

NOTICE OF AVAILABILITY
DRAFT 2050 PLACER COUNTY REGIONAL TRANSPORTATION PLAN
AND
Recirculated
DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT

Placer County Transportation Planning Agency (PCTPA) released the 2050 Placer County Regional Transportation Plan (2050 RTP) and associated Draft Supplemental Environmental Impact Report (SEIR) on July 30, 2025 for public review and comment. The Draft SEIR was intended to be made available for public review and comment from July 30, 2025, through September 15, 2025. However, PCTPA received a verbal request from the United Auburn Indian Community (UAIC) to restructure Section 3.4, which combined Cultural Resources and Tribal Cultural Resources, and instead separate the discussions in two separate chapters. PCTPA opted to separate the two environmental topics into two separate chapters as recommended by UAIC. This change resulted in additional edits in the Executive Summary, Section 1.0 Introduction, Section 3.4 Cultural Resources, Section 3.8 Tribal Cultural Resources, Section 3.9 Wildfire, Section 4.0 Other CEQA Sections, Section 5.0 Alternatives, and Section 6.0 Effects Found Not to be Significant. PCTPA is extending the public review period for the Recirculated Draft SEIR to ensure a full 45-day review period is available from the recirculation date.

Project Title: 2050 Placer County Regional Transportation Plan (2050 RTP)

Project Location: The 2050 RTP includes all of Placer County that is under the jurisdiction of the Placer County Transportation Planning Agency (PCTPA), which excludes the area within the Lake Tahoe basin.

Project Description: The RTP is a 25-year, comprehensive, and multi-modal plan for highways, local streets and roads, transit, bicycle, aviation, rail, and goods movement. PCTPA is required to adopt and submit an updated RTP to the California Transportation Commission (CTC) and the Department of Transportation (Caltrans) every five years, with the last RTP (known as the 2044 RTP) being adopted in June 2024. This document is designed to be a blueprint for the systematic development of a balanced, comprehensive, multi-modal transportation system for the current and future needs of Placer County. The 2050 RTP was also developed in coordination with the Sacramento Area Council of Government's (SACOG) 2025 Metropolitan Transportation Plan & Sustainable Communities Strategy (also known as the 2025 Blueprint).

Significant Environmental Effects: The Draft SEIR has identified the following environmental issue areas as having significant and unavoidable environmental impacts from implementation of the project: Agricultural Resources, Cultural Resources, Greenhouse Gases and Climate Change, Tribal Cultural Resources, and Cumulative Impacts. All other environmental issues

were determined to have no impact, less than significant impacts, or less than significant impacts with mitigation measures incorporated into the Project.

Public Review Period: A 45-day public review period for the RTP and Draft SEIR originally commenced on July 30, 2025 and was intended to end on September 15, 2025. Public review is being extended to September 25, 2025. Written comments may be transmitted via email to cpeterson@pctpa.net, or via U.S. Mail to PCTPA, Attn: Cory Peterson; 2260 Douglas Blvd, Suite 130, Roseville, CA 95661. Comments may also be given at the public hearing scheduled for August 27, 2025 (see details in the “Public Hearing” section of this NOA). Any written comments on the RTP and/or Draft SEIR must be received within the public review period. If we do not receive a response from your agency or organization, we will presume that your agency or organization has no response to make.
