CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) EVALUATION

PROJECT DESCRIPTION:

The Applicant seeks an Annual License for cannabis cultivation on an existing site zoned for limited industrial, M1-1-CUGU, at 2940 E. Olympic Boulevard Los Angeles, CA 90023 (Assessor's Parcel Number 5170025007). The Project-Specific Information Form (LIC-4013-FORM) (**Exhibit A**) submitted by the Applicant indicates the project site is currently used for cannabis activities. Proposed cultivation activities include preparing the soil and growing medium, planting seeds or clones, irrigating, fertilizing, and managing pests, harvesting plants, drying, curing, and trimming plants. Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Proposed operations would have 10-15 employees from Monday through Sunday from 8:00 a.m. to 10:00 p.m. The pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (**Exhibit B**). Compliance with Los Angeles Municipal Code Sections 104.00 *et seq.* and 105.00 *et seq.*, as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

PROJECT INFORMATION AND RELEVANT CEQA PROVISIONS:

Project Site Land Use/Zoning Designations

General Plan: Limited Manufacturing; Zoning: M1-1-CUGU.

Surrounding Land Use/Zoning Designations

General Plan: Limited Manufacturing.

Zoning: M1-1-CUGU, M2-1-CUGU & RD1.5-1-CUGU.

Subject Property

The subject site is a fully developed lot within the Boyle Heights Community Plan Area. The lot is approximately 10,000 square feet with 4,800 square feet of floor area located at 2940 E. Olympic Boulevard Los Angeles, CA 90023. The project site previously operated as for light manufacturing and warehousing, and the proposed project would not change the previous use.

The site has a limited manufacturing land-use designation and is zoned M1-1-CUGU. The site is located within Council District 14, Boyle Heights Neighborhood Council.

Abutting Properties

Abutting properties are developed with single-story buildings for light manufacturing and commercial uses.

CEQA Guidelines

Exemption Class(es). CEQA Guidelines, Section 15301, Existing Facilities (Class 1), allows an exemption from CEQA where the project "consists of the operation repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use." The CEQA Guidelines provide a non-exclusive list of example project types that would be eligible for

the exemption. Among these are: 1) Interior or exterior alterations involving such things as interior partitions, plumbing, and electrical conveyances; 2) Restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety, unless it is determined that the damage was substantial and resulted from an environmental hazard such as earthquake, landslide, or flood; 3) Additions to existing structures, provided the addition would not result in an increase of 50 percent of floor area or 2,500 square feet, whichever is less, or an increase of up to 10,000 square feet if the project is in an area where all public services and facilities are available to allow for maximum development permissible in the General Plan, and where the area in which the project is located is not environmentally sensitive; and 4) Maintenance of existing landscaping; and 5) Restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety, unless it is determined that the damage was substantial and resulted from an environmental hazard such as earthquake, landslide, or flood.

Exceptions. Categorical Exemptions are restricted by CEQA Guidelines Section 15300.2: Exceptions, which establishes exceptions to the applicability of the exemptions. If the proposed project is subject to any of the following exceptions, the project would not be eligible for the applicable categorical exemption: (a) Location - Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies; (b) Cumulative Impact - All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant; (c) Significant Effect - A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity would have a significant effect on the environment due to unusual circumstances; (d) Scenic Highways - A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR; (e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code; and (f) Historical Resources - A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

CEQA PROJECT ANALYSIS & FINDINGS:

Analysis of Exemption

The proposed project is seeking licensing for continued cannabis cultivation, which would include preparing the soil and growing medium, planting seeds or clones, irrigating, fertilizing, and managing pests, harvesting plants, drying, curing, and trimming plants. The project does not propose additions to existing structures, so it would involve no expansion for existing use.

Based on the above, the project would meet the criteria for a CEQA Cass 1 Categorical Exemption as “operation repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use.”

Analysis of Exceptions

a) Location. The CEQA Guidelines establish that the locational exception does not apply to a Class 1 Categorical Exemption and thus would not be applicable to the project.

b) Cumulative Impact. The project does not propose demolition or construction or substantive modifications to the existing facilities. As the project itself would have no impacts (as determined in this CEQA evaluation), it would not contribute a cumulatively considerable effect to a cumulative impact.

c) Significant Effect. The project is seeking approval for an Annual License from the Department of Cannabis Regulation for cannabis cultivation, and the project would be consistent with the general plan designation, applicable general plan policies, zoning designation, and regulations for commercial cannabis activity at the site. There are no known unusual circumstances on or around the project site that would warrant environmental analysis.

d) Scenic Highways. Based on Caltrans California State Highways Maps, there are no designated Scenic Highways in the project vicinity.¹ In addition, the project site has no resources, and the project would involve no physical changes to the environment. Therefore, the project would not damage mature, scenic trees, or scenic rock outcroppings.

e) Hazardous Waste Sites. The project site is not located within a site that is included in any list compiled pursuant to Section 65962.5 of the Government Code, commonly referred to as the Cortese List, as shown below:

- The California Department of Toxic Substances Control EnviroStor Hazardous Waste and Substances Site List;²
- The State Water Resources Control Board GeoTracker;³
- Solid waste disposal sites identified by State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit;⁴
- The State Water Resources Control Board list of Cease-and-Desist Orders and Cleanup and Abatement Orders;⁵ and
- Hazardous waste facilities subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code, as identified by the California Department of Toxic Substances Control.⁶

Therefore, the project site is not identified as a hazardous waste sit, and this exception would not preclude the exemption. Further, state regulations and the Department of Cannabis Regulation's application review process would ensure that appropriate safety measures are in place so that the project would have less than significant hazard impacts.

f) Historical Resources. The project site is currently developed with buildings and hardscape features, the proposed project would not change these existing conditions. The City ZIMAS system identifies no historic designations or overlay for the site and indicates no historic preservation review is required (Exhibit B). Further, the proposed project would not demolish or modify the building. The project site is not listed in a local, state, or national register, nor has it been determined eligible for designation.⁷ Therefore, implementation of the project would not cause substantial adverse change in the significance of a historical resource.

Based on the discussion above, the proposed project's use of a Class 1 Categorical Exemption is not affected by any of the exceptions set forth in State CEQA Guidelines Section 15300.2. As the proposed project would result in no physical changes to the site and no change in use, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project would not physically change the site or the existing structures, therefore, the project would have no impact on scenic or historic resources. The site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up issues.

Conclusion Findings. Based on the analysis above, the proposed project is consistent with the criteria for a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Cultivation Medium Indoor (Type 3A), Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.
