The Applicant currently possesses a State Provisional License, CCL23-0000185, to conduct Nursery (Type 4), active through June 29, 2025.

The Applicant is subject to the requirements of LAMC Section 104.20 for the Social Equity Program. The Business Premises is located at 9315 Borden Avenue, Sun Valley, CA 91352, a parcel zoned for Light Manufacturing purposes.

DEPARTMENT ANNUAL LICENSING DETERMINATIONS:

- An Owner is an individual who holds office in, is employed by, any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:

The Applicant seeks an Annual Nursery (Type 4) License; to be located on an existing site zoned for Light Manufacturing, M2-1-CUGU at 9315 Borden Avenue, Sun Valley, CA 91352 (Assessor's Parcel Number 2408-039-011). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states that existing structures will remain with no expansion proposed (Exhibit A). Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Operations would be seven days per week from 10:00 a.m. to 6:00 p.m. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (Exhibit B). Compliance with Los Angeles Municipal Code Sections 104.00 *et seq.* and 105.00 *et seq.*, as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

CEQA PROJECT ANALYSIS & FINDINGS:

Land Use/Zoning Designations

Light Manufacturing / M2-1-CUGU

Surrounding Land Use/Zoning Designations

Light Manufacturing / M2-1-CUGU

Subject Property

The subject site is a fully developed lot within the Sun Valley - La Tuna Canyon Community Plan Area. The lot is approximately 284 feet deep and a width of 127 feet along Borden Avenue. The site is currently developed with a Industrial - Light Manufacturing - One Story building, built in 1965 proposed to be maintained.

The site has a Light Manufacturing land-use designation and is zoned M2-1-CUGU . The site is located within Council District CD 6, Sun Valley Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

Abutting Properties

Abutting uses include manufacturing uses within 200 feet of the site. The immediate area along Borden Avenue is predominantly developed with Light Manufacturing uses, zoned M2-1-CUGU. (See Exhibit B)

CEQA Findings

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

a) The site is comprised of one lot totaling approximately 36,755 gross square feet, zoned M2-1-CUGU with a Industrial - Light Manufacturing - One Story building originally constructed in 1965. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 36,755 gross square foot property (i.e., less than five acres), and is substantially surrounded by Light Manufacturing uses. The surrounding area is Light Manufacturing zoned M2-1-CUGU, and developed with a mix of manufacturing buildings along Borden Avenue between Randall Street and Tuxford Street.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Nursery (Type 4), Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.

One Shift

- (g) Estimated Daily Trip Generation: *Estimate the frequency of deliveries or shipments originating from and/or arriving to the project site. Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.*

Inbound Shipments/Deliveries 2-4 per week
Outbound Shipments 2-4 per week
Shipments/deliveries expected to be uniform across schedule and day of the week

- (h) Source(s) of Water: *Name all sources of water, and indicate whether a new or amended water right must be obtained from the State Water Resources Control Board.*

LADWP supplies water to the Project Site. No new or amended water right will have to be obtained from the State Water Resources Control Board.

- (i) Wastewater Treatment Facilities: *Describe the facilities for treatment of wastewater (e.g., leach field, City wastewater collection facilities).*

LADWP services Project Site with the City's sewer system and the existing business will not cause any change or increase in wastewater needs.

4. Environmental Setting:

- (a) Describe natural characteristics on the project site:

Developed Industrial area with some commercial buildings/light industrial

- (b) General Topographic Features (slopes and other features):

None

- (c) Natural characteristics (general vegetation types, drainage, soil stability, habitat, etc.):

Developed Industrial area with some commercial buildings/light industrial

Project will not increase the quantity or type of solid waste, will not generate hazardous waste but will generate organic waste (plant trimmings/dead plants) which will be handled according to State of CA and City of Los Angeles regulations

- ④ Describe the project's anticipated operational energy needs, identify the source of energy supplied for the project and the anticipated amount of energy per day, and explain whether the project will require an increase in energy demand and the need for additional energy resource:

Source of electricity will be retail power from LADWP and can only be estimated at this point but is expected to be around 50,000 kWh per year. Nurseries require less power than typical cultivation as lighting is only required for small plants, not flowering plants. There will be no increase in energy demand nor any need for additional energy resources.

5. Explain whether any of the project activities will expand the existing footprint of the proposed facility beyond the current structural or parcel boundaries, increase the amount of impervious surface, or reduce any natural habitat. If the project is part of a larger project, attach a separate sheet to briefly describe the larger project.

No expansion
