**BACKGROUND:**

The Applicant was issued Temporary Approval by DCR with an effective date of March 31, 2021. Since that time, the Applicant has adhered to the requirements of the Los Angeles Municipal Code (LAMC) and DCR's Rules and Regulations, and completed all requirements for the issuance of an Annual License. The Applicant currently possesses a State Provisional License, [CCL19-0003736], to conduct Cultivation Small Indoor (Type 2A), active through February 19, 2025.

The Applicant is not subject to the requirements of LAMC Section 104.20 for the Social Equity Program. The Business Premises is located at 400 North Marin Avenue, Wilmington, CA 90744 , a parcel zoned for Limited Manufacturing purposes.

**DEPARTMENT ANNUAL LICENSING DETERMINATIONS:**

DCR recommends approving the Annual License for the Applicant based on the following factors:

- The Applicant has met the Application requirements under LAMC Section 104.03.
- The Business Premises location meets the requirements under LAMC Section 105.02.
- The Application does not contain any grounds for denial under LAMC Section 104.04.

**THERE ARE NO EXISTING REASONS TO DENY AN ANNUAL LICENSE:**

DCR may deny an Annual Application for the reasons stated in LAMC section 104.04. These denial reasons include, but are not limited, to:

- The Business Premises is substantially different from the diagram of the Business Premises submitted by the Applicant or Licensee;
- Denying DCR employees or agents access to the Business Premises;
- Procuring a License by fraud or deceit, making a material misrepresentation, false statement, or knowingly failing to disclose a material fact;
- Failing to timely to provide DCR with requested information, forms or documents;
- Denial of a license, permit or other authorization to engage in Commercial Cannabis Activity by any state or other local licensing authority;
- Creation a significant public safety problem as documented by a law enforcement agency;
- Failure to adhere to the requirements of this article or the Rules and Regulations;
- Engaging in unlicensed Commercial Cannabis Activity in violation of Section 104.15;
- The Business Premises was the site of a utility disconnect, padlocking or certain criminal convictions for a period of 5 years from the date of the conviction, padlock or disconnect;
- Improper zoning or distancing of the Business Premises from Sensitive Uses under LAMC Section 105.00 et seq; and,
- An Owner is an individual who holds office in, is employed by, any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:**

The Applicant seeks conversion of an existing Cultivation Small Indoor (Type 2A), Temporary Approval to an Annual License to be located on an existing site zoned for Limited Manufacturing, [Q]MR1-1VL-O-CUGU at 400 North Marine Avenue, Wilmington, CA 90744 (Assessor's Parcel Number 7418-014-009). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states that existing structures will remain with no expansion proposed (Exhibit A). Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Operations would be seven days per week from 8:00 a.m. to 4:00 p.m. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (Exhibit A). Compliance with Los Angeles Municipal Code Sections 104.00 et seq. and 105.00 et seq., as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

**CEQA PROJECT ANALYSIS & FINDINGS:**

**Land Use/Zoning Designations**

Limited Manufacturing / [Q]MR1-1VL-O-CUGU

**Surrounding Land Use/Zoning Designations**

Limited Manufacturing / [Q]MR1-1VL-O-CUGU  
Limited Industrial / [Q]CM-1VL-O-CUGU

**Subject Property**

The subject site is a fully developed lot within the Wilmington - Harbor City Community Plan Area. The lot is approximately 77 feet deep and a width of 120 feet along Marine Avenue. The site is currently developed with a - Industrial - Warehousing, Distribution, Storage - Warehousing, Distribution, Under 10,000 SF - One Story building, year built is unknown, proposed to be maintained.

The site has a Limited Manufacturing land-use designation and is zoned [Q]MR1-1VL-O-CUGU. The site is located within Council District 15, Wilmington Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

**Abutting Properties**

Abutting uses include Industrial and Manufacturing uses within 200 feet of the site. The immediate area along Marine Avenue is predominantly developed with Limited Manufacturing uses, zoned [Q]MR1-1VL-O-CUGU, and Limited Industrial, zoned [Q]CM-1VL-O-CUGU. (See Exhibit A)

**CEQA Findings**

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

- a) The site is comprised of one lot totaling approximately 8,467 gross square feet, zoned [Q]MR1-1VL-O-CUGU with a - Industrial - Warehousing, Distribution, Storage - Warehousing, Distribution, Under 10,000 SF - One Story building, original construction date is unknown. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.
- b) The subject site is wholly within the City of Los Angeles, on an approximately 8,467 gross square foot property (i.e., less than five acres), and is substantially surrounded by Limited Manufacturing uses. The surrounding area is Limited Manufacturing zoned Q]MR1-1VL-O-CUGU, Limited Industrial, zoned [Q]CM-1VL-O-CUGU; and developed with a mix of Industrial and Manufacturing buildings along Marine Avenue between D Street and E Street.
- c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.
- d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
- e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

**DEPARTMENT OF CANNABIS REGULATION ACTIONS:**

The Department of Cannabis Regulation:

- 1) Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
- 2) Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Cultivation Small Indoor (Type 2A), Commercial Cannabis Activity at the Business Premises location; and,
- 3) Adopted the Project Analysis & Findings and Notice of Exemption.

**Project Description:** *Insert project description information or reference where this information is located.*

The subject property/site is located in urbanized, flat (non-sloping) area/location where the general vicinity is dominated by manufacturing and industrial uses, site zoning is [Q]MR1-1VL-O-CUGU according to ZIMAS (lacity.org), wherein the described site zoning is "Limited Manufacturing", contains a permanent [Q] event associated with outside storage restrictions and storage of storage containers, and fully serviced by LADWP/Gas Co./City Sanitation for underground water, sewer, natural gas, and trash/refuse services. The on-site structure was construct was originally constructed between 1958, but the most relevant permit was pulled and finalized in 2018 for "Change of use from warehouse & manufacturing to hydroponic argricultural enterprise" by Building & Safety 18016-10000-39382 source: <https://www.ladbs.org/> . Specifically and according to City building permits, the existing on-site structure consists of a one-story of cannabis cultivation manufacturing structure totaling 13,200 square feet.

The subject site will not have a negative effective upon fish and game resources as determined by the State of California Dept of Fish and Wildlife <https://wildlife.ca.gov/> and as determined by State Water Resources Control Board Home Page | <https://www.waterboards.ca.gov/>.

The approved uses for the subject site includes Cannabis Cultivation usea (all approved and current by/with the the Bureau of Cannabis Control (BCC)), wherein the subject site, structure, and the non-existence of any nearby sensitive uses/sensitive receptors make the location completely appropriate, compatible and ideal for the described cannabis uses. The cannabis operating practices are regulated by the State of California Department of Cannabis Control (DCC), Los Angeles City departments such as City Fire, Building & Safety, and the Department of Cannabis Regulation (DCR). The subject site is also monitored by the Los Angeles County Department of Public Health. The well built shell and structure were developed and the exterior has remained unchanged since the early 1950s with on-going interior improvements processed and progressively improved by/through the City of Los Angeles' Department of Building and Safety.

**Categorical Exemption Evaluation Form****Class 1: Existing Facilities**

1. Is the project site currently operating as a cannabis activity site or a similar use, or has it recently operated for this purpose? ☒ Yes ☐ No

*Provide details of current or prior operation(s). Cite source(s) of information.*

The site is currently operating an active and legally approved cannabis facility. In addition, prior to the subject operators moving and establishing legal cannabis cultivation use at the subject site in approximately 2018, the subject site/property previously maintained and operated a City of LA-approved Industrial - Warehousing, Distribution, Storage - Warehousing, Distribution uses.

**15301. EXISTING FACILITIES**

Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The types of existing facilities itemized below are not intended to be all-inclusive of the types of projects which might fall within Class 1. The key consideration is whether the project involves negligible or no expansion of use.

Source: [https://www.califaep.org/docs/CEQA\\_Handbook\\_2023\\_final.pdf](https://www.califaep.org/docs/CEQA_Handbook_2023_final.pdf)

The subject project meets the Class 1 - Existing Facilities exemption requirements. The subject location is utilizing an existing structure on a properly zoned location and is simply applying a minor, interior remodel and non-height bearing interior floor modifications. The improvements include the installation of mechanical equipment necessary for air filtration and other cannabis manufacturing operational and distribution purposes. The project improvements are negligible with no exterior expansion of the existing structure of any of the permitted uses.

2. Does the project involve an expansion of existing structures that would be considered negligible or no expansion of existing or former use? (If no, skip to Question 6) ☐ Yes ☒ No

*Provide expansion details, if applicable. Cite source(s) of information.*

N/A - The subject project does not and will not propose the expansion of any existing structure(s) to any extent and the project's cannabis uses of cultivation, distribution and manufacturing uses are in-line with permitted/by-right outlined for the MR1 zone. Furthermore, the interior, cannabis use is not defined or considered an expansion to the existing or any former/historical site uses.

3. Project Expansion: \_\_\_\_\_  
Size of expansion in square feet: \_\_\_\_\_

*Cite source(s) of information.*

- a. Would the expansion be less than or equal to 2,500 square feet or 50 percent of the floor area before expansion? (If yes, skip to [Question 6.](#)) ☐ Yes ☐ No

*Cite source(s) of information.*

- b. Would the expansion be more than 2,500 square feet or 50 percent of the floor area before expansion? (If yes, skip to [Question 4.](#)) ☐ Yes ☐ No

*Cite source(s) of information.*

- c. Would the expansion be greater than 10,000 square feet? ☐ Yes ☐ No

*Cite source(s) of information.*

4. Is the project site served by all public services sufficient to serve the project (e.g., water, sewer, electricity, gas)? ☐ Yes ☐ No

*Describe which public services serve the project site. Cite source(s) of information.*

5. Is there evidence that the project site is located in an environmentally sensitive area? ☐ Yes ☐ No

*Describe the environmentally sensitive area (if applicable). Cite source(s) of information, if available.*

6. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment? (If yes, see instructions.) ☐ Yes ☒ No

*List permits required and any potential physical changes that could occur. Cite source(s) of information.*

No -- the subject project does not require a water right permit or another environmental permit that could or would result in any physical changes to the environment. The supporting facts to support this statement stem from factual information, such as the site not located in a rural setting and the fact that the site is not near or within any proximity of a stream, waterway, or river bed. The site is serviced by well established water and sewer LADWP infrastructure, where wastewater is delivered and processed by the City of Los Angeles hyperion water reclamation plant. The site also serviced by the Gas Company for natural gas needs and LA City Sanitation for trash/refuse needs.

7. Does the project require demolition and removal of individual small structures (e.g., one single-family residence, a duplex or similar multifamily structure, a store, motel or restaurant or accessory structures? ☐ Yes ☒ No

*Describe size of structure to be demolished and location.*

No - The subject project does not require the demolition or removal of any structures or any non-industrial uses, such as single-family residences, duplexes or similar structures, stores, motels, restaurants or accessory structures, in any manner.

**Categorical Exemption Evaluation Form****Class 2: Replacement or Reconstruction**

1. Does the project involve the replacement or reconstruction of an existing structure on the same site as the structure being replaced or reconstructed? ☐ Yes ☒ No

*Describe both the existing structure and replacement structure, including the location on the site. Cite source(s) of information.*

N/A - the project does not remove or propose to remove any existing structure(s), so the Class 2 Categorical Exemption does not apply.

**15302. REPLACEMENT OR RECONSTRUCTION**

Class 2 consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including but not limited to:

- (a) Replacement or reconstruction of existing schools and hospitals to provide earthquake resistant structures which do not increase capacity more than 50 percent.
- (b) Replacement of a commercial structure with a new structure of substantially the same size, purpose, and capacity.
- (c) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.
- (d) Conversion of overhead electric utility distribution system facilities to underground including connection to existing overhead electric utility distribution lines where the surface is restored to the condition existing prior to the undergrounding.

Note: Authority cited: Section 21083, Public Resources Code; Reference: Section 21084, Public Resources Code.

2. Would the new structure have substantially the same purpose and capacity as the existing structure? ☐ Yes ☒ No

*Provide information on the purpose of both the existing and replacement structures to ensure they are the same. Cite source(s) of information.*

N/A - the existing structure is not being replaced, expanded, or no deviation from uses will occur or result in uses inconsistent with MR1 (Limited Manufacturing) permitted uses.

3. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment? (If yes, see instructions.) ☐ Yes ☒ No

*List permits required and any potential physical changes that could occur. Cite source(s) of information.*

No - the project consisting of cannabis cultivation use does not require uncommon permits beyond, Building & Safety permits/inspections, or extraordinary water permits or Dept. of Fish & Game permission/permits that would result in any physical changes to the environment.

**Categorical Exemption Evaluation Form**

**Class 3: New Construction or Conversion of Small Structures**

1. Does the project involve the conversion of existing small structures including only minor modifications, or the installation of small equipment and facilities in small structures?

☐ Yes ☒ No

*Provide information regarding the nature of modifications to existing small structures, if applicable. Cite source(s) of information.*

N/A - the subject site does not contain a small structure and this Class 3 would not be appropriate for the CEQA clearance for the subject project.

2. Does the project involve the construction of new small structures?

☐ Yes ☒ No

*Provide information regarding the size and purpose of the proposed new structures, if applicable. Cite source(s) of information.*

N/A - the project does not involve the construction of any, new structures (small or large).

***Please check instructions for directions on how to proceed, based on answers to Questions 1 and 2.***

3. Is the project within an urbanized area? (If no, skip to Question 9.)

☒ Yes ☐ No

*Cite source(s) of information.*

using the subject project site's address - 400 N. Marine Avenue, Los Angeles, CA

**FOR SITES IN URBANIZED AREAS**

4. Does the project involve the construction of four or fewer structures totaling 10,000 square feet or less? ☐ Yes ☒ No

*Provide information regarding size of new structure(s), if applicable. Cite source(s) of information.*

No - the subject project does not involve new construction

5. Is the parcel zoned for the proposed use? ☒ Yes ☐ No

*Cite source(s) of information.*

Yes -- <http://zimas.lacity.org/> - the subject site is zoned MR1 (Limited Manufacturing) and is zoned for the proposed use.

6. Does the project involve the use of significant amounts of hazardous substances? ☐ Yes ☒ No

*Provide details of any hazardous substances used including amount of product(s), if applicable. Cite source(s) of information.*

No - The project does not involve the use of significant amounts of hazardous substances. The manufacturing (growing) cannabis flower does require the use of chemicals for growing, but these chemicals are highly regulated and so the process is safe to the environment and public consumption.

The products used include 1.5-0-0.5 BLOOM A, 0-7.5-4.5 BLOOM B, ADVANCED NUTRIENTS BUD IGNITOR, ADVANCED NUTRIENTS BIG BUD LIQUID, AND ADVANCED NUTRIENTS OVERDRIVE

7. Are all necessary public services and facilities available to the project? ☒ Yes ☐ No

*List all services and facilities provided. Cite source(s) of information.*

Yes, LADWP for water, sewer, and electricity, the Gas Co. for natural gas services, public trash disposal (City Dept. of Sanitation), and private trash disposal (Athens Services)

8. Do either the project site or the surrounding lands contain a sensitive environmental area? (If no, skip to Question 11.) ☐ Yes ☒ No

*Provide information on the nature of any sensitive environmental areas. Cite source(s) of information, if available.*

No - The subject site is not within any close proximity or surrounded by land(s) that contain sensitive environmental areas whatsoever.

Sources: <http://zimas.lacity.org/>, <https://navigatela.lacity.org/NavigateLA/>

**FOR SITES NOT IN URBANIZED AREAS**

9. Does the project involve the construction of a single structure totaling 2,500 square feet or less?

☐ Yes ☒ No

*Provide information regarding size of new structure, if applicable. Cite source(s) of information.*

10. Does the project involve the use of significant amounts of hazardous substances?

☐ Yes ☒ No

*Provide list of any hazardous substances used, including amount of product(s), if applicable and available. Cite source(s) of information.*

**Class 4: Minor Alterations to Land**

1. Does the project involve the removal of healthy, mature, scenic trees (except for forestry and agricultural purposes)? ☐ Yes ☒ No

*Provide details, if needed. Cite source(s) of information.*

No - the subject project does not remove any on- or off-site trees.

2. Does the project involve alterations to land, water, or vegetation that would be considered minor? ☐ Yes ☒ No

*Provide details, if needed. Cite source(s) of information.*

No - the project will not result in any alterations of land, water or vegetation.

3. Would the alterations consist of grading on lands of 10 percent slope or steeper? ☐ Yes ☒ No

*Provide details, if needed. Cite source(s) of information.*

No - the project will not result in any grading of land, new construction, and the site is not located on land with any significant or natural slope, whatsoever.

4. Would the alterations consist of grading in an area determined to be a wetland? ☐ Yes ☒ No

*Cite source(s) of information.*

N/A - the subject site is not located on land determined as a wetland.

Sources: <http://zimas.lacity.org/>, <https://navigatela.lacity.org/NavigateLA>, <https://www.coastal.ca.gov/>

5. Would the alterations consist of grading in a scenic area officially designated by a federal, state, or local agency? ☐ Yes ☒ No

*Provide name of scenic area (if applicable). Cite source(s) of information.*

No - The subject site is not located in any officially designated scenic area.

<http://zimas.lacity.org/>

6. Would the alterations consist of grading in an officially mapped area of severe geologic hazard, such as an Alquist- Priolo Earthquake Fault Zone, or within an official Seismic Hazard Zone designated by the State Geologist? ☐ Yes ☒ No

*Provide the name of the zone (if applicable). Cite source(s) of information.*

No - The subject site is not located in any officially mapped area of severe geologic hazard area, earthquake fault zone or USGS hazard zoned designated areas.

Sources: <http://zimas.lacity.org/>

**Categorical Exemption Evaluation Form**

**Class 11: Accessory Structures**

1. Does the project include the construction or placement of accessory structures? ☐ Yes ☒ No

*Describe new and/or replacement accessory structures. Cite source(s) of information.*

No - the subject project does not construction or placement of accessory structures and a Cat. Ex. Class 11 would not apply.

Notes:

15311. ACCESSORY STRUCTURES

Class 11 consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities, including but not limited to:

- (a) On-premise signs;
- (b) Small parking lots;
- (c) Placement of seasonal or temporary use items such as lifeguard towers, mobile food units, portable restrooms, or similar items in generally the same locations from time to time in publicly owned parks, stadiums, or other facilities designed for public use.

Note: Authority cited: Section 21083, Public Resources Code; Reference: Section 21084, Public Resources Code.

2. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment? (If yes, see instructions.) ☐ Yes ☒ No

*List permits required and any potential physical changes that could occur. Cite source(s) of information.*

No - the subject project of cannabis cultivation use would not require uncommon permits beyond, Building & Safety permits/inspections, extraordinary water permits or Dept. of Fish & Game permission/permits that would also result in any physical changes to the environment.

**Categorical Exemption Evaluation Form****Class 32: Infill Development Projects**

1. Is the project consistent with the general plan designation, all applicable general plan policies, and zoning designation and regulations for the site? ☒ Yes ☐ No

*Cite source(s) of information.*

Yes - the site zoning is MR1, consists of general plan designation of Limited Manufacturing, and not located within a redevelopment zone,, not located in a promise zone, historic preservation zone or an environmentally significant enterprise zone location.

2. Project Size and Location

- a. Is the project site 5 acres in size or less? ☒ Yes ☐ No

*Indicate the size of the project site, in acres. Cite source(s) of information.*

Yes - the subject project site size is approximately 8,466.9 or 0.19 of an acre  
Source: <http://zimas.lacity.org/>

- b. Is the project site substantially surrounded by urban uses? ☒ Yes ☐ No

*Describe the uses of the surrounding properties. Cite source(s) of information.*

Yes - the subject site is entirely surrounded by urban uses - specifically, to the north: Industrial - Warehousing, Distribution, Storage - Warehousing, Distribution; south across D Street : Commercial - Hotel and Motel - Hotel; west and across Marine Avenue: Industrial - Light Manufacturing; and, to the east: Commercial - Commercial - Vacant Land.

Source: <http://zimas.lacity.org/>

3. Does the project site have value as habitat for endangered, rare, or threatened species? ☐ Yes ☒ No

*Describe any habitat for endangered, rare, or threatened species identified on or near the project site (if applicable). Cite source(s) of information.*

No - the subject project site does not contain value for use of a habitat for any endangered, rare or threatened species. The site and general vicinity consists of heavy manufacturing, warehousing, and industrial uses and vicinity and overall land area is not useful and ideal for habitat uses.

Southeast Los Angeles Community Plan

4. Would the project have significant impacts related to traffic, noise, air quality, or water quality? ☐ Yes ☒ No

*Describe potential impact(s) and evidence (if applicable). Cite source(s) of information.*

No - the subject project and is developed in-line the City Land Use Element (Wilmington - Harbor City Community Plan) and present traffic, noise, air and water quality impacts are consistent with MR1 uses and were previously factored in - as a result, the project will not result in any significant impacts related to:

- \* Traffic (source: <https://navigatela.lacity.org/NavigateLA/>);
- \* Noise (Wilmington - Harbor City Community Plan (which is the Land Use Element of the City's General Plan) Source: <http://zimas.lacity.org/>

- b. If yes, would the project result in damage to scenic resources? ☐ Yes ☒ No

*Describe scenic resources and potential damage (if applicable). Cite source(s) of information.*

N/A - the subject site is not located within designated State Scenic Highway(s) or within visible proximity of any scenic highways.

**2. Is the project located on a site included on any list compiled pursuant to Government Code § 65962.5 (Cortese List)?**

☐ Yes ☒ No

*Describe the type of hazardous site (if applicable). Cite source(s) of information.*

No - the subject project site is not located upon a Hazardous Waste and Substances Site

4. **Is there evidence of the potential for the project to contribute to a significant cumulative impact?**

☐ Yes ☒ No

*Describe the potential cumulative impact(s) and evidence (if applicable). Cite source(s) of information.*

No - the subject site's historic and continuing manufacturing/industrial uses will not significantly change or result in uses more intensive than the existing uses, those uses permitted by-right in the MR1 zone, or add additional uses that would result in the potential for cumulative impacts. 5. **Is there evidence of a reasonable possibility of a significant environmental impact due to unusual circumstances?**

☐ Yes ☒ No

*Describe the potential impact(s), circumstances, and evidence (if applicable). Cite source(s) of information.*

No - there is no obvious, logical or anticipated potential impacts, circumstances to draw any these conclusions, or any evidence of same

Source: <http://zimas.lacity.org/> and <https://navigatela.lacity.org/NavigateLA/>

6. **Would the project impact an environmental resource of hazardous or critical concern?**

☐ Yes ☒ No

*Provide details, if needed. Cite source(s) of information.*

No - the use is located within an area appropriate and consistent with the underlying MR1 zoned uses as well as similar uses within the vicinity of the subject site. There is no uncommon and unique occurrences, such as an airport, body of water/ocean, mountain range, valley or desert in any close proximity to the subject site that would negative affect an environmental resource of hazardous or critical concern.

## CEQA Exemption Petition

Class: 32 Category: 15332. IN-FILL DEVELOPMENT PROJECTS

Explanation of how the project fits the CEQA exemption indicated above:

The subject project qualifies for a Class 32 In-Fill Development Project Categorical Exemption because the following 15332 conditions are being met, as described below:

Yes - (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.

Yes - (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.

No - (c) The project site has no value as habitat for endangered, rare or threatened species.

No - (d) the project's approval of the project will not result in any significant effects relating to traffic, noise, air quality, or water quality.

Yes - (e) The site is adequately served by all required utilities and public services.

Note: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

2. Project Location and Surrounding Land Use.

(a) Describe Project Location: *Provide detailed information about the project location and any other physical description that clearly indicates the project site location.*

The subject property/site is located in urbanized, flat (non-sloping) area/location where the general vicinity is dominated by manufacturing and industrial uses, site zoning is [Q]MR1-1VL-O-CUGU according to ZIMAS (lacity.org), wherein the described site zoning is "Limited Manufacturing", contains a permanent [Q] event associated with outside storage restrictions and storage of storage containers, and fully serviced by LADWP/Gas Co./City Sanitation for underground water, sewer, natural gas, and trash/refuse services. The on-site structure was construct was originally constructed between 1958, but the most relevant permit was pulled and finalized in 2018 for "Change of use from warehouse & manufacturing to hydroponic agricultural enterprise" by Building & Safety 18016-10000-39382 source: <https://www.ladbs.org/>. Specifically and according to City building permits, the existing on-site structure consists of a one-story of cannabis cultivation manufacturing structure totaling 13,200 square feet.

(b) Existing Land Uses/Zoning: *Describe the current land uses on the project site and any existing buildings and structures. Describe the surrounding land uses and zoning designations within a one-half mile radius of the project and list all abutting land uses.*

The approved uses for the subject site includes Cannabis Cultivation uses (all approved and current by/with the the Bureau of Cannabis Control (BCC)), wherein the subject site, structure, and the non-existence of any nearby sensitive uses/sensitive receptors make the location completely appropriate, compatible and ideal for the described cannabis uses. The cannabis operating practices are regulated by the State of California Department of Cannabis Control (DCC), Los Angeles City departments such as City Fire, Building & Safety, and the Department of Cannabis Regulation (DCR). The subject site is also monitored by the Los Angeles County Department of Public Health. The well built shell and structure were developed and the exterior has remained unchanged since the early 1950s with on-going interior improvements processed and progressively improved by/through the City of Los Angeles' Department of Building and Safety.

the subject site is entirely surrounded by urban uses - specifically, to the north: Industrial - Warehousing, Distribution, Storage - Warehousing, Distribution; south across D Street : Commercial - Hotel and Motel - Hotel; west and across Marine Avenue: Industrial - Light Manufacturing; and, to the east: Commercial - Commercial - Vacant Land.

- (c) Previous Use: Describe the previous use of the Project site or facility, if known. Include an estimate of the time such previous operations ceased, if such information is available.

The site is currently operating a legal cannabis activity operation/facility. In addition, prior to the subject operators moving and establishing legal cannabis cultivation at the subject site in approximately 2018, the subject site/property maintained and operated manufacturing and warehousing uses since the initial establishment of the use.

- (d) Was the site previously used for a similar use? The key consideration is whether the project involves negligible or no expansion of an existing use.

Yes, the previous and presently operating industrial use location is very similar to cannabis cultivation (manufacturing) uses.

- (e) Maps to be Included: Provide a vicinity map and aerial image to show the project location. Include photographs, not larger than 8½ by 11 inches, of existing visual conditions as observed from publicly accessible vantage point(s).

**3. Project Operations/Description.** Provide the following information about project operation and maintenance activities. If more than one type of cannabis activity is occurring on-site, provide a description of the project operations for each activity. This should include the following relevant information.

- (a) Activities Occurring Onsite: Describe the activities included in the project application and identify any other commercial cannabis activity or activities occurring at the proposed premises, including other proposed cannabis activities occurring on the property. Describe the cannabis business operation methods and activities (e.g. cultivation methods, manufacturing and/or distribution operations).

The present cannabis activity is licensed for cannabis cultivation (grow) operations. The operators have growing cannabis products since the early 1990s and have a very strong knowledge and experience in the cannabis production and sales industry.

- (b) Cannabis Operation Activities Owned by the Same or Different Businesses: *Describe any additional cannabis operation activities existing or proposed either owned by the same or different businesses on the property.*

The same operator, WALIBE SOLUTIONS, is the sole cannabis operator and presently has cannabis cultivation use and would like to one day establish more cannabis uses on-site. The present ownership is exploring and attempting to grow its knowledge and experience in cannabis distribution and manufacturing of the product.

- (c) Project Size: *Quantify the project size (total floor area of the project), and the lot size on which the project is located, in square feet.*

The project's existing structure's consists of 13,200 square feet and lot size is 5,209.2 square feet.

- (d) State License: *Identify whether the applicant is licensed by, or has applied for licensure from, the California Department of Cannabis Control to engage in commercial cannabis activity at the proposed premises.*

Yes - one (1) Cannabis DCC License:  
Cultivation - License No. CCL19-0003736

- (e) Hours of Operation/Work Shifts: *Identify the hours of operation/work shifts for the project.*

Hours of operations are Monday - Friday 8 a.m. to 4 p.m.  
Limited hours on Saturday between 8 a.m. to 4 p.m. on a limited basis  
Close Sunday

- (f) Number of employees (total and by shift): *Estimate the number of anticipated employees onsite and occupancy during operating hours.*

3-5 employees during regular business hours (8 a.m. to 4 p.m.) with 1 contracted security guard 24 hours a day/7 days a week.

- (g) Estimated Daily Trip Generation: *Estimate the frequency of deliveries or shipments originating from and/or arriving to the project site. Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.*

N/A - not a cannabis distribution licensed facility

- (h) Source(s) of Water: *Name all sources of water, and indicate whether a new or amended water right must be obtained from the State Water Resources Control Board.*

Water obtained from City sourced Water - Los Angeles Dept of Water and Power (source: <https://www.ladwp.com/>); and,

No - no new or amended water rights are required for this location from the State Water Resources Control Board

- (i) Wastewater Treatment Facilities: *Describe the facilities for treatment of wastewater (e.g., leach field, City wastewater collection facilities).*

Wastewater needs are provided and satisfied by City of Los Angeles Sanitation (source: <https://www.lacitysan.org/san/faces/home>)

#### 4. Environmental Setting:

- (a) Describe natural characteristics on the project site:

None - there are no naturally existing site characteristics due to the subject site being fully developed as well as the surrounding land/properties for miles from the subject site - most of the development in the area began post-WW2 - approximately 1958.

- (b) General Topographic Features (slopes and other features):

The site is very flat with natural or existing slope for this subject site

Sources: <https://www.usgs.gov/products/maps>; <https://navigatela.lacity.org/NavigateLA/>

- (c) Natural characteristics (general vegetation types, drainage, soil stability, habitat, etc.):

None - the subject site does not contain any natural or planted landscaping or foliage, pre- LID features and soil stability and natural habitat whatsoever. The site is fully developed and paved with non-permeable surfaces.

Sources: <https://navigatela.lacity.org/NavigateLA/>; <http://zimas.lacity.org/>; <https://www.google.com/>

- (d) Identify whether there are any watercourses and riparian habitats within 150- feet of the proposed premises (e.g., drainage swales, stream courses, springs, ponds, lakes, creeks, tributary of creeks, wetlands):

None - are no watercourses and/or riparian habitats within 150 feet or any close proximity to the subject site - all natural swales, streams, springs ponds, lakes, creeks tributaries, and (not as likely) wetlands likely did not exist upon or around the subject site. If these features had ever existed, they have been long removed.

- (e) Identify whether the property contains natural features of scenic value of rare or unique characteristics (e.g., rock outcroppings, mature trees):

None - there are no natural features of any scenic value that include rare or unique characteristics upon and any where in close proximity to the subject site.

- (f) Identify whether the property has any historic designations or archeological remains onsite:

There are no known or anticipated historic designations/resources or any archeological remains on the subject or any where around the subject site, presently fully urbanized and built out.

- (g) Identify whether the property contains habitat for special status species:

None - the subject property does not contain any habitat for any special status species.

Source: <https://fws.gov/>

- (h) Identify the location, type, and quantity of hazardous materials, as defined by Health and Safety Code section 25260, that are stored, used, or disposed of at the project site and a copy of the Hazardous Material Business Plan (HMBP) prepared for the proposed premises, if any:

None - the subject project site is not located upon a Hazardous Waste and Substances Site

Source: <https://dtsc.ca.gov/dtscs-cortese-list/>  
<https://www.envirostor.dtsc.ca.gov/public/>

- (i) Discuss whether the project will increase the quantity and type of solid waste, as defined by Public Resources Code section 40191, or hazardous waste, as defined by Health and Safety Code section 25117, that is generated or stored onsite:

The subject project will not increase the quantity or type of solid waste generated or stored on-site.

<https://www.envirostor.dtsc.ca.gov/public/>

- ④ Describe the project's anticipated operational energy needs, identify the source of energy supplied for the project and the anticipated amount of energy per day, and explain whether the project will require an increase in energy demand and the need for additional energy resource:

The power consumption for the mainly the cultivation activities at the subject site are significant. There are proactive measures being implemented to reduce the power consumption by more efficient lighting types/methods, a consideration for solar power use, varying times for peak use of power, and heat recapture for use in other cannabis and climate controlled activities.

5. Explain whether any of the project activities will expand the existing footprint of the proposed facility beyond the current structural or parcel boundaries, increase the amount of impervious surface, or reduce any natural habitat. If the project is part of a larger project, attach a separate sheet to briefly describe the larger project.

The project will expand the existing site's structure beyond what presently exists, increase any exterior impervious surfaces, reduce any natural habitat, and, in fact, no exterior expansions and/or renovations are proposed for the subject site/project.

6. Environmental Commitments: *List any environmental commitments agreed to by the applicant to the protection of biological or cultural resources, energy efficiency, water efficiency, noise abatement, lighting, or other aspects of the project that may reduce impacts on the environment.*

N/A - there are no environmental commitments agreed to or that apply

7. Other Relevant CEQA Information: *Submit any other relevant CEQA documentation or information that will assist the Department in determining CEQA compliance (e.g., any environmental impact analysis prepared by a consultant).*

No additional material exists to our knowledge

8. Permits Required: *List all other required federal, state, and local permits required, including, but not limited to, all entitlements required for this project by a planning commission, local air district, or regional water board. Identify whether the commercial cannabis business(es) is licensed by or has applied for licensure from the Department, or one of the prior state cannabis licensing authorities:*

- ☒ California Department of Cannabis Control
- ☒ Los Angeles Fire Department
- ☒ Los Angeles Department of Building and Safety
- ☒ California Department of Fish and Wildlife
- ☒ State Water Resources Control Board / Regional Water Quality Control Board
- ☒ County of Los Angeles Public Health Permit
- ☐ Local Air District
- ☐ Streambed Alteration Agreement
- ☐ Water quality protection program
- ☒ Los Angeles Department of Water and Power
- ☒ Los Angeles Department of Public Works, Bureau of Sanitation

**Partial List of Categorical Exemptions under CEQA**

*Certain commercial cannabis activities (projects) may be exempt from further environmental review pursuant to the California Environmental Quality Act (CEQA) because they fall within a class of projects determined not to have significant effect on the environment. (Cal. Code Regs., tit. 14, § 15300 et seq.) Common exemptions that may apply have been identified below.*

<b>Class</b>	<b>Category</b>	<b>Description</b>
Class 1	Existing Facilities	Consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. (Cal. Code Regs., tit. 14, §15301.)
Class 2	Replacement or Reconstruction	Consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced with a new structure of substantially the same size, purpose, and capacity. (Cal. Code Regs., tit. 14, § 15302.)
Class 3	New Construction or Conversion of Small Structures	Consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. (Cal. Code Regs., tit. 14, § 15303.)
Class 4	Minor Alterations to Land	Consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes. (Cal. Code Regs., tit. 14, § 15304.)
Class 11	Accessory Structures	Consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities. (Cal. Code Regs., tit. 14, § 15311.)
Class 32	In-Fill Development Projects	Consists of projects characterized as in-fill development meeting the conditions described in Cal. Code Regs., tit. 14, § 15332.
