Project Title: 2025 Regional Water Reclamation Facilities CIP Prioritization
Project Location: Multiple Locations throughout Eastern Municipal Water District's Service Area
City: Moreno Valley, Perris, San Jacinto, Temecula
County: Riverside

Description of Nature, Purpose, and Beneficiaries of Project:

The 2025 Regional Water Reclamation Facilities CIP Prioritization Project is a planning study designed to address unanticipated increases in daily mass loading of biochemical oxygen demand, total suspended solids, and ammonia at EMWD's four Regional Water Reclamation Facilities: Moreno Valley RWRF, Perris Valley RWRF, San Jacinto Valley RWRF and Temecula Valley RWRF. The study will analyze adjustments needed to properly treat wastewater and reduce organic matter and ammonia. Overall, this study will identify improvements needed to meet future infrastructure needs, account for projected population growth, and maintain operational effectiveness and reliability for each RWRF. Beneficiaries of the project are EMWD ratepayers.

Public Agency Approving and Carrying Out Project: Eastern Municipal Water District

Exempt Status:

☒ Categorical Exemption. 15262

This class of exemption covers feasibility or planning studies for possible future actions which EMWD has not approved, adopted, or funded but require the consideration of environmental factors. The project is intended to assess historical sewer flows and loads (2021-2024) and compare to most recent projects with the intention of confirming or updating the CIP.
