RECOMMENDATION REPORT FOR RETAIL WITH ON-SITE SALES COMMERCIAL CANNABIS LICENSE

Pursuant to Los Angeles Municipal Code (LAMC) Section 104.06, the following application for commercial cannabis activity is complete and the Department of Cannabis Regulation (DCR) has determined the Applicant meets the requirements for the issuance of an Annual License for the commercial cannabis activity listed below. DCR recommends that the Cannabis Regulation Commission approve the issuance of an Annual License. DCR also has determined this project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to the Class 1 and Class 32 categorical exemptions.

DCR Core Record No.:	100020

Environmental Analysis/Clearance: ENV-100020-ANN	Notice of Exemption pursuant to the Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332)

BACKGROUND:

The Business Premises is located at 7040 N. Hayvenhurst Avenue, Van Nuys, CA 91406, a parcel zoned for Limited Manufacturing purposes. The Applicant was issued Temporary Approval by DCR with an effective date of August 22, 2018. Since that time, the Applicant has completed all requirements for the issuance of an Annual License in accordance with LAMC Section 104.06. The Applicant currently possesses a State provisional License, C12-0000092-LIC, to conduct Retail with on-site sales Commercial Cannabis Activity, which is active through June 21, 2025. The Applicant is not subject to the requirements of LAMC Section 104.20 for the Social Equity Program.

DEPARTMENT ANNUAL LICENSING RECOMMENDATION:

DCR recommends approving the Annual License for the Applicant based on the following factors:

- The Applicant has met the Application requirements under LAMC Section 104.03.
- The Business Premises location meets the requirements under LAMC Section 105.02.
- The Application does not contain any grounds for denial under LAMC Section 104.04.

COMMUNITY INPUT:

On or about September 4, 2024, DCR provided notice of the community meeting and Cannabis Regulation Commission meeting by mail to the owners and occupants of all property within 700 feet of the property line of the Business Premises. Notice was also provided to the nearest Neighborhood Council, Business Improvement District, and Council Office.

The virtual community meeting was held on September 26, 2024. During the meeting, members of the public were afforded two minutes each to speak about the Application. DCR also accepted online written input through the date of the community meeting. DCR did not receive oral or written testimony for this Applicant.

Number of Comments In Favor of the Application	0
Number of Comments Against the Application	0
Total Number of Comments	**0**

The Applicant provided timely proof to DCR that it contacted the nearest Neighborhood Council and offered to appear before the Neighborhood Council in accordance with LAMC Section 104.06(b)(1)(ii).

COMPLAINT PORTAL REVIEW:

In September 2018 and again in April 2020, DCR received complaints, alleging the location is unlicensed. Temporary Approval was issued on August 22, 2018, thus both complaints have been closed.

COMPLIANCE REVIEW:

As part of its progressive enforcement strategy, DCR performs compliance checks and/or inspections of Applicants and Licensees for operational compliance under the Rules and Regulations for Cannabis Procedures (“Regulations”). There are at least 85 potential violations in the Regulations. For most of these violations, DCR’s compliance program aims to provide Licensees with the opportunity to cure before facing significant penalties, denial, suspension, or revocation. DCR’s discovery of violations of the Regulations may result in a Notice to Correct (“NTC”), Notice of Violation (“NOV”) with administrative penalties, Notice of Suspension (“NOS”), Notice of Revocation (“NOR”), or Notice of Administrative Hold, depending on the severity of the findings. (LAMC § 104.13.)

In most circumstances, when a violation is discovered, DCR’s first step is to issue a NTC. If, after the issuance of a NTC, an applicant does not correct violations, DCR may issue a NOV with significant administrative penalties. (LAMC § 104.013(c)(2).) Failure to comply with a NOV may result in a second escalating NOV, denial of a License renewal, imposition of more restrictive License conditions or suspension or revocation of a license. (LAMC §§ 104.13(d)(5), 104.13(e)(2).) DCR may also immediately suspend a business without a hearing if there is an imminent threat to life or public safety, the Applicant operates without all necessary permits or clearances from another agency, or the Applicant does not have an active State license for that Commercial Cannabis Activity.

For this Applicant, DCR performed a compliance check of the Business Premises on or about October 9, 2024. During the compliance check, DCR discovered a number of violations, including:

1. **Regulation 5(A)(1)(viii) - Use of DBA.** "Lemonade" is not registered as a Fictitious Business Name (FBN) or DBA with DCR. (VT Minor)

2. **Regulation No.5(A)(3)(i) - No Physical Changes without Approval.** Current business premises layout is not accurately reflected on the Business Premises Diagram: Rooms are incorrectly labeled, doors have been removed, and camera placement on site does not match diagram. (VT Moderate)

3. **Regulation 5(A)(4)(i)(C) - Security Measures.** There was a discrepancy with the video surveillance timestamp. The time displayed was approximately 60 minutes behind the actual time. Additionally, the surveillance media storage device is not in a locked box and is located in a room, with no door. (VT Moderate)

4. **Regulation 5(C)(9) - Product Inventory and Sales.** There were inventory discrepancies in the track and trace system (Metrc). According to Metrc, there should be a total count of 51 'Georgia Peach' High Tea beverages on-site; however, 45 'Georgia Peach' High Tea beverages were identified on the retail sales floor. (VT Minor)

The Licensee's representative was debriefed by DCR following the inspection and was informed of the deficiencies found.

The Applicant has 30 days to correct the violations and/or deficiencies listed in the NTC. DCR anticipates the Applicant will continue to be forthcoming and cooperative, but reserves the right to take escalating enforcement action, if necessary. The Licensee's representative was debriefed by DCR following the inspection and was informed of the deficiencies found.

Therefore, it is DCR's position that this compliance check did not reveal any serious concerns that impacted DCR's ability to recommend this Applicant for licensure. The violations may be remedied within 30 days without jeopardizing public safety. Moreover, this Applicant shall be subject to multiple, further inspections by DCR and other agencies prior to the receipt of an Operating Permit.

THERE ARE NO EXISTING REASONS TO DENY AN ANNUAL LICENSE:

DCR or the Cannabis Regulation Commission may deny an Annual Application for the reasons stated in LAMC section 104.04. These denial reasons include, but are not limited, to:

- The Business Premises is substantially different from the diagram of the Business Premises submitted by the Applicant or Licensee;
- Denying DCR employees or agents access to the Business Premises;
- Procuring a License by fraud or deceit, making a material misrepresentation, false statement, or knowingly failing to disclose a material fact;
- Failing to timely to provide DCR with requested information, forms or documents;
- Denial of a license, permit or other authorization to engage in Commercial Cannabis Activity by any state or other local licensing authority;
- Creation a significant public safety problem as documented by a law enforcement agency;
- Failure to adhere to the requirements of this article or the Rules and Regulations;
- Engaging in unlicensed Commercial Cannabis Activity in violation of Section 104.15;
- Revocation of Temporary Approval;
- Failing a Business Premises inspection by DCR, another City agency, or the Los Angeles County Department of Public Health; or
- The Business Premises was the site of a utility disconnect, padlocking or certain criminal convictions for a period of 5 years from the date of the conviction, padlock or disconnect;
- Improper zoning or distancing of the Business Premises from Sensitive Uses under LAMC Section 105.00 *et seq*.;
- An Owner is an individual who holds office in, is employed by any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity; and,
- An Owner is an entity incorporated outside of the United States.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04. Thus, DCR recommends the Commission approve the issuance of this Annual License.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:

The Applicant seeks conversion of an existing Retail Storefront (Type 10) Temporary Approval to an Annual License to be located on an existing site zoned for Limited Manufacturing, M1-1 at 7040 N. Hayvenhurst Avenue, Van Nuys, CA 91406 (Assessor's Parcel Number 2224-017-008). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states that existing structures will remain with no expansion proposed (Exhibit A). Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Operations would be seven days per week from 8:00 a.m. to 10:00 p.m. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (Exhibit A). Compliance with Los Angeles Municipal Code Sections 104.00 *et seq*. and 105.00 *et seq*., as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

CEQA PROJECT ANALYSIS & FINDINGS:

Land Use/Zoning Designations
Limited Manufacturing/M1-1

Surrounding Land Use/Zoning Designations
Light Manufacturing / [T][Q]M2-1VL

Subject Property
The subject site is a fully developed lot within the Reseda - West Van Nuys Community Plan Area. The lot is approximately 285.4 feet deep and a width of 100 feet along Hayvenhurst Avenue. The site is currently developed with a Commercial - Office Building - One Story building, built in 1975 proposed to be maintained.

The site has a Limited Manufacturing land-use designation and is zoned M1-1. The site is located within Council District 6, Lake Balboa Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

Abutting Properties
Abutting uses include commercial and light manufacturing uses within 200 feet of the site. The immediate area along Hayvenhurst Avenue is predominantly developed with Light Manufacturing uses, zoned [T][Q]M2-1VL. (See Exhibit A)

CEQA Findings

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

a) The site is comprised of one lot totaling approximately 28,701 gross square feet, zoned M1-1 with a Commercial - Office Building - One Story building originally constructed in 1975. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 28,701 gross square foot property (i.e., less than five acres), and is substantially surrounded by urban uses. The surrounding area is zoned Light Manufacturing, and developed with a mix of commercial and light manufacturing buildings along Hayvenhurst Avenue between Hart Street and Sherman Way.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the “Cortese List,” as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION RECOMMENDED ACTIONS:

That the Cannabis Regulation Commission:

1. Determine, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approve the Annual License for Type 10 Storefront Retail Commercial Cannabis Activity at the Business Premises location; and,
3. Adopt DCR's Project Analysis & Findings as the Commission's report on the subject.

CEQA Exemption Petition

Class: 1 and 32 Category: Existing Facilities and In-Fill Development Projects

Explanation of how the project fits the CEQA exemption indicated above:

The project consists of an existing commercial cannabis business that engaged in commercial cannabis activity prior to January 1, 2018. The site is entirely developed with buildings and hardscape features. The project may involve minor modifications to an existing building and site, consisting of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements, and no demolition of buildings or other features is proposed. The project is consistent with the general plan designation, all applicable general plan policies, and zoning designation and regulations for commercial cannabis activity at the site. The site is entirely developed with buildings and hardscape features within the limits of the City of Los Angeles and is substantially surrounded by urban uses. The project site is served by required utilities and public services available within the limits of the City of Los Angeles. The project may involve minor modifications to an existing building and site, consisting of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements, and no demolition of buildings or other features is proposed.

1. **Source(s) of Information:** Identify Sources: *Indicate the document(s) or other sources of information reviewed to complete this form.*

City of Los Angeles Zone Information and Map Access System ("ZIMAS"); property records; Department of Cannabis Regulation application for a commercial cannabis license.

2. **Project Location and Surrounding Land Use.**

(a) Describe Project Location: *Provide detailed information about the project location and any other physical description that clearly indicates the project site location.*

7040 Hayvenhurst Ave, Los Angeles, California, Los Angeles County; APN: 2224017008; Vanowen St.; Limited Manufacturing; M1-1.

(b) Existing Land Uses/Zoning: *Describe the current land uses on the project site and any existing buildings and structures. Describe the surrounding land uses and zoning designations within a one-half mile radius of the project and list all abutting land uses.*

Abutting Land uses: M1 (Limited Manufacturing) and M2 (Light Manufacturing).
One-Half Mile Land Uses: M1 (Limited Manufacturing) and M2 (Light Manufacturing), R2 (Low-Medium Residential), R1 (Low Residential), C2 (Commercial), R3 (Medium Residential), A1 (Open Space).

(c) Previous Use: Describe the previous use of the Project site or facility, if known. Include an estimate of the time such previous operations ceased, if such information is available.

Ambulance Dispatch Center. Unknown time of operations.

(d) Was the site previously used for a similar use? The key consideration is whether the project involves negligible or no expansion of an existing use.

Yes, a similar industrial use.

(e) Maps to be Included: *Provide a vicinity map and aerial image to show the project location. Include photographs, not larger than 8½ by 11 inches, of existing visual conditions as observed from publicly accessible vantage point(s).*

3. **Project Operations/Description.** Provide the following information about project operation and maintenance activities. If more than one type of cannabis activity is occurring on-site, provide a description of the project operations for each activity. This should include the following relevant information.

(a) Activities Occurring Onsite: *Describe the activities included in the project application and identify any other commercial cannabis activity or activities occurring at the proposed premises, including other proposed cannabis activities occurring on the property. Describe the cannabis business operation methods and activities (e.g. cultivation methods, manufacturing and/or distribution operations).*

The commercial cannabis activities occurring at the premises include adult-use and medicinal storefront retail with delivery, distribution, cultivation, and manufacturing. Retail activities include the sale and delivery of cannabis products to retail customers. Distribution activities include the packaging, labeling and wholesale distribution of cannabis products.

(b) Cannabis Operation Activities Owned by the Same or Different Businesses: *Describe any additional cannabis operation activities existing or proposed either owned by the same or different businesses on the property.*

None.

(c) Project Size: *Quantify the project size (total floor area of the project), and the lot size on which the project is located, in square feet.*

The lot size is 28,701 square feet. The project size is 13,278 square feet.

(d) State License: *Identify whether the applicant is licensed by, or has applied for licensure from, the California Department of Cannabis Control to engage in commercial cannabis activity at the proposed premises.*

Yes, it is licensed.

(e) Hours of Operation/Work Shifts: *Identify the hours of operation/work shifts for the project.*

Hours of operation are Monday to Sunday, 8 am to 10 pm. There are two shifts:
8am to 3pm
and 3pm to 10pm.

(f) Number of employees (total and by shift): *Estimate the number of anticipated employees onsite and occupancy during operating hours.*

There are 4 employees onsite during the day shifts and 4 employees onsite during the evening shifts. Total occupancy during operating hours is approximately 6 people.

(g) Estimated Daily Trip Generation: *Estimate the frequency of deliveries or shipments originating from and/or arriving to the project site. Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.*

Frequency of deliveries and transportation activity at the site will be typical of any retail and industrial use. Shipments of inventory will be Monday to Friday from 8am to 6pm. Retail deliveries will be occurring during business hours.

(h) Source(s) of Water: *Name all sources of water, and indicate whether a new or amended water right must be obtained from the State Water Resources Control Board.*

Water source for the project site is the Los Angeles Department of Water and Power. The daily water usage is similar to other cannabis businesses and will be about 1500 gallons a day. No new or amended water right needs to be obtained from the State Water Resources Control Board.

(i) Wastewater Treatment Facilities: *Describe the facilities for treatment of wastewater (e.g., leach field, City wastewater collection facilities).*

Los Angeles Department of Sanitation. The facility does not utilize any other wastewater treatment system.

4. Environmental Setting:

(a) Describe natural characteristics on the project site:

Surrounding urban area and flat land.

(b) General Topographic Features (slopes and other features):

Largely flat land in an urban setting.

(c) Natural characteristics (general vegetation types, drainage, soil stability, habitat, etc.):

No notable natural characteristics.

(d) Identify whether there are any watercourses and riparian habitats within 150- feet of the proposed premises (e.g., drainage swales, stream courses, springs, ponds, lakes, creeks, tributary of creeks, wetlands):

There are no watercourses nor riparian habitats within 150-feet of the premises.

(e) Identify whether the property contains natural features of scenic value of rare or unique characteristics (e.g., rock outcroppings, mature trees):

None.

(f) Identify whether the property has any historic designations or archeological remains onsite:

There are no cultural or historical designations. This project will not involve any major construction or excavation.

(g) Identify whether the property contains habitat for special status species:

None.

(h) Identify the location, type, and quantity of hazardous materials, as defined by Health and Safety Code section 25260, that are stored, used, or disposed of at the project site and a copy of the Hazardous Material Business Plan (HMBP) prepared for the proposed premises, if any:

There are no hazardous materials stored, used, or disposed of at the project site.

(i) Discuss whether the project will increase the quantity and type of solid waste, as defined by Public Resources Code section 40191, or hazardous waste, as defined by Health and Safety Code section 25117, that is generated or stored onsite:

The Project will not increase the quantity and type of solid waste or hazardous waste, that is generated or stored onsite. No hazardous waste will be generated or stored on site and the amount of solid waste generated will be minimal.

(j) Describe the project's anticipated operational energy needs, identify the source of energy supplied for the project and the anticipated amount of energy per day, and explain whether the project will require an increase in energy demand and the need for additional energy resource:

The energy for the project is supplied by Los Angeles Department of Water and Power. The anticipated amount of energy used per day is approximately 2,500 kWh, which is similar to other cannabis businesses. Applicant does not expect an increase in energy demand or need for additional energy resources.

5. Explain whether any of the project activities will expand the existing footprint of the proposed facility beyond the current structural or parcel boundaries, increase the amount of impervious surface, or reduce any natural habitat. If the project is part of a larger project, attach a separate sheet to briefly describe the larger project.

N/A.

6. Environmental Commitments: *List any environmental commitments agreed to by the applicant to the protection of biological or cultural resources, energy efficiency, water efficiency, noise abatement, lighting, or other aspects of the project that may reduce impacts on the environment.*

Applicant will develop and implement an Odor Management Plan ("OMP") to mitigate any potential odors. The OMP shall include odor mitigation practices, procedure for logging and addressing odor complaints, maintenance of records relating to odor management, and odor-equipment installation and maintenance.

7. Other Relevant CEQA Information: *Submit any other relevant CEQA documentation or information that will assist the Department in determining CEQA compliance (e.g., any environmental impact analysis prepared by a consultant.*

None.

8. Permits Required: *List all other required federal, state, and local permits required, including, but not limited to, all entitlements required for this project by a planning commission, local air district, or regional water board. Identify whether the commercial cannabis business(es) is licensed by or has applied for licensure from the Department, or one of the prior state cannabis licensing authorities:*

- ☒ California Department of Cannabis Control
- ☒ Los Angeles Fire Department
- ☒ Los Angeles Department of Building and Safety
- ☐ California Department of Fish and Wildlife
- ☐ State Water Resources Control Board / Regional Water Quality Control Board
- ☒ County of Los Angeles Public Health Permit
- ☐ Local Air District
- ☐ Streambed Alteration Agreement
- ☐ Water quality protection program
- ☐ Los Angeles Department of Water and Power
- ☒ Los Angeles Department of Public Works, Bureau of Sanitation

Partial List of Categorical Exemptions under CEQA

Certain commercial cannabis activities (projects) may be exempt from further environmental review pursuant to the California Environmental Quality Act (CEQA) because they fall within a class of projects determined not to have significant effect on the environment. (Cal. Code Regs., tit. 14, § 15300 et seq.) Common exemptions that may apply have been identified below.

Class	Category	Description
Class 1	Existing Facilities	Consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. (Cal. Code Regs., tit. 14, §15301.)
Class 2	Replacement or Reconstruction	Consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced with a new structure of substantially the same size, purpose, and capacity. (Cal. Code Regs., tit. 14, § 15302.)
Class 3	New Construction or Conversion of Small Structures	Consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. (Cal. Code Regs., tit. 14, § 15303.)
Class 4	Minor Alterations to Land	Consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes. (Cal. Code Regs., tit. 14, § 15304.)
Class 11	Accessory Structures	Consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities. (Cal. Code Regs., tit. 14, § 15311.)
Class 32	In-Fill Development Projects	Consists of projects characterized as in-fill development meeting the conditions described in Cal. Code Regs., tit. 14, § 15332.
