Subject:

Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resource Code.

Contact Person: Kelly White, Environmental Planner	Telephone No: (408) 630-2840	State Clearinghouse No: 2024121116
Project Title: Vasona Pump Station Upgrade Project		
Project Applicant: Santa Clara Valley Water District (Valley Water)		
Project Location: Vasona Pump Station, 14545 Oka Road, Los Gatos, CA 95032		
Project Description: The Vasona Pump Station (VPS) Upgrade Project would modernize major equipment at the VPS that has reached the end of its useful life, improve the operational reliability and flexibility of Valley Water's water supply system, and meet projected future demand for treated water. The future demand for treated water is based on the growth approved by the local jurisdictions and presented in their adopted General Plans. Existing booster pumps, flow meters, motor controls, a pad-mounted electrical transformer, electrical power distribution and control systems, and telemetry equipment would be replaced and upgraded. A new diesel standby generator and aboveground diesel storage tank with double containment would be installed within a noise-attenuating enclosure. All improvements would occur within previously developed areas, with the majority of the improvements being installed indoors inside of existing structures. Construction would occur 8AM to 6PM Monday through Friday and is anticipated to take 18 months to complete. Although the exact timing is still unknown, most likely, construction would be broken down into three 6-month phases, with each phase occurring sometime between October and April.		

This is to advise that the Santa Clara Valley Water District, acting as a Lead Agency Responsible Agency], has approved the above described project on February 10, 2026, and has made the following determinations regarding the above described project:

- The project will will not] have a significant effect on the environment.
- An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
- Mitigation measures were were not] made a condition of the approval of the project.
- A mitigation reporting or monitoring program was was not] adopted for this project.
- A statement of Overriding Considerations was was not] adopted for this project.
- Findings were were not] made pursuant to the provision of CEQA.

This is to certify that the final Mitigated Negative Declaration with comments and responses and record of project approval is available to the General Public at:
