Re: Native American Consultation, Pursuant to Senate Bill 18 (SB18), Government Codes §65352.3 and §65352.4, as well as Assembly Bill 52 (AB52), Public Resources Codes §21080.1, §21080.3.1 and §21080.3.2, Villa Park Housing Element Implementation Project, Orange County

To Whom It May Concern:

Attached is a consultation list of tribes with traditional lands or cultural places located within the boundaries of the above referenced counties or projects.

Government Codes §65352.3 and §65352.4 require local governments to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of avoiding, protecting, and/or mitigating impacts to cultural places when creating or amending General Plans, Specific Plans and Community Plans.

Public Resources Codes §21080.3.1 and §21080.3.2 requires public agencies to consult with California Native American tribes identified by the Native American Heritage Commission (NAHC) for the purpose of avoiding, protecting, and/or mitigating impacts to tribal cultural resources as defined, for California Environmental Quality Act (CEQA) projects.

The law does not preclude local governments and agencies from initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction. The NAHC believes that this is the best practice to ensure that tribes are consulted commensurate with the intent of the law.

Best practice for the AB52 process and in accordance with Public Resources Code §21080.3.1(d), is to do the following:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.

The NAHC also recommends, but does not require that lead agencies include in their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential affect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

    - A listing of any and all known cultural resources have already been recorded on or adjacent to the APE, such as known archaeological sites;
    - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
    - Whether the records search indicates a low, moderate or high probability that unrecorded cultural resources are located in the APE; and
    - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

    - Any report that may contain site forms, site significance, and suggested mitigation measures.

      All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code Section 6254.10.

3. The result of the Sacred Lands File (SLF) check conducted through the Native American Heritage Commission was negative.

4. Any ethnographic studies conducted for any area including all or part of the potential APE; and

5. Any geotechnical reports regarding all or part of the potential APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS is not exhaustive, and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event, that they do, having the information beforehand well help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: Andrew.Green@nahc.ca.gov.

Sincerely,

Andrew Green

Subject: Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Assembly Bill 52

Dear Tribal Representative:

Pursuant to California Public Resources Code § 21080.3.1 (Assembly Bill [AB] 52 of 2014), the City of Villa Park ("City") seeks to conduct meaningful consultation with California Native American Tribes that have requested to be notified of proposed projects in the geographic area with which the tribe is traditionally and culturally affiliated. The purpose of consultation is to identify the presence of Tribal Cultural Resources (TCR) that may be impacted by a project and to discuss ways to avoid or minimize impacts to any identified TCRs.

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter your notification of the proposed Project and of consultation opportunity pursuant to AB 52, and a request for information regarding any TCRs that may be impacted by the proposed Project. Your Tribe's input is important to the City's planning process. If you desire to consult with the City on review of this Project, please respond to me and request consultation in writing to the address above or via email to ray@villapark.org within 30 days of receipt of this letter. My direct telephone number is 714-998-1500 should you have any questions.

Respectfully,

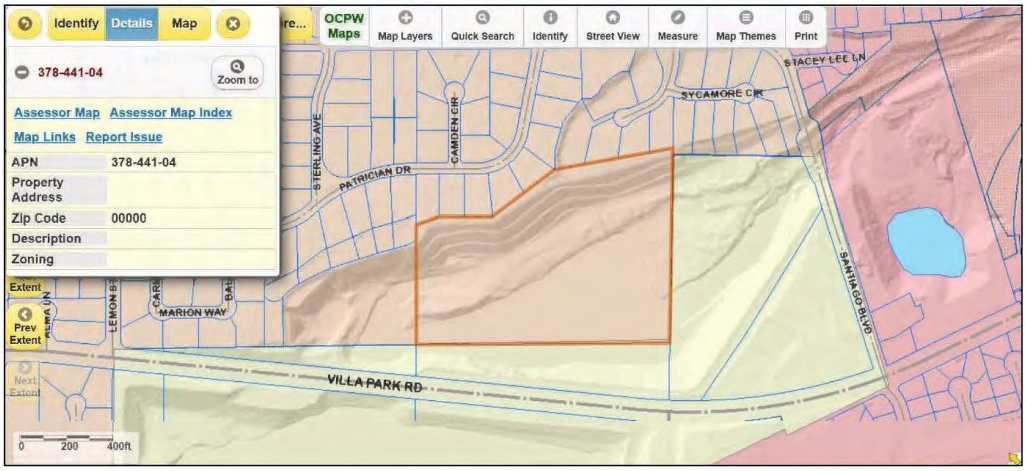

Raynald F. Pascua
Planning Manager

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter your notification of the proposed Project and of consultation opportunity pursuant to AB 52, and a request for information regarding any TCRs that may be impacted by the proposed Project. Your Tribe's input is important to the City's planning process. If you desire to consult with the City on review of this Project, please respond to me and request consultation in writing to the address above or via email to ray@villapark.org within 30 days of receipt of this letter. My direct telephone number is 714-998-1500 should you have any questions.

Respectfully,

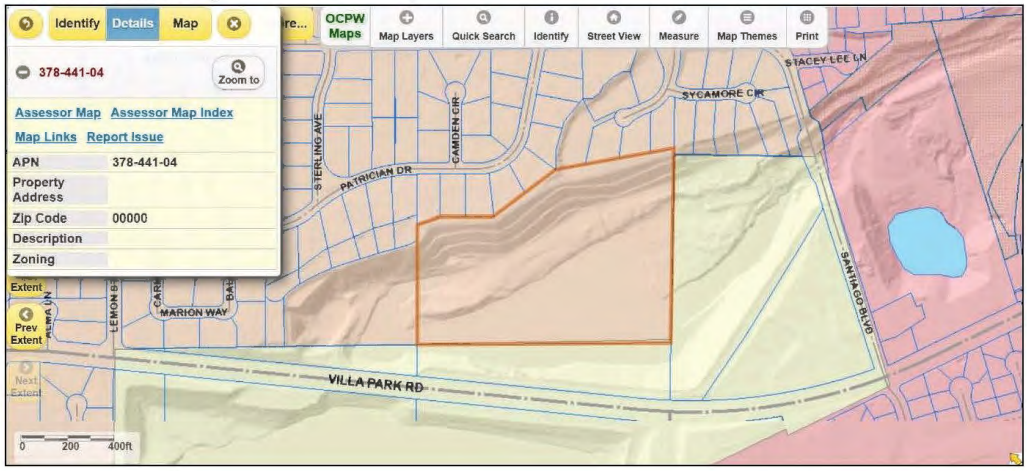

Raynald F. Pascua
Planning Manager

Subject: Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Assembly Bill 52

Dear Tribal Representative:

Pursuant to California Public Resources Code § 21080.3.1 (Assembly Bill [AB] 52 of 2014), the City of Villa Park ("City") seeks to conduct meaningful consultation with California Native American Tribes that have requested to be notified of proposed projects in the geographic area with which the tribe is traditionally and culturally affiliated. The purpose of consultation is to identify the presence of Tribal Cultural Resources (TCR) that may be impacted by a project and to discuss ways to avoid or minimize impacts to any identified TCRs.

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter your notification of the proposed Project and of consultation opportunity pursuant to AB 52, and a request for information regarding any TCRs that may be impacted by the proposed Project. Your Tribe's input is important to the City's planning process. Subject: Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Assembly Bill 52

Dear Tribal Representative:

Pursuant to California Public Resources Code § 21080.3.1 (Assembly Bill [AB] 52 of 2014), the City of Villa Park ("City") seeks to conduct meaningful consultation with California Native American Tribes that have requested to be notified of proposed projects in the geographic area with which the tribe is traditionally and culturally affiliated. The purpose of consultation is to identify the presence of Tribal Cultural Resources (TCR) that may be impacted by a project and to discuss ways to avoid or minimize impacts to any identified TCRs.

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter your notification of the proposed Project and of consultation opportunity pursuant to AB 52, and a request for information regarding any TCRs that may be impacted by the proposed Project. Your Tribe's input is important to the City's planning process. If you desire to consult with the City on review of this Project, please respond to me and request consultation in writing to the address above or via email to ray@villapark.org within 30 days of receipt of this letter. My direct telephone number is 714-998-1500 should you have any questions.

Respectfully,

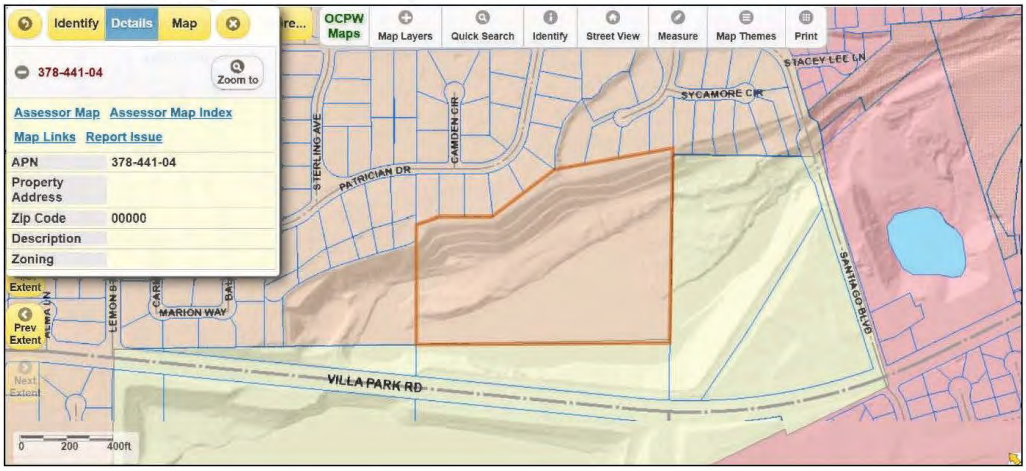

Raynald F. Pascua
Planning Manager

Subject: Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Senate Bill 18

Dear Tribal Representative:

Under Senate Bill 18 (SB 18), prior to adoption or any amendment of a general plan or specific plan, local governments must notify California Native American Tribes that are on the contact list maintained by the California Native American Heritage Commission (NAHC) of the opportunity to conduct consultations. The purpose of this consultation is to preserve or mitigate impacts to cultural places, features, and objects that may be affected by a general plan or specific plan amendment or adoption.

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter notification of the proposed Project and of consultation opportunity pursuant to SB 18. Your Tribe's input is important to the City's planning process. If you desire to consult with the City on review of this Project, please respond to me and request consultation in writing to the address above or via email to ray@villapark.org within 90 days of receipt of this letter. My direct telephone number is at 714-998-1500.

Respectfully,

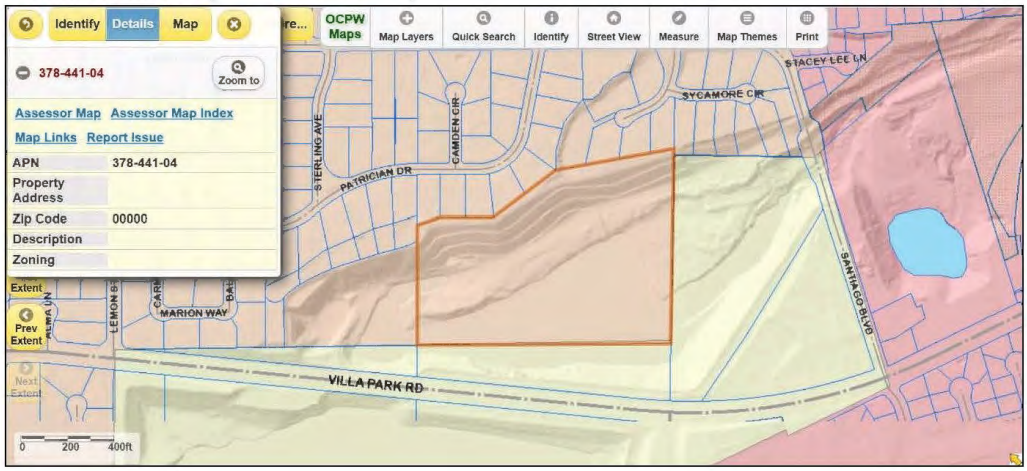

Raynald F. Pascua
Planning Manager

Under Senate Bill 18 (SB 18), prior to adoption or any amendment of a general plan or specific plan, local governments must notify California Native American Tribes that are on the contact list maintained by the California Native American Heritage Commission (NAHC) of the opportunity to conduct consultations. The purpose of this consultation is to preserve or mitigate impacts to cultural places, features, and objects that may be affected by a general plan or specific plan amendment or adoption.

The City is the Lead Agency under the California Environmental Quality Act (CEQA) for the proposed City of Villa Park General Plan Housing Implementation Project ("Project"), in the County of Orange ("County"), City of Villa Park, California. The City's 2021-2029 6th Cycle Housing Element Update ("Housing Element") addresses the City's identified housing needs and includes the City's approach to addressing its share of the regional housing need. The Housing Element proposes to accommodate the City's 6th Cycle Regional Housing Needs Assessment (RHNA) units through multi-family or mixed-use development in the Town Center's C-P Zone, rezoning of the Smith Basin, and accessory dwelling units ("ADUs"). The Project would implement the Housing Element. The Project does not propose any development; however, it does propose land use, zoning, and policy changes that would facilitate housing development throughout the City. Specifically, the Project would facilitate housing development on two candidate housing sites (i.e., the Smith Basin site (APN 378-441-04) and the Town Center site (APN 372-232-10/17855 Santiago Boulevard and 372-232-17/17871 Santiago Boulevard)); and as ADUs on properties throughout the City. Attachment 1 depicts the locations of the two candidate housing sites. The Smith Basin site is approximately 17.8 acres and is a recharge basin. The Town Center site is approximately 1.5 acres and is developed with commercial land uses. A Sacred Lands File (SLF) search was conducted through the NAHC and the results were negative.

The City has initiated preparation of an Initial Study to analyze the Project's potential environmental impacts. There are no proposals for development of the candidate housing sites and the Project's individual development activities are currently unknown. As such, the Initial Study does not address potential site-specific impacts of individual projects under the Project, but rather includes a programmatic approach to environmental analysis.

Please consider this letter notification of the proposed Project and of consultation opportunity pursuant to SB 18. Your Tribe's input is important to the City's planning process. If you desire to consult with the City on review of this Project, please respond to me and request consultation in writing to the address above or via email to ray@villapark.org within 90 days of receipt of this letter. My direct telephone number is at 714-998-1500.

Respectfully,

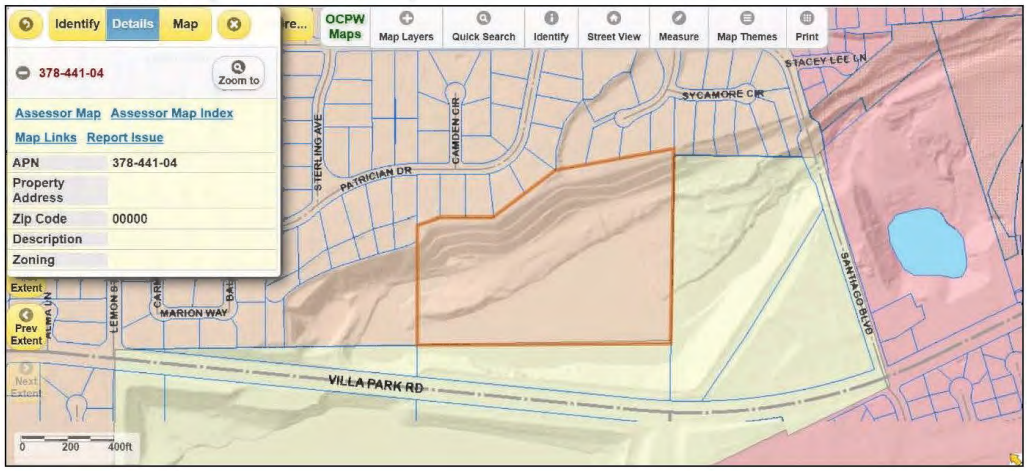

Raynald F. Pascua
Planning Manager

Hello Raynald

Thank you for your letter dated September 25,2024. We are good with the General Plan Housing Element. Since there will not be any types of ground disturbances we do not have any concerns. However if any ground disturbances occur we would like to be notified.

Thank you

Brandy Salas

Office: 844-390-0787
website: www.gabrielenoindians.org

The region where Gabrieleño culture thrived for more than eight centuries encompassed most of Los Angeles County, more than half of Orange County and portions of Riverside and San Bernardino counties. It was the labor of the Gabrieleño who built the missions, ranchos and the pueblos of Los Angeles. They were trained in the trades, and they did the construction and maintenance, as well as the farming and managing of herds of livestock. "The Gabrieleño are the ones who did all this work, and they really are the foundation of the early economy of the Los Angeles area " . "That's a contribution that Los Angeles has not recognized--the fact that in its early decades, without the Gabrieleño, the community simply would not have survived."

Gabrieleno/Tongva Tribal Council

SAN GABRIEL BAND OF MISSION INDIANS

To: Raynald F. Pascua
Planning Manager
City of Villa Park

RE : Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Assembly Bill 52

Dear Mr. Raynald F. Pascua,

The Gabrieleno Tongva San Gabriel Band of Mission Indians would like to participate in consultation with the City of Villa Park regarding the Villa Park General Plan Housing Element Implementation Project. Any development project's undertakings within the City of Villa Park would have potential to cause significant adverse effects to several Historic/Prehistoric Tribal Resources as defined in the Public Resource Code 21074, including resources that could be eligible for the California & the National Registers of Historic Places.

Please consider that frequently historic properties of religious and cultural significance are located on ancestral, aboriginal, or ceded lands of Indian tribes. Tribal Resources recorded are defined as Traditional Cultural Properties (TCP), landscapes, burial grounds, and prehistoric/historic interstate travel routes from and through the coastal, forest, and desert regions of California.

The Tribe/Band request to continue with the AB- 52 consultation process and to assist with establishing preventable mitigation measures as referenced in the PRC Section 21080.3.2 & 21084.3. to establish within the city's general plan.

Thank you,
Respectfully,

Adrian Morales

Re: Notification of the City of Villa Park General Plan Housing Element Implementation Project and Notification of Consultation Opportunity Pursuant to Assembly Bill 52

Dear Mr. Pascua:

The Pala Band of Mission Indians Tribal Historic Preservation Office has received your notification of the project referenced above. This letter constitutes our response on behalf of Robert Smith, Tribal Chairman.

We have consulted our maps and determined that the project as described is not within the boundaries of the recognized Pala Indian Reservation. It is, however, within the boundaries of the territory that the tribe considers its Traditional Use Area (TUA) or it is situated in close proximity to the Reservation and information generated would likely be useful in better understanding regional culture and history. However, we decline AB-52 consultation at this time, but do not waive our right to request consultation under other applicable laws in the future.

We appreciate involvement with your initiative and look forward to working with you on future efforts. Pala is now offering tribal monitoring services. If you have questions or need additional information, please do not hesitate to contact the THPO Office by e-mail at THPO@palatribe.com.

Sincerely,

Shasta C. Gaughen, PhD
Tribal Historic Preservation Officer
