CEQA PROJECT ANALYSIS & FINDINGS:

Land Use/Zoning Designations

Heavy Manufacturing / M3-1-RIO-CUGU

Surrounding Land Use/Zoning Designations

Regional Center Commercial / C2-1-RIO-CUGU

Heavy Manufacturing / M3-1-RIO-CUGU

Subject Property

The subject site is a fully developed lot within the Boyle Heights Community Plan Area. The lot is approximately 161 feet deep and a width of 157 feet along Soto Street. The site is currently developed with a Heavy Manufacturing building, built in 1958 proposed to be maintained.

The site has a Heavy Manufacturing land-use designation and is zoned M3-1-RIO-CUGU. The site is located within Council District 14, Boyle Heights Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

Abutting Properties

Abutting uses include Heavy Manufacturing uses within 200 feet of the site. The immediate area along Soto Street is predominantly developed with Regional Center Commercial uses, zoned C2-1-RIO-CUGU and Heavy Manufacturing, zoned M3-1-RIO-CUGU. (See Exhibit A)

CEQA Findings

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

- a) The site is comprised of one lot totaling approximately 15,250 gross square feet, zoned M3-1-RIO-CUGU with a Heavy Manufacturing building originally constructed in 1958. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.
- b) The subject site is wholly within the City of Los Angeles, on an approximately 15,250 gross square foot property (i.e., less than five acres), and is substantially surrounded by Heavy Manufacturing uses. The surrounding area is Regional Center Commercial zoned C2-1-RIO-CUGU, Heavy Manufacturing, zoned M3-1-RIO-CUGU; and developed with a mix of Heavy Manufacturing buildings along Soto Street between Rio Vista Avenue and Pico Boulevard.
- c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.
- d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
- e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Non-Storefront Retail (Type 9) Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.

Project Description: *Insert project description information or reference where this information is located.*

The 0.540(ac) Project is located in the City of Los Angeles, Los Angeles County at 1601 S Soto Street, Suite A., 90023 .The cross streets are Rio Vista Ave, and Soto Street. The projected site is located in the Boyle Heights Neighborhood council. The Project includes the leasing of an industrial building occupied with an industrial use. The Project has been environmentally reviewed pursuant to the provisions of the California Environmental Quality Act (Public Resources Code Sections 21000, et seq. ("CEQA") and the State

CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000, et seq.).

CEQA Guidelines Section 15301 (Class 1 categorical exemption).

The Project includes the leasing of an industrial building to be occupied with an industrial use. No exterior improvements to the building or parking areas are being proposed.

As such, aside from minor interior tenant improvements, the building would remain in its current existing condition. Consistent with CEQA Guidelines Section 15301, Class 1 facilities determined to categorically exempt from additional CEQA review, include the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use.

To fulfill the requirements stipulated under the California Environmental Quality Act (CEQA), a categorical exemption for a cannabis non-store front delivery site in the City of Los Angeles is presented as follows:

Current Operations:

Delivery non-storefront Retail

The retail dispensary is 280 sq.ft. within the facility. Commercial sales of cannabis products to consumers.

The key consideration is whether the project involves negligible or no expansion of use. The Project would in fact result in no changes to the exterior of the building or parking areas. Occupation levels would be similar or less than former on-site uses. The proposed uses are allowed per the site's zoning and land use designations.

Operation of the Project would comply with all City of Los Angeles code requirements as applicable. Also, the Project would have only five (5) employees per shift that generate approximately 20 vehicle trips per day during regular business hours, which would not result in a significant vehicle miles travelled (VMT) impact. Therefore, there is no reasonable possibility that the Project would have a significant effect on the environment due to unusual circumstances.

4. **Is there evidence of the potential for the project to contribute to a significant cumulative impact?**

☐ Yes ☒ No

Describe the potential cumulative impact(s) and evidence (if applicable). Cite source(s) of information.

The Project is not related to any other "successive projects of the same kind in the same place over time," thus, no significant cumulative impacts would occur.

5. **Is there evidence of a reasonable possibility of a significant environmental impact due to unusual circumstances?**

☐ Yes ☒ No

Describe the potential impact(s), circumstances, and evidence (if applicable). Cite source(s) of information.

As stated above, the Project Site is located in an urbanized, industrial area and the Project would not increase the intensity of industrial uses on the Project Site. CEQA Exemption PetitionClass: 1 Category: Exisiting Facilities

Explanation of how the project fits the CEQA exemption indicated above:

Review of Possible Exceptions to the Categorical Exemption: The Project has been reviewed under Guidelines Section 15300.2 and, for the reasons explained below, none of the relevant exceptions to the Class 1 categorical exemption in section 15300.2 apply here.

- a. Cumulative Impacts: The Project is not related to any other "successive projects of the same kind in the same place over time," thus, no significant cumulative impacts would occur.
- b. Significant Effects: As stated above, the Project Site is located in an urbanized, industrial area and the Project would not increase the intensity of industrial uses on the Project Site. There are no sensitive natural resources of any kind on the Project Site or in the surrounding area, as the Project Site and surrounding area are fully developed with industrial buildings, and there are no "unusual circumstances" that would indicate a potential for any significant environmental effects. Operation of the Project would comply with all City of Los Angeles code requirements as applicable. Also, the Project would have only five (5) employees per shift that generate approximately 20 vehicle trips per day during regular business hours, which would not result in a significant vehicle miles travelled (VMT) impact. Therefore, there is no reasonable possibility that the Project would have a significant effect on the environment due to unusual circumstances.
- c. Scenic Highways: According to the City of Los Angeles Mobility Plan 2035 and California Department of Transportation (Caltrans) State Scenic Highway Map, there are no state scenic highways in the vicinity of the Project Site. Therefore, the Project would not damage any scenic resources.
- d. Hazardous Waste Sites: According to the Department of Toxic Substances Control EnviroStor database and the California State Water Resources Control Board Geotracker database, the Project Site is not on any list of hazardous waste sites.
- e. Historical Resources: The building was constructed in 1962 and is not eligible to be considered a historic resource. Thus, there is no potential for the Project to impact a historic resource.
