SUBJECT: MEMORANDUM: REQUEST TO UPDATE PUBLIC REVIEW PERIOD
REVISED OIL WELL ORDINANCE (ROWO)
SCH: 2025031377

The County of Los Angeles Department of Regional Planning requests that the public review period identified in CEQAnet for the Revised Oil Well Ordinance Draft Environmental Impact Report, SCH: **2025031377**, be updated.

The Notice of Availability originally identified the public review period of August 3, 2026 through September 17, 2026 based on the anticipated circulation date of the DEIR. The DEIR was officially published by the State Clearinghouse on August 5, 2026. To reflect the actual circulation date and provide full public review period, the County updated the public review period to August 5, 2026 through September 21, 2026. Public noticing indicated the adjusted review period, and the County will accept comments on the DEIR through September 21, 2026.

The County therefore requests that the CEQAnet project record be updated as follows:

Public Review Period Start: August 5, 2026

Public Review Period End: August 21, 2026

A revised Notice of Availability reflecting the updated public review period is attached for posting.
