BACKGROUND:

The Applicant was issued Temporary Approval by DCR with an effective date of April 12, 2022. Since that time, the Applicant has adhered to the requirements of the Los Angeles Municipal Code (LAMC) and DCR's Rules and Regulations, and completed all requirements for the issuance of an Annual License. The Applicant currently possesses a State Provisional License, [C11-0001517-LIC], to conduct Distribution (Type 11), active through April 12, 2025; and [CDPH-10004760], to conduct Manufacturer (Type 6), active through May 23, 2025.

The Applicant is not subject to the requirements of LAMC Section 104.20 for the Social Equity Program. The Business Premises is located at 3847 South Broadway Place, Los Angeles, CA 90037, a parcel zoned for Limited Industrial purposes.

DEPARTMENT ANNUAL LICENSING DETERMINATIONS:

DCR recommends approving the Annual License for the Applicant based on the following factors:

- The Applicant has met the Application requirements under LAMC Section 104.03.

- The Application does not contain any grounds for denial under LAMC Section 104.04.

- Improper zoning or distancing of the Business Premises from Sensitive Uses under LAMC Section 105.00 *et seq*; and,
- An Owner is an individual who holds office in, is employed by, any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:

The Applicant seeks conversion of an existing Distribution (Type 11); and Manufacturer (Type 6), Temporary Approval to an Annual License to be located on an existing site zoned for Limited Industrial, M1-2 at 3847 South Broadway Place, Los Angeles, CA 90037 (Assessor's Parcel Number 5122-039-012). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states that existing structures will remain with no expansion proposed (Exhibit A). Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Operations occur six days a week from Monday through Saturday from 10 a.m. to 7:00 p.m., employing a total of five persons. There are currently approximately 4 deliveries per day, which would occur in the early afternoon. A review of aerial images confirms that the parking area is sufficient to accommodate employees, and delivery activities. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS)(Exhibit A). Compliance with Los Angeles Municipal Code Sections 104.00 et seq. and 105.00 et seq., as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

CEQA PROJECT ANALYSIS & FINDINGS:

Land Use/Zoning Designations

Limited Industrial / M1-2

Surrounding Land Use/Zoning Designations

Limited Industrial / M1-2

Commercial Manufacturing / CM-1-CPIO

Limited Industrial / [Q]CM-2

Subject Property

The subject site is a fully developed lot within the Southeast Los Angeles Community Plan Area. The lot is approximately 84 feet deep, with a width of 25 feet along South Broadway Place. The site is currently developed with a one story industrial building, which was built in 1986.

The site has a limited industrial land-use designation and is zoned M1-2. The site is located within Council District 9, South Central Neighborhood Council, the lot is flat and contains a pre-existing building to be used by the Applicant.

Abutting Properties

Abutting uses include Limited Industrial uses within 200 feet of the site. The immediate area along Broadway Place is predominantly developed with Limited Industrial uses, zoned M1-2. (See Exhibit A)

CEQA Findings

CEQA Guidelines, Sections 15301 & 15332, Class 1 and Class 32, would apply to the proposed cannabis dispensary. Class 1 applies to projects that are integrated into existing facilities or structures. The proposed continuation of the manufacturing and distribution use would be located

within an existing structure with no expansion of the physical structure. Class 32 consists of projects characterized as existing buildings and operations with no proposed expansion. meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

Class 32 conditions are met as follows:

a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities. The site is comprised of one lot totaling approximately 7,436 gross square feet, zoned M1-2 with a one-story industrial building constructed in 1986. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, within an approximately 5,535 gross square foot lease area (i.e., less than five acres), and is substantially surrounded by urban uses. The surrounding area is zoned limited industrial, and commercial manufacturing and developed with a mix of commercial and industrial uses along Broadway Place, 35th Street, and Main Street.

c) The project is located within an established, fully developed, neighborhood and does not propose the removal of any trees on-site and/or within the adjacent public right-of-way. Therefore, the project site project site has no value as habitat for endangered, rare or threatened species and no biological resource impacts would occur.

d) The project would not result in any significant effects relating to traffic, noise, air quality, or water quality as no expansion of the building, use, or current operations is proposed at this time.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 & Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 and 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Distribution (Type 11) and Manufacturer (Type 6) Commercial Cannabis Activities at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.

CEQA Exemption PetitionClass: 1 Category: Existing Facilities

Explanation of how the project fits the CEQA exemption indicated above:

We are an existing facility in operation with no plans for expansion, construction, or upgrades. Our facility is in good working order and currently operating. We are serviced by LADWP, LAFD, and LAPD. We are in an industrial area and there are no environmental concerns.

1. **Source(s) of Information:** Identify Sources: *Indicate the document(s) or other sources of information reviewed to complete this form.*

Signed Lease Agreement, Premises Diagram, Zimas.lacity.org

2. **Project Location and Surrounding Land Use.**

- (a) Describe Project Location: *Provide detailed information about the project location and any other physical description that clearly indicates the project site location.*

We are in an industrial area surrounded by other buildings used for primarily industrial uses.

- (b) Existing Land Uses/Zoning: *Describe the current land uses on the project site and any existing buildings and structures. Describe the surrounding land uses and zoning designations within a one-half mile radius of the project and list all abutting land uses.*

The area is zoned M1-2. The surrounding land use is all industrial-use buildings.

- (c) Previous Use: Describe the previous use of the Project site or facility, if known. Include an estimate of the time such previous operations ceased, if such information is available.

Prior to our operation of the facility, the location used to be a milk distributor. We are unsure how long they were in business or when they ceased operations.

- (d) Was the site previously used for a similar use? The key consideration is whether the project involves negligible or no expansion of an existing use.

Prior to our usage of the site, it was used as a milk distributor, we have made no expansion and do not plan on expansion or any construction as the building is in good working order and up to code.

- (e) Maps to be Included: Provide a vicinity map and aerial image to show the project location. Include photographs, not larger than 8½ by 11 inches, of existing visual conditions as observed from publicly accessible vantage point(s).

3. Project Operations/Description. Provide the following information about project operation and maintenance activities. If more than one type of cannabis activity is occurring on-site, provide a description of the project operations for each activity. This should include the following relevant information.

- (a) Activities Occurring Onsite: Describe the activities included in the project application and identify any other commercial cannabis activity or activities occurring at the proposed premises, including other proposed cannabis activities occurring on the property. Describe the cannabis business operation methods and activities (e.g. cultivation methods, manufacturing and/or distribution operations).

We currently hold a distribution and manufacturing license, however, we currently do not use the manufacturing license and do not manufacture anything. In the future, we plan to make use of the license but currently, we are only a distributor.

- (b) Cannabis Operation Activities Owned by the Same or Different Businesses: *Describe any additional cannabis operation activities existing or proposed either owned by the same or different businesses on the property.*

N/A

- (c) Project Size: *Quantify the project size (total floor area of the project), and the lot size on which the project is located, in square feet.*

Floor area is 5,535 sq ft and the lot is 7,436 sq ft

- (d) State License: *Identify whether the applicant is licensed by, or has applied for licensure from, the California Department of Cannabis Control to engage in commercial cannabis activity at the proposed premises.*

We are currently licensed. We hold a Commercial Distributor License (Lic. No. C11-0001517-LIC) and a Manufacturer Type 6 License (Lic. No. CDPH-10004760).

- (e) Hours of Operation/Work Shifts: *Identify the hours of operation/work shifts for the project.*

10 am - 7 pm Monday through Saturday.

- (f) Number of employees (total and by shift): *Estimate the number of anticipated employees onsite and occupancy during operating hours.*

5

- (g) Estimated Daily Trip Generation: *Estimate the frequency of deliveries or shipments originating from and/or arriving to the project site. Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.*

3-4 arriving to or deliveries per day, usually early afternoon.

- (h) Source(s) of Water: *Name all sources of water, and indicate whether a new or amended water right must be obtained from the State Water Resources Control Board.*

We are serviced by LADWP
