- The Business Premises is substantially different from the diagram of the Business Premises submitted by the Applicant or Licensee;
- Denying DCR employees or agents access to the Business Premises;
- Procuring a License by fraud or deceit, making a material misrepresentation, false statement, or knowingly failing to disclose a material fact;

- An Owner is an individual who holds office in, is employed by, any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04.

## **CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:**

The Applicant seeks conversion of an existing Distributor (Type 11); Cultivation Specialty Indoor (Type 1A), Temporary Approval to an Annual License to be located on an existing site zoned for Limited Commercial, C1-1D at 4901 West Melrose Avenue, Los Angeles, CA 90029 (Assessor's Parcel Number 5535-029-012). ## **CEQA PROJECT ANALYSIS & FINDINGS:**

### **Land Use/Zoning Designations**

Limited Commercial / C1-1D

### **Surrounding Land Use/Zoning Designations**

Low Residential / R1-1-HPOZ

Neighborhood Office Commercial / C2-1

Medium Residential / R3-1

### **Subject Property**

The subject site is a fully developed lot within the Hollywood Community Plan Area. The lot is approximately 130 feet deep and a width of 50 feet along Melrose Avenue. The site is currently developed with a Limited Commercial building, built in 1912 proposed to be maintained.

The site has a Limited Commercial land-use designation and is zoned C1-1D. The site is located within Council District 13, Hollywood Studio District Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

### **Abutting Properties**

Abutting uses include Limited Commercial uses within 200 feet of the site. The immediate area along Melrose Avenue is predominantly developed with Low Residential uses, zoned R1-1-HPOZ, Neighborhood Office Commercial, zoned C2-1 and, Medium Residential uses, zoned R3-1. (See Exhibit A)

### **CEQA Findings**

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in

any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

a) The site is comprised of one lot totaling approximately 6,514 gross square feet, zoned C1-1D with a Limited Commercial building originally constructed in 1912. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 6,514 gross square foot property (i.e., less than five acres), and is substantially surrounded by Limited Commercial uses. The surrounding area is Low Residential zoned R1-1-HPOZ, Neighborhood Office Commercial, zoned C2-1; and Medium Residential, zoned R3-1, and developed with a mix of Limited Commercial buildings along Melrose Avenue between Serrano Avenue and Oxford Avenue.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

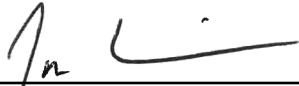

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

**DEPARTMENT OF CANNABIS REGULATION ACTIONS:**

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Distributor (Type 11) and Cultivation Specialty Indoor (Type 1A), Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.

**Project Description:** *Insert project description information or reference where this information is located.*

The project is located on a 0.1 acre parcel, addressed 4901 MELROSE AVE LOS ANGELES CA 90029-3731, LOS ANGELES, APN 5535-029-012, within the CD 13. The project utilizes one existing building of 2,261 sq. ft. on a 6,513.8 sq. ft. lot with parking. MJCC has been licensed by the DCR for years for distribution activities and cultivation activities in compliance with all local and state regulations. (See attached diagrams.)

The premises are located in a C-1 commercial zone, in a highly urban area surrounded by concrete and other similar existing businesses. The abutting uses are commercial and residential. No grading or vegetation removal is required as there is no surrounding vegetation or soil used for the project. The project is not located near any stream bed, lake, river, nor has temporary or permanent impacts to channels or riparian habitat. The project will not increase the quantity or type of solid waste that is generated or stored onsite or an increase in energy demand or additional energy resources from what is currently being used for the project. MJCC's operations will not have any significant environmental, traffic, noise, air quality, or water quality effects as it is located in an entirely urban and commercial area.

There are currently two owners who act as employees, with no increase in seasonal employees. Public utilities provide all required services, including fire protection by the Los Angeles ("LA") Fire Department ("LAFD"), water and power from the LA Department of Water and Power ("DWP") and the LA Sanitation Department provides general trash removal and sewage/wastewater treatment. The project has a Notice of Applicability (NOA) issued by the State Water Resources Control Board ("Water Board") and Lake and Streambed Alteration Waiver ("LSAW") from the California Department of Fish and Wildlife ("CDFW"). No expansion of use beyond the existing uses will occur.

Explanation of how the project fits the CEQA exemption indicated above:

Exemption #1: This project will not generate a significant adverse environmental impact because it will operate from an existing building and there will be no or negligible expansion of an existing use. MJCC will operate within the city parameters complying with all local and state rules and regulations. Additionally, it is located in an industrial zone, surrounded by other similar existing businesses and facilities. The project is not located near any stream bed, lake, river, nor has temporary or permanent impacts to channels or riparian habitat.

Exemption #32: This projects is consistent with local general plan and zoning requirements. It will not result in any significant traffic, noise, air quality, or water quality effects.
