Re: State Clearinghouse No. 2024121132, Changes to the Notice of Intent to Adopt a Negative Declaration for the Williams Electric Vehicle and Low Carbon Fuels Center Project

To Whom It May Concern:

The City of Williams respectfully requests that the State Clearinghouse post an amended Notice of Intent to Adopt a Negative Declaration for the Williams Electric Vehicle and Low Carbon Fuels Center Project (SCH 2024121132), along with other documents affected by the changes in the Notice (NOC and Summary Form). The City website address provided in the original Notice of Intent is no longer working, and the City has been unable to redirect the public to the new address. Therefore, the City is republishing an Amended Notice of Intent with the new project website address and an extended review period as follows:

From (Original Distribution Dates): December 24, 2024 - January 23, 2025

To (Proposed Distribution Dates): December 24, 2024 - February 5, 2025

The CEQAnet form field for the project description, as well as the Summary Form and Notice of Completion also contain the old website address. We would also like to correct these if possible, and the Summary Form and Notice of Completion are attached to this letter.

Please feel free to email me with any questions. I am available at kramsaur@cityofwilliams.org.

Sincerely,

Katheryn Ramsaur
