Project Title: Lockhart Solar (PROJ-2022-00066)

Project Applicant: Juniper Energy, LLC

Project Location (include county): 315 Roy Rd., Hinkley; Unincorporated San Bernardino County, CA

Project Description:

A Conditional Use Permit (CUP) to construct and operate two 4-Megawatt solar photovoltaic (PV) power generating facilities with battery storage capabilities on 75 acres located northwest of the unincorporated community of Hinkley (the Project). The Project would generate electricity using solar PV modules mounted on single-axis trackers and arranged in north-south arrays across the Project Site. The system would store electrical production in long-duration batteries. Switchgear, a weather station, inverters, and transformers would manage the system and convert power for distribution to the nearby transmission grid. Electrical conduit, transmission and collection lines would be installed both overhead and underground. The solar PV facilities would interconnect to the 33kV distribution line owned and operated by Southern California Edison (SCE).

This is to advise that the San Bernardino County has approved the above (Lead Agency or Responsible Agency)

described project on 7/17/2025 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
