CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:

The Applicant seeks conversion of an existing cannabis testing Temporary Approval to an Annual License located on an existing site zoned Limited Manufacturing ([Q]M1-1VL-O) at 12820 S. Figueroa Street, Los Angeles, CA 90061 (Assessor Parcel Numbers: 6132-015-051, 6132-015-050). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states the existing structure will remain with no expansion or physical changes proposed. The site has a Limited Manufacturing land use designation and is zoned [Q]M1-1VL-O. No physical changes to the site are proposed.

Abutting Properties

To the east, across an unnamed alley, is a garbage collection facility. To the west, across Figueroa Street, are other manufacturing/warehouse uses.

CEQA Findings

CEQA Guidelines Sections 15300 to 15332 include a list of classes of projects which have been determined not to have a significant effect on the environment and which shall, therefore, be exempt from the provisions of CEQA.

CEQA Guidelines Section 15301, Class 1 – Existing Facilities, consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of

existing or former use. The project meets these conditions as the existing structure on-site will remain with no expansion or physical changes proposed. The existing use will continue to operate as-is.

CEQA Guidelines Section 15332, Class 32 - In-Fill Development Projects, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows:

a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the continued use of cannabis testing. The site is currently developed with a one-story 7,000 sq ft industrial/warehousing building built in 1968 and is proposed to be maintained. The site has a Limited Manufacturing land use designation and is zoned [Q]M1-1VL-O. No physical changes to the site are proposed and no relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 14,002 sq ft lot (0.23 acre) and is substantially surrounded by urban uses. Abutting uses include a one-story 500 sq ft building to the south that operates out of a 5,970 sq ft lot as a recycling facility, and a one-story 640 sq ft commercial building operating as a fast-food restaurant to the north. To the east, across an unnamed alley, is a garbage collection facility. To the west, across Figueroa Street, are other manufacturing/warehouse uses. The immediate area along S. Figueroa Street is predominantly developed with light/limited manufacturing and commercial uses, zoned for light/limited manufacturing and commercial uses: [Q]M1-1VL-O, P-1VL-O, [T][Q]M2-1VL-O, [T][Q]M1-1VL-O, [Q]C2-1VL-O, C2-1-O).

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality. As the project will result in no physical changes to the site, the project would not have physical impacts to the environment.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the project.

CEQA Guidelines Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2 that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project; the site's general plan designation and zoning classification allow the proposed use. The project will not physically change the site or the

existing structure. Therefore, the project would have no impact on scenic resources or historic building(s). The site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2. Thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Testing (Type 8) Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.
