBLE FEATURES:** ..... $ 97,500
[ADD LINES (1) and (2g)]

LINE 4) **COST CAP LIMITATION:**
[MULTIPLY LINE (1) BY 20% (0.20)]

THIS IS THE **MAXIMUM** AMOUNT THAT MUST BE SPENT TOWARDS COMPLIANCE → $ 7,000

LINE 5) **DISABLED ACCESS UNREASONABLE HARDSHIP QUALIFICATION TEST:**
IS THE AMOUNT ON LINE (4) **LESS THAN OR EQUAL TO** THE AMOUNT ON LINE (2g) ?:



☒ YES → IF YES, THEN GO TO LINE (6).

☐ NO → IF NO, **STOP !** THIS PROJECT **DOES NOT** QUALIFY FOR UNREASONABLE FINANCIAL HARDSHIP.

LINE 6) **SUBMIT LICENSED CONTRACTORS' WRITTEN ESTIMATE(S) FOR EACH OF THE DISABLED ACCESS IMPROVEMENTS. ALL ESTIMATES MUST BE SUBMITTED IN AN "ITEMIZED COST BREAKDOWN" FORMAT.**

24551 Raymond Way, Ste. 250, Lake Forest, CA 92630

Associated Plastics, Inc.
Attention: Tracey Glenn
2626 Kansas Avenue
Riverside, CA 92507

Dear Tracey:

We appreciate the opportunity to present this proposal for the handicap accessibility upgrades to your facility. Enclosed is a breakdown of work to be included with an itemized price breakdown for each item.

If you have any questions, please give me a call at (949) 830-4100.

Sincerely,
HERITAGE CONSTRUCTION

Dan Chasteen
President

ASSOCIATED PLASTICS
HANDICAP UPGRADES

SCOPE OF WORK

1. Install the new handicap access ramp per the drawings by Ware & Malcomb Architects. $15,000

2. Install (2) new handicap parking spaces and the striped path of entry. Include all new handicap signage at the new parking spaces and access ramp per the drawings by Ware & Malcomb Architects. $2,500

3. Revise the (2) existing restroom per the conceptual drawing to upgrade the restrooms to comply with current ADA requirements. $40,000

4. Install new ADA approved alarm system throughout the facility. $5,000

Total For All Improvements **$62,500.00**

SCOPE OF WORK: COST FOR PROPOSED ACCESSIBILITY UPGRADES

BASIS OF ESTIMATE

SITE VISIT CONDUCTED 9-22-99 AT THE SUBJECT PROPERTY

INCLUSIONS AND ASSUMPTIONS:

GENERAL
- CONTRACTOR'S GENERAL CONDITIONS (20%)
- CONTRACTOR'S OVERHEAD & PROFIT (15%)
- CONTINGENCY (5%)
- PERMITS & FEES (1%)

SITE WORK
- DEMOLITION OF DRIVEWAY A/C PAVING
- REMOVAL OF SELECTED LANDSCAPING AS NOTED
- WALKWAYS AND CURBS

TENANT IMPROVEMENT
- DEMOLITION AND DISPOSAL
- CONCEPTUAL STRUCTURAL UPGRADES
- EXTERIOR AND INTERIOR WALL REPAIR
- FLOOR & CEILING REPAIR
- DOOR & WINDOW REPAIRS AS NOTED
- FLOOR & WALL FINISH REPAIR
- TOILET ACCESSORIES
- CABINETRY & STORAGE AS NOTED
- PLUMBING UPGRADES / REPAIR
- HVAC REUSE
- ELECTRICAL REPAIRS

EXCLUSIONS:

OWNERS SOFT COSTS
- PROJECT MANAGEMENT FEES
- ARCHITECTURAL FEES
- DESIGN & ENGINEERING
- LAND & LEGAL COSTS
- OWNERS ANCILLARY COSTS

SITE WORK
- LANDSCAPING OTHER THAN NOTED
- IRRIGATION - OWNER RESPOSIBLE FOR IRRIGATION MARK OUT

FURNITURE FIXTURES & EQUIPMENT
- FURNITURE, FIXTURES AND EQUIPMENT OTHER THAN NOTED

HAZARDOUS MATERIALS
- HAZARDOUS MATERIALS ABATEMENT AND DISPOSAL
- OWNER RESPONSIBLE FOR TESTING AND NOTIFICATION OF ANY CONTAMINATED MATERIALS

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class C8 Lic. No. 298795 Date 10/13/99

Contractor Signature _____

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class B Lic. No. 298795 Date 1, 2000

Contractor Signature JM Edwards

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☑ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

Date 4/20/06 Owner Signature _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier _____

Policy Number _____

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

☑ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 4/20/06 Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES, AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,00), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lenders' Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

NOTES: _____

The Declarations below are mandated by the State of California under Section 19825 and Section 19826 of the Health and Safety Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class _____ Lic. No. _____ Date / /

Contractor Signature _____

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☒ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) licenses pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ B. & P.C. for this reason _____

Date 6/21/01 Owner Signature _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier _____

Policy Number _____

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

☒ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: 6/21/01 Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES, AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,00), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lenders' Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

REPORT: The facility has two inactive Permits to Operate for two gasoline storage and dispensing facilities (gasoline facilities).

I arrived at the facility address on 06/02/09 at 14:05 hrs to conduct an annual facility compliance inspection.

Laidlaw Transit Inc is no longer at this address.

The facility is now occupied by Student Transportation of America Inc.

I met Alfred Godinez, Shop Supervisor of Student Transportation of America Inc, (951) 509-0838 ext. 106, who explained me that the facility, a repair station for school buses, had been at this address for at least three years.

During the inspection I confirmed that the gasoline facilities had been removed.

I departed the facility address at 14:20 hrs.

Paolo Longoni, 06/02/09

PERMIT TO OPERATE

Permit No.
F40083
A/N 385629

This initial permit must be renewed ANNUALLY unless the equipment is moved, or changes ownership.
If the billing for annual renewal fee (Rule 301.f) is not received by the expiration date, contact the District.

Legal Owner
or Operator: PENSKE TRUCK LEASING CO., L.P.
P O BOX 7635
READING, PA 19603

ID 127979

Equipment Location: 1989 MASSACHUSETTS AVE, RIVERSIDE, CA 92507

Equipment Description:

Fuel Storage and Dispensing Facility Consisting of:

1) 1 - GASOLINE NOZZLE DISPENSING 1 PRODUCT, EQUIPPED WITH PHASE II VAPOR RECOVERY SYSTEM, BALANCE RETRACTOR (G-70-52-AM).

2) 1 - GASOLINE UNDERGROUND STORAGE TANK, 12,000-GALLON CAPACITY, EQUIPPED WITH PHASE I VAPOR RECOVERY SYSTEM (G-70-97-A), 1 METHANOL COMPATIBLE.

Conditions:

1. OPERATION OF THIS EQUIPMENT SHALL BE IN COMPLIANCE WITH ALL DATA AND SPECIFICATIONS SUBMITTED WITH THE APPLICATION UNDER WHICH THIS PERMIT WAS ISSUED, UNLESS OTHERWISE NOTED BELOW.

2. THIS EQUIPMENT SHALL BE PROPERLY MAINTAINED AND KEPT IN GOOD OPERATING CONDITION AT ALL TIMES.

3. EXCEPT FOR DIESEL TRANSFERS, PHASE I VAPOR RECOVERY SYSTEMS SHALL BE IN FULL OPERATION WHENEVER FUEL IS BEING TRANSFERRED INTO STORAGE TANKS.

4. EXCEPT FOR DIESEL TRANSFERS, PHASE II VAPOR RECOVERY SYSTEMS SHALL BE IN FULL OPERATION WHENEVER FUEL IS BEING TRANSFERRED INTO MOTOR VEHICLES, AS DEFINED IN RULE 461.

5. ALL PHASE I AND PHASE II VAPOR RECOVERY EQUIPMENT AT THIS FACILITY SHALL BE INSTALLED, OPERATED AND MAINTAINED TO MEET ALL CALIFORNIA AIR RESOURCES BOARD CERTIFICATION REQUIREMENTS.

6. PHASE II VAPOR RECOVERY SYSTEMS SHALL BE INSTALLED, OPERATED, AND MAINTAINED SUCH THAT THE MAXIMUM ALLOWABLE PRESSURE THROUGH THE SYSTEM INCLUDING NOZZLE, VAPOR HOSE, SWIVELS, AND UNDERGROUND PIPING DOES NOT EXCEED THE DYNAMIC BACK PRESSURES DESCRIBED BY THE CALIFORNIA AIR RESOURCES BOARD EXECUTIVE ORDER BY WHICH THE SYSTEM WAS CERTIFIED:

FILE COPY

CONTINUATION OF PERMIT TO OPERATE

NITROGEN FLOWRATES (CFH)	DYNAMIC BACK PRESSURE (INCHES OF WATER)
20	0.15
40	0.16
60	0.35
80	0.62
100	0.95

DYNAMIC BACK PRESSURE TESTS SHALL BE CONDUCTED TO DETERMINE THE PHASE II SYSTEM VAPOR RECOVERY BACK PRESSURES. THE TESTS SHALL BE CONDUCTED IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.4. RESULTS SHALL BE SUBMITTED TO THE DISTRICT, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN FORTY-EIGHT (48) HOURS OF TESTS.

THE AQMD SHALL BE NOTIFIED BY E-MAIL AT R461TESTING@AQMD.GOV OR AT TELEPHONE NUMBER (909) 396-3886 AT LEAST SEVENTY-TWO (72) HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE DYNAMIC BACK PRESSURE TEST.

7. A STATIC PRESSURE LEAK DECAY TEST SHALL BE CONDUCTED TO DEMONSTRATE THAT THE STORAGE TANKS, THE REMOTE AND/OR NOZZLE VAPOR RECOVERY CHECK VALVES, ASSOCIATED VAPOR RETURN PIPING AND FITTINGS ARE FREE FROM VAPOR LEAKS. THE TEST SHALL BE CONDUCTED IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.3. RESULTS SHALL BE SUBMITTED TO THE AQMD, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN FORTY-EIGHT (48) HOURS OF TEST.

THE AQMD SHALL BE NOTIFIED BY E-MAIL AT R461TESTING@AQMD.GOV OR AT TELEPHONE NUMBER (909) 396-3886 AT LEAST SEVENTY-TWO (72) HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE STATIC PRESSURE LEAK DECAY TEST.

8. IF THE CARB EXECUTIVE ORDER REQUIRES THE INSTALLATION OF A LIQUID REMOVAL DEVICE, A LIQUID REMOVAL RATE TEST SHALL BE CONDUCTED TO DEMONSTRATE THE REMOVAL OF GASOLINE FROM THE VAPOR PASSAGE OF THE COAXIAL HOSE. THE TEST SHALL BE CONDUCTED IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.6. RESULTS SHALL BE SUBMITTED TO THE AQMD, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN FORTY-EIGHT (48) HOURS OF TEST.

THE SCAQMD SHALL BE NOTIFIED BY E-MAIL AT R461TESTING@AQMD.GOV OR AT TELEPHONE NUMBER (909) 396-3886 AT LEAST SEVENTY-TWO (72) HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE LIQUID REMOVAL RATE TEST.

9. THE TESTING FREQUENCY FOR THE ABOVE MENTIONED TESTS SHALL BE CONDUCTED IN ACCORDANCE WITH THE MOST RECENT RULE 461 AMENDMENT OR CARB EXECUTIVE ORDER REQUIREMENTS, WHICHEVER IS MORE STRINGENT.

CONTINUATION OF PERMIT TO OPERATE

10. ALL RECORDS AND TEST RESULTS THAT ARE REQUIRED TO BE MAINTAINED BY RULE 461 SHALL BE KEPT ON SITE AND MADE AVAILABLE TO DISTRICT REPRESENTATIVES UPON REQUEST.

11. THE MAXIMUM QUANTITY OF GASOLINE DISPENSED FROM THE STORAGE TANKS AT THIS FACILITY SHALL NOT EXCEED 3,000 GALLONS IN ANY ONE CALENDAR MONTH NOR 36,000 GALLONS IN ANY ONE CALENDAR YEAR.

12. RECORDS OF MONTHLY AND ANNUAL FUEL DISPENSED SHALL BE PREPARED, SHALL BE RETAINED ON SITE FOR TWO YEARS, AND SHALL BE MADE AVAILABLE TO DISTRICT REPRESENTATIVES UPON REQUEST.

NOTICE

IN ACCORDANCE WITH RULE 206, THIS PERMIT TO OPERATE OR COPY SHALL BE POSTED ON OR WITHIN 8 METERS OF THE EQUIPMENT.

THIS PERMIT DOES NOT AUTHORIZE THE EMISSION OF AIR CONTAMINANTS IN EXCESS OF THOSE ALLOWED BY DIVISION 26 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA OR THE RULES OF THE AIR QUALITY MANAGEMENT DISTRICT. THIS PERMIT CANNOT BE CONSIDERED AS PERMISSION TO VIOLATE EXISTING LAWS, ORDINANCES, REGULATIONS OR STATUTES OF OTHER GOVERNMENT AGENCIES.

Subject: RE: New Public Records Request

Good afternoon,

After careful review of our records, we show we have no files for the following site:
2069 Massachusetts Ave, Riverside

Responsive electronic records for **1989 Massachusetts Ave, Riverside** can be found on GeoTracker using this link.

Responsive electronic records for **2626 Kansas Ave, Riverside** can be found on GeoTracker using this link.

We also show that we have Storm Water information for the following sites:
1989 Massachusetts Ave, Riverside
2626 Kansas Ave, Riverside
These records may be accessed online by:
• Clicking this link
https://smarts.waterboards.ca.gov/smarts/PublicDataAccess/PublicNoiSearch.xhtml
• Enter street number into ”Facility/Site Street:” Field
• Enter the site city (e.g. “Irvine”) into “Facility/Site City:” Field
• Click on black underlined links to view attachments

If we can be of further assistance, please do not hesitate to contact us again.

Thank you,

Waste Code Matrix as a spreadsheet

The Department of Toxics Substances Control (DTSC) takes every precaution to ensure the accuracy of data in the Hazardous Waste Tracking System (HWTS). However, because of the large number of manifests handled, inaccuracies in the submitted data, limitations of the manifest system and the technical limitations of the database, DTSC cannot guarantee that the data accurately reflect what was actually transported or produced.

Demographic Profile

EJSCREEN EJ Indexes

Eleven primary environmental justice (EJ) indexes of EJSCREEN, EPA's screening tool for EJ concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. The index values below are for the Census block group in which the facility is located. Note that use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJSCREEN provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJSCREEN home page.

Census Block Group EJ Indexes (percentile)	
Particulate Matter (PM 2.5)	91

Number of EJ Indexes Above 80th Percentile
11

Census Block Group EJ Indexes (percentile)	
Ozone NATA Diesel PM	92.7
NATA Air Toxics Cancer Risk	87.5
NATA Respiratory Hazard Index (HI)	88.4
Traffic Proximity	90.5
Lead Paint Indicator	95.1
Superfund Proximity	98.5
Risk Management Plan (RMP) Proximity	98.4
Hazardous Waste Proximity	96.4
Wastewater Discharge Proximity	95.3

Demographic Profile of Surrounding Area (3 Miles)

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2010 U.S. Census and 2006-2010 American Community Survey 5-Year Summary and are accurate to the extent that the facility latitude and longitude listed below are correct. EPA's spatial processing methodology considers the overlap between the selected radii and the census blocks (for U.S. Census demographics) and census block groups (for ACS demographics) in determining the demographics surrounding the facility. For more detail about this methodology, see the DFR Data Dictionary.

General Statistics	
Total Persons	98,912
Population Density	3,590/sq.mi.
Percent Minority	71%
Households in Area	30,203
Housing Units in Area	33,172
Households on Public Assistance	1,122
Persons Below Poverty Level	43,974

Geography

Demographic Profile

EJSCREEN EJ Indexes

Eleven primary environmental justice (EJ) indexes of EJSCREEN, EPA's screening tool for EJ concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. The index values below are for the Census block group in which the facility is located. Note that use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJSCREEN provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJSCREEN home page.

Census Block Group EJ Indexes (percentile)	
Particulate Matter (PM 2.5)	91
Ozone NATA Diesel PM	92.7
NATA Air Toxics Cancer Risk	87.5
NATA Respiratory Hazard Index (HI)	88.4
Traffic Proximity	90.5
Lead Paint Indicator	95.1
Superfund Proximity	98.5
Risk Management Plan (RMP) Proximity	98.4

Number of EJ Indexes Above 80th Percentile
11

View EJSCREEN Report

Census Block Group EJ Indexes (percentile)	
Hazardous Waste Proximity	96.4
Wastewater Discharge Proximity	95.3

Demographic Profile of Surrounding Area (3 Miles)

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility had negative impacts on public health or the environment. Statistics are based upon the 2010 U.S. Census and 2006-2010 American Community Survey 5-Year Summary and are accurate to the extent that the facility latitude and longitude listed below are correct. EPA's spatial processing methodology considers the overlap between the selected radii and the census blocks (for U.S. Census demographics) and census block groups (for ACS demographics) in determining the demographics surrounding the facility. For more detail about this methodology, see the DFR Data Dictionary.

General Statistics	
Total Persons	96,887
Population Density	3,524/sq.mi.
Percent Minority	70%
Households in Area	29,966
Housing Units in Area	32,920
Households on Public Assistance	1,093
Persons Below Poverty Level	42,165

Geography	
Radius of Selected Area	3 mi.
Center Latitude	33.98754
Center Longitude	-117.35448
Land Area	97%
Water Area	3%

Income Breakdown - Households (%)	
Less than $15,000	4,059 (13.85%)
$15,000 - $25,000	3,443 (11.75%)
$25,000 - $50,000	7,980 (27.23%)
$50,000 - $75,000	5,575 (19.03%)
Greater than $75,000	8,245 (28.14%)

Age Breakdown - Persons (%)	
Children 5 years and younger	6,840 (7%)
Minors 17 years and younger	23,228 (24%)
Adults 18 years and older	73,659 (76%)
Seniors 65 years and older	7,463 (8%)

Race Breakdown - Persons (%)	
White	48,752 (50%)
African-American	8,947 (9%)
Hispanic-Origin	47,085 (49%)
Asian/Pacific Islander	9,972 (10%)
American Indian	1,080 (1%)
Other/Multiracial	28,136 (29%)

Education Level (Persons 25 & older) - Persons (%)	
Less than 9th Grade	7,102 (13.7%)
9th through 12th Grade	5,252 (10.13%)
High School Diploma	12,707 (24.52%)
Some College/2-year	14,092 (27.19%)
B.S./B.A. (Bachelor of Science/Bachelor of Arts) or More	12,668 (24.45%)

Subject: Status Summary of New Basis and STA Properties
2626 Kansas Avenue and 1989 Massachusetts Avenue
Riverside, California 92360
Project Number SM16-113770

Dear Mr. Staley:

Presented below is a summary of the investigations and remediation performed at both the New Basis property (New Basis), located at 2626 Kansas Avenue, and the Student Transportation of America (STA) property located at 1989 Massachusetts Avenue, in Riverside, California. Oversight of the investigation and remediation of both of these properties is currently under the Santa Ana Regional Water Quality Control Board (SARWQCB).

General Background

Magellan acquired the property in 2013. Representatives of Partner Engineering and Science (Partner) and Pam Andes, an environmental attorney from Allen Matkins, have continued to lead the effort to obtain closure.

Environmental investigations were initiated by Magellan. Magellan entered into a voluntary cleanup agreement with the SARWQCB in January 2015.

Multiple soil and soil vapor investigations detected trichloroethylene (TCE) and tetrachloroethylene (PCE) in soil and soil vapor.

Indoor air sampling has been performed in all on-site buildings and concentrations of PCE and TCE are below regulatory screening criteria for commercial property. Therefore, the presence of these compounds in subsurface soil vapor does not present an exposure risk to occupants.

Eight groundwater monitoring wells have been installed to monitor groundwater. Although groundwater concentrations exceed California Maximum Contaminant Levels for both PCE and TCE, Partner does not believe that groundwater remediation would be required by SARWQCB because the properties are located in a densely industrial area where regional groundwater quality is impacted by several other releases. Groundwater moves in a south-southwesterly direction. Moreover, the Luxfer property to the immediate south at 3016 Kansas Avenue/1995 Third Street received an NFA for groundwater in 2011. Luxfer received a soil NFA in 2009. PCE and TCE concentrations in groundwater were considerably higher than the PCE and TCE concentrations detected in groundwater on the STA and New Basis parcels. No groundwater cleanup was required on this property by SARWQCB.

Throughout the period of Magellan's ownership, there have been two tenants on the property (each on separate parcels): STA and New Basis. Although the investigation of these parcels has been coordinated, the issues and goals were different.

STA Parcel

- STA provides school bus transportation for local school districts. STA stores and maintains their buses on the property.
- Bus maintenance operations historically included a facility to wash buses which also included a clarifier to safely capture the cleaning solvents used in the process.
- Investigations ultimately concluded that leaks from the clarifier were the likely source of the PCE/TCE contaminants found in the soil and soil vapor. The clarifier and contaminated soil were removed in 2018 and a Soil Vapor Extraction System (SVE) was installed in December 2019.
- To date, TCE / PCE levels in soil vapor have been reduced by 78% (from a total of 780,000 micrograms per kilogram (ug/kg) to 166,000 micrograms per kilogram).
- Partner expects to operate the system for at a minimum one more year, and at a maximum three more years, before applying for an NFA. The estimated budget and schedule are itemized below:
    - Best Case: Operation of the SVE for one year, including monthly operation, maintenance, and semi-annual groundwater monitoring. PCE and TCE concentrations reach asymptotic concentrations where vapor removal has been maximized and the SVE system can be discontinued. Confirmatory soil vapor sampling verifies significant reduction in vapor concentrations to SARWQCB satisfaction. SVE system is removed and a summary report is prepared for submission to SARWQCB.
      Estimated cost $250,000.
    - Worst Case: Operation of SVE system continues for approximately three years and continued semi-annual groundwater monitoring until concentrations are reduced to LARWQCB satisfaction. Estimated cost $350,000 to $450,000.

New Basis Parcel

- New Basis manufactures underground vaults for utility providers such as Southern California Edison.
- As part of Magellan's overall site assessment, three groundwater monitoring wells were installed on the New Basis parcel in 2016.
- Chlorinated solvents were detected in the upgradient wells indicating an upgradient offsite source.
- Soil and vapor investigations have not detected a source on the New Basis parcel.
- Based on the available data, Partner requested a No Further Action letter (NFA) on March 16, 2020 from the SARWQCB.
- In its preliminary verbal response, the SARWQCB acknowledged that we are close to an NFA for the New Basis property. They have suggested consideration for issuing a "Conditional NFA" subject to further corroboration that there are no sources on the New Basis parcel.

- To provide this further corroboration, Partner recommends six additional vapor probes on the New Basis parcel between the New Basis manufacturing building and monitoring well MW-8. Groundwater sampling of existing wells is also recommended.
- To complete this additional testing, and to respond to the SARWQCB, Partner proposes the following and anticipates this range of outcomes from a schedule and budget perspective:
    - Best Case: Advancement of six borings and collection of soil and soil vapor samples that confirm that there is no apparent source of TCE/PCE located on-site. Collection of one round of groundwater sampling from all on-site monitoring wells. Preparation of investigation summary report and update to NFA request. Estimated cost $50,000 to $75,000.
    - Worst Case: Soil investigation identified an on-site source and further investigation or soil vapor and/or groundwater monitoring or soil vapor remediation are required by SARWQCB. Estimated cost $150,000 to $300,000. Note that Partner considers the worst case scenario unlikely as the New Basis parcel has been investigated via soil, soil vapor, groundwater and indoor air and a source has not been found.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 08/27/2024 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of Federal sites subject to CERCLA removals and CERCLA orders

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 07/24/2024 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/24/2024 has revealed that there are 2 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/03/2024 has revealed that there are 4 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/03/2024 has revealed that there are 12 RCRA-SQG sites within approximately 0.25 miles of the target property.

Federal ERNS list

ERNS: The Emergency Response Notification System records and stores information on reported releases of oil and hazardous substances. The source of this database is the U.S. EPA.

A review of the ERNS list, as provided by EDR, and dated 06/11/2024 has revealed that there is 1 ERNS site within approximately 0.001 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/22/2024 has revealed that there are 18 ENVIROSTOR sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 5 CPS-SLIC sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 37 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FTTS: FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act) over the previous five years. To maintain currency, EDR contacts the Agency on a quarterly basis.

A review of the FTTS list, as provided by EDR, has revealed that there is 1 FTTS site within approximately 0.001 miles of the target property.

Docket Number:: EPCRA09990011				
Close Date:: / /				

HIST FTTS: A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

A review of the HIST FTTS list, as provided by EDR, has revealed that there is 1 HIST FTTS site within approximately 0.001 miles of the target property.

US AIRS: The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

A review of the US AIRS list, as provided by EDR, has revealed that there is 1 US AIRS site within approximately 0.001 miles of the target property.

Database: MINES VIOLATIONS, Date of Government Version: 07/01/2024				

ABANDONED MINES: An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

A review of the ABANDONED MINES list, as provided by EDR, and dated 06/13/2024 has revealed that there is 1 ABANDONED MINES site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 08/13/2024 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 07/01/2024 has revealed that there are 6 PFAS ECHO sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 13 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

HWTS: DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

A review of the HWTS list, as provided by EDR, and dated 07/19/2024 has revealed that there are 3 HWTS sites within approximately 0.001 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2023 has revealed that there are 3 HAZNET sites within approximately 0.001 miles of the target property.

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

A review of the CERS list, as provided by EDR, and dated 07/10/2024 has revealed that there are 4 CERS sites within approximately 0.001 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

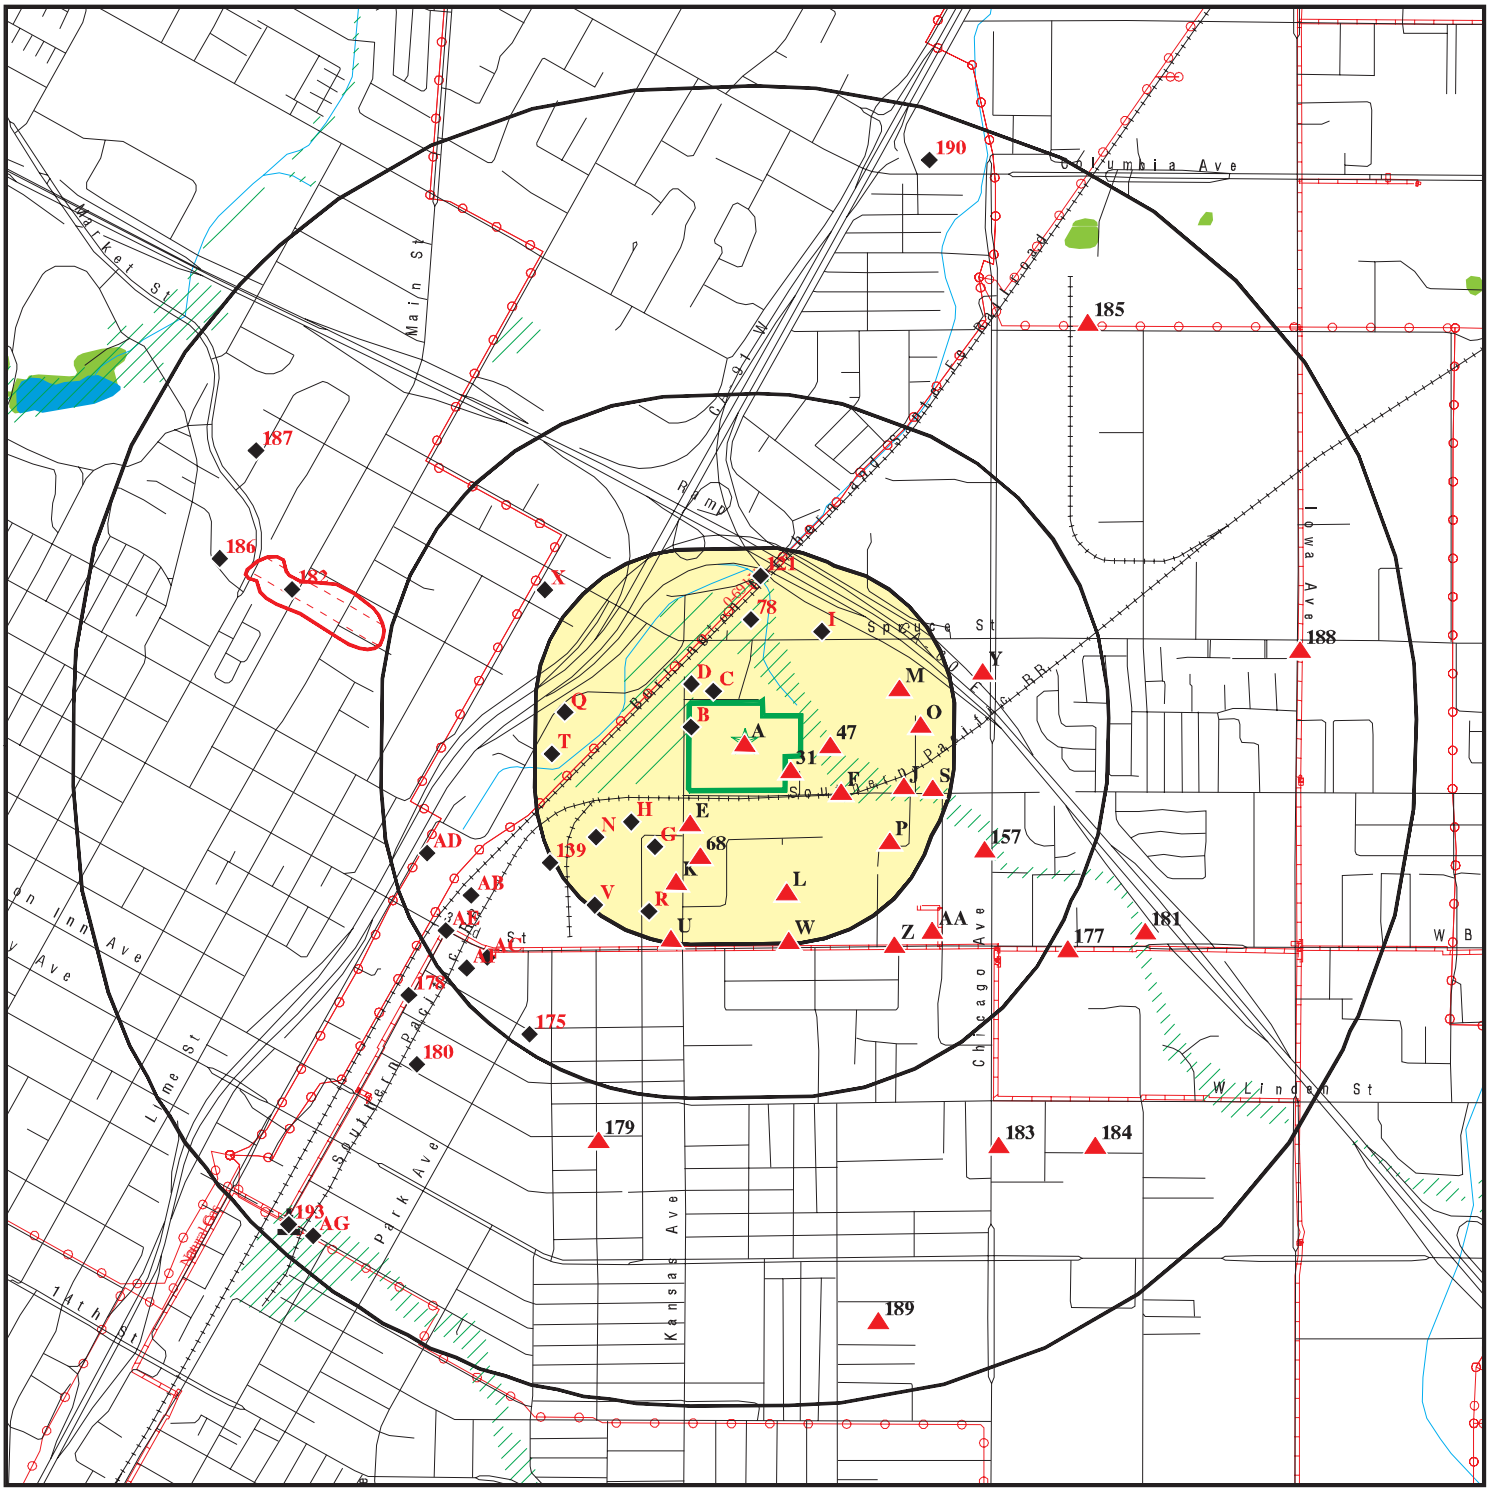
EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
RIVERSIDE GAS AND EL	3084 E. 10TH STREET	SW 1/2 - 1 (0.961 mi.)	193	1267

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.



A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-06-2015
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Staff inspected the site on 8-6-15 to determine compliance with the new IGP. The site has been recertified, however, the SWPPP is missing from attachments in SMARTS. Ms. Rebecca informed the staff that the SWPPP is being revised by a consultant and it will be uploaded to SMARTS by August 14th deadline. Therefore SWPPP was not available for review. School buses are repaired and rehabilitated on site. The site is equipped with two clarifiers and they are pumped on a routine basis. The clarifier and the wash rack it serves are not operating. The other clarifier is located adjacent to the bus repair bays. Records on clarifier pumping is up-to-date. Couple areas showed indication of oil and grease on the parking lot. Staff informed the discharger that these areas must be cleaned up and house keeping should be improved. The discharger immediately informed the site personnel to clean the areas. The drainage from the site flows to the corner of the facility and enters into the adjacent property where there is a storm drain. Overall, the site is in good condition, but house keeping needs improvement.
Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violation Source:	CERS,
Site ID:	71875
Site Name:	Student Transportation of America - Riverside
Violation Date:	11-03-2023
Citation:	40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31
Violation Description:	Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.
Violation Notes:	OBSERVATION: Observed liquid and debris in secondary containment pallets. CORRECTIVE ACTION: Owner/operator shall maintain secondary containment pallets free of liquid and debris, and manage according to Title 22 hazardous waste regulations. Photos can be sent via the following means: email: rsgarcia@rivco.org / fax: 951-791-1778; or I can stop by and review in-person.

Citation:	40 CFR 1 265.201(c)(5) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.201(c)(5)
Violation Description:	Failure to inspect hazardous waste tanks for the following, when present: 4) The construction materials of the tank at least weekly to detect corrosion or leaking of fixtures or seams. 5) The construction materials of, and the area immediately surrounding, discharge confinement structures (e.g., dikes) at least weekly to detect erosion or obvious signs of leakage (e.g., wet spots or dead vegetation).
Violation Notes:	OBSERVATION: Observed that weekly inspections of hazardous waste storage areas are occurring however, deficiencies observed are not being corrected. Specifically, spent absorbent socks lining the base of used oil tank were observed. CORRECTIVE ACTION: Owner/operator shall correct any deficiencies observed during weekly hazardous waste storage area inspections. Photos of cleaned area can be sent via the following means: email: rsgarcia@rivco.org / fax: 951-791-1778; or I can stop by and review in-person.

Summary Details:

Conditions at Proposal July 27, 2000): The Alark Hard Chrome site occupies approximately 0.25 acre in a light industrial area of the city of Riverside. An electroplating shop operated on site from 1971 to 1985. Eighteen open plating tanks werehoused in the front and middle rooms of the shop. The tanks were set directly on the ground in cut outs in the concrete floor. As metal parts were lifted out of each tank, the plating solution would drip and spill onto the floor and into the 3-inch to 5-inch gap between the tank and the floor. Plating solutions were also allegedly discharged directly into a 4-foot wide by 40-foot deep pit located in the middle room. Water from washdowns in the plating areas flowed into three floor drains that were routed to a 500-gallon underground holding tank located outside the rear of the building. The back room of the shop housed grinders and polishers. During a 1982 investigation of the site, personnel from the Riverside County Departmentof Health observed pools of chemicals outside the back door of the shop. In 1985, the owners of Alark Hard Chrome ceased operations and took the plating tanks off site. The underground holding tank was also taken off site sometime in the mid-or late-1980s. In 1990 and 1991, a contractor to the California Environmental Protection Agency, Department of Toxic Substances Control DTSC) conducted a subsurface soil investigation at the site. One hundred three 103) soil samples were collected from 24 boreholes drilled to depths ranging from 7.5 feet below ground surface bgs) to 60 feet bgs. Analytical results indicated the presence of total chromium and hexavalent chromium at concentrations up to 4,380 milligrams per kilogrammg/kg) and 1,100 mg/kg, respectively, to depths of at least 40 feet bgs in the middle room, 15 feet bgs in the back room, and 20 feet bgs adjacent to the former underground holding tank and outside the back door. Cadmium, cyanide, and nickel were also detected at elevated concentrations, but at fewer sample locations. In 1994, a contractor to DTSC excavated 1,207.73 cubic yards of contaminated soil from a 26-foot wide by 30-foot long area in the middle room to depths ranging from 27 to40 feet bgs. Post-excavation sampling results, as well as the 1990 and 1991 sampling results, indicate that contaminated soil is still present beneath the excavated area in the middle room and in other areas of the site. Ten ground water monitoring wells have been installed in the vicinity of the site. Analytical results from a 1995 DTSC sampling event indicated the presence of total chromium and hexavalent chromium at concentrations up to 0.21 milligrams per liter mg/l) and 0.27 mg/l, respectively, in the two monitoring wells located within 20 feet of the middle room of the shop. These two wells are screened in alluvial deposits. Eighteen municipal drinking water wells, which draw ground water from the Riverside basin alluvial deposits, are located within 4 miles of the Alark Hard Chrome site. Surface runoff from the site enters a storm drain system that discharges into Springbrook Channel approximately 0.5 mile northwest of the site. The channel terminates in adiversion dam at Fairmount Lake, approximately 200 feet downstream of the discharge point. During periods of heavy rainfall, the flow in Springbrook Channel exceeds the capacity of the diversion dam, resulting in storm drain water flowing from thechannel into Fairmount Lake. In 1992, a contractor to the U.S. Environmental Protection Agency EPA), collected sediment samples from Springbrook Channel and Fairmount Lake. Total chromium was detected at concentrations of 6.5 mg/kg in the samplecollected from the channel 300 feet upstream of the discharge point and 28.7 mg/kg in the sample collected from

ALARK HARD CHROME (Continued) **1000857231**

Fairmount Lake. Fairmount Lake flows into Lake Evans. Both are urban fishing lakes that are stocked with trout and catfish by the California Departmentof Fish and Game. Status December 2000): EPA is considering various alternatives for this site. The description of the site release) is based on information available at the time the site was evaluated with the HRS.The description may change as additional information is gathered on the sources and extent of contamination. See 56 FR 5600, February 11, 1991, or subsequent FR notices. For more information about the ha ardous substances identified in thisnarrative summary, including general information regarding the effects of exposure to these substances on human health, please see the Agency for Toxic Substances and Disease Registry ATSDR) ToxFAQs. ATSDR ToxFAQs can be found on the Internet at http://www.atsdr.cdc.gov/toxfaq.html or by telephone at 1-888-42-ATSDR or 1-888-422-8737.
