DETERMINATION AND APPROVAL OF COMMERCIAL CANNABIS ANNUAL LICENSE(S)

Pursuant to Los Angeles Municipal Code (LAMC) Section 104.06, the following application for commercial cannabis activity is complete and the Department of Cannabis Regulation (DCR) has determined the Applicant meets the requirements for the issuance of an Annual License for the commercial cannabis activity listed below. DCR also has determined this project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to the categorical exemptions under Class 1 and Class 32.

DCR Record No.:	LA-C-24-210277-ANN
Applicant Name:	Boyd Holdings LLC
Activity(ies) Requested:	Cultivation Specialty Indoor (Type 1A)
Proposed Project:	The Applicant seeks an Annual License for the commercial cannabis activity(ies) listed above pursuant to LAMC section 104.06 et. al.
Business Premises Address/	320 S Mission Road
Project Location:	Los Angeles, CA 90033
Council District:	14
Closest Neighborhood Council:	Boyle Heights
Business Improvement District:	-
Community Plan Area:	Boyle Heights
Zoning:	M2-1-RIO-GUGU
LAMC Section / "Phase":	LAMC 104.08 / Phase 2
Environmental Analysis/Clearance: ENV-210277-ANN	Notice of Exemption pursuant to the Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332)

BACKGROUND:

The Applicant was issued Temporary Approval by DCR with an effective date of March 8, 2023. Since that time, the Applicant has adhered to the requirements of the Los Angeles Municipal Code (LAMC) and DCR's Rules and Regulations, and completed all requirements for the issuance of an Annual License. The Applicant currently possesses a State Provisional License, CCL22-0001447, to conduct Cultivation Specialty Indoor (Type 1A), active through November 28, 2025.

The Applicant is not subject to the requirements of LAMC Section 104.20 for the Social Equity Program. The Business Premises is located at 320 S Mission Road, Los Angeles, CA 90033, a parcel zoned for Light Manufacturing purposes.

DEPARTMENT ANNUAL LICENSING DETERMINATIONS:

DCR recommends approving the Annual License for the Applicant based on the following factors:

- The Applicant has met the Application requirements under LAMC Section 104.03.
- The Business Premises location meets the requirements under LAMC Section 105.02.
- The Application does not contain any grounds for denial under LAMC Section 104.04.
- (Social Equity only): The Applicant has met the requirements under LAMC Section 104.20.

THERE ARE NO EXISTING REASONS TO DENY AN ANNUAL LICENSE:

DCR or the Cannabis Regulation Commission may deny an Annual Application for the reasons stated in LAMC section 104.04. These denial reasons include, but are not limited, to:

- The Business Premises is substantially different from the diagram of the Business Premises submitted by the Applicant or Licensee;
- Denying DCR employees or agents access to the Business Premises;
- Procuring a License by fraud or deceit, making a material misrepresentation, false statement, or knowingly failing to disclose a material fact;
- Failing to timely to provide DCR with requested information, forms or documents;
- Denial of a license, permit or other authorization to engage in Commercial Cannabis Activity by any state or other local licensing authority;
- Creation a significant public safety problem as documented by a law enforcement agency;
- Failure to adhere to the requirements of this article or the Rules and Regulations;
- Engaging in unlicensed Commercial Cannabis Activity in violation of Section 104.15;
- (Social Equity Only) Failing to comply with any requirement in LAMC Section 104.20;
- The Business Premises was the site of a utility disconnect, padlocking or certain criminal convictions for a period of 5 years from the date of the conviction, padlock or disconnect;
- Improper zoning or distancing of the Business Premises from Sensitive Uses under LAMC Section 105.00 *et seq*; and,
- An Owner is an individual who holds office in, is employed by, any agency of the State of California and any of its political subdivisions when the individual's duties include the enforcement or regulation of Commercial Cannabis Activity or any other penal provisions of law of the State of California prohibiting or regulating Commercial Cannabis Activity.

At present, DCR is not aware of any existing facts or circumstances to deny this Annual License for the reasons in LAMC Section 104.04.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PROJECT DESCRIPTION:

The Applicant seeks conversion of an existing cannabis cultivation Temporary Approval (Type Cultivation Specialty Indoor) to an Annual License located on an existing site zoned Light Manufacturing (M2-1-RIO-CUGU) at 320 S. Mission Road and 1307, 1311, and 1315 E. Boyd Street, Los Angeles, CA 90033 (Assessor Parcel Number 5172-015-004). The Project-Specific Information (LIC-4013-FORM) submitted by the Applicant states the existing structure will remain with no expansion proposed. The project involves minor modifications to the existing building and site which consist of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements for a commercial cannabis cultivation facility. Existing operation of cannabis cultivation to remain (Exhibit A). Existing City sewer service is provided to the project site, and water and electricity are provided by the City of Los Angeles Department of Water and Power. Operations would continue to be seven days a week from 8:00 am to 5:00 pm. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (Exhibit B Parcel Reports 1, 2, 3, and 4). Compliance with Los Angeles Municipal Code Sections 104.00 et seq. and 105.00 et seq., as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. Full compliance with all applicable regulations for the proposed cannabis use(s) are assumed in this analysis.

Surrounding Land Use/Zoning Designations

Light Manufacturing / M2-1-RIO-CUGU Light Manufacturing / [Q] MR2-1-RIO-CUGU Heavy Industrial / M3-1-RIO-CUGU Limited Commercial / C1-1-RIO-CUGU Public Facilities / PF-1XL-RIO-CUGU Open Space / [VF1-WH1-5] [OS1-N] Multiple Dwelling / R3-1-RIO-CUGU

Subject Property

The subject site is a fully developed lot within the Boyle Heights Community Plan Area, Council District 14. The 16,421.2 sf (0.377 acre) lot is approximately 110 feet along S. Mission Road with a width of 150 feet along E. Boyd Street. The site is currently developed with a one-story industrial building totaling approximately 15,498 sf built in 1951 which is proposed to be maintained. The site has a Light Manufacturing land use designation and is zoned M2-1-RIO-CUGU. No expansion is proposed.

Abutting Properties

Abutting uses include an industrial building on one parcel totaling approximately 35,349 sq ft to the north (across an alley and fronting on E. 3rd Street) and a one-story industrial building totaling approximately 9,270 sf to the east along E Boyd Street. These parcels are all zoned M2-1-RIO-CUGU. To the west, across S. Mission Road, are heavy industrial businesses and land zoned for public facilities. These parcels are zoned M3-1-RIO-CUGU, and PF-1XL-RIO-CUGU, respectively. To the south, fronting along E. Boyd Street, are also limited industrial, or commercial businesses. These parcels are all zoned M2-1-RIO-CUGU. (See Exhibit B)

CEQA Findings

CEQA Guidelines Sections 15300 to 15332 include a list of classes of projects which have been determined not to have a significant effect on the environment and which shall, therefore, be exempt from the provisions of CEQA.

CEQA Guidelines Section 15301, Class 1 – Existing Facilities, consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The project meets these conditions as the existing structure on-site will remain with no expansion proposed. The project involves minor modifications to existing building and site which consist of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements for a commercial cannabis cultivation facility. The existing use will continue to operate as-is.

CEQA Guidelines Section 15332, Class 32 - In-Fill Development Projects, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows:

a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the continued use of cannabis cultivation. The site is currently developed with a one-story industrial building totaling approximately 15,498 sf built in 1951 which is proposed to be maintained. The site has a Light Manufacturing land use designation and is zoned M2-1-RIO-CUGU. No expansion is proposed and no relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 16,421.2 sf (0.377 acre) parcel and is substantially surrounded by urban uses. Abutting uses include an industrial building on one parcel totaling approximately 35,349 sq ft to the north (across an alley and fronting on E. 3rd Street) and a one-story industrial building totaling approximately 9,270 sf to the east along E Boyd Street. These parcels are all zoned M2-1-RIO-CUGU. To the west, across S. Mission Road, are heavy industrial businesses and land zoned for public facilities. These parcels are zoned M3-1-RIO-CUGU, and PF-1XL-RIO-CUGU. To the south, fronting along E. Boyd Street, are also limited industrial, or commercial businesses. These parcels are all zoned M2-1-RIO-CUGU.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality. As the project will result in no expansion with only minor interior tenant improvements, the project would not have substantive physical impacts to the environment.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los

Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the project.

CEQA Guidelines Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2 that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the project will result in no expansion with only minor interior tenant improvements, the project would not have substantive physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project; the site's general plan designation and zoning classification allow the proposed use. The project would have no impact on scenic resources or historic building(s). The site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2. Thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

DEPARTMENT OF CANNABIS REGULATION ACTIONS:

The Department of Cannabis Regulation:

- Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
- Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Cultivation Specialty Indoor (Type 1A), Commercial Cannabis Activity at the Business Premises location; and,
- 3. Adopted the Project Analysis & Findings and Notice of Exemption.

Project Description: Insert project description information or reference where this information is located.

The project involves minor modifications to existing buildings and site which consist of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements for a commercial cannabis cultivation facility. No demolition of buildings or other features is proposed. The project is consistent with the general plan designation and zoning designation and distance requirements from sensitive uses for commercial cannabis activity at the site. The site is entirely developed with buildings and hardscape features within the limits of the City of Los Angeles and is substantially surrounded by urban uses.

CEQA Exemption Petition

Class: <u>1 & 32</u> Category: Existing Facilities & In-Fill Development Project

Explanation of how the project fits the CEQA exemption indicated above:

The project consists of an existing commercial cannabis business with no plans for expansion and with minimal to no environmental impact. The site is entirely developed with buildings and hardscape features. The project involves minor modifications to an existing building and site, consisting of interior tenant improvements, installation of security features (lighting, cameras), ministerial changes required to meet local building, fire, and/or public health permit requirements. No demolition of buildings or other features is proposed. The project is consistent with the general plan designation, all applicable general plan policies, and zoning designation and regulations for commercial cannabis activity at the site. The project site is less than 5 acres in size and is substantially surrounded by urban uses within the limits of the City of Los Angeles.

1. Source(s) of Information: Identify Sources: *Indicate the document(s) or other sources of information reviewed to complete this form.*

ZIMAS; property records; Department of Cannabis Regulation application for a commercial cannabis license; Department of Cannabis Regulation draft Notice of Exemption; Google Maps.

2. Project Location and Surrounding Land Use.

(a) Describe Project Location: Provide detailed information about the project location and any other physical description that clearly indicates the project site location.

Project is located at 1307, 1311, and 1315 Boyd St, between Mission Road and Anderson St in an industrial building. The surrounding buildings are largely industrial business such as: Garment Group, Inc., Monarch Studios (video production service) and Robeworks (e-commerce service). The Project is roughly 500 feet from the Los Angeles River.

(b) Existing Land Uses/Zoning: Describe the current land uses on the project site and any existing buildings and structures. Describe the surrounding land uses and zoning designations within a one-half mile radius of the project and list all abutting land uses.

Project Site: Industrial (M2) Abutting Land Uses: Industrial (M2). Surrounding Land Uses: Commercial (C1), industrial (M2, MR2, M3), public facilities (PF, OS), residential (R3).

(c) Previous Use: Describe the previous use of the Project site or facility, if known. Include an estimate of the time such previous operations ceased, if such information is available.

A portion of the project site was previously used as PSD Underwear, a retail store. The previous operations ceased in 2022.

(d) Was the site previously used for a similar use? The key consideration is whether the project involves negligible or no expansion of an existing use.

The Project does not involve expansion of an existing structure.

- (e) Maps to be Included: Provide a vicinity map and aerial image to show the project location. Include photographs, not larger than 8½ by 11 inches, of existing visual conditions as observed from publicly accessible vantage point(s).
- 3. Project Operations/Description. Provide the following information about project operation and maintenance activities. If more than one type of cannabis activity is occurring on-site, provide a description of the project operations for each activity. This should include the following relevant information.
 - (a) Activities Occurring Onsite: Describe the activities included in the project application and identify any other commercial cannabis activity or activities occurring at the proposed premises, including other proposed cannabis activities occurring on the property. Describe the cannabis business operation methods and activities (e.g. cultivation methods, manufacturing and/or distribution operations).

The commercial cannabis cultivation activities occurring at the premises include planting, growing, harvesting, drying, curing, grading, trimming or packaging of cannabis.

(b) Cannabis Operation Activities Owned by the Same or Different Businesses: Describe any additional cannabis operation activities existing or proposed either owned by the same or different businesses on the property.

There are no additional cannabis activities at the project site.

(c) Project Size: Quantify the project size (total floor area of the project), and the lot size on which the project is located, in square feet.

Project size = 15,498 sq. ft. Lot size = 16,421.2 sq. ft.

(d) State License: Identify whether the applicant is licensed by, or has applied for licensure from, the California Department of Cannabis Control to engage in commercial cannabis activity at the proposed premises.

The Applicant holds a Specialty Indoor Cultivation provisional license issued by the Department of Cannabis Control.

(e) Hours of Operation/Work Shifts: Identify the hours of operation/work shifts for the project.

Hours of operation are Monday - Sunday from 8am - 5pm daily. There is one work shift per day.

(f) Number of employees (total and by shift): Estimate the number of anticipated employees onsite and occupancy during operating hours.

Applicant anticipates 2 employees on-site and a total occupancy of 4 people during business hours.

(g) Estimated Daily Trip Generation: Estimate the frequency of deliveries or shipments originating from and/or arriving to the project site. Identify the approximate number of vehicle trips per day to be generated by the project and information regarding the days and times most trips are expected to occur.

Applicant estimates approximately 1 shipment per week originating from the project site. Shipments will occur during business hours, Monday through Friday.

(h) Source(s) of Water: Name all sources of water, and indicate whether a new or amended water right must be obtained from the State Water Resources Control Board.

The water source for the project site is the Los Angeles Department of water and power. No new or amended water right needs to be obtained from the State Water Resources Control Board.

() Wastewater Treatment Facilities: Describe the facilities for treatment of wastewater (e.g., leach field, City wastewater collection facilities).

Los Angeles Department of Sanitation. The facility does not utilize any other wastewater treatment system.

4. Environmental Setting:

(a) Describe natural characteristics on the project site:

Industrial area and flat land

(b) General Topographic Features (slopes and other features):

None.

(c) Natural characteristics (general vegetation types, drainage, soil stability, habitat, etc.):

None.

LIC-4013-FORM (09.18.2023)

(d) Identify whether there are any watercourses and riparian habitats within 150- feet of the proposed premises (e.g., drainage swales, stream courses, springs, ponds, lakes, creeks, tributary of creeks, wetlands):

None.

(e) Identify whether the property contains natural features of scenic value of rare or unique characteristics (e.g., rock outcroppings, mature trees):

None.

(f) Identify whether the property has any historic designations or archeological remains onsite:

None.

(g) Identify whether the property contains habitat for special status species:

None.

(h) Identify the location, type, and quantity of hazardous materials, as defined by Health and Safety Code section 25260, that are stored, used, or disposed of at the project site and a copy of the Hazardous Material Business Plan (HMBP) prepared for the proposed premises, if any:

Applicant's cultivation activities include the use of CO2. The CO2 tanks are stored outside in a secured area on the side of the building. Applicant uses approximately 3,000 pounds of liquid CO2 per month.

() Discuss whether the project will increase the quantity and type of solid waste, as defined by Public Resources Code section 40191, or hazardous waste, as defined by Health and Safety Code section 25117, that is generated or stored onsite:

Project will not increase the quantity and type of solid waste or hazardous waste, that is generated or stored on-site. All cannabis waste shall disposed of in accordance with all applicable waste management laws.

() Describe the project's anticipated operational energy needs, identify the source of energy supplied for the project and the anticipated amount of energy per day, and explain whether the project will require an increase in energy demand and the need for additional energy resource:

The energy for the project is supplied by Los Angeles Department of Water and Power. The anticipated amount of energy used per day is approximately 2,700 kWh. Applicant does not expect an increase in energy demand or need for additional energy resources.

5. Explain whether any of the project activities will expand the existing footprint of the proposed facility beyond the current structural or parcel boundaries, increase the amount of impervious surface, or reduce any natural habitat. If the project is part of a larger project, attach a separate sheet to briefly describe the larger project.

The project activities will not expand the existing footprint of the proposed facility beyond the current structural or parcel boundaries, increase the amount of impervious surface, or reduce any natural habitat.

6. Environmental Commitments: List any environmental commitments agreed to by the applicant to the protection of biological or cultural resources, energy efficiency, water efficiency, noise abatement, lighting, or other aspects of the project that may reduce impacts on the environment.

Applicant will develop and implement an Odor Management Plan ("OMP") to mitigate any potential odors. The OMP shall include odor mitigation practices, procedure for logging and addressing odor complaints, maintenance of records relating to odor management, and odor-equipment installation and maintenance.

7. Other Relevant CEQA Information: Submit any other relevant CEQA documentation or information that will assist the Department in determining CEQA compliance (e.g., any environmental impact analysis prepared by a consultant.

None

- 8. Permits Required: List all other required federal, state, and local permits required, including, but not limited to, all entitlements required for this project by a planning commission, local air district, or regional water board. Identify whether the commercial cannabis business(es) is licensed by or has applied for licensure from the Department, or one of the prior state cannabis licensing authorities:
 - California Department of Cannabis Control provisional license obtained
 - Los Angeles Fire Department
 - Los Angeles Department of Building and Safety in process
 - California Department of Fish and Wildlife
 - State Water Resources Control Board / Regional Water Quality Control Board
 - County of Los Angeles Public Health Permit in process
 - □ Local Air District
 - □ Streambed Alteration Agreement
 - □ Water quality protection program
 - E Los Angeles Department of Water and Power
 - E Los Angeles Department of Public Works, Bureau of Sanitation

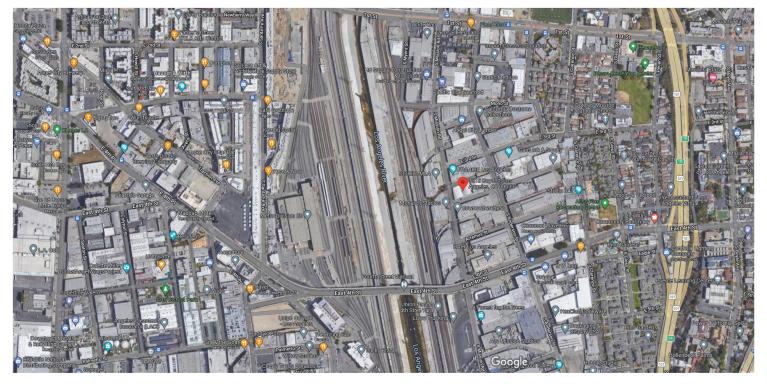

Partial List of Categorical Exemptions under CEQA

Certain commercial cannabis activities (projects) may be exempt from further environmental review pursuant to the California Environmental Quality Act (CEQA) because they fall within a class of projects determined not to have significant effect on the environment. (Cal. Code Regs., tit. 14, § 15300 et seq.) Common exemptions that may apply have been identified below.

Class 1Existing FacilitiesConsists of the operation, repair, maint leasing, licensing, or minor alteration o private structures, facilities, mechanical topographical features, involving neglig of use beyond that existing at the time determination. (Cal.
