Project Description: *(please use a separate page if necessary)*

The Project is intended to provide flood reduction to the City of Merced and rural communities within Merced County downstream of Black Rascal Creek. The overall purpose of the Project is to temporarily detain floodwaters during periods of heavy precipitation, thereby limiting flow in the diversion channel and reducing peak diversion channel flows entering Bear Creek downstream of the Project.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
