Phase 1 Environmental Site Assessment

Phase I Environmental Site Assessment 700 Crocker Drive Vacaville, California

Prepared for: 700 Crocker Owner, LLC 3140 Peacekeeper Way McClellan, California 95652

Guggenheim Commercial Real Estate Finance, LLC 330 Madison Avenue 8th Floor New York, New York 10017

Prepared by: Stantec Consulting Services Inc. 3875 Atherton Road Rocklin, CA 95765

Project No.: 185703741

# Sign-off Sheet and Signatures of Environmental Professionals

This document entitled Phase I Environmental Site Assessment was prepared by Stantec Consulting Services Inc. (Stantec) for the account of 700 Crocker Owner, LLC and Guggenheim Commercial Real Estate Finance, LLC (GCREF). The material in it reflects Stantec's best judgment in light of the information available to it at the time of preparation. Except for as outlined herein, any use which a third party makes of this report, or any reliance on or decisions made based on it, are the responsibilities of such third parties. Stantec accepts no responsibility for damages, if any, suffered by any third party as a result of decisions made or actions based on this report.

All information, conclusions, and recommendations provided by Stantec in this document regarding the Phase I ESA have been prepared under the supervision of and reviewed by the professionals whose signatures appear below.

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Property. I have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

SUMMARY September 7, 2017

# 1.0 SUMMARY

Stantec Consulting Services Inc. (Stantec) has completed a Phase I Environmental Site Assessment (ESA) report of the property located at 700 Crocker Drive, in Vacaville, Solano County, California (the "Property"), on behalf of 700 Crocker Owner, LLC and GCREF (the "Client"). The work was performed according to Stantec's proposal and terms and conditions dated May 30, 2017 and accepted by 700 Crocker Owner, LLC (LDK Ventures) on May 30, 2017. 700 Crocker Owner, LLC and GCREF (the "Users") have been designated as the Users of this report.

The Phase I ESA was conducted in conformance with the requirements of American Society for Testing and Materials (ASTM) Designation E 1527-13, except as may have been modified by the scope of work, and terms and conditions, requested by the Client. Any exceptions to, or deletions from, the ASTM practice are described in Section 2.3.

The Property consists of approximately 124.14 acres of land comprised of two parcels identified by the Solano County Assessor Office as Assessor Parcel Numbers (APN) 0106-240-340 (52.57 acres) and 0106-240-350 (71.57 acres). The Property is currently developed with an approximate 843,248 square foot (SF) cross loaded warehouse facility, a guard shack, a transportation office, a truck maintenance facility, an approximate 30,000 SF cross dock facility, a portable office, fire pump house, water storage tanks, and employee parking. The northern portion of the Property consists of undeveloped land. The Property is located on the west side of Highway 505 in a mixed-use area of Vacaville, California. Surrounding properties are primarily industrial, residential, and agricultural. A Property location map is illustrated on Figure 1. A Property map illustrating the main features of the Property is provided as Figure 2. Photographs taken during the site reconnaissance visit are provided in Appendix A.

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 700 Crocker Drive, in Vacaville, California, the Property. Any exceptions to, or deletions from, this practice are described in the Data Gaps section of this report. This assessment has revealed no evidence of recognized environmental conditions (RECs) in connection with the Property, with the exception of the following:

- Two 500-gallon diesel aboveground storage tanks (ASTs) are in use at the Property for the fire pumps. Due to the presence of the diesel ASTs, this is considered to be a REC to the Property.
- Significant staining was observed in the former battery charging room. Some of the staining was observed near or co-located with cracks in the concrete and floor drains. Reportedly the floor drains were disconnected from the sanitary system; however the staining in the areas of the floor drains and cracks could present a conduit to the subsurface and therefore this is considered to be a REC.

SUMMARY September 7, 2017

• The Property was listed on several environmental databases relating to the historical underground storage tanks (USTs) and associated environmental cases. Between 1989 and 2006, a total of ten diesel USTs were removed from the Property. Soil excavation and groundwater monitoring were performed in response to diesel impacts from the USTs. On June 17, 1998, the leaking UST (LUST) case associated with the Property received regulatory closure and is therefore considered to be a HREC.

INTRODUCTION September 7, 2017

# 2.0 INTRODUCTION

The objective of this Phase I ESA was to perform appropriate inquiry into the past ownership and uses of the Property consistent with good commercial or customary practice as outlined by the ASTM in "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process", Designation E1527-13. The purpose of this Phase I ESA was to identify, to the extent feasible, adverse environmental conditions including recognized environmental conditions (RECs) of the Property.

The ASTM E1527-13 standard indicates that the purpose of the Phase I ESA is to identify RECs, including historical recognized environmental conditions (HRECs), and controlled recognized environmental conditions (CRECs) that may exist at a property. The term "recognized environmental conditions" means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property:

- (1) Due to any release to the environment;
- (2) Under conditions indicative of a release to the environment; or
- (3) Under conditions that pose a material threat of a future release to the environment.

ASTM defines a HREC as a REC that has occurred in connection with the Property, but has been addressed to the satisfaction of the applicable regulatory authority and meets unrestricted use criteria established by a regulatory authority, without subjecting the Property to any required controls (for example, Property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a HREC, the environmental professional must determine whether the past release is a REC when the current Phase I ESA is conducted (for example, if there has been a change in the regulations). If the Environmental Professional (EP) considers the past release to be a REC at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a REC.

ASTM defines a CREC as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), but with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

De minimis conditions are not RECs. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. As indicated, the term REC does not include de minimis conditions, which generally do not present a material risk to human health and would not likely be subject to enforcement action if brought to the attention of governmental agencies.

INTRODUCTION September 7, 2017

This ESA was conducted in accordance with our proposal to 700 Crocker Owner, LLC (LDK Ventures) dated May 30, 2017 and Client's authorization on May 30, 2017. The scope of work conducted during this Phase I ESA consisted of a visual reconnaissance of the Property, interviews with key individuals, and review of reasonably ascertainable documents. The scope of work did <u>not</u> include an assessment for environmental regulatory compliance of any facility ever operated at the Property (past or present), or sampling and analyzing of environmental media. Stantec was not contracted to perform any independent evaluation of the purchase or lease price of the Property and its relationship to current fair market value. The conclusions presented in this ESA report are professional opinions based on data described herein. The opinions are subject to the limitations described in Section 2.3.

ASTM E1527-13 notes that the availability of record information varies from source to source. The User or Environmental Professional is not obligated to identify, obtain, or review every possible source that might exist with respect to a property. Instead, ASTM identifies record information that is reasonably ascertainable from standard sources. "Reasonably ascertainable" means:

- (1) Information that is publicly available;
- (2) Information that is obtainable from its source within reasonable time and cost constraints; and
- (3) Information that is practicably reviewable.

# 2.1 **PROPERTY DESCRIPTION**

The Property consists of approximately 124.14 acres of land comprised of two parcels identified by the Solano County Assessor Office as APN 0106-240-340 (52.57 acres) and 0106-240-350 (71.57 acres). The Property is currently developed with an approximate 843,248 square foot (SF) cross loaded warehouse facility, a guard shack, a transportation office, a truck maintenance facility, an approximate 30,000 SF cross dock facility, a portable office, fire pump house, water storage tanks, and employee parking. The northern portion of the Property consists of undeveloped land. Property is located on the west side of Highway 505 in a mixed-use area of Vacaville, California. Surrounding properties are primarily industrial, residential, and agricultural. A Property location map is illustrated on Figure 1. A Property map illustrating the main features and adjacent properties is provided as Figure 2. A Property detail map is provided as Figure 3. Photographs taken during the site reconnaissance visit are provided in Appendix A.

# 2.2 SPECIAL TERMS, CONDITIONS, AND SIGNIFICANT ASSUMPTIONS

There were no special terms, conditions, or significant assumptions associated with this Phase I ESA.

INTRODUCTION September 7, 2017

#### 2.3 EXCEPTIONS AND LIMITING CONDITIONS

This report documents work that was performed in accordance with generally accepted professional standards at the time and location in which the services were provided and given the schedule and budget constraints established by the client. No other representations, warranties, or guarantees are made concerning the accuracy or completeness of the data or conclusions contained within this report, including no assurance that this work has uncovered all potential and actual liabilities and conditions associated with the identified property.

This report provides an evaluation of selected environmental conditions associated with the identified portion of the Property that was assessed at the time the work was conducted and is based on information obtained by and/or provided to Stantec at that time. There are no assurances regarding the accuracy and completeness of this information. All information received from the client or third parties in the preparation of this report has been assumed by Stantec to be correct. Stantec assumes no responsibility for any deficiency or inaccuracy in information received from others.

If a service is not expressly indicated, do not assume it has been provided. If a matter is not addressed, do not assume that any determination has been made by Stantec in regards to it.

Conclusions made within this report consist of Stantec's professional opinion as of the time of the writing of this report, and are based solely on the scope of work described in the report, the limited data available, and the results of the work. They are not a certification of the property's environmental condition.

Subject to the limitations contained in the Report and the following terms and conditions listed below, we also acknowledge that Guggenheim Commercial Real Estate Finance, LLC, and any of their affiliates, members, employees, agents, successors and assigns may rely upon this report in evaluating a request for an extension of credit (the "Mortgage Loan") to be secured by the property that is the subject of the Report. This information may also be used and relied upon by any actual or prospective purchaser, transferee, pledgee, assignee, or servicer of the Mortgage Loan, any actual or prospective investor (including agent or advisor) in any securities evidencing a beneficial interest in or backed by the Mortgage Loan, any rating agency actually or prospectively rating any such securities, any indenture trustee, and any institutional provider(s) from time to time of any liquidity facility or credit support for such financing. In addition, a reference to this report may be included in any offering circular, private placement memorandum, registration statement, or prospectus and Stantec agrees to cooperate in answering questions by any of the above parties in connection with a securitization or transaction involving the Mortgage Loan and/or such securities. The Report has no other purpose and should not be relied upon by any other person or entity.

This report relates solely to the specific project for which Stantec was retained and the stated purpose for which this report was prepared and shall not be used or relied upon by the client

INTRODUCTION September 7, 2017

identified herein for any variation or extension of this project, any other project, or any other purpose.

This report has been prepared for the exclusive use of the client identified herein and any use of or reliance on this report by any third party is prohibited, except as may be consented to in writing herein by Stantec or as required by law. The provision of any such consent is at Stantec's sole and unfettered discretion. The total amount of any and all claims the Recipient and any other party relying on the report may have against Stantec under this reliance or arising out of the report under any theory of law, including but not limited to claims for negligence and/or negligent misrepresentation, shall be strictly limited, in the aggregate for all reliance parties to \$500,000. To the fullest extent permitted by law, it is agreed that Stantec shall bear no liability whatsoever for any incidental, indirect or consequential damages arising out of the report or this reliance, including but not limited to, loss of use, loss of profit, loss of business, loss of income, loss of opportunity or any other consequential damages, howsoever caused. It is agreed that any claim brought against Stantec by the Recipient must be brought no later than one year after the date of this report or the expiration of the applicable statutory limitation period, whichever is earlier.

Project Specific limiting conditions are provided in Section 2.2.

The locations of any utilities, buildings and structures, and property boundaries illustrated in or described within this report, if any, including pole lines, conduits, water mains, sewers and other surface or sub-surface utilities and structures are not guaranteed. Before starting work, the exact location of all such utilities and structures must be confirmed by the client and Stantec assumes no liability resulting from damage to such utilities and structures.

The conclusions are based on the conditions encountered at the Property by Stantec at the time the work was conducted. Accordingly, additional studies and actions may be required. As the purpose of this report is to identify selected Property conditions which may pose an environmental risk; the identification of non-environmental risks to structures or people on the Property is beyond the scope of this assessment. The findings, observations, and conclusions expressed by Stantec in this report are not an opinion concerning the compliance of any past or present owner or operator of the Property which is the subject of this report with any Federal, state, provincial or local law or regulation.

This report presents professional opinions and findings of a scientific and technical nature. It does not and shall not be construed to offer a legal opinion or representations as to the requirements of, nor compliance with, environmental laws, rules, regulations or policies of Federal, state, provincial or local governmental agencies. Issues raised by the report should be reviewed by client legal counsel.

Stantec specifically disclaims any responsibility to update the conclusions in this report if new or different information later becomes available or if the conditions or activities on the Property subsequently change.

INTRODUCTION September 7, 2017

#### 2.4 PERSONNEL QUALIFICATIONS

This Phase I ESA was conducted by, or under the supervision of, an individual that meets the ASTM definition of an EP. The credentials of the EP and other key Stantec personnel involved in conducting this Phase I ESA are provided in Appendix B.

USER-PROVIDED INFORMATION September 7, 2017

# 3.0 USER-PROVIDED INFORMATION

ASTM E1527-13 describes responsibilities of the User to complete certain tasks in connection with the performance of "All Appropriate Inquiries" into the Property. The ASTM standard requires that the Environmental Professional request information from the User on the results of those tasks because that information can assist in the identification of RECs, CRECs, HRECs, or *de minimis* conditions in connection with the Property. Towards that end, Stantec requested that the User provide the following documents and information:

Description of Information	Provided (Yes / No)	Description and/or Key Findings
User Questionnaire	Yes	The User indicated that they have only limited knowledge of environmental conditions at the Property due to the short period of time User has been under contract.
Environmental Liens or Activity Use Limitations	No	The User has no knowledge of activity use limitations or environmental liens associated with the Property.
Previous Environmental Permits or Reports Provided by User	Yes	The User provided several documents including a monthly waste water reports, stormwater reports, drinking water reports, California Environmental Reporting System (CERS) report for hazardous materials, and a permit from the Yolo/Solano Air Quality Management District (AQMD).
Purpose of the Phase I ESA	Yes	Environmental due diligence.

In addition, the User provided Stantec with an Underground Storage Tank (UST) Case Closure Certification for the Property, dated June 17, 1998. This report is discussed in Section 4.2.1. The closure certification and the completed User Questionnaire are included in Appendix C.

RECORDS REVIEW September 7, 2017

# 4.0 **RECORDS REVIEW**

The objective of consulting historical sources of information is to develop the history of the Property and surrounding area, in order to evaluate if past uses may have resulted in RECs. Physical setting records are evaluated to determine if the physical setting may have contributed to adverse environmental conditions in connection with the Property. During the review of historical records, Stantec attempted to identify uses of the Property from the present to the first developed use of the Property. Stantec's research included the reasonably ascertainable and useful records described in this section.

## 4.1 PHYSICAL SETTING

A summary of the physical setting of the Property is provided in the table below with additional details in the following subsections.

Topography:	The Property is relatively flat, and is at approximately 108 feet above mean sea level (msl). The Property is depicted on the United States Geologic Survey (USGS) 7.5-minute Topographic Map Sheet of the Allendale, California Quadrangle.		
Soil/Bedrock Data:	According to the EDR Radius Map Report, the dominant soil composition in the general area of the Property ranges from clay and silty clay loams to gravelly sandy loams. According to historical site investigation reports for the Property, the soil underlying the Property consists mainly of clays, and sands.		
Estimated Depth to Groundwater/ Estimated Direction of Gradient:	No information regarding depth to groundwater or groundwater flow direction was identified for the Property. According to historical groundwater monitoring reports prepared for the Property groundwater flow at the Property is to the southwest with an average depth to water of 80 feet below top of casing.		
Note: Site-specific groundwater direction and depth can only be determined by conducting			

site-specific testing, which Stantec has not conducted.

# 4.1.1 Property Topography and Surface Water Flow

The Property is located at an elevation of approximately 108 feet above msl. Topography at the Property is generally flat, with a slight gradient to the east northeast. Surface drainage at the Property likely percolates directly into the ground surface or is diverted to storm drains in the paved areas of the Property.

RECORDS REVIEW September 7, 2017

# 4.1.2 Regional and Property Geology

The Property is located in the Great Valley geomorphic province of California, consisting on an alluvial plain extending through the interior of the state from the Sacramento Valley to the San Joaquin Valley. The Great Valley is comprised of sediments that have been deposited nearly continuously since the Jurassic period. The Great Valley is bound to the east by the Sierra Nevada mountain range, a tilted fault block extending almost 400 miles in length, and to the west by the Coast Ranges, that run subparallel to the San Andreas Fault and dip beneath the alluvium of the Great Valley. (California Geologic Survey [CGS] 2002).

# 4.1.3 Regional and Property Hydrogeology

The Property is located in the Suisun-Fairfield Valley groundwater basin, which is located in the San Francisco Bay Hydrologic Region. In the Suisun-Fairfield Valley groundwater basin, the municipal and irrigation wells have average depths ranging from about 20 to 1,010 feet. Well yields in this basin range up to 865 gallons per minute (gpm) (Department of Water Resources [DWR], 2014).

The Suisun-Fairfield Valley groundwater basin consists of low alluvial plains surrounding foothills and mountains located immediately north of Suisun Bay. The basin is bounded to the north by the Vaca Mountains, to the east by consolidated rock that extend from Vacaville southeast to the Montezuma Hills, and to the west by the Coast Ranges. The basin is drained by Green Valley Creek and Laurel Creek into Suisun Bay to the south (Thomasson et al., 1960 and DWR, 2014). The basin is comprised of recent, and Pleistocene alluvium, and Pliocene Sonoma Volcanics. The alluvium consists of fine-grained silt, clay and sand, and loose to moderately compacted silt clay and gravel. Pliocene Sonoma Volcanics are comprised of interbedded tuff, tuff breccia, agglomerate and flow rock. Precipitation ranges from less than 16 inches in the southeast to more than 24 inches in the northwest (DWR 2014).

Stantec searched the Regional Water Quality Control Board's (RWQCB's) GeoTracker Database to identify data pertaining to local subsurface conditions. No data was found in the vicinity of the Property.

# 4.2 FEDERAL, STATE AND TRIBAL ENVIRONMENTAL RECORDS

A regulatory agency database search report was obtained from Environmental Data Resources (EDR), a third-party environmental database search firm. A complete copy of the database search report, including the date the report was prepared, the date the information was last updated, and the definition of databases searched, is provided in Appendix D.

Stantec evaluated the information listed within the database relative to potential impact to the Property, assessing the potential for impacts based in part on the physical setting. As part of this process, inferences have been made regarding the likely groundwater flow direction at or near the Property. The inferred groundwater flow in the general vicinity of the Property ranges from southwest, to east southeast to southeast. Observations about the Property and surrounding properties made during the Property reconnaissance are provided in more detail in Section 5.

RECORDS REVIEW September 7, 2017

#### 4.2.1 Listings for Property

According to the database search report, the Property address, identified as 700 Crocker Drive was listed in the following databases: Environmental Protection Agency (EPA) Facility Index System/Facility Registry System (FINDS) under EPA Registry ID 110018993847, Enforcement and Compliance History Information (ECHO), Recovered Government Archive Leaking Underground Storage Tank (RGA LUST), Underground Storage Tank (UST), Leaking Underground Storage Tank (LUST), Aboveground Storage Tank (AST), Historical UST (HIST UST), Hazardous Waste and Substance Site List (HIST CORTESE), Resource Conservation and Recovery Act Small Quantity Generators (RCRA SQG), Statewide Environmental Evaluation and Planning System Underground Storage Tank Listing (SWEEPS UST), California Facility Inventory Database (CA FID UST), California Hazardous Maste Facility Manifest Data (HAZNET), Waste Discharge System (WDS), and National Pollutant Discharge Elimination System (NPDES). The Property is identified in these databases under the names of Albertsons 8795, Lucky's Distribution, Save Mart Supermarket, and ETS (EDR, 2017a).

Prior to 1989, the Property contained five 12,000-gallon fiberglass USTs, and three 12,000-gallon single wall steel USTs used to store diesel fuel on the southwestern portion of the Property and the mid-eastern portion of the Property. The four USTs located in the southwestern area were removed from the Property on September 8, 1989 under the direction of Solano County Department of Environmental Health (SCDEH). The four USTs in the mid-eastern area were removed on February 16, 1989 (one UST), and October 29, 1990 (three USTs). After removal of the USTs in the southwestern portion of the Property, confirmation soil sampling indicated no soil impacts in this area. Confirmation sampling in the mid-eastern area indicated diesel impacted soil (Global ID: T0609500388). Over-excavation of the UST cavity and removal of approximately 2,000 cubic yards of soil was followed by additional soil investigations and installation of seven groundwater monitoring wells (MW-1 through MW-7) to define the extent of impacted soil and groundwater. Following removal of approximately 10.9 gallons of free-product from wells MW-1 and MW-7 between 1991 and 1995, no evidence of free-product was encountered between September 1995 and March 1997. A subsequent investigation of deeper groundwater at the Property indicated that diesel impacts to groundwater were limited and decreasing with depth. A remedial action completion certification was issued by the Solano County Department of Environmental Management on June 17, 1998.

In December 2006 the remaining two 20,000-gallon diesel USTs were removed under Vacaville Fire Department Permit #2006-0796. These USTs were located on the east side of the truck maintenance facility. Soil samples collected from the UST excavation indicated that diesel impacts were present, and subsequently, overexcavation of the dispenser area was performed in January 2007.

Since the hydrocarbon contaminated soil encountered during UST removal activities was subsequently removed, the former presence of the USTs on the Property is not considered to be a REC in connection with the Property. This is considered to be an HREC since it was remediated to the satisfaction of the regulatory agency.

RECORDS REVIEW September 7, 2017

The Property is listed on the AST database for the ASTs associated with the propane AST, diesel generators and the fire pump system. No evidence of leaks, spills, or releases are documented associated with the ASTs, therefore this listing is not considered to be a REC.

The Property is listed as a small quantity generator (SQG; between 100 kilograms [kg] and 1,000 kg] of hazardous waste during any calendar month) of batteries. No history of violations can be found, but there was an accidental release of battery acid as described below.

The CHMIRS database indicated that on May 24 of 1999, a release of diluted battery acid occurred on the Property when a broken water pipe leaked into the battery room. Per the city public works, the leaked material had a pH of 1.9 and flowed into the clarifier, then the sewer and then into a holding pond on the Lucky property. No additional information was documented in the database for this incident. This is presumed to be an isolated incident and is not considered to be evidence of RECs in connection with the Property.

The Environmental Protection Agency (EPA) ECHO database did not list any violations or details for the Property, therefore this listing is not considered to be a REC.

The NPDES listing is related to a NPDES permit related to the Properties sewer discharge. No violations were noted in the NPDES listing; therefore, this is not considered a REC to the Property.

The HAZNET database indicates that the hazardous waste generated at the Property address has historically included, but not limited to unspecified organic liquid mixture, alkaline solution without metals (with a pH greater than, or equal to 12.5), off-specification, aged, or surplus organics. No violations or reports of releases were identified in the database listing.

The Property address is listed on the Waste Discharge System (CA WDS) database as a facility with a continuous or seasonal discharge that is under waste discharge requirements. The listing is identified as a minor threat to water quality. The listing is further identified as a Category C complexity for facilities that have no waste treatment systems, such as cooling water dischargers.

#### 4.2.2 Listings for Nearby Sites with Potential to Impact Property

Stantec assessed data presented in the environmental agency database search report (EDR, 2017a) to evaluate the potential for conditions to pose a REC, CREC, or HREC for the Property.

Based on this evaluation, the following individual facilities were identified as the most likely potential sources of impact to the Property. The basis for why each of the following listed databases creates a REC for the Property is also provided.

RECORDS REVIEW September 7, 2017

Listed Facility Name/Address	Database Listing	Distance/Direction from Property	REC? (YES / NO)
International Home Foods Inc 500 Crocker Drive	RCRA-SQG LUST SWEEPS UST CHMIRS EMI HIST CORTESE NPDES WDS	Adjacent to the south (1370 ft)	No

This facility is listed as a small quantity generator of hazardous waste with no history of violations. The facility had an unauthorized release of unleaded gasoline in May 1989 (Global ID: T0609500397), impacting soil. The facility also had three separate unauthorized releases of hydraulic oil to the processing floor in 2011 due to broken hoses. In all three cases, releases were contained and cleaned up. In September 2005, a release of petroleum ether occurred when a technician dropped a container. The facility is reported to have one 550-gallon UST of unknown use on-site. The property also has permits filed with the Yolo/Solano Air Quality Management District for 1995-1998, 2002-2014. The facility is listed in the WDS database for disposing of liquid or semi-solid wastes either continuously, or seasonally. This Category C waste discharge poses a minor threat to water quality. Based on the isolated nature and extent of the documented releases, distance to the Property and groundwater gradient, these do not constitute a REC.

Oates Country Store 4819 Midway Road	UST SWEEPS UST HIST UST LUST HIST CORTESE CA FID UST EDR Hist Auto	Adjacent to the north (124 ft)	No
	EDR Hist Auto		

This facility is listed for the presence of USTs with a historical unauthorized release of gasoline into soil in 1989. The case (Global ID: T0609500352) was closed as of November 7, 1997. Based on the current regulatory status, this is not considered to be a REC.

Liquid Carbonics MG Industries	SWEEPS UST CA FID UST	Adjacent to the southwest (405 ft)	No
Matheson Tri-Gas, Inc.	WDS		
871 Eubanks Drive	UST		
	AST		

This facility is listed for the presence of a 20,000-gallon UST containing diesel fuel, for waste generation and discharge, and for the presence of an AST of unknown capacity and unknown use. No reports of leaks, spills, or violations were reported in the database report or on the Geotracker database. Based on the database listing status and lack of reported release, this is not considered to be a REC.

RECORDS REVIEW September 7, 2017

Listed Facility Name/Address	Database Listing	Distance/Direction from Property	REC? (YES / NO)
Fire Station, Dixon District 7337 Paddon Road	CA FID UST UST	Adjacent to the north- northwest (1,017 ft)	No
This facility is listed for the presence of a UST of unknown capacity. There are no reported releases associated with the facility, and the UST is reported to be inactive, therefore, this is not considered a REC.			

The remaining listings in the database search report provided in Appendix D do not constitute a potential REC for the Property.

#### 4.3 LOCAL/REGIONAL ENVIRONMENTAL RECORDS

Stantec contacted the following sources to obtain information pertaining to Property use and/or indications of RECs in connection with the Property:

#### 4.3.1 Local Health Department

Agency Name Contact Information	Finding
Solano County Department of Resource Management (SCDRM) Website: http://www.solanocounty.com/de pts/rm/default.asp	Stantec reviewed available records at the SCDRM office. Available files for the Property included previous hazardous materials business plans, site assessment reports, UST removal reports, historical permits, UST case closure (June 17, 1998), food inspection reports, waste tire inspection reports, staff inspections, and permit fee receipts for storage of hazardous materials and waste. Pertinent information from the file review supports the information described in Section 4.2.1. An document dated March 31, 1975 indicated that an easement was in place for a two-mile water pipe line that would be constructed of 12" cement/asbestos. The pipe line was proposed to extend from the American Home Foods property located on the east side of I-505 and terminate near the location of the Property. The pipe line was to convey waste water from the tomato and food processing facility to the agricultural area for reuse as irrigation water.
City of Vacaville Public Works Department	Stantec requested information pertaining to municipal water and sewer service for the Property. The Property is

RECORDS REVIEW September 7, 2017

Website: http://www.ci.vacaville.ca.us/depa rtments/public-works	connected to municipal water and sewage serviced by the City of Vacaville.
Yolo/Solano Air Quality Management District (AQMD) Phone (530) 757-3650 Website: http://www.ysaqmd.org/	Stantec submitted a request for public records to review available files for the Property. The AQMD files supplied included an inspection report dated January 9, 2017. In this report it is stated that on December 16, 2016 a surveillance inspection was performed by the AQMD to determine the presence of unpermitted equipment. The inspections and follow-up phone calls AQMD conducted with site representatives determined that the three emergency backup generators and two emergency fire pumps currently installed at the facility were required to be permitted with the Yolo/Solano AQMD and no such permits existed. Mr. Faulkner initially stated that the equipment was permitted through the Bay Area AQMD; however, the Property is located in the Yolo/Solano AQMD jurisdiction and they would not recognize any permits issued by the Bay Area AQMD. It was further determined that the Bay Area AQMD permits were terminated in 1989, therefore the equipment was not actively permitted. Due to this, the Yolo/Solano County AQMD issued a violation for not having a valid Authority to Construct (ATC) permit. The violation was resolved when SaveMart applied for and was granted ATC permits (permit numbers C-17-03, C-17-04, C-17-05, C- 17-06, and C-17-07). Additionally, the following files were provided by the User: Yolo/Solano AQMD permits to operate as Save Mart Supermarkets for the Property. The supplied permits had ATC numbers C-17-03, C-17-04, C-17-05, C-17-06, and C-17- 07. The permits indicated that the Property was constructed in 1977.
Department of Toxic Substances Control (DTSC) Envirostor Database Website: <u>http://www.envirostor.dtsc.ca.gov/</u> <u>public/</u>	The DTSC has no records for the Property address.

RECORDS REVIEW September 7, 2017

# 4.3.2 Central Valley Regional Water Quality Control Board (RWQCB) and Solano County

Agency Name, Contact Information	Finding
State Water Resources Control Board (SWRCB) GeoTracker database Website: <u>http://geotracker.waterboards.ca.</u> <u>gov/</u>	The Property is identified as a LUST cleanup site (Global ID T0609500388), with diesel as the contaminant of concern. The case was closed as of May 4, 1998 with a case closure certification dated June 17, 1998 issued by SCDRM.

#### 4.3.3 Fire Department

Agency Name Contact Information	Finding
City of Vacaville Fire Department	Stantec requested to review available records on file with
(VFD)	the City of Vacaville Fire Department. A representative of
Phone: (707) 449-5215	the VFD responded that the Property has two 500-gallon
Website:	diesel aboveground storage tanks (AST) and one 1,000-
http://www.ci.vacaville.ca.us/depa rtments/fire-department	gallon propane AST. She stated that all other records related to hazardous materials are on file with the SCDRM.

# 4.3.4 Local Building and/or Planning Department Records

Agency Name, Contact Information	Findings
City of Vacaville Community Development – Building Division Phone: (707) 449-5140	Stantec submitted a request for public records to review available files for the Property. At the time of this report, the Community Development Department had not yet provided records for the Property.
	Stantec reviewed available building permit information from the EDR Building Permit Report. A copy of the EDR report is included in Appendix E. The following permits were reported:
	<ul> <li>1/22/15 - re-roof, permit #1501-0153</li> <li>12/23/13 - sewer line repair/replacement, permit #13120157</li> <li>06/26/13 - replace two rooftop HVAC package units, permit #13050269</li> <li>1/22/2013 - sewer line repair/replacement, permit #13010127</li> </ul>

RECORDS REVIEW September 7, 2017

Agency Name, Contact Information	Findings
	<ul> <li>5/8/12 - sewer line repair/replacement, permit #12050054</li> </ul>
	<ul> <li>11/16/10 – enclose 4,170 SF of warehouse area with chain-link fence, permit #10110027</li> </ul>
	<ul> <li>1/16/07 – HVAC replacement, permit #07010095</li> </ul>
	<ul> <li>12/11/06 – miscellaneous plumbing, permit #06120054</li> </ul>
	<ul> <li>2/14/01 – alterations/remodel, permit #01010155</li> <li>9/15/00 – alterations/remodel, permit #00090035</li> </ul>
	<ul> <li>7/19/99 – alteration to office area, permit #99060046</li> </ul>
	• 7/23/98 – install storage racks, permit #98070145
	<ul> <li>4/16/90 – addition to tire repair building, permit #90030093</li> </ul>
	<ul> <li>12/11/89 – add wall in dispatch office, permit #89120032</li> </ul>

#### 4.4 HISTORICAL RECORDS REVIEW

#### 4.4.1 Land Title Records/Deeds

Stantec obtained an environmental lien search report for the Property from EDR. A copy of the environmental lien search report is provided in Appendix E. According to the lien reports, no environmental liens or other activity and use limitations were reported for the Property (EDR, 2017b). In addition, the title report provided by the User did not reveal any environmental liens or other activity and use limitations. A copy of the title report is included in Appendix C.

#### 4.4.2 Aerial Photographs

Stantec reviewed historical aerial photographs provided by EDR (EDR, 2017c). The general type of activity on a property, and land use changes can often be discerned from the type and layout of structures visible in the photographs. However, specific elements of a facility's operation usually cannot be discerned from aerial photographs alone. The following table summarizes Stantec's observations of the reviewed historical aerial photographs.

Year	Scale	Observations, Property and Adjoining Properties
1937	1'' = 500'	The Property and adjacent properties to the north, south, east, and west appear to be used primarily as agricultural lands. The property to the north appears to contain several structures. A road in a similar configuration as Midway Road runs east to west along the northern Property boundary. A drainage canal transects the

RECORDS REVIEW September 7, 2017

Year	Scale	Observations, Property and Adjoining Properties		
		Property from the northwest corner through the southeast midsection of the Property. Pacific Railroad transects the Property diagonally from southwest to northeast, bridging the drainage canal.		
1952	1'' = 500'	The Property and adjacent properties to the north, south and west appear similar to the 1937 aerial photograph. A road in a similar configuration as Interstate 505 appears to the east.		
1968	1" = 500'	Irrigation canals appear in the northern area of the Property, and along the northwestern Property boundary. The Property and adjacent properties to the north, south, and west appear relatively similar to the 1952 aerial photograph. A building is apparent approximately 1,000 feet south of the Property in the approximate location of what is currently Mariani Packing Company, located at 500 Crocker Drive. The property to the north appears to be more developed with additional structures and buildings, compared with the 1952 photograph. Properties to the west and east remain similar to the 1952 photograph.		
1974	1'' = 500'	The Property and adjacent properties to the south, east, and west appear to be relatively similar to the 1968 aerial photograph. The adjacent property opposite the northeast boundary of the Property appears to contain fewer structures than in the 1968 photograph.		
1984	1" = 500'	The southern portion of the Property appears to be developed with the existing large commercial building, additional smaller structures located northeast of the larger building, and two water tanks. Located in the southwest corner of the Property. On the property to the south, a feature that resembles a pond lies approximately 500 feet south of the water tanks. The buildings lie on a large concrete pad. The Property configuration appears to be the same as present Property features. The property to the north appears to be somewhat more developed than in the 1974 photograph.		
1993	1'' = 500'	The Property and adjacent properties to the north, east, and west appear relatively similar to the 1984 aerial photograph. An additional road in the same configuration of existing Eubanks Drive appears approximately 750 feet west of the Property. Immediately north of the location of the pond in the 1984 photograph, the adjacent property to the southwest appears to be developed with the currently existing structures.		

RECORDS REVIEW September 7, 2017

Year	Scale	Observations, Property and Adjoining Properties
2005	1'' = 500'	The Property appears unchanged from the 1993 photograph. The building located on the property to the south appears to have been extended to the north. The property to the north and northwest appear to be somewhat more developed than in the 1993 photograph.
2006	1'' = 500'	The Property and surrounding areas appear unchanged from the 2005 photograph.
2009	1'' = 500'	The Property and adjacent properties to the north, east and west appear unchanged from the 2006 photograph. A solar array appeared at the adjacent property to the south, located west of the building.
2010	1'' = 500'	The Property and surrounding areas appear unchanged from the 2009 photograph.
2012	1'' = 500'	The Property and surrounding areas appear unchanged from the 2010 photograph.

Source: Environmental Data Resources, The EDR Aerial Photo Decade Package, Inquiry Number 4956081.12, June 6, 2017 (Appendix E).

#### 4.4.3 City Directories

Stantec obtained a city directory report from EDR to review city directories for the Property, in approximately five year intervals (EDR, 2017d). The east and west adjacent properties are primarily vacant land and therefore were not identified in the city directory listings and not included in the table below.

The following is a summary of Stantec's review of the city directory listings:

Subject/Adjacent Property	Year	Listed Occupants
	1975, 1980,	Street not listed in research source.
	1985	
	1990	Address not identified in research source.

EDR. 2017d. The EDR-City Directory Abstract, Inquiry Number 4956081.5, June 23, 2017. (Appendix E).

#### 4.4.4 Historical Fire Insurance Maps

Fire insurance maps were developed for use by insurance companies to depict facilities, properties, and their uses for many locations throughout the United States. These maps provide information on the history of prior land use and are useful in assessing whether there may be potential environmental contamination on or near the Property. These maps, which have been periodically updated since the late 19th century, often provide valuable insight into historical Property uses.

RECORDS REVIEW September 7, 2017

Stantec contracted with a third party to search for copies of historical fire insurance maps covering the Property and immediately adjacent properties (EDR, 2017e). The Sanborn® Map Search Report indicated no fire insurance maps covering the Property were found, and is presented in Appendix E.

#### 4.4.5 Historical Topographic Maps

Stantec reviewed historical USGS 7.5-Minute and 15-Minute Topographic Maps of the Allendale, Wolfskill (scale 1:24,000), and Vacaville (scale 1:62,500), California Quadrangle to help identify past Property usage and areas of potential environmental concern.

No RECs were noted during our review of the topographic maps (EDR, 2017f). Copies of the historical maps are provided in Appendix E. The following table summarizes the maps reviewed and our observations.

Year	Scale	Observations, Property and Adjoining Properties
1908	1:62,500	The Property and adjacent properties appear to be undeveloped land. Pacific Railroad transects the Property from the southwestern corner through the northeastern corner. A road in a similar configuration to Midway Road borders the northern Property boundary. An ephemeral stream crosses the Property from the northwest to the middle of the eastern Property boundary, and through the southern end of the Property. Several structures are depicted throughout the outlying vicinity to the west.
1917	1:24,000	The Property and vicinity appear similar to the 1908 map.
1953	1:24,000	The Property itself appears similar to the 1917 map, however, a new highway spanning north to south appeared immediately east of the eastern most Property boundary in a similar configuration as existing Interstate 505. A structure appears approximately 1/8-mile west of the western Property boundary. A power line traverses east-west along the southern Property boundary, crossing the southwestern tip of the Property. Several more structures appear in the surrounding vicinity. Several roads appear off of existing Midway Road to the north of the Property.
1968	1:24,000	A large building appears south of the Property in the approximate location of Mariani Packing Company. Putah South Canal appears to the west of the Property with branches of the canal splitting off toward the central and northern portion of the Property. Several additional structures appear in the areas north of the Property.

RECORDS REVIEW September 7, 2017

Year	Scale	Observations, Property and Adjoining Properties
1973	1:24,000	The Property and adjacent properties are depicted similar to the 1968 map.
1978	1:24,000	The Property and adjacent properties are depicted similar to the 1973 map. The areas to the northwest of the Property appear to be somewhat more developed.
2012	1:24,000	The areas to the west of the Property contain more improved roadways, including existing Eubanks Drive.

#### 4.4.6 Other Historical Sources

No other historical sources were researched.

SITE RECONNAISSANCE September 7, 2017

# 5.0 SITE RECONNAISSANCE

A visit to the Property and its vicinity was conducted by Ms. Danielle Manning on May 31, 2017. Stantec was accompanied during the Property visit by Mr. Howard Faulkner, Building Engineer with The SaveMart Companies. Figure 2 provides information about the Property and adjoining properties and Figure 3 depicts specific Property details. Photographs collected during the Property visit are included in Appendix A.

## 5.1 SITE RECONNAISSANCE METHODOLOGY

The site reconnaissance focused on observation of current conditions and observable indications of past uses and conditions of the Property that may indicate the presence of RECs. The reconnaissance of the Property was conducted on foot and Stantec utilized the following methodology to observe the Property:

- Traverse the outer Property boundary.
- Traverse transects across the Property.
- Traverse the periphery of all structures on the Property.
- Visually observe accessible interior areas expected to be used by occupants or the public, maintenance and repair areas, utility areas, and a representative sample of occupied areas.

Weather conditions during the visit to the Property were clear and sunny. There were no weatherrelated Property access restrictions encountered during the reconnaissance visit.

#### 5.2 GENERAL DESCRIPTION

Property and Area Description:	The Property is located in a mixed-use industrial, agricultural, and residential area of Vacaville, California. The Property is composed of two parcels of land comprising a total of approximately 124.14 acres located at the terminal end of Crocker Drive, west of Interstate 505.
Property Operations.	The Property has been vacant since September 2016, when the previous tenant (Save Mart) moved out.
Structures, Roads, Other Improvements:	<ul> <li>The Property consists of the following structures:</li> <li>Main warehouse – this is a cross load warehouse which is currently vacant, and consists of approximately 843,248 square feet (SF). Within the main warehouse building are seven small, office-type structures, some of which are single-story and some of which are two-story; a former battery charging area; a former repair area; a former</li> </ul>

SITE RECONNAISSANCE September 7, 2017

	<ul> <li>salvage area; and former offices and employee breakroom.</li> <li>Guard shack – this is a vacant guard shack at the main facility entrance and consists of approximately 1,000 SF of office space in a single-story structure.</li> <li>Transportation office – this is a vacant two-story office building which is connected provides access to the main warehouse via a pedestrian walkway on the second level.</li> <li>Truck maintenance shop – this is a former truck maintenance shop which consists of approximately 8,000 SF with four service bays and a partial mezzanine.</li> <li>Portable office – this appears to be a former office building comprising approximately 700 SF.</li> <li>Cross dock – this is a 30,000 SF exterior dock/storage area which is currently storing metal pallet racks.</li> <li>Fire pump house – the fire pump house consists of approximately 1,600 SF, and is comprised of two separate rooms, each of which house one 500-gallon diesel aboveground storage tank (AST) for the associated fire pumps.</li> <li>Water storage tanks – two 625,000-gallon water storage area located near the southwest corner of the Property, which hold the supply water for the Property.</li> </ul>
Property Size (acres):	Approximately 124.14 acres
Estimated % of Property Covered by Buildings and/or Pavement:	Approximately 45%. The northern portion of the Property consists of undeveloped land.
Observed Current Property Use/Operations:	Vacant warehouse and distribution facility.
Observed Evidence of Past Property Use(s):	Save Mart grocery distribution facility.
Sewage Disposal Method (and age):	Municipal sewer, age unknown.
Potable Water Source:	Onsite groundwater supply well.
Electric Utility:	Pacific Gas & Electric (PG&E)

SITE RECONNAISSANCE September 7, 2017

# 5.3 HAZARDOUS SUBSTANCES AND PETROLEUM PRODUCTS

The following table summarizes Stantec's observations during the Property reconnaissance.

Observations	Description/Location	
Hazardous Substances and Petroleum Products as Defined by CERCLA 42 U.S.C. § 9601(14):	<ul> <li>Two 500-gallon diesel ASTS are located in the pump house.</li> <li>Three diesel generators are located on the extern of the main warehouse building.</li> <li>Two five-gallon plastic containers of Chevron C Oil ISO 32 are located in the flammable cabine the fire pump house. One five-gallon plast container of Chevron GST Oil ISO 32 is located the fire pump room on an absorbent pad on the concrete floor.</li> <li>One pallet was observed in the repair area of the main warehouse building which contained one gallon drum of used filters, six cans of spray parand two containers of wall texture.</li> <li>One aboveground propane tank was observed the east side of the Property. The capacindicator on the tank indicated that only 4.2 gallon of propane remained.</li> </ul>	
Drums (≥ 5 gallons):	<ul> <li>In the former battery charging room the following were observed: one pallet containing 30 five- gallon plastic containers of Poly Patch; one pallet containing three empty gasoline cans; one five- gallon plastic container of dry neutralizer for acids.</li> </ul>	
Strong, Pungent, or Noxious Odors:	None observed.	
Pools of Liquid:	None observed.	
Unidentified Substance Containers:	None observed.	
PCB-Containing Equipment:	Fluorescent light fixtures were observed throughout the Property, which have PCB-containing light ballasts. Pad- mounted transformers were observed throughout the Property. The dock levelers at each of the loading dock doors are hydraulically powered. No evidence of leaks or spills from this equipment was observed or reported.	
Other Observed Evidence of Hazardous Substances or Petroleum Products:	None observed.	

SITE RECONNAISSANCE September 7, 2017

## 5.4 INTERIOR OBSERVATIONS

Stantec made the following observations during the Property reconnaissance of the building interiors and/or identified the following information during the interview or records review portions of the assessment:

Observations	Description/Location
Heating/Cooling Method:	The office areas in the main warehouse building and the ancillary buildings requiring heating and air conditioning are heated and cooled by HVAC package units.
Surface Stains or Corrosion:	Significant staining and corrosion was observed in the former battery charging room of the main warehouse building. Floor drains and cracks in the concrete floor were observed in the areas of staining, with some concrete cracking leading to the floor drains. Staining associated with normal operations at the truck washing and maintenance areas were also observed.
Floor Drains and Sumps:	Floor drains were observed throughout the Property. Specifically, the following significant floor drains of note were observed:
	<ul> <li>Main warehouse building – in the former battery charging area, several floor drains were observed in the concrete slab. According to Mr. Faulkner the floor drains were blocked off from the sewer system approximately nine years ago.</li> <li>Main warehouse building – in the former salvage area, a rectangular catch basin was observed. According to Mr. Faulkner the floor scrubbers were rinsed off in this area.</li> <li>Main warehouse building – in the former repair area, a catch basin was observed in one of the repair bays.</li> <li>Cross dock building – attached to the cross dock building is a former truck wash area which has a ribbon drain running down the center of the truck wash.</li> </ul>
	All of the above-mentioned drains and all of the minor floor drains observed are connected to any one of the 11 oil/water separators located throughout the Property.

SITE RECONNAISSANCE September 7, 2017

	According to Mr. Faulkner, the oil/water separators will be cleaned out prior to transfer of ownership.
Other Interior Observations:	None observed.

#### 5.5 EXTERIOR OBSERVATIONS

Stantec made the following observations during the site reconnaissance of exterior areas of the Property and/or identified the following information during the interview or records review portions of the assessment:

Observations	Description
On-site Pits, Ponds, or Lagoons:	None observed. According to Mr. Faulkner, a treatment pond associated with the sanitary system on the Property was located on a separate parcel on the east side of I-505.
Stained Soil or Pavement:	None observed, beyond de minimis staining associated with the former operations at the Property.
Stressed Vegetation:	None observed.
Waste Streams and Waste Collection Areas:	Waste from general debris is collected in a garbage compactor located on the east side of the building.
Solid Waste Disposal:	No areas indicative of solid waste disposal were observed.
Potential Areas of Fill Placement:	Areas of fill placement were not observed during the site reconnaissance.
Wastewater:	Wastewater that was discharged from the Property is pre- treated through the onsite clarifiers. Monthly testing of the wastewater is performed. From the Property the wastewater is then discharged to the City of Vacaville sanitary sewer system which is transported to the Elmira Wastewater Treatment Plant.
Stormwater:	Stormwater from the Property likely percolates directly into the ground surface or drains to storm drains located throughout the paved parking and drive areas.
Wells:	One groundwater supply well was observed near the southwest corner of the Property. This well supplies water to the Property via a deep groundwater well. The water is stored in two 625,000-gallon water storage tanks, located near the well. The water is regularly sampled for drinking water standards. The well reportedly produces approximately 660,000 gallons of water per day.
Septic Systems:	No visible evidence of the existence of a septic system was observed.

SITE RECONNAISSANCE September 7, 2017

Observations		Description							
Other Exterior Observations:	The	northern	portion	of	the	Property	consists	of	
		eveloped la	and.						

#### 5.6 UNDERGROUND STORAGE TANKS/STRUCTURES

Existing USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), which would indicate the presence of USTs, was discovered during the site reconnaissance.
Former USTs:	<ul> <li>The following USTs have been removed from the Property:</li> <li>Southwestern portion of Property</li> <li>Four 12,000-gallon fiberglass diesel USTs were installed in 1978 and removed in 1989</li> <li><u>Mid-eastern portion of Property</u></li> <li>One 12,000-gallon single wall steel diesel UST was removed in 1989</li> <li>Three 12,000-gallon (two single wall and one fiberglass) diesel USTs were removed in 1990</li> <li><u>East of Maintenance Shop</u></li> <li>Two 20,000-gallon diesel USTs were installed in 1991 and removed in 2006</li> </ul>
Other Underground Structures:	Eleven oil/water separators were observed throughout the Property.

#### 5.7 ABOVEGROUND STORAGE TANKS

Existing ASTs:	<ul> <li>The Property has five existing ASTs:</li> <li>One 1,000-gallon propane AST located on the east side of the Property</li> <li>Two 500-gallon diesel ASTs in secondary containment are located in the fire pump house, located near the southwest corner of the Property</li> <li>Two 625,000-gallon water storage ASTs, located near the southwest corner of the Property</li> </ul>
Former ASTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface stains), reports, or other evidence of the former presence of ASTs was discovered during this Phase I ESA.

SITE RECONNAISSANCE September 7, 2017

#### 5.8 ADJOINING PROPERTIES

#### 5.8.1 Current Uses of Adjoining Properties

As viewed from the Property and/or from public rights-of-way, Stantec made the following observations about use and activities on adjoining properties:

NORTH	Midway Road, beyond which is a mixture of commercial, residential, and agricultural properties.	
SOUTH	Mariani Foods and cryogenics facility to the south-southwest.	
EAST	Interstate 505, beyond which is vacant land.	
WEST	Vacant land.	

#### 5.8.2 Observed Evidence of Past Uses of Adjoining Properties

Observations of adjoining properties providing indications of past use and activities, if any, are described below.

NORTH	None observed.
SOUTH	None observed.
EAST	None observed.
WEST	None observed.

#### 5.8.3 Pits, Ponds or Lagoons on Adjoining Properties

As viewed from the Property and/or from public rights-of-way, Stantec made the following observations about the presence of pits, ponds and lagoons on adjoining properties:

NORTH	None observed.
SOUTH	None observed.
EAST	None observed.
WEST	None observed.

#### 5.9 OBSERVED PHYSICAL SETTING

Topography of the	Topography at the Property and vicinity is generally flat, with a slight
Property and Surrounding	gradient to the east-northeast.
Area:	

INTERVIEWS September 7, 2017

# 6.0 INTERVIEWS

Stantec conducted interviews with the following individuals:

Name	Name Relationship to Property Key Findings				
Howard Faulkner	Building Engineer	Mr. Faulkner escorted Stantec during the site visit. Mr. Faulkner has been associated with the Property for approximately 17 years. He stated that the Property buildings are currently vacant and that Save Mart was the most recent occupant, and Save Mart began moving out of the Property in September 2016. Mr. Faulkner stated that due to various business acquisitions, the Property was occupied by Supervalue, Albertson's, and Lucky's prior to Save Mart, and that the use has always been as a grocery distribution facility. He stated that the adjacent properties consist of vacant land, a cryogenics plant, and Mariani, which processes dried fruit. Mr. Faulkner also stated that all the USTs at the Property were removed and that truck fueling was performed by a mobile fueling service. He stated that the only existing hazardous materials on the Property consisted of the existing diesel USTs for the fire pumps, and six cans of spray paint, two containers of wall texture, and two containers of oil. The paint, wall texture, and oil was scheduled to be picked up by the week of June 5, 2017. Mr. Faulkner was not aware of any current or past regulatory actions; past releases of hazardous/petroleum materials on the Property; litigation relevant to hazardous materials or petroleum products; or notices from any governmental entity regarding possible violations of environmental laws or possible liability relating to hazardous substances or petroleum products.			

EVALUATION September 7, 2017

# 7.0 EVALUATION

This section provides a summary overview of or Findings, Opinions, and Conclusions.

## 7.1 FINDINGS AND OPINIONS

Information gathered from interviews, reviews of existing data, and a Property inspection was evaluated to determine if RECs are present in connection with the Property. Based on this information, Stantec made the following findings and developed the following opinions.

- Finding 1: The Property appears to have been primarily undeveloped land until the existing building was constructed circa 1977 (based on AQMD permit information). Light agricultural use may have occurred on the Property; however, no evidence of orchards on the Property or significant agricultural use was noted.
- Opinion 1: The historical use of the Property as undeveloped land and light agricultural do not present environmental concerns or a REC to the Property.
- Finding 2: The Property was listed on several environmental databases relating to the historical USTs and associated environmental cases. Between 1989 and 2006, a total of ten diesel USTs were removed from the Property. Soil excavation and groundwater monitoring were performed in response to diesel impacts from the USTs. On June 17, 1998, the LUST case associated with the Property received regulatory closure.
- Opinion 2: Due to the current regulatory status the LUST case associated with the Property is considered to be a HREC.
- Finding 3: The Property has a total of five ASTs, two of which are water storage tanks, two are diesel ASTs, and one is a propane AST. The diesel ASTs are still in use, within secondary containment, and each contain approximately 500-gallons of diesel for the fire pumps. The propane from the propane AST has been removed, leaving only approximately four gallons in the AST.
- Opinion 3: The presence of the water storage tanks and propane AST are not considered to be a REC to the Property. The diesel ASTs are still in use and therefore are considered to be a REC.
- Finding 4: Significant staining and corrosion was observed in the former battery charging room in the main warehouse building. Floor drains and cracking of the concrete was also observed, some of which was co-located with the staining observed.

EVALUATION September 7, 2017

- Opinion 4: Reportedly the floor drains were disconnected from the sanitary system; however the staining in the areas of the floor drains and cracks could present a conduit to the subsurface and therefore this is considered to be a REC.
- Finding 5: An environmental records search was performed and identified sites within their respective ASTM E 1527-13 search radii of the Property that may represent RECs, HRECs, or de minimis conditions.
- Opinion 5: Based on one or more of the following reasons: distance from the Property, position of sites with respect to assumed groundwater flow direction, the native soils, and regulatory status, none of the sites identified in the environmental records search report are expected to affect soil or groundwater quality at the Property. The environmental records search identified no RECs at or near the Property.

## 7.2 DATA GAPS

The federal AAI rule [40 CFR 312.10(a)] and ASTM E1527-13 identify a "data gap" as the lack or inability to obtain information required by the standards and practices of the rule despite good faith efforts by the Environmental Professional or the User.

Any data gaps resulting from the Phase I ESA described in this report are listed and discussed below.

Gap	Discussion			
Deletions or Exceptions From Scope of Work Referenced in Section 2.3:	None			
Weather-Related Restrictions To Site Reconnaissance:	None			
Facility Access Restrictions to Site Reconnaissance:	None			
Other Site Reconnaissance Restrictions:	None			
Data Gaps From Environmental Records Review:	Records were not yet available from the building department for the Property; however, some building permit information was provided by EDR. Once the files are made available for review, Stantec will issue an addendum to this report if pertinent information is obtained that modifies the conclusions of this report.			
Data Gaps From Historical Records Review:	None			
Data Gaps From Interviews:	None			

EVALUATION September 7, 2017

Gap	Discussion			
Other Data Gaps:	None			

## 7.3 CONCLUSIONS

Stantec has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 700 Crocker Drive, Vacaville, California, (the "Property"). Any exceptions to, or deletions from, this practice are described in Section 2.3 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the Property, with the exception of the following:

- Two 500-gallon diesel ASTs are in use at the Property for the fire pumps. Due to the presence of the diesel ASTs, this is considered to be a REC to the Property.
- Significant staining was observed in the former battery charging room. Some of the staining was observed near or co-located with cracks in the concrete and floor drains. Reportedly the floor drains were disconnected from the sanitary system; however the staining in the areas of the floor drains and cracks could present a conduit to the subsurface and therefore this is considered to be a REC.
- The Property was listed on several environmental databases relating to the historical USTs and associated environmental cases. Between 1989 and 2006, a total of ten diesel USTs were removed from the Property. Soil excavation and groundwater monitoring were performed in response to diesel impacts from the USTs. On June 17, 1998, the LUST case associated with the Property received regulatory closure and is therefore considered to be a HREC.

NON-SCOPE CONSIDERATIONS September 7, 2017

# 8.0 NON-SCOPE CONSIDERATIONS

The scope of work completed was limited solely to those items in the ASTM E1527-13 standard. No ASTM E1527-13 non-scope services were performed as part of this Phase I ESA.

Appendix B STANTEC RESUMES

# Danielle Manning CSST, LRCIA

Project Manager

Danielle is a Project Manager in the Environmental Services (ES) practice area of Stantec and resides in the Rocklin, California office. Danielle has thirteen years of professional experience in the environmental field and is currently responsible for managing due diligence and hazardous materials projects throughout northern California for a variety of commercial, public, and private sector clients. Danielle is directly responsible for a highly successful, and consistently profitable, team of Stantec employees including geologists, scientists, and other support staff. Danielle's environmental consulting experience includes performing asbestos, lead, and microbial consulting services, which includes sampling, oversight of asbestos abatement contractors during asbestos abatement, and report preparation. Her asbestos consulting experience also entails confirming that the hazardous and non-hazardous asbestos waste is properly removed and disposed of from facilities under all local, state, and federal regulations for abatement and waste disposal. For the past thirteen years, Danielle has also been conducting fieldwork associated with due diligence services throughout California and Nevada to include Phase I and II Environmental Site Assessments in accordance with the American Society of Testing and Materials (ASTM) standards.

### **EDUCATION**

BA, Environmental Studies, California State University, Sacramento, California, 2001

### **CERTIFICATIONS & TRAINING**

Asbestos Contractor/Supervisor (AHERA) Initial, Vacaville, California, 2002

Asbestos Building Inspector (AHERA) Initial, Rancho Cordova, California, 2002

Lead-Related Construction Inspector/Assessor Initial, Vacaville, California, 2004

Asbestos Project Designer (AHERA), Vacaville, California, 2011

8-Hour Hazardous Waste Operations Supervisor Certificate, Occupational Safety & Health Administration, Rancho Cordova, California, 2008

40-Hour Hazardous Waste Operations Certificate, Occupational Safety & Health Administration, Folsom, California, 2008

First Aid, AED, and CPR Training, Rancho Cordova, California, 2014

8-Hour OSHA Hazardous Waste Operations Refresher Training, Occupational Safety & Health Administration, Rancho Cordova, California, 2015

American Petroleum Institute Safety Key Training, Rancho Cordova, California, 2015

### REGISTRATIONS

Certified Site Surveillance Technician, #03-3287, California Department of Occupational Safety and Health

Lead Related Construction Inspector/Risk Assessor #14530, California Department of Public Health

### **PROJECT EXPERIENCE**

#### Asbestos, Lead Based Paint, and Hazardous Material (mercury, PCB) Assessments Veteran's Administration of Puget Sound Seatt

Veteran's Administration of Puget Sound, Seattle, Washington (Project Scientist)

Project Scientist responsible for hazardous building material assessments, specifically asbestos and lead-based paint. These services were required as part of the pre-design tasks for this project. Over 300 samples were collected over the span of four days culminating in a final hazardous building materials report to be incorporated into the facility design as well as demolition activities once the construction phase of the project commences.

# Danielle Manning CSST, LRCIA

Project Manager

### Asbestos, Lead-Based Paint, and Hazardous Materials Survey, Cupertino, California (Onsite Project Manager)

Danielle was the onsite project manager for a large scale hazardous material identification scope of work which was part of a large scale, accelerated Phase II Environmental Site Assessment. She was responsible for the budgeting, field management and logistics, as well as field quality assurance. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. The scope of the project included the interior and exterior of each of the 15 buildings located on the site. The total square footage of the hazardous material identification scope of work total more than 1.3 million square feet and included more than 1,600 asbestos and paint chip samples. Although the driver behind the hazardous material identification portion of the project was for due diligence, the requested level of effort was to complete the work to facilitate the demolition of each of the structures in accordance with federal and local agency reauirements.

### Assessments for Infrastructure Studies, Sacramento, California (Project Scientist)

As a project scientist, Danielle has performed asbestos, leadbased paint, and hazardous materials assessments, as well as sample collection as part of infrastructure studies performed at the Board of Equalization and State Garage buildings. Project tasks included a review or prior survey data and information related to hazardous materials for the buildings, sampling suspect asbestos-containing materials and suspect lead-based paint, and documenting the inventory and storage of hazardous materials and wastes. The observed conditions and sample results were provided in a report with recommendations for the proper handling and corrective actions for the observed conditions.

# Asbestos Survey and Abatement Projects\*, Various Locations (Staff Scientist)

Danielle performed numerous asbestos surveys for multiple projects while performing all tasks in accordance with the clients' in-house asbestos management program. She was responsible for interpretation of analytical sampling results, report preparation, and drafting sample location diagrams. She provided asbestos abatement project monitoring that included the collection of air samples during abatement, visual clearances, and clearance sampling.

### Campbell Soup Factory Asbestos Assessments\*, Sacramento, California (Project Manager/Lead Field Technician)

Danielle served as lead field technician for asbestos surveys at the Campbell Soup Factory in Sacramento over a three-year period, then transitioned into the role of project manager and was responsible to oversee the field technicians. The scope of work included sampling and identification of suspect asbestoscontaining materials upon receipt of laboratory analytical results. The data collected was compiled into a database for use by the client in locating identified asbestos-containing materials.

# Asbestos and Lead-Based Paint Surveys\* (Staff Scientist)

Danielle performed more than 25 asbestos and lead-based paint surveys for a national cellular company. The survey work included the review of drawings showing proposed antennae and associated equipment locations and performing a path of construction survey for the potentially affected suspect asbestos-containing materials and suspect lead-based paint. Danielle prepared site-specific reports with recommendations and conclusions from the laboratory analytical results and observed conditions.

### Former Tesoro Coke Facility, Pittsburg, California (Project Scientist)

Danielle was a Project Scientist responsible for preparing premothball assessments, demolition plans, and assisting in preparation of specifications for their petroleum coke facility located in Pittsburg, California. Tesoro wanted to generate the appropriate documents to mothball the facility as well as perform on going environmental monitoring in regards to storm water and spill prevention countermeasures. There were 20 structures at the facility ultimately scheduled for demolition. Tasks included the preparation of an asbestos and lead-based paint survey report that would provide compliance with applicable standards for the demolition of the structures. More than 200 samples were collected over the span of two days. A report was prepared that will stand up to regulatory scrutiny for demolition while providing the information need for worker safety during demolition activities at the facility.

# Danielle Manning CSST, LRCIA

Project Manager

#### **Environmental Assessments**

Hewlett-Packard Company Phase I Environmental Site Assessment, Palo Alto, California (Project Scientist)

Danielle performed a Phase I ESA on the 46-acre HP Palo Alto campus, which is comprised on nine buildings and other site improvements utilized for research and development. The scope of work included site walks, identifying environmental concerns, interviewing property owners and appropriate government officials, researching historical documents, and preparing reports in accordance with applicable ASTM and client standards.

# Phase I Environmental Site Assessments, Various Locations (Associate Scientist)

Danielle has performed more than 400 Phase I ESAs, which includes site walks, identifying environmental concerns, interviewing property owners and appropriate government officials, researching historical documents, and preparing reports in accordance with applicable ASTM and client standards. Her Phase I experience includes the investigation of commercial and industrial businesses, office parks, truck terminals, retail gasoline stations, residential areas, and undeveloped land. Additionally, she has experience with the collection of drinking water samples for lead analysis and Radon sampling.

### Phase I/II Environmental Site Assessments, Various Locations (Project Manager/Project Scientist)

Danielle is responsible for coordinating and managing all aspects of due diligence projects including budget tracking, proposal production, staff and client management, report review, and marketing. She also manages employees performing Phase I ESAs. She provided client management for a 73-site portfolio of Phase I ESAs, which were conducted by multiple nation-wide offices. Her project management responsibilities included coordinating site access, providing report template, technical review of reports, budget tracking, and invoicing.

## Oil & Gas

# Retail Gasoline Station Site Remediation, Various Locations (Portfolio Manager)

Danielle manages the Northern California portion for a national retail petroleum client program for Stantec, which includes 24 operating or former retail gasoline station sites that totaled \$1.8M annually in gross revenue. Projects involved underground storage tank site characterizations and remedial investigations through closure. Responsibilities include budget management, permit compliance, senior review of deliverables, scheduling, staff management and development, interaction and compliance with regulatory agencies, and client support and management.

### Waste (Solid/Hazardous Materials) Management National Retail Petroleum Client, California and Nevada, (Project Manager)

As the Project Manager, Danielle is responsible for waste stream coordination and disposal of waste streams generated during UST system removal projects and UST investigations (i.e. groundwater sampling, drilling, assessment, remedial implementation, and site decommissioning). Tasks include pre-field coordination of onsite waste containers, onsite waste management, manifesting, resource scheduling, soil, groundwater, and waste sampling for laboratory analysis, and coordinating offsite disposal.

# Corinne Ackerman PhD

Associate Scientist

Corinne has seven years of experience in the environmental consulting field including experimental design, data interpretation, verification and analysis, preparation of scopes of work and cost estimates, and technical report writing, as well as direct client support and client recommendations for field implementation. She is experienced in a wide range of environmental remediation techniques including both in-situ chemical oxidation (persulfate, permanganate, ozone, Fenton's reagent, peroxide) and enhanced bioremediation (nutrient and oxygen addition, as well as commercially prepared electron donors/acceptors) and bioaugmentation (addition of commercially available bacterial cultures). Projects involve bench testing of in-situ chemical oxidation for the removal of petroleum hydrocarbons, volatile organic compounds, chlorinated compounds, and other chemicals of concern from site soil and groundwater, as well as bench testing of bioremediation for the removal of contaminants.

Corinne has a strong background in most areas of soil science and extensive experience with various molecular techniques.

### **EDUCATION**

BS, Environmental and Resource Science (With minors in Geology and Soil Science), University of California, Davis, California, 1999

MS, Agronomy (Soil Microbiology), Purdue University, West Lafayette, Indiana, 2001

PhD, Agronomy (Soil Microbiology), Purdue University, West Lafayette, Indiana, 2007

#### **MEMBERSHIPS**

Member, Groundwater Resources Association of California

Member, Crop Science Society of America

Member, American Society of Agronomy

Member, Soil Science Society of America

### AWARDS

2003 Purdue Research Foundation Grant for Ph.D.

2002 Induction into Gamma Sigma Delta Honor Society of Agriculture

### **PROJECT EXPERIENCE**

#### Soil and Groundwater Remediation Systems Confidential Client\* (Environmental Scientist)

Compared ozone and activated persulfate for the destruction of petroleum and chlorinated volatile organic compounds in soil and groundwater. Column tests were run to evaluate ozone since the soil to be treated was in the unsaturated zone. Activated sodium persulfate tests used soil and groundwater and compared the efficacy of unactivated persulfate and alkaline activated persulfate.

### Wastewater Confidential Client\*

Developed and implemented traditional microbiological capabilities for an existing treatability lab for the evaluation of a novel method for wastewater sterilization

### **Regulatory Advice and Consultation** Various Sites\* (Environmental Scientist)

Consulted directly with clients to develop customized scopes of work that meet specific site and regulatory concerns as well as budgetary requirements. Interpreted, and verified resulting study data and prepared technical reports of findings for bench tests that assessed the ability of ozone, persulfate, permanganate, or Fenton's reagent to destroy various contaminants including TPH, BTEX, fuel oxygenates, and chlorinated compounds. Testing included evaluation of contaminant removal, measurement of ozone, persulfate, or permanganate demand of soil, hydrogen peroxide or Fenton's reagent longevity in soil and groundwater, assessment of the effect of treatment on secondary water quality parameters, and assessment of the ability of Cr(VI) formed by treatment to attenuate within the treatment zone (once oxidation ceased) and downgradient of the treatment zone.

# Elias A. Rashmawi

Managing Senior Principal, Urban & Brownfield Development

Elias Rashmawi brings nearly 25 years of unique experience in land development, Brownfield restoration, and complex program and construction management. He combines a distinctive in-depth expertise in multiple development elements, spanning master planning, funding, entitlement, permitting, and construction. As the Land Redevelopment Director of the highly successful and largest infill Brownfield project in the United States, Elias has demonstrated an exceptional level of success in configuring public-private partnerships and in navigating challenging planning, development and construction requirements for the delivery of various high profile projects. His start in the mid-eighties as a surface-groundwater numerical modeler of large watersheds followed by hands-on experience with confined high rise construction and land remediation in dense urban settings provided him a foundational synthesis between the theoretical and practical dimensions of development. When coupled with intensive years of experience in high level negotiations, programming, and management of trend-setting projects, Elias established himself as a unique asset to commercial and industrial owners, developers, public agencies, and contractors. Known for his vision and abilities to transform Brownfield liabilities into development assets, Rashmawi has been tasked with the comprehensive management of various remediation and infrastructure programs throughout his career.

### **EDUCATION**

M.Sc. Civil Engineering (Water Resources emphasis, transferred to additional post graduate studies), University of California, Davis, University of California, Davis, California, 1988

Bachelor of Science Hydraulics of Water Systems, University of California, Davis, University of California Davis, California, 1986

### REGISTRATIONS

Registered Environmental Assessor #07321, California Department of Toxic Substances Control, Registered Environmental Assessor Program

### **PROJECT EXPERIENCE**

### Brownfields

### First California Containment Zone, Napa, California (Project Director)

Elias directed the remediation program at the first nonattainment containment zone designation in the State of California, originating from a chlorinated solvent plume at a Brownfield project in the City of Napa. Rather than disposing of over 10,000 tons of solvent-affected soils as California regulated hazardous waste and RCRA waste, Elias designed and secured approval for an alternative and cost-effective method. This project is utilized as a precedent case.

### Downtown Sacramento Railyards\*, Sacramento, California (Project Director)

As Director of Land Redevelopment at the Sacramento Railyards for seven years, Elias has been involved in all aspects of funding, planning, and development at this national iconic project. Leading multiple teams, Elias has been directly responsible for overseeing the delivery of various complex construction projects funded by Federal. State and local sources at approximately \$300 million. Elias played a pivotal role in securing public grants funds from the Federal Stimulus packages, California 1B and 1C Bonds, CALReUSE, Local measures, and various agencies. He has negotiated and helped establish requirements spanning planning and design guidelines, tentative map conditions, mitigation management requirements, environmental, design, construction and closeout of various projects, including the relocation of freight and passenger tracks, the construction of several bridges and tunnels, roads, and high capacity deep utilities. Elias participated in the development of environmental documents on State and Federal levels, providing him with a unique understanding of the complex regulatory framework stipulated for the Railyards and similar Brownfields. He has led the regulatory negotiations with the State Department of Toxic Substances Control, the Central Valley Regional Water Quality Control Board, and the Sacramento Area Air Quality Management District. Rashmawi negotiated the remediation scope for the various projects, including the multifaceted environmental insurance cost-cap coverage that exceeds \$100M in value.

# Elias A. Rashmawi

Managing Senior Principal, Urban & Brownfield Development

# Mixed-Use

#### El Monte Triangle Brownfield\*, Sacramento, California (Project Manager)

Rashmawi assisted in devising a risk-based cleanup approach to mitigating vapor and dissolved phase contamination in multiple sites in a blighted region in north Sacramento, California. The approach entailed significant analysis of vapor and soluble contaminant fate and transport and the implementation of innovative cleanup methodologies; institutional and engineering measures to secure the potential for mixed use developments. In addition to various private entities, the project involved collaboration between the Sacramento Housing and Redevelopment Agency, the City of Sacramento, and the Central Valley Regional Water Quality Control Board.

# Fruitvale Transit Village\*, Oakland, California (Project Manager)

Managed and executed complex front-end environmental tasks that were required for the development of the Fruitvale Transit Village in the City of Oakland, considered as one of the most unique mixed-use developments in the nation and is nationally recognized as a leading smart-growth initiative. Project implementation required a land swap that included a Union Pacific railroad section, transformation of a Bay Area Rapid Transit District (BART) parking area into mixed use, the re-design of several City infrastructure features and the realignment of roads. The project entailed the combined collaborative efforts of the Fruitvale Development Corporation (FDC), BART, Union Pacific, City of Oakland, various state regulatory agencies, and the surrounding community as the primary stakeholders.

#### Soil and Groundwater Remediation Systems

# Wax Museum<sup>\*</sup>, San Francisco, California (Project Manager)

This is one of San Francisco's Pier 39 main attractions. The old wax museum was scheduled to be demolished and a highly attractive architectural design was to be erected. The combination of groundwater intrusion into the subsurface and the existence of subsurface contamination required the implementation of a plan that would allow construction to proceed without delays. An innovative method of bank excavation, shoring, and prevention of groundwater intrusion allowed rapid excavation, disposal and construction activities. Despite the presence of the project in a dense urban and prime tourist area in the City of San Francisco, the development went unhampered and was completed at significant savings in groundwater control, excavation, transportation, disposal costs.

# Former F.C.L.L Property, Albertson's Food Store\*, Napa, California (Project Manager)

Rashmawi directed the remediation program of a soil and groundwater chlorinated solvent plume at a Brownfield project in the City of Napa, California. Instead of disposing of nearly 10,000 tons of solvent-affected soils at as California regulated hazardous waste and RCRA waste, as recommended by others, also causing import of off-site soil to achieve desired grading, Rashmawi designed and secured approval for an alternative method to maintain all soil on-site while also capturing groundwater plume. As a result, this project received the first containment zone designation in the State of California and is currently utilized as a precedent case. The site is currently a major retail shopping center and mixed use commercial and residential development. Cleanup was less than 30% of the projected cost of the more traditional method of off-site disposal, estimated at several millions.

# Soil and Water Quality Assessments Various Residential & Mixed-Use Towers\*, San Francisco, California (Project Manager)

Through appropriate sampling, characterization and profiling approaches, soil removal for the purpose of meeting foundation requirements of high rise residential buildings were completed for various high profile residential developments in the central part of the City of San Francisco and South of Market areas. The characterization, soil transport and disposal approaches depended on the accurate evaluation and stratification of soil conditions as a result of implementing a cost-saving comprehensive profile sampling protocol.

# Elias A. Rashmawi

Managing Senior Principal, Urban & Brownfield Development

#### Soil Quality Assessment

#### Former Dow Corning Roofing Shingles Facility\*, San Leandro, California (Project Manager)

Rashmawi directed the cleanup of thousands of cubic yards of impacted surface soils at a former roofing shingles manufacturing facility. The soil was impacted with a variety of contaminants spanning petroleum hydrocarbons, semi volatile and volatile organic compounds and heavy metals. Significant and prohibitive mitigation and cleanup measures were required by various regulatory agencies prior to developing the property into a commercial center. Rashmawi developed a technologically innovative remediation approach that coupled groundwater protection with construction and commercial worker protection. The result was significant cost reduction and high efficiency by securing cleanup and required grading simultaneously.

# **Soil Toxicity / Contaminated Soil Evaluation** Former Battery Manufacturing Facility\*, San Francisco, California (Project Manager)

Operations of a former battery manufacturing facility were discovered in the crawl space of a corner office building in the City of San Francisco. Significant contamination of heavy metals and volatile organics were reported. Renovation and sale plans for the property were underway. A risk-based corrective action approach was instituted and a remediation plan that maintained the presence of the current structure, as was desired, was implemented. Rather than demolishing the building, the floor was sequentially removed to allow access to the subsurface. Innovative remedial measures were implemented under the oversight of the relevant regulatory agency. The property was developed into a live-work building with minimal cost.

# Vapor Intrusion Modeling and Risk Assessments Las Bougainvilleas Affordable Housing\*, Oakland, California (Project Manager)

Following a recommendation by others for significant cleanup measures at an affordable housing project, Rashmawi completed a site-specific vapor analysis and risk assessment that presented an alternative approach. The San Francisco Bay Area Regional Water Quality Control Board, the state regulatory oversight agency for the project, adopted the recommended approach. As a result, the award-winning community development project went forward without delays or additional costs.

Appendix C USER PROVIDED RECORDS

# PHASE I ESA USER'S QUESTIONNAIRE

In order to qualify for protection from land owner liability under CERCLA as an *innocent landowner, bona fide prospective purchaser*, or *contiguous property owner*, ASTM standard practice E1527-13 and the federal AAI rule (40 CFR 312) require that the User of the Phase I ESA report provide certain information (if available) to the Environmental Professional completing the assessment. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete. Information that is not or cannot be provided to the Environmental Professional may be identified as a "data gap" in the Phase I ESA report.

Please answer the following questions as completely as possible. Attach additional pages as needed. Return the completed questionnaire to Stantec.

<u>1.</u>	Property Information	
	Property Name: 700 Crocker	
	Property Address:700 Crocker Drive	
	City: Vacaville State CA Zip 95688	
	Property Owner Name: LDK Ventures, LLC	
	Property Owner Phone #:916.965.7100	
2. Key Site Manager This should be an individual with good knowledge of the uses and physical characteristics property, and the processes or activities currently conducted at the property. Often this w the property manager, chief physical plant supervisor, or head maintenance person.		
	Name: <u>Howard Faulkner</u>	
	Company/Organization/Title:	
	Phone #707-446-5925 E-Mail Address:howard.faulkner@savemart.com	
3.	Contact For Site Access (if different from Key Site Manager)	
	Name: <u>Same as above</u>	
	Company/Organization/Title:	
	Phone # E-Mail Address:	
<u>4.</u> property	Environmental Cleanup Liens. Are you aware of any environmental cleanup liens against the y that are filed or recorded under federal, tribal, state or local law?	
	If yes, describe or attach details of the lien	

5. Activity and Land Use Limitations. Are you aware of any activity and use limitations, such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded as applicable to the property as a result of environmental contamination, investigation, cleanup, or related matters?

\_\_\_\_\_ Yes

X No

If yes, describe or attach details of the limitations\_\_\_\_

6. Specialized Knowledge or Experience. As the User of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property, such that you would have specialized knowledge about chemicals and processes used by this type of business?

\_\_\_\_\_Yes

\_\_\_\_\_X\_\_\_No

If yes, describe or attach details of your specialized knowledge or experience\_\_\_\_\_

7. Relationship of Purchase Price to Fair Market Value of Property. Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, do you have any reason to believe that the reduced purchase price may be related to contamination known or believed to be present at the property?

Yes, I have reason to believe that the purchase price for the property has been reduced in comparison with the fair market value due to contamination known or believed to be present at the property?

X\_\_\_\_\_No, I have no reason to believe that the purchase price for the property has been reduced in comparison with the fair market value due to contamination known or believed to be present at the property?

\_\_\_\_\_ Not applicable. User is not involved in a purchase or sale of the property.

8. Commonly Known or Reasonably Ascertainable Information. Are you aware of commonly known or reasonably ascertainable information about the property that would help the Environmental Professional to identify conditions indicative of releases or threatened releases of hazardous substances or petroleum products? For example:

Do you know the past uses of the property?

\_\_\_\_\_Yes (describe) \_\_Warehouse\_\_\_\_and storage\_\_\_\_\_

Do you know of chemicals, hazardous substances or petroleum products that are present or once were present at the property?

\_\_\_\_\_Yes (describe) \_\_\_\_Underground fuel storage tanks which have been removed other materials may have been used on site, no knowledge of this. \_\_\_\_\_No

Do you know of spills or other releases of chemicals, h	hazardous substances c	r petroleum
products that have taken place at the property?		

\_\_\_\_\_Yes (describe) \_\_\_\_\_ \_\_\_\_Not aware of any\_\_\_\_\_ No

Do you know of any environmental cleanups that have taken place at the property? \_\_\_\_\_ Yes (describe) \_\_\_\_\_ Tank Pull

No

The Degree of Obviousness of Contamination. E1527-05 and the federal AAI rule (40 CFR 312.31) require that the Phase I ESA consider the degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation. Based on your knowledge and experience related to the property, are there any obvious indictors that point to the presence or likely presence of contamination at the property? Yes (describe)

•

XX No

NI-

Availability of Previous Environmental Reports. Are you aware of previous environmental site 10. assessment reports, other environmental reports, documents, correspondence, etc. concerning the property and its environmental condition?

\_X\_\_\_\_ Yes (please identify and provide copies, if available) Reports received from seller have been delivered to Stantec

Signature:
Al clarel
Name (printed):
Company: LDK Ventures LLC
Date: 6/1/17

We have been under contract for 2 dags and have very limited knowledge of the site. Alan flow

Escrow Officer: Anne Wirtanen 455 Market Street, Suite 2100 San Francisco, CA 94105 (415) 788-0871 (415) 896-9423

ATTN: Anne Wirtanen

**PROPERTY ADDRESS:** 

700 Crocker Drive, Vacaville, CA

# PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, **Chicago Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Florida corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

# EFFECTIVE DATE: May 9, 2017 at 7:30 a.m.

# ORDER NO.: 35604115-356-AW-JM

The form of policy or policies of title insurance contemplated by this report is:

# ALTA Extended Owners Policy (6-17-06) ALTA Extended Loan Policy (6-17-06)

1. THE ESTATE OR INTEREST IN THE LAND HEREINAFTER DESCRIBED OR REFERRED TO COVERED BY THIS REPORT IS:

A Fee as to Parcel(s) One; Easement(s) more fully described below as to Parcel(s) Two

2. TITLE TO SAID ESTATE OR INTEREST AT THE DATE HEREOF IS VESTED IN:

Lucky (Fla) NoCal Investor LLC, a Delaware limited liability company which acquired title in part as Luck (Fla) NoCal Investor LLC

3. THE LAND REFERRED TO IN THIS REPORT IS DESCRIBED AS FOLLOWS:

See Exhibit A attached hereto and made a part hereof.

# EXHIBIT A LEGAL DESCRIPTION

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF VACAVILLE, IN THE COUNTY OF SOLANO, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

Parcel One:

Parcel "A-1" of the Lot Line Adjustment No. 06-07, recorded December 22, 2006 as Instrument No. 2006-162305, Official Records, also being all of Parcel "A", and a portion of Parcel "B" as shown on that certain Parcel Map filed for record January 17, 1978 in Book 14 of Parcel Maps at Page 59 in the office of the Solano County Recorder described as follows:

Beginning at the Southeasterly corner of said Parcel "A"; thence along the Southerly and Westerly lines of said Parcel "A" the following six courses;

North 83°57'35" West, 1228.26 feet; thence South 20°32'15" West, 320.95 feet to a non-tangent curve concave Southwesterly having a radius of 415.74 feet, from which point the radius bears South 79°22'17" West; thence Northwesterly along the arc of said curve a distance of 200.63 feet through a central angle of 27°39'00"; thence North 38°16'43" West, 100.00 feet to a tangent curve concave Northeasterly having a radius of 367.24 feet; thence Northwesterly along the arc of said curve a distance of 249.32 feet through a central angle of 38°53'54"; thence North 00°37'11" East, 187.60 feet to the Southwesterly corner of said Parcel "B"; thence along the Westerly line of said Parcel "B" the following five courses; North 00°37'11" East, 1137.02 feet; thence North 89°22'49" West, 48.50 feet; thence North 00°37'11" East, 110.00 feet to a non-tangent curve concave Northwesterly having a radius of 80.00 feet, from which point the radius bears North 13°51'28" West; thence Northeasterly along the arc of said curve a distance of 105.34 feet through a central angle of 75°26'42"; thence North 00°41'50" East, 69.17 feet; thence leaving last said Westerly line South 79°34'25" East, 350.72 feet to a point on the Northwesterly corner of said Parcel "A"; thence along the Northerly and Easterly lines of said Parcel "A" the following eight courses; South 79°34'25" East, 840.53 feet; thence North 10°25'35" East, 120.05 feet; thence South 79°34'25" East. 112.62 feet; thence North 10°33'00" East. 460.75 feet; thence South 81°24'00" East, 407.36 feet; thence South 08°36'00" West, 632.55 feet; thence South 52°34'25" East, 129.06 feet; thence South 10°25'35" West, 1495.45 feet to the point of beginning.

Excepting therefrom, an undivided 1/2 interest in all minerals, mineral deposits, oil, gas and other hydrocarbon substances of every kind and character below 500 feet from the surface of said land, but without however, the right of surface entry, as excepted and reserved in deeds from Gertrude M. Eames to Margaret Josephine Shellhammer, dated June 8, 1956, recorded in the office of said recorder on June 19, 1956, in Book 835 of Official Records, Page 1, and dated October 5, 1961, recorded in the office of said recorder on January 19, 1962 in Book 1119 of Official Records, Page 525.

Parcel Two:

A non-exclusive easement for ingress and egress as conveyed in that certain Agreement and Grant of Easements, recorded February 22, 1978 in Book 1978, Page 13102, Instrument No. 7827, of Official Records.

APN: 0106-240-350

# EXCEPTIONS

# AT THE DATE HEREOF, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

- 1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2017-2018.
- 2. Prior to closing, Escrow must contact the SOLANO County Tax Collector's Office (707-784-7485) to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.
- 3. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.
- 4. Any taxes, assessments or charges levied by the following agency. Amounts due, if any, may be ascertained by contacting the agency.

City of Vacaville municipal refuse (garbage) charges, 707-448-2945

- 5. Water rights, claims or title to water, whether or not disclosed by the public records.
- 6. Consequences of the fact that the exact location of the insured easement reflected as Parcel Two in Exhibit A cannot be located with certainty from the Public Records.
- 7. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	Pacific Gas and Electric Company, a California corporation
Purpose:	Electrical facilities and communication facilities
Recording Date:	February 25, 1946
Recording No:	Book 337, Page 373, of Official Records
Affects:	Southerly portion

Limitations on the use, by the owners of said Land, of the easement area as set forth in the easement document shown hereinabove.

Reference is hereby made to said document for full particulars.

8. The ownership of said Land does not include rights of access to or from the street, highway, or freeway abutting said Land, such rights having been relinquished by the document,

Recording Date:	May 23, 1946
Recording No:	Book 344, Page 162, of Official Records

Reference is hereby made to said document for full particulars.

9. Waiver of any claims for damages to said Land by reason of the location, construction, landscaping or maintenance of the street or highway adjoining said Land, as contained in the deed to

County/City/State:	State of California
Recording Date:	May 23, 1946
Recording No.:	Book 344, Page 162, of Official Records

Reference is hereby made to said document for full particulars.

10. The ownership of said Land does not include rights of access to or from the street, highway, or freeway abutting said Land, such rights having been relinquished by the document,

Recording Date:	September 13, 1946
Recording No:	Book 350, Page 245, of Official Records

Reference is hereby made to said document for full particulars.

11. Waiver of any claims for damages to said Land by reason of the location, construction, landscaping or maintenance of the street or highway adjoining said Land, as contained in the deed to

County/City/State:	State of California
Recording Date:	September 13, 1946
Recording No:	Book 350, Page 245, of Official Records

Reference is hereby made to said document for full particulars.

12. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	Pacific Gas and Electric Company, a California corporation
Purpose:	Electrical facilities and communication facilities
Recording Date:	August 24, 1953
Recording No:	13565, Book 682, Page 562, of Official Records
Affects:	Southerly portion

Limitations on the use, by the owners of said Land, of the easement area as set forth in the easement document shown hereinabove.

Reference is hereby made to said document for full particulars.

13. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	The Pacific Telephone and Telegraph Company
Purpose:	Communication facilities
Recording Date:	April 07, 1966
Recording No:	9661, Book 1392, Page 3, of Official Records
Affects:	Easterly portion

Limitations on the use, by the owners of said Land, of the easement area as set forth in the easement document shown hereinabove.

Reference is hereby made to said document for full particulars.

14. The ownership of said Land does not include rights of access to or from the street, highway, or freeway abutting said Land, such rights having been relinquished by the document,

Recording Date:	August 31, 1972
Recording No:	20068, Book 1773, Page 306, of Official Records
Affects:	Easterly portion

Reference is hereby made to said document for full particulars.

15. Waiver of any claims for damages to said Land by reason of the location, construction, landscaping or maintenance of the street or highway adjoining said Land, as contained in the deed to

County/City/State:	State of California
Recording Date:	August 31, 1972
Recording No.:	20068, Book 1773, Page 306, of Official Records

Reference is hereby made to said document for full particulars.

16. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	State of California
Purpose:	Drainage
Recording Date:	August 31, 1972
Recording No:	20068, Book 1773, Page 306, of Official Records
Affects:	Easterly portion

Reference is hereby made to said document for full particulars.

17. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	Southern Pacific Transportation Company, a Delaware corporation
Purpose:	Railroad, transportation and communication
Recording Date:	August 23, 1976
Recording No:	29429, Book 1976, Page 47918, of Official Records

Reference is hereby made to said document for full particulars.

18. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	Pacific Gas and Electric Company, a California corporation
Purpose:	Electrical facilities
Recording Date:	September 22, 1976
Recording No:	33027, Book 1976, Page 53716, of Official Records
Affects:	Westerly portion and Southerly portion

Limitations on the use, by the owners of said Land, of the easement area as set forth in the easement document shown hereinabove.

Reference is hereby made to said document for full particulars.

19. Easement(s) for the purpose(s) shown below and rights incidental thereto, as delineated on or as offered for dedication on

Map/Plat:	Book 11 of Parcel Maps at Page 86
Recording Date:	December 16, 1976
Purpose:	Sewer and water
Affects:	Southerly portion

20. Notes, Recitals, Legends and/or Conditions as contained on the map filed December 16, 1976 in Book 11 of Parcel Maps at Page 86.

# 21. Matters contained in that certain document

Entitled:	Corporation Grant Deed
Dated:	December 13, 1976
Executed by:	Crocker Land Company (formerly Foremost-McKesson, Inc., a Maryland corporation, successor by merger to Crocker Estate Company, a California corporation)
Recording Date:	December 16, 1976
Recording No:	44048, Book 1976, Page 71467, of Official Records

Reference is hereby made to said document for full particulars.

22. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, citizenship, immigration status, primary language, ancestry, source of income, gender, gender identity, gender expression, medical condition or genetic information, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

Recording Date:	December 16, 1976
Recording No:	44048, Book 1976, Page 71467, of Official Records

Said covenants, conditions and restrictions provide that a violation thereof shall not defeat the lien of any mortgage or deed of trust made in good faith and for value.

23. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;

Reserved by:	Crocker Land Company (formerly Foremost-McKesson, Inc., a Maryland corporation, successor by merger to Crocker Estate Company, a California corporation)
Purpose:	Sewer and water
Recording Date:	December 16, 1976
Recording No:	44048, Book 1976, Page 71467, of Official Records
Affects:	Southerly portion

Reference is hereby made to said document for full particulars.

24. Easement(s) for the purpose(s) shown below and rights incidental thereto as reserved in a document;

Reserved by:	Marydoug, Inc., a California corporation
Purpose:	Railroad and transportation
Recording Date:	February 22, 1978
Recording No:	7826, Book 1978, Page 13099, of Official Records
Affects:	Westerly portion

Reference is hereby made to said document for full particulars.

# 25. Matters contained in that certain document

Entitled:	Agreement and Grant of Easements	
Dated:	February 17, 1978	
Executed by:	Marydoug, Inc., a California corporation and LKS Properties, a California corporation	
Recording Date:	February 22, 1978	
Recording No:	7827, Book 1978, Page 13102, of Official Records	

Reference is hereby made to said document for full particulars.

26. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in a document:

Purpose:	Ingress and egress
Recording Date:	February 22, 1978
Recording No:	7827, Book 1978, Page 13102, of Official Records

The exact location and extent of said easement is not disclosed of record.

Reference is hereby made to said document for full particulars.

- 27. Notes, Recitals, Legends and/or Conditions as contained on the map filed January 17, 1978 in Book 14 of Parcel Maps at Page 59.
- 28. The fact that said Land is included within a project area of the Redevelopment Agency shown below, and that proceedings for the redevelopment of said project have been instituted under the Redevelopment Law (such redevelopment to proceed only after the adoption of the redevelopment plan) as disclosed by a document.

Redevelopment Agency:	Vacaville I-505/80 Redevelopment Project of the City of Vacaville, as
	adopted on July 12, 1983, under Ordinance No. 1188.
Recording Date:	July 15, 1983
Recording No.:	Instrument No. 29527, Book 1983, Page 55732, of Official Records.

29. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to:	City of Vacaville, a municipal corporation
Purpose:	Sanitary sewer and water facilities

Recording No:	200400001151, of Official Records
Affects:	Southerly portion

Reference is hereby made to said document for full particulars.

30. A deed of trust to secure an indebtedness in the amount shown below,

Amount:	\$360,000,000.00
Dated:	September 15, 2008
Trustor/Grantor	Lucky (Fla) NoCal Investor LLC, a Delaware limited liability company
Trustee:	First American Title Company, a California corporation
Beneficiary:	Wells Fargo Retail Finance, LLC, a Delaware limited liability company
Loan No.:	None Shown
Recording Date:	September 16, 2008
Recording No:	200800074925, of Official Records

31. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

- 32. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.
- 33. The Company will require an ALTA/NSPS LAND TITLE SURVEY. If the owner of the Land the subject of this transaction is in possession of a current ALTA/NSPS LAND TITLE SURVEY, the Company will require that said survey be submitted for review and approval; otherwise, a new survey, satisfactory to the Company, must be prepared by a licensed land surveyor and supplied to the Company prior to the close of escrow.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

34. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

Limited Liability Company: Lucky (Fla) NoCal Investor LLC, a Delaware limited liability company which acquired title in part as Luck (Fla) NoCal Investor LLC

- a) A copy of its operating agreement, if any, and any and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member
- b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps
- c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member
- d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity was created
- e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

35. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

Limited Liability Company: <u>Lucky Mezzanine LLC, a Delaware limited liability company</u>

- a) A copy of its operating agreement, if any, and any and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member
- b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps
- c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member
- d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity was created
- e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

36. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

Party(s): <u>Lucky (Fla) NoCal Investor LLC, a Delaware limited liability company which</u> acquired title in part as Luck (Fla) NoCal Investor LLC

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

- 37. Prior to the close of escrow and the issuance of an ALTA Coverage Policy, an inspection of the property will be required.
- 38. The requirement that the complete and correct name(s) of the buyer(s) in this transaction be submitted to the Title Department at least 5 days prior to the close of Escrow.
- 39. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

# END OF EXCEPTIONS

# NOTES

- 1. None of the items shown in this report will cause the Company to decline to attach CLTA Endorsement Form 100 to an Extended Coverage Loan Policy, when issued.
- 2. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land Commercial Improvements, known as 700 Crocker Drive, Vacaville, CA, to an Extended Coverage Loan Policy.
- 3. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

4. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

1st Installment:	\$249,828.72
2nd Installment:	\$249,828.72
Exemption:	\$0.00
Land:	\$6,341,000.00
Improvements:	\$30,959,000.00
Personal Property:	\$1,044,371.00
Fixtures:	\$2,464,917.00
Code Area:	006068
Bill No.:	10624035001

- 5. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
- 6. Note: The charge for a policy of title insurance, when issued through this application for title insurance, will be based on the Short Term Rate.
- 7. Furnish recording instructions with the documents to be recorded in this transaction. Said instructions must address each requirement made herein, list any endorsements to be issued with the policy and specify the recording order of any documents furnished.

The Company reserves the right to add additional items or make further requirements after review of the requested instructions prior to recording the documents or issuing any requested endorsement.

The Company also reserves the right to charge any applicable additional fees for any endorsement requested.

8. Your application for title insurance was placed by reference to only a street address or tax identification number. Based on our records, we believe that the legal description in this report covers the parcel(s) of Land that you requested. If the legal description is incorrect, the seller/borrower must notify the Company and/or the settlement company in order to prevent errors and to be certain that the correct parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

# NOTES (Continued)

- 9. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.
- 10. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.
- 11. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

#### FIDELITY NATIONAL FINANCIAL

# PRIVACY NOTICE

At Fidelity National Financial, Inc., we respect and believe it is important to protect the privacy of consumers and our customers. This Privacy Notice explains how we collect, use, and protect any information that we collect from you, when and to whom we disclose such information, and the choices you have about the use of that information. A summary of the Privacy Notice is below, and we encourage you to review the entirety of the Privacy Notice following this summary. You can opt-out of certain disclosures by following our opt-out procedure set forth at the end of this Privacy Notice.

<b>Types of Information Collected.</b> You may provide us with certain personal information about you, like your contact information, address demographic information, social security number (SSN), driver's license, passport, other government ID numbers and/or financial information. We may also receive browsing information from your Internet browser, computer and/or mobile device if you visit or use our websites or applications.	<b>How Information is Collected.</b> We may collect personal information from you via applications, forms, and correspondence we receive from you and others related to our transactions with you. When you visit our websites from your computer or mobile device, we automatically collect and store certain information available to us through your Internet browser or computer equipment to optimize your website experience.		
<b>Use of Collected Information.</b> We request and use your personal information to provide products and services to you, to improve our products and services, and to communicate with you about these products and services. We may also share your contact information with our affiliates for marketing purposes.	When Information Is Disclosed. We may disclose your information to our affiliates and/or nonaffiliated parties providing services for you or us, to law enforcement agencies or governmental authorities, as required by law, and to parties whose interest in title must be determined.		
<b>Choices With Your Information.</b> Your decision to submit information to us is entirely up to you. You can opt-out of certain disclosure or use of your information or choose to not provide any personal information to us.	<b>Information From Children.</b> We do not knowingly collect information from children who are under the age of 13, and our website is not intended to attract children.		
<b>Privacy Outside the Website.</b> We are not responsible for the privacy practices of third parties, even if our website links to those parties' websites.	<b>International Users.</b> By providing us with you information, you consent to its transfer, processing and storage outside of your country of residence, as well as the fact that we will handle such information consistent with this Privacy Notice.		
The California Online Privacy Protection Act. Some FNF companies provide services to mortgage loan servicers and, in some cases, their websites collect information on behalf of mortgage loan servicers. The mortgage loan servicer is responsible for taking action or making changes to any consumer information submitted through those websites.			
Your Consent To This Privacy Notice. By submitting information to us or by using our website, you are accepting and agreeing to the terms of this Privacy Notice.	Access and Correction; Contact Us. If you desire to contact us regarding this notice or your information, please contact us at privacy@fnf.com or as directed at the end of this Privacy Notice.		

# FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Fidelity National Financial, Inc. and its majority-owned subsidiary companies providing title insurance, real estate- and loan-related services (collectively, "FNF", "our" or "we") respect and are committed to protecting your privacy. We will take reasonable steps to ensure that your Personal Information and Browsing Information will only be used in compliance with this Privacy Notice and applicable laws. This Privacy Notice is only in effect for Personal Information and Browsing Information and Browsing Information collected and/or owned by or on behalf of FNF, including Personal Information and Browsing Information collected through any FNF website, online service or application (collectively, the "Website").

# **Types of Information Collected**

We may collect two types of information from you: Personal Information and Browsing Information.

Personal Information. FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- social security number (SSN), driver's license, passport, and other government ID numbers;
- financial account information; and
- other personal information needed from you to provide title insurance, real estate- and loan-related services to you.

Browsing Information. FNF may collect the following categories of Browsing Information:

- Internet Protocol (or IP) address or device ID/UDID, protocol and sequence information;
- browser language and type;
- domain name system requests;
- browsing history, such as time spent at a domain, time and date of your visit and number of clicks;
- http headers, application client and server banners; and
- operating system and fingerprinting data.

# How Information is Collected

In the course of our business, we may collect Personal Information about you from the following sources:

- applications or other forms we receive from you or your authorized representative;
- the correspondence you and others send to us;
- information we receive through the Website;
- · information about your transactions with, or services performed by, us, our affiliates or nonaffiliated third parties; and
- information from consumer or other reporting agencies and public records maintained by governmental entities that we obtain directly from those entities, our affiliates or others.

If you visit or use our Website, we may collect Browsing Information from you as follows:

- <u>Browser Log Files</u>. Our servers automatically log each visitor to the Website and collect and record certain browsing information about each visitor. The Browsing Information includes generic information and reveals nothing personal about the user.
- Cookies. When you visit our Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to
  your Internet browser from a web server and stored on your computer's hard drive. When you visit a website again, the cookie
  allows the website to recognize your computer. Cookies may store user preferences and other information. You can choose
  whether or not to accept cookies by changing your Internet browser settings, which may impair or limit some functionality of
  the Website.

# Use of Collected Information

Information collected by FNF is used for three main purposes:

- To provide products and services to you or any affiliate or third party who is obtaining services on your behalf or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you and to inform you about our, our affiliates' and third parties' products and services, jointly or independently.

#### When Information Is Disclosed

We may provide your Personal Information (excluding information we receive from consumer or other credit reporting agencies) and Browsing Information to various individuals and companies, as permitted by law, without obtaining your prior authorization. Such laws do not allow consumers to restrict these disclosures. Please see the section "Choices With Your Personal Information" to learn how to limit the discretionary disclosure of your Personal Information and Browsing Information.

Disclosures of your Personal Information may be made to the following categories of affiliates and nonaffiliated third parties:

- to third parties to provide you with services you have requested, and to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to our affiliate financial service providers for their use to market their products or services to you;
- to nonaffiliated third party service providers who provide or perform services on our behalf and use the disclosed information only in connection with such services;
- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to market financial products or services to you;
- to law enforcement or other governmental authority in connection with an investigation, or civil or criminal subpoena or court order;

FNF Privacy Statement (Eff. 5/1/2015) Last Updated March 1, 2017Copyright © 2017. Fidelity National Financial, Inc. All Rights Reserved MISC0219 (DSI Rev. 3/2/17) Page 2 Order No. 35604115-356-AW-JM

- to lenders, lien holders, judgment creditors, or other parties claiming an interest in title whose claim or interest must be determined, settled, paid, or released prior to closing; and
- other third parties for whom you have given us written authorization to disclose your Personal Information.

We may disclose Personal Information and/or Browsing Information when required by law or in the good-faith belief that such disclosure is necessary to:

- comply with a legal process or applicable laws;
- enforce this Privacy Notice;
- investigate or respond to claims that any material, document, image, graphic, logo, design, audio, video or any other information provided by you violates the rights of a third party; or
- protect the rights, property or personal safety of FNF, its users or the public.

We maintain reasonable safeguards to keep your Personal Information secure. When we provide Personal Information to our affiliates or third party service providers as discussed in this Privacy Notice, we expect that these parties process such information in compliance with our Privacy Notice or in a manner that is in compliance with applicable privacy laws. The use of your information by a business partner may be subject to that party's own Privacy Notice. Unless permitted by law, we do not disclose information we collect from consumer or credit reporting agencies with our affiliates or others without your consent.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of our bankruptcy, reorganization, insolvency, receivership or an assignment for the benefit of creditors. You expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings. We cannot and will not be responsible for any breach of security by a third party or for any actions of any third party that receives any of the information that is disclosed to us.

#### **Choices With Your Information**

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you. The uses of your Personal Information and/or Browsing Information that, by law, you cannot limit, include:

- for our everyday business purposes to process your transactions, maintain your account(s), to respond to law
- · enforcement or other governmental authority in connection with an investigation, or civil or criminal subpoenas or court
- orders, or report to credit bureaus;
- for our own marketing purposes;
- for joint marketing with financial companies; and
- for our affiliates' everyday business purposes information about your transactions and experiences.

You may choose to prevent FNF from disclosing or using your Personal Information and/or Browsing Information under the following circumstances ("opt-out"):

- for our affiliates' everyday business purposes information about your creditworthiness; and
- for our affiliates to market to you.

To the extent permitted above, you may opt-out of disclosure or use of your Personal Information and Browsing Information by notifying us by one of the methods at the end of this Privacy Notice. We do not share your personal information with non-affiliates for their direct marketing purposes.

<u>For California Residents</u>: We will not share your Personal Information and Browsing Information with nonaffiliated third parties, except as permitted by California law. Currently, our policy is that we do not recognize "do not track" requests from Internet browsers and similar devices.

<u>For Nevada Residents</u>: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

<u>For Oregon Residents</u>: We will not share your Personal Information and Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not share your Personal Information and Browsing Information with nonaffiliated third parties, except as permitted by Vermont law, such as to process your transactions or to maintain your account. In addition, we will not share information about your creditworthiness with our affiliates except with your authorization. For joint marketing in Vermont, we will only disclose your name, contact information and information about your transactions.

#### Information From Children

The Website is meant for adults and is not intended or designed to attract children under the age of thirteen (13).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian. By using the Website, you affirm that you are over the age of 13 and will abide by the terms of this Privacy Notice.

#### **Privacy Outside the Website**

The Website may contain links to other websites. FNF is not and cannot be responsible for the privacy practices or the content of any of those other websites.

#### **International Users**

FNF's headquarters is located within the United States. If you reside outside the United States or are a citizen of the European Union, please note that we may transfer your Personal Information and/or Browsing Information outside of your country of residence or the European Union for any of the purposes described in this Privacy Notice. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection and transfer of such information in accordance with this Privacy Notice.

# The California Online Privacy Protection Act

For some FNF websites, such as the Customer CareNet ("CCN"), FNF is acting as a third party service provider to a mortgage loan servicer. In those instances, we may collect certain information on behalf of that mortgage loan servicer via the website. The information which we may collect on behalf of the mortgage loan servicer is as follows:

- first and last name;
- property address;
- user name and password;
- loan number;
- social security number masked upon entry;
- email address;
- three security questions and answers; and
- IP address.

The information you submit through the website is then transferred to your mortgage loan servicer by way of CCN. The mortgage loan servicer is responsible for taking action or making changes to any consumer information submitted through this website. For example, if you believe that your payment or user information is incorrect, you must contact your mortgage loan servicer.

CCN does not share consumer information with third parties, other than (1) those with which the mortgage loan servicer has contracted to interface with the CCN application, or (2) law enforcement or other governmental authority in connection with an investigation, or civil or criminal subpoenas or court orders. All sections of this Privacy Notice apply to your interaction with CCN, except for the sections titled "Choices with Your Information" and "Access and Correction." If you have questions regarding the choices you have with regard to your personal information or how to access or correct your personal information, you should contact your mortgage loan servicer.

# Your Consent To This Privacy Notice

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information by us in compliance with this Privacy Notice. Amendments to the Privacy Notice will be posted on the Website. Each time you provide information to us, or we receive information about you, following any amendment of this Privacy Notice will signify your assent to and acceptance of its revised terms for all previously collected information and information collected from you in the future. We may use comments, information or feedback that you submit to us in any manner that we may choose without notice or compensation to you.

#### Accessing and Correcting Information; Contact Us

If you have questions, would like to access or correct your Personal Information, or want to opt-out of information sharing with our affiliates for their marketing purposes, please send your requests to privacy@fnf.com or by mail or phone to:

Fidelity National Financial, Inc. 601 Riverside Avenue Jacksonville, Florida 32204 Attn: Chief Privacy Officer (888) 934-3354

# **Notice of Available Discounts**

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the field rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for each discount. These discounts only apply to transaction involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

# FNF Underwritten Title Company

# **FNF Underwriter**

CTIC - Chicago Title Insurance Company

FNTC - Chicago Title Company FNTCCA – Fidelity National Title Company of California

# **Available Discounts**

# CREDIT FOR PRELIMINARY REPORTS AND/OR COMMITMENTS ON SUBSEQUENT POLICIES (CTIC)

Where no major change in the title has occurred since the issuance of the original report or commitment, the order may be reopened within 12 or 36 months and all or a portion of the charge previously paid for the report or commitment may be credited on a subsequent policy charge.

# **DISASTER LOANS (CTIC)**

The charge for a lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

# CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC)

On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be 50% to 70% of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be 40% to 50% of the appropriate title insurance rate, depending on the type of coverage selected.

#### CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY – 1990

# **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
  - (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- 3. Defects, liens, encumbrances, adverse claims or other matters:
  - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
  - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
  - (c) resulting in no loss or damage to the insured claimant;
  - (d) attaching or created subsequent to Date of Policy; or
  - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

#### EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
- Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

# CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13) ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

# EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from: Governmental police power and the existence or violation of those portions of any law or government regulation concerning:

- Governmental police power, and the existence or violation of those portions of any law or government regulation concerning: a. building;
  - b. zoning;
  - c. land use;
  - d. improvements on the Land;
  - e. land division; and

- f. environmental protection.
- This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
- 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
  - The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.

4. Risks:

3.

- a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
- b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
- d. that first occur after the Policy Date this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
- 5. Failure to pay value for Your Title.
- 6. Lack of a right:
  - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
  - b. in streets, alleys, or waterways that touch the Land.
  - This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

. . .

\_ ..

- 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

# LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
 For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

		Our Maximum Dollar
	Your Deductible Amount	Limit of Liability
	1.00% % of Policy Amount Shown in Schedule A or	
Covered Risk 16:	\$2,500.00 (whichever is less)	\$ 10,000.00
	1.00% % of Policy Amount Shown in Schedule A or	
Covered Risk 18:	\$5,000.00 (whichever is less)	\$ 25,000.00
	1.00% of Policy Amount Shown in Schedule A or	
Covered Risk 19:	\$5,000.00 (whichever is less)	\$ 25,000.00
	1.00% of Policy Amount Shown in Schedule A or	
Covered Risk 21:	\$2,500.00 (whichever is less)	\$ 5,000.00

# 2006 ALTA LOAN POLICY (06-17-06)

# EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
    - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
    - (c) resulting in no loss or damage to the Insured Claimant;
    - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
    - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doingbusiness laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.

- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
  - (a) a fraudulent conveyance or fraudulent transfer, or
  - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage: **EXCEPTIONS FROM COVERAGE** 

(Except as provided in Schedule B - Part II,( t(or T)his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

## (PART I

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

#### PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:)

#### 2006 ALTA OWNER'S POLICY (06-17-06)

# EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
    - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
    - (c) resulting in no loss or damage to the Insured Claimant;
    - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
    - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
- 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
  - (a) a fraudulent conveyance or fraudulent transfer; or
  - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
- 5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

# EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the Public Records.
- 7. (Variable exceptions such as taxes, easements, CC&R's, etc. shown here.)

# ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (12-02-13)

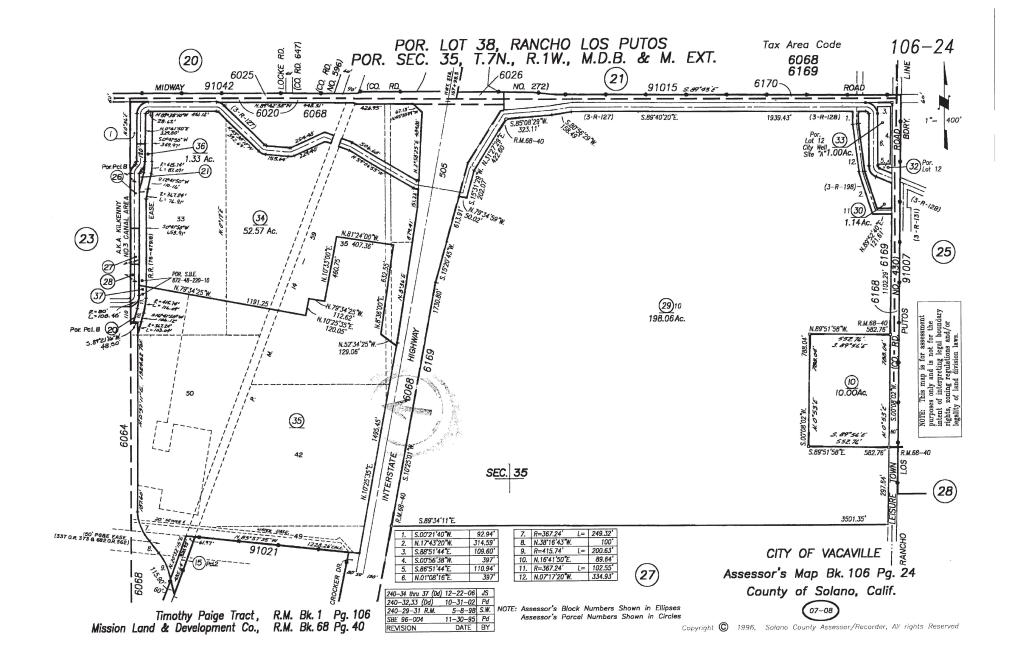

# **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
  - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doingbusiness laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
- 6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
- 8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
- 9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
  - (a) a fraudulent conveyance or fraudulent transfer, or
  - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
- 10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

# D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

SPILL PREVENTION, CONTAINMENT, AND CLEANUP PROCEDURES: (Check all boxes that apply to indicate your procedures for containing spills, releases, fires or explosions; and. preventing and mitigating associated harm to persons, property, and the environment.)
1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls);
3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, pigs, pillows);
☑ 4. COVER OR BLOCK FLOOR AND/ OR STORM DRAINS;
☑ 5. BUILT-IN BERM IN WORK / STORAGE AREA;
☑ 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS (e.g. Flammable liquids, Propane);
⊠ 8. STOP PROCESSES AND/OR OPERATIONS;
9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
☑ 10. SHUT-OFF WATER, GAS, ELECTRICAL UTILITIES AS APPROPRIATE;
☑ 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE / MEDICAL AID;
☑ 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AREAS;
☑ 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION CALL;
☑ 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE RESPONSE TEAM;
☑ 15. REMOVE OR ISOLATE CONTAINERS / AREA AS APPROPRIATE;
☑ 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
☑ 17. USE ABSORBENT MATERIAL FOR SPILLS WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
□ 18. SUCTION USING SHOP VACUUM WITH SUBSEQUENT PROPER LABELING, STORAGE, AND HAZARDOUS WASTE DISPOSAL AS APPROPRIATE;
II. WASH / DECONTAMINATE EQUIPMENT W/ CONTAINMENT and DISPOSAL OF EFFLUENT / RINSATE AS HAZARDOUS WASTE;
20. PROVIDE SAFE TEMPORARY STORAGE OF EMERGENCY-GENERATED WASTES;

SAVE MART SUPERMARKETS

Submittal Status	
Submitted on 2/16/2016 by Tammy Sibbitt of Save Mart Supermarkets (Modesto, CA)	
Hazardous Materials	
Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	Yes
Underground Storage Tank(s) (UST)	
Does your facility own or operate underground storage tanks?	No
Hazardous Waste	
ls your facility a Hazardous Waste Generator?	Yes
Does your facility treat hazardous waste on-site?	Yes
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	No
Does your facility consolidate hazardous waste generated at a remote site?	No
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	No
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	No

Is your facility a Household Hazardous Waste (HHW) Collection site?

### Excluded and/or Exempted Materials

Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	Yes
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	No

### Additional Information

No additional comments provided.

TERMS USED	IN THIS REPORT
<ul> <li>Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. Primary MCLs are set as close to the PHGs (or MCLGs) as is economically and technologically feasible. Secondary MCLs are set to protect the odor, taste, and appearance of drinking water.</li> <li>Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. Environmental Protection Agency (USEPA).</li> <li>Public Health Goal (PHG): The level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency.</li> <li>Maximum Residual Disinfectant Level (MRDL): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a</li> </ul>	<ul> <li>Primary Drinking Water Standards (PDWS): MCLs and MRDLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.</li> <li>Secondary Drinking Water Standards (SDWS): MCLs for contaminants that affect taste, odor, or appearance of the drinking water. Contaminants with SDWSs do not affect the health at the MCL levels.</li> <li>Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.</li> <li>Regulatory Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.</li> <li>Variances and Exemptions: State Board permission to exceed an MCL or not comply with a treatment technique under certain conditions.</li> <li>ND: not detectable at testing limit</li> </ul>
disinfectant is necessary for control of microbial contaminants. Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.	<ul> <li>ppm: parts per million or milligrams per liter (mg/L)</li> <li>ppb: parts per billion or micrograms per liter (μg/L)</li> <li>ppt: parts per trillion or nanograms per liter (ng/L)</li> <li>ppq: parts per quadrillion or picogram per liter (pg/L)</li> <li>pCi/L: picocuries per liter (a measure of radiation)</li> </ul>

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring

Water System Name:

minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

# Contaminants that may be present in source water include:

- *Microbial contaminants*, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, that may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, agricultural application, and septic systems.
- Radioactive contaminants, that can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, the USEPA and the State Water Resources Control Board (State Board) prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. State Board regulations also establish limits for contaminants in bottled water that provide the same protection for public health.

Tables 1, 2, 3, 4, 5, 7, and 8 list all of the drinking water contaminants that were detected during the most recent sampling for the constituent. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. The State Board allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data, though representative of the water quality, are more than one year old.

Microbiological Contaminants (complete if bacteria detected)	Highest No. of Detections		nonths in ation	мс	CL	MCLG	Typical Source of Bacteria
Total Coliform Bacteria	(In a mo.)		0	More than 1 month with a		0	Naturally present in the environment

\*Any violation of an MCL, MRDL, or TT is asterisked. Additional information regarding the violation is provided later in this report.

# Additional General Information on Drinking Water

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (1-800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

Lead-Specific Language for Community Water Systems: If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. [INSERT NAME OF UTILITY] is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. [Optional: If you do so, you may wish to collect the flushed water and reuse it for another beneficial purpose, such as watering plants.] If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <a href="http://www.epa.gov/lead">http://www.epa.gov/lead</a>.

Treatment Technique <sup>(a)</sup> (Type of approved filtration technology used)	<u>N/A</u>
Turbidity Performance Standards <sup>(b)</sup> (that must be met through the water treatment process)	Turbidity of the filtered water must:         1 – Be less than or equal to NTU in 95% of measurements in a month.         2 – Not exceed NTU for more than eight consecutive hours.         3 – Not exceed NTU at any time.
Lowest monthly percentage of samples that met Turbidity Performance Standard No. 1.	
Highest single turbidity measurement during the year	
Number of violations of any surface water treatment requirements	<u>N/A</u>

(a) A required process intended to reduce the level of a contaminant in drinking water.

(b) Turbidity (measured in NTU) is a measurement of the cloudiness of water and is a good indicator of water quality and filtration performance. Turbidity results which meet performance standards are considered to be in compliance with filtration requirements.

\* Any violation of a TT is marked with an asterisk. Additional information regarding the violation is provided below.

DRAFT

# SMALL WATER SYSTEM 2016 ANNUAL REPORT TO THE DRINKING WATER PROGRAM FOR YEAR ENDING DECEMBER 31, 2016 [Section 116530 Health & Safety Code]

WATER SYSTEM INFORM	ATION
Water System No.:	CA4810019
Water System Name:	SAVE MART DISTRIBUTION CENTER 802
Water System Classification:	Nontransient Noncommunity Water System
Water System Ownership (See descriptions below):	Privately owned business (non-community)
Physical location: (address line 1, address line 2, city, zip)	700 CROCKER DRIVE VACAVILLE 95688
General Office Phone: ⑦ (with area code)	916-212-3609
Web site address:	howard.faulkner@savemart.com

Water System Ownership Descriptions:

- Local Government: e.g., city, county, or special district, local school district, junior colleges, county or community parks, etc.
   State or Federal Government: e.g., state or national park, BLM, USFS and COE campgrounds and recreation facilities, state hospitals, State universities and colleges, California Veterans Home, County or District Fairs and Expositions, Caltrans rest stop, military base, other state or federal facility
- Privately owned, non-PUC-regulated (Community Water System): e.g., mobile home park, apartment or condominium
  Privately owned business (non-community): c.g., church, private school, restaurant, amusement park, RV park/campground, motel, ranch/farm, factory, other business establishment

### REPORT SUBMITTED BY:3

Note: Your name and title, email address, and work phone number are disclosable report information that may be obtained through the Public Records Act.

Name:	TOMAS GALINDO	
Title:	CONTRACT WATER TREATMENT OPERATOR	
Work phone:	209-826-5009	
Cell phone:	209-704-5007	
Email address:	westsidewater@aol.com	

### COMMENTS:®

### 1. Public Water System Contacts 3

Click here to learn how to Modify, Add and Delete Contacts in the table below.

IMPORTANT: Each water system must have one and only one Administrative Contact AND one and only one Financial Contact. The same person may be both the Administrative and Financial Contacts.

Please provide an email address for the Administrative Contact as most email communication, particularly email blasts, from the Division of Drinking Water will be sent to the email address of the Administrative Contact.

PHONE TYPE: Home - if you use your home or personal phone number as your business number, use the HOME phone type instead and leave the BUSINESS phone type blank.

Only the BUSINESS phone type will appear in Drinking Water Watch (https://sdwis.waterboards.ca.gov/PDWW/), which can be viewed by the public, if the General Office phone number is not provided (see Water System Information section under the Intro tab).

### 2. POPULATION SERVED

		Annual Operating Period (	Ð			
Population Type	Population ⑦		Begin	Date	End	Date
			ММ	DD	MM	DD
Residential <sup>1</sup>	0	Method Used to Determine Population:	1	1	12	31
Transient <sup>2</sup>	0		1	1	12	31
Nontransient <sup>3</sup>	1		1	1	12	31

MM = month, in 2-digit format DD = day, in 2-digit format

Descriptions:

<sup>1</sup>Residential ⑦ – report the number of persons who reside within the water system service area for more than half of the year (excludes transient and nontransient populations). If year-round, the *Begin Date* would be 01/01 and the *End Date* would be 12/31.

<sup>2</sup>Transient <sup>(2)</sup> – report the number of persons who are at the water system on the 60<sup>th</sup> busiest day of the year (excludes residential and nontransient populations. Report the *Begin Date* and *End Date* if the Transient use is seasonal.

<sup>3</sup>Nontransient O – report the number of the persons who are at the water system for over 6 months per year (excludes residential and transient populations). Report the *Begin Date* and *End Date* if the Nontransient use is seasonal.

List the names of communities served by the system identifying both incorporated and unincorporated areas:

COMMENTS:

# 3. NUMBER OF SERVICE CONNECTIONS(as of December 31, 2016)

A. Active Service Connections:

Total Active Potable Water Connections currently in Division of Drinking Water database: 8

# The total number of Service Connections as of December 31, 2016 must be reported as either <u>Unmetered</u> or <u>Metered</u> for each Service Connection Type as appropriate.

	Pota	able Water	Recycled Water			
TYPE Do NOT report fire sprinkler connections and fire hydrants. These connections are not counted toward "service connections" for compliance purposes.	Unmetered	Metered	Total*	Unmetered	Metered	Total*

PWS = Public Water System

\*Calculated field. If you do not have monthly production data to report, please report your Annual Total production in the row for January and enter "0" for all the other months.

Non-potable = water supplies that do not enter the drinking water distribution system and are for non-potable uses only such as irrigation or toilet flushing

<sup>1</sup>Only report Maximum Day if it is actually measured or determined from production records. It should not be the average day demand during the maximum month of production.

<sup>2</sup>Do not include raw water purchased; report only volume of water that was treated.

<sup>3</sup>(F) Total Amount of Potable Water = Sum of Columns (C), (D) and (E), automatically calculated. To update, click below

To update totals click here

<sup>4</sup>This is the percentage of the total annual volume for Groundwater produced that was provided treatment to meet drinking water standards other than precautionary disinfection and flouridation.

<sup>5</sup>If water was <u>Purchased</u> from or <u>Sold</u> to another PWS, complete the table below:

Specify whether water was <i>Purchased</i> or <i>Sold</i>	Name of PWS

If recycled water was supplied to your customers, complete the table below:

Specify the level of treatment (e.g., tertiary, disinfected secondary)	Name of Recycled Water supplier

COMMENTS:⑦

### 6a. WATER RATES

If you have questions about completing this section of the report, please contact Kathy. Frevert@Waterboards.ca.gov or call (916) 322-5274.

Indicate the type of residential water rate structure 🗇 used by your water system: We Do Not Charge A Water Rate (specify why in the Comments box) 🔻

If tiered, what is the number of tiers?	Not Tiered

https://drinc.ca.gov/ear/PWSEarReport.aspx?printable=yes&SurveyID=18&PwsID=CA4810019

Date of most recent update to the rate structure: MM/DD/YYYY	1/1/2017
Describe the changes that were made in the update:	N/A
What is your billing frequency other •	
What is your new connection fee?	0
Date of most recent update to the new connection fee: MM/DD/YYYY	1/1/2017

Complete the table below providing specific water rates applied to your customers:

Connection Type	FLAT BASE RATE (FBR)	If FBR + UUR, what is the volume allowed before UUR applies	UNIFORM USAGE RATE (UUR)	VARIABLE BASE RATE (provide range) (VBR)		VARIABLE USAGE RATE (provide range) (VUR)	
	\$ (Base)	HCF ⑦	S per HCF	\$ Low	S High	S per HCF Low	S per HCF High
RESIDENTIAL 3							
Single-family Residential	0 0		0	0	0	0	0
Multi-family Residential	0	0	0	0	0	0	0
Do you provide lifeline/lo	subsidies?	No 🔻	]				
If Yes, provide rates:	Yes, provide rates:						
If yes, what percentage of (Example: X %)	residentia	l customers receives this subs	idy?	%			
NON-RESIDENTIAL @							
Commercial/Institutional	0	0	0	0	0	0	0
Industrial	0	0	0	0	0	0	0
Landscape Irrigation	0	0	0	0	00	0	0
Agricultural Irrigation	0	0	0	0	0	0	0
Other							
Do you have fire suppression surcharges?			No				
If Yes, provide rates:							
Do you have other surchas		No	5				
What are the other surchar	rges?						
If Yes, provide rates:							

For each of the three water volumes shown below, provide what would be the monthly water bill for a single-family residential customer. Include all fees and service charges associated with water services that this customer would pay when their household used the specified amount of water.

Amount of water delivered to customer: Bill amount (including all charges/fees associated with the amount of water used):

NEWI	
a. 6 HCF	0 Dollars/month
b. 12 HCF	0 Dollars/month
c. 24 HCF	0 Dollars/month

NOTE: If this is not a "Community" Water System or if individual customers do not pay a separate bill for water enter "0". If bill amount would vary by season, use the month or time period with the highest water consumption.

HCF means "hundred cubic feet". There are 748 gallons in 100 cubic feet.

### **6b. WATER DELIVERIES**

Units of Measure for this table: Gallons v

Provide monthly metered water deliveries in the table below.

#### COMMENTS:3

### 7. WATER QUALITY

### ANNUAL NITRATE SAMPLING

Regulations require a minimum of **annual** sampling for nitrate. If any nitrate result is >= 1/2 the MCL (Maximum Contaminant Level) of 10 mg/l as nitrogen (i.e., a result of >= 5 mg/l as nitrogen) then quarterly monitoring must be initiated.

Did your system conduct monitoring for nitrate during 2016 from each source?	Yes	•
------------------------------------------------------------------------------	-----	---

#### https://drinc.ca.gov/ear/PWSEarReport.aspx?printable=yes&SurveyID=18&PwsID=CA4810019

NOTE: If there were any sources that were not monitored because they were offline during 2016, you must contact your local regulatory agency to avoid an enforcement action for failure to monitor.

### BACTERIOLOGICAL SAMPLE SITING PLAN

The coliform monitoring regulations require that an updated sample-siting plan be submitted at least every 10 years, and at any time the plan no longer ensures representative monitoring of the system (Section 64422 of Title 22).

Date of current bacteriological sample siting plan:	10/01/2016	
COMMENTS:		

### 8. WATER TREATMENT

Treatment Plant	Required Treatment Plant Operator Classification
11-11-1-1-1-1-1-1-1-1-1-1-1-1-1-1-1-1-	

If treatment was added or changed in any way in 2016, provide a brief description and identify the water source

TD = Treatment or Distribution operator at any level

NR, N/A, NA = There are no facilities subject to the Certified Treatment Plant Operator requirements

### DIRECT ADDITIVES

	Are all chemicals used NSF/ANSI Standard 60 certified? ⑦	Yes	•
--	----------------------------------------------------------	-----	---

### INDIRECT ADDITIVES

As of March 9, 2008, a water system shall not use any chemical, material, lubricant, or product in the production, treatment or distribution of drinking water that comes in contact with the drinking water that does not have certification of meeting NSF/ANSI standard 61.

Does your water system have procedures to ensure all future equipment and materials meet this standard?	Yes	٠	
			-

If you have any questions on the requirements related to indirect additives, you may contact your local regulatory agency.

### 11. OPERATOR CERTIFICATION

A. Please list the State certified Water <u>Treatment Plant</u> Operators employed by your water system that supervise and direct the operation of your water treatment plants, beginning with the chief operator(s) ⑦.

Your Highest Treatment System Classification is: D1

If you do not have a Certified Distribution System Operator, put "NONE" in each column of the first row.

Treatment Operator Name (First name Last name)	Grade of Treatment Operator (1, 2, 3, 4, or 5)	Chief or Shift <sup>1</sup> (C, S or X)	Treatment Operator Number (4 or 5 digits)	Treatment Certification Expiration Date (MM/DD/YYYY)
TOMAS GALINDO	Т3	С	31231	2/1/2019

https://drinc.ca.gov/ear/PWSEarReport.aspx?printable=yes&SurveyID=18&PwsID=CA4810019

<sup>1</sup>Use "C" for Chief Operator and "S" for Shift Operator. If neither, put an "X". Do not leave blank.

## Do your Chief and Shift Treatment Plant Operators have the minimum level required? Yes

B. Please list the State certified Water <u>Distribution System</u> Operators employed by your water system that supervise and direct the operation of your distribution systems, beginning with the chief operator(s) ③.

### Your Distribution System Classification is: D1

If you do not have a Certified Distribution System Operator, put "NONE" in each column of the first row.

Distribution Operator Name (First name Last name)	Grade of Distribution Operator (1, 2, 3, 4, or 5)	Chief or Shift <sup>1</sup> (C, S or X)	Distribution Operator Number (4 or 5 digits)	Distribution Certification Expiration Date (MM/DD/YYYY)
TOMAS GALINDO	D2	С	36483	8/1/2018

<sup>1</sup>Use "C" for Chief Operator and "S" for Shift Operator. If neither, put an "X". Do not leave blank.

Do your Chief and Shift Distribution System Operators have the minimum level required? Yes

COMMENTS:<sup>(2)</sup>

### 12. WATER SYSTEM IMPROVEMENTS

The California Waterworks Standards (Section 64556) require an amended permit for any of the following improvements or modifications:

- · Addition of a new distribution reservoir with a capacity of 100,000 gallons or more
- Modification or extension of the existing distribution system using an alternative to the requirements of the California Waterworks Standards (see Sections 64570 through 64578)
- · Modification of the water supply by:
  - · Adding a new source
  - · Changing the status of an existing source (for example, active to standby) or
  - · Changing or altering a source, such that the quality or quantity of water supply could be affected
- · Any addition or change in treatment, including
  - Design capacity
  - Process
- · Expansion of the existing service area by 20 percent or more of the number of service connections specified in your current permit.

If your water system made any improvements or modifications during 2016 for which a permit was not obtained, please describe the improvements or modifications below.

Indicate any planned improvements or modifications for 2017.

COMMENTS:

### 15. ONGOING WATER SYSTEM VIOLATIONS

Is your water system operating under USEPA, Division or LPA enforcement for a continuous violation? No 🔻

If yes, respond to the following:

Г

Type of violation (for example, specify "Nitrate MCL" violation if your wells exceeds the nitrate MCL of 45 mg/L	
Dates in 2016 that public notification was provided to users	
Corrective action taken in 2016	
Was bottled water provided to users?	-Pick one- V
If yes, how was bottled water provided, for example, direct delivery?	
Describe anticipated schedule to return to compliance	
COMMENTS: <sup>®</sup>	1

# 16. WATER CONSERVATION AND DROUGHT PREPAREDNESS

Date of your revised Drought Preparedness Plan, if any:			
If you experienced water shortages in 2016, please estimate the amount of shortfall in millions of gallons:			
Did drought conditions cause you to activate emergency standby wells in 2016?	No		۲
Do you project water shortages in the current calendar year?	No	•	
Did you implement NEW water conservation measures in 2016?	No		
If you implemented NEW water conservation measures in 2016, please estimate how mu millions of gallons: (MG) % reduction in demand	ch water was	conserved i	n
Do you anticipate having to go to mandatory rationing in the upcoming year?	No		
Do you routinely monitor the static water levels in your wells?	No		۲
Do you routinely monitor the <i>static</i> water levels in your wells? Do you routinely monitor the <i>pumping</i> water levels in your wells?	No No		• •

Please list any other long term actions you are considering or planning:

COMMENTS: 7

Disclosure: Be advised that Sections 116725 and 116730 of the California Health and Safety Code states that any person who knowingly makes any false statement on any report or document submitted for the purposes of compliance may be liable for a civil penalty not to exceed five thousand dollars (\$5,000) for each separate violation for each day that the violation continues. In addition, the violators may be prosecuted in criminal court and upon conviction, be punished by a fine of not more than \$25,000 for each day of the violation, or be imprisoned in county jail not to exceed one year, or both the fine and imprisonment.

# To Interested Parties:

# 2015-2016 ANNUAL REPORT ANNUAL REPORT FOR STORM WATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITIES

Attached is the 2015-20165 annual report that must be mailed to your Regional Board office by July 15, 2016. <u>Dischargers within the</u> <u>Los Angeles Regional Board</u> are required to electronically submit their annual reports via the Storm Water Multi-Application Reporting and Tracking System (SMARTS), email with a PDF attachment(s) to <u>losangeles@waterboards.ca.gov</u>, or mail a disk. Although electronic submittals are not mandatory for dischargers in other regions, we encourage all dischargers to register and use SMARTS. We anticipate that a new Industrial General Permit (IGP) will be adopted sometime next year that will mandate electronic reporting for future reporting years.

To register to use SMARTS please fill out the LRP Registration Form and mail it back to: SMARTS Registration, P.O. Box 1977, Sacramento, CA 95812. Once a complete registration form is received, instructions and a Secret Code Number will be emailed. The Secret Code Number is used to link your SMARTS ID to the WDID Number.

For SMARTS registration questions or information please contact the SMARTS help center at 1-866-563-3107 or by email at <u>stormwater@waterboards.ca.gov</u>.

To receive email updates on Storm Water Industrial permitting issues <u>including updates on the IGP reissuance process</u> (hearings, workshops, schedules, etc.), please sign up at <u>http://www.waterboards.ca.gov/resources/email\_subscriptions/swrcb\_subscribe.shtml</u> The Storm Water program currently maintains five email lists:

- Storm Water Database Issues
- Storm Water Construction Permitting Issues
- Storm Water Industrial Permitting Issues
- Storm Water Municipal Permitting Issues
- Sustainable Development

Sincerely,

Storm Water Section State of California

#### FORM 2-QUARTERLY VISUAL OBSERVATIONS OF AUTHORIZED NON-STORM WATER DISCHARGES (NSWDs)

- \* Quarterly dry weather visual observations are required of each authorized NSWD.
- Observe each authorized NSWD source, impacted drainage area, and . discharge location.

- Authorized NSWDs must meet the conditions provided in Section D (pages 5-6), of the General Permit.
- Make additional copies of this form as necessary. •

#### NUN-STURM WATER DISCHARGES (NSWDS)

- Unauthorized NSWDs are discharges (such as wash or rinse waters) that do not meet the conditions provided in Section D (pages 5-6) of the General Permit.
- Quarterly visual observations are required to observe current and detect prior unauthorized NSWDs.
- Quarterly visual observations are required during dry weather and at all facility drainage areas.
- Each unauthorized NSWD source, impacted drainage area, and discharge location must be identified and observed.
- Unauthorized NSWDs that can not be eliminated within 90 days of observation must be reported to the Regional Board in accordance
  with Section A.10.e of the General Permit.
- Make additional copies of this form as necessary.

FORM 4-MONTHLY VISUAL OBSERVATIONS OF STORM WATER DISCHARGES

- Storm water discharge visual observations are required for at least one storm event per month between October 1 and May 31.
- Visual observations must be conducted during the first hour of discharge at all discharge locations.
- Discharges of temporarily stored or contained storm water must be observed at the time of discharge.
- Indicate "None" in the first column of this form if you did not conduct a monthly visual observation.
- Make additional copies of this form as necessary.
- Until a monthly visual observation is made, record any eligible storm events that do not result in a storm
  water discharge and note the date, time, name, and title of who observed there was no storm water
  discharge.

# PERMIT NOTIFICATION FORM 08

Complete the following information and submit to the District upon completion of equipment construction/modification, as authorized by the Authority to Construct (ATC). This form serves as a Permit to Operate (PTO) application and must be submitted within forty-eight (48) hours of initial operation. This form serves as notification that the equipment is ready for operation and inspection. Return the completed form by email to <u>Notify@ysaqmd.org</u>, by fax to (530) 757-3670, and/or by mail to: <u>YSAQMD</u>, 1947 Galileo Court, Suite 103; Davis, CA, 95618. Upon receipt of this card, the District will contact you to schedule an inspection time (if applicable).

Subject: Asbestos Survey February 15, 1991 Updated: Feb. 2016

California law, known as assembly bill 3713, requires any "owner" of a commercial building constructed before 1979 who knows the building contains asbestos-containing materials (ACM's) to provide a notice to all associates regarding the presence of such materials. ACM is one-tenth of one percent (0.1%) asbestos by weight. The mere presence of ACM within a building does not constitute a health hazard. Rather, it is the release of airborne asbestos fibers that occurs when ACM is disturb by removal, cutting or drilling that can cause problems.

This facility was inspected by IT Corporation as part of a company –wide program to determine whether there is any ACM's present. The following locations were identified to have ACM's.

Area

Computer Room by entry door Hallway outside battery Room Roof of guardhouse by hatch Type of ACM

1'x1' floor tile tan w/streaks C 1'x1' Floor tile off wht/tan spks C Grey sealant C

May 1st, 2017

City of Vacaville Attn: Pretreatment Program P. O. Box 220 Elmira, CA 95625-0220

> Re; Save-Mart Distribution Center 700 Crocker Drive Vacaville, CA 95688

Ladies and Gentlemen:

This letter transmits the self-monitoring report for industrial wastewater discharged from the above referenced facility for the April, 2017 reporting period. All permit requirements **were not** achieved for the month of April, 2017.

Enclosed is a summary table of the test results, along with copies of laboratory reports with chain of custody records for sampling performed during this reporting period.

The enclosed Sewer Management Report contains additional details. If you require any further information, please feel free to contact me at (209-574-6299 xt-5925).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations.

Sincerely,

Howard Faulkner Facility Maintenance Manager

c:

# WASTE WATER MANAGEMENT REPORT April, 2017

There was one (1) 24-hour weekly flow composite sample taken for the month of March. This sample concluded and was collected on April 6, 2017 (Reference enclosed laboratory reports and data sheet).

The permit requirements were not achieved due to the loss of continuous monitoring on 4/2, 4/9, and 4/10 the usage for those days was determined by averaging the flows from the day before and the day after.

.

Re Lab Order: S040365 Project ID: MONTHLY SAMPLING:24hr COMP

Collected By: HOWARD FAULKNER PO/Contract #:

Dear Howard Faulkner:

Enclosed are the analytical results for sample(s) received by the laboratory on Friday, April 07, 2017. Results reported herein conform to the most current NELAC standards, where applicable, unless otherwise narrated in the body of the report.

If you have any questions concerning this report, please feel free to contact me.

ENVIRONMENTAL ANALYSES

NARRATIVE

#### Lab Order: S040365 Project ID: MONTHLY SAMPLING:24hr COMP

#### General Qualifiers and Notes

Caltest authorizes this report to be reproduced only in its entirety. Results are specific to the sample(s) as submitted and only to the parameter(s) reported.

Caltest certifies that all test results for wastewater and hazardous waste analyses meet all applicable NELAC requirements; all microbiology and drinking water testing meet applicable ELAP requirements, unless stated otherwise.

All analyses performed by EPA Methods or Standard Methods (SM) 20th Edition except where noted (SMOL=online edition).

Caltest collects samples in compliance with 40 CFR, EPA Methods, Cal. Title 22, and Standard Methods.

Dilution Factors (DF) reported greater than '1' have been used to adjust the result, Reporting Limit (RL), and Method Detection Limit (MDL).

All Solid, sludge, and/or biosolids data is reported in Wet Weight, unless otherwise specified.

Filtrations performed at Caltest for dissolved metals (excluding mercury) and/or pH analysis are not performed within the 15 minute holding time as specified by 40CFR 136.3 table II.

Results Qualifiers: Report fields may contain codes and non-numeric data correlating to one or more of the following definitions:

ND - Non Detect - indicates analytical result has not been detected.

RL - Reporting Limit is the quantitation limit at which the laboratory is able to detect an analyte. An analyte not detected at or above the RL is reported as ND unless otherwise noted or qualified. For analyses pertaining to the State Implementation Plan of the California Toxics Rule, the Caltest Reporting Limit (RL) is equivalent to the Minimum Level (ML). A standard is always run at or below the ML. Where Reporting Limits are elevated due to dilution, the ML calibration criteria has been met.

J - reflects estimated analytical result value detected below the Reporting Limit (RL) and above the Method Detection Limit (MDL). The 'J' flag is equivalent to the DNQ Estimated Concentration flag.

E - indicates an estimated analytical result value.

B - indicates the analyte has been detected in the blank associated with the sample.

NC - means not able to be calculated for RPD or Spike Recoveries.

SS - compound is a Surrogate Spike used per laboratory quality assurance manual.

NOTE: This document represents a complete Analytical Report for the samples referenced herein and should be retained as a permanent record thereof.

#### QUALITY CONTROL PARAMETER QUALIFIERS

Results Qualifiers: Report fields may contain codes and non-numeric data correlating to one or more of the following definitions:

NS - means not spiked and will not have recoveries reported for Analyte Spike Amounts

QC Codes Keys: These descriptors are used to help identify the specific QC samples and clarify the report.

MB - Method Blank

Method Blanks are reported to the same Method Detection Limits (MDLs) or Reporting Limits (RLs) as the analytical samples in the corresponding QC batch.

LCS/LCSD - Laboratory Control Spike / Laboratory Control Spike Duplicate

DUP - Duplicate of Original Sample Matrix

MS/MSD - Matrix Spike / Matrix Spike Duplicate

**RPD** - Relative Percent Difference

%Recovery - Spike Recovery stated as a percentage

## **REMEDIAL ACTION COMPLETION CERTIFICATION**

June 17, 1998

MR. JAMES MANION AMERICAN STORES PROPERTIES, INC. P.O. BOX 26948 SALT LAKE CITY, UT 84126

RE: UNDERGROUND STORAGE TANK (UST) CASE CLOSURE, Unauthorized Release, Lucky Distribution Center, 700 Crocker Drive, Vacaville, CA. SCDEM File No. 50027, Regional Board LUSTIS No. 48-0140.

Dear Mr. Manion:

This letter confirms the completion of site investigation and remedial action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground storage tank release is required.

This notice is issued pursuant to a regulation contained in Section 2721 (e) of Title 23 of the California Code of Regulations.

Please contact the project lead, Mr. Robert Fagerness, or me at (707) 421-6765 if you have any questions regarding this matter.

Sincerely,

Clifford K. Covey, REHS, CHMM ( Program Manager, Environmental Health

## COMMENTS (DEPTH OF REMEDIATION, ETC.):

## TANK AREA 1 (Located on southwestern portion of site)

This area of the site originally contained four 12,000-gallon fiberglass USTs which had been installed in 1978. The USTs were removed from the site on September 8, 1989 and was witnessed by Mike Rees of this department. No holes were noted in any of the USTs. No obvious soil contamination was noted at the time of the removal. Soil samples were collected within native soil from beneath each end of the USTs at depths of approximately 14 feet bgs. No groundwater was encountered during the UST removal procedures. The samples were only analyzed for TPH-d and determined to be less than analytical reporting limits (10 ppm).

Approximately 1,100 cubic yards of UST backfilled soil were generated as part of the UST removal activities. Two discrete soil samples were collected from the stockpiled soil on the day of the UST removal. Analytical results of the stockpiled soil sampling indicated TPH-d concentrations of 32 ppm and 750 ppm. The stockpiled soil was again characterized on August 30, 1990 (16 four-part composite

samples). No BTEX compounds were detected (analytical limits 50 ppb) in any of the samples analyzed. TPH-d was detected in 4 of the 16 samples ranging from 28 ppm to 82 ppm. Destination of the stockpiled soil is unknown; however, the open excavations in Tank Area 1 was backfilled and paved over 1990-1991.

Based on Alec Nagle's (this department) notes (09/10/93) SCDEM considers this portion of the site to be a low risk soils only case and no further action was required.

## TANK AREA 2 (Located on the mid-eastern portion of the site)

On February 16, 1989 one 12,000-gallon single wall steel UST was removed from Tank Area 2. The removal was witnessed by David Huff of this department. Visual hydrocarbon staining of the soil was noted on the south end of the excavation. Approximately 30 cubic yards of sol was over excavated. Three confirmatory soil samples were collected from the UST excavation and no TPH-d or BTEX were detected above analytical reporting limits 10 ppm and 0.1 ppm, respectively. 15 cubic yards of soil was disposed off-site (Buttonwillow, CA) while the remainder was backfilled into excavation. Based on Alec Nagle's (this department) notes (09/10/93) SCDEM considered this portion of Tank Area 2 portion of the site to be a low risk soils only case and no further action was required.

On October 29, 1990 three 12,000-gallon (two single wall steel and one single wall fiberglass) USTs were removed from Tank Area 2. The removal was witnessed by Ken Williams of this department. Six soil samples were collected in native soil (one from each side of UST) at a depth of 16 feet bgs. No groundwater was encountered during the removal and sampling process. No BTEX were detected above analytical reporting limits (5 ppb) in any of the soil samples. However, TPH-d was detected in three of the six samples ranging from 320 to 960 ppm.

From October 29, 1990 to November 8, 1990 over excavation of the tank pit excavation was conducted deepening and widening the excavation based on visual and olfactory field screening and 24 hour analytical turn around. The over excavation activities were again witnessed by this department. In all, approximately 2000 cubic yards of soil was generated and 26 additional soil confirmation samples were collected. The excavation was as deep as 27 feet bgs... no groundwater was encountered. The analytical results indicated that residual TPH-d soil contamination remained (up to 1,100 ppm) at a depth of 23 feet bgs; however, a majority of the sidewall and floor soil samples were less than analytical reporting limits (10 ppm, TPH-d). The stockpiled soil was successfully bio-remediated on-site and was allowed to be used as on-site fill for low areas per this department's letters dated October 6 and 12, 1993.

From December 1990 to June 1992, four soil investigations were conducted. Residual TPH-d soil contamination was laterally characterized outside of the former tank pit excavation area. The residual contamination is most extensive from 25 to 30 feet bgs with diminishing concentrations which extent into the groundwater 35 and 40 feet bgs. (See attached TPH-d soil concentration iso-contours.) The highest residual contamination in the soil is listed above "after cleanup"

Three groundwater monitoring wells (MW-1 to MW-3) were installed surrounding the former UST tank excavation in December 1990. Four additional monitoring wells (MW-4 to MW-7) were placed outside of the three monitoring wells in June 1992. A consistent groundwater monitoring program was initiated

in December 1991 and continued through March 1997. Free product was encountered in two wells (MW-1 and MW-7) and is discussed below. Dissolved TPH-d concentrations have fluctuated in the samples collected from the monitoring wells but have generally shown and overall decrease.

Free product was encountered in monitoring wells MW-1 and MW-7 with maximum amounts reported at 3.5 feet and 0.42 feet of product, respectively. Manual product recovery was conducted from April 1991 through June 1995, removing an approximate total of 10.9 gallons product. No evidence of free-product was encountered from September 1995 through the last sampling event in March 1997.

In response to this department's and RWQCB requests for a deeper groundwater information, a deeper groundwater investigation was conducted by the consultant in November of 1997. Three separate locations were chosen for the investigation and approved by this department. Continuous coring was conducted to allow the on-site geologist to accurately pin-point discrete water bearing zones and sample from those zones. The investigation identified three water bearing zones located roughly 30-40, 50-55 and 60-76 feet bgs. TPH-d was detected above analytical reporting limits in 3 of the 9 water samples collected, ranging from 110  $\mu$ g/L to 420  $\mu$ g/L. No BTEX or MTBE compounds were detected above analytical laboratory reporting limits in any of the samples analyzed. Essentially, the investigation found that the lateral and vertical extent of the TPH-d contamination is limited and decreasing with depth.

## IV. <u>CLOSURE</u>

Are <u>existing</u> beneficial uses protected per RB Basin Plan? YES Are <u>potential</u> beneficial uses protected per RB Basin Plan? YES Is public health protected for current land use? YES Describe site management requirements: NONE Should corrective action be reviewed if site use changes? NO Are MWs decommissioned? NO YES How many? 7 Describe enforcement actions taken: NONE Describe enforcement actions rescinded: NONE

## VII. ADDITIONAL COMMENTS (attach pages as necessary)

Based on the available information received by this department to date, the soil and groundwater conditions at the site have been adequately characterized. Residual TPH-d soil contamination is present at the site. However, the historical and recent groundwater characterizations indicate that lateral and vertical extent of TPH-d contamination attenuates with respect to distance from the residual soil contamination.

Based on the age of the release, the type of the contaminant present, the existing subsurface lithology and the minimal identified migration of the contaminant into groundwater (both lateral and vertical), this department recommends no further action and closure of this case. The residual soil and groundwater contamination do not pose a risk to future groundwater resources, other than those in the immediate vicinity of the former tank pit. Should the use of shallow groundwater within the immediate vicinity of the former tank pit be required at the site, the TPH-d contamination could be easily and economically treated at the well head.

#### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

#### STANDARD ENVIRONMENTAL RECORDS

#### State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/30/2017 has revealed that there are 3 ENVIROSTOR sites within approximately 1 mile of the target property.

#### State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 3 UST sites within approximately 0.25 miles of the target property.

#### ADDITIONAL ENVIRONMENTAL RECORDS

#### Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 2 SWEEPS UST sites within approximately 0.25 miles of the target property.

#### EDR HIGH RISK HISTORICAL RECORDS

#### EDR Exclusive Records

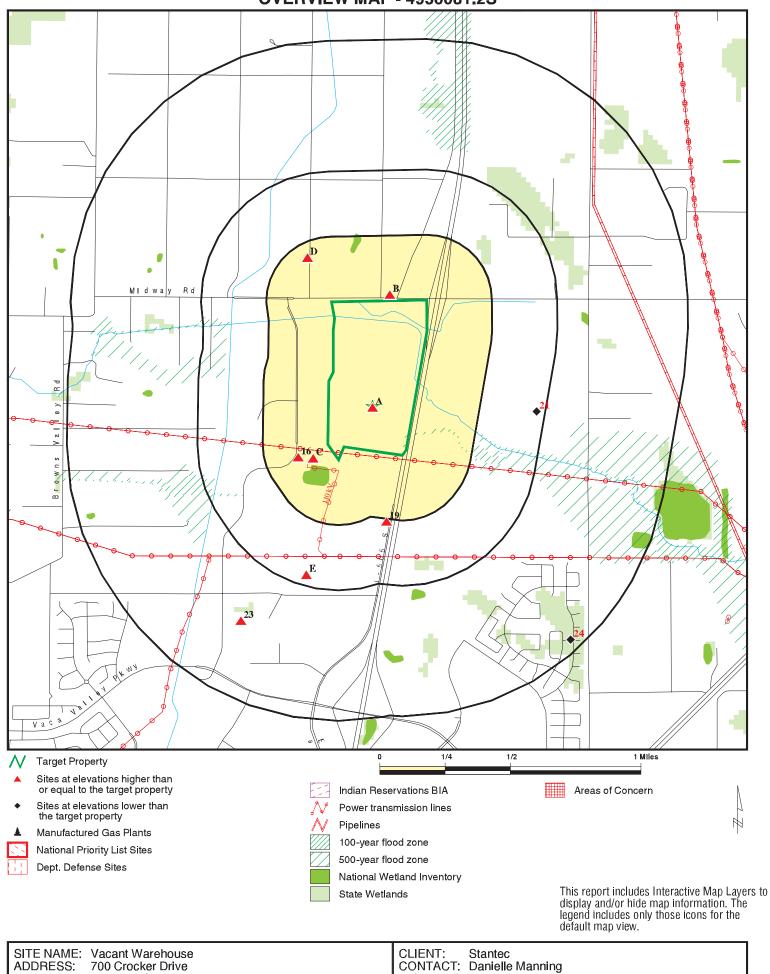

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

	Environmental In	terest/Information System California Hazardous Waste Tracking System - Datamart (HWTS-DAT/ provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.	AMART)				
		RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

# **GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING**

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

#### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/05/2017 Date Data Arrived at EDR: 04/21/2017 Date Made Active in Reports: 05/12/2017 Number of Days to Update: 21 Source: EPA Telephone: N/A Last EDR Contact: 04/21/2017 Next Scheduled EDR Contact: 07/17/2017 Data Release Frequency: Quarterly

NPL Site Boundaries

EPA Region 3 Telephone 215-814-5418

EPA Region 4 Telephone 404-562-8033

EPA Region 5 Telephone 312-886-6686

EPA Region 10 Telephone 206-553-8665

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991 Date Data Arrived at EDR: 02/02/1994 Date Made Active in Reports: 03/30/1994 Number of Days to Update: 56 Source: EPA Telephone: 202-564-4267 Last EDR Contact: 08/15/2011 Next Scheduled EDR Contact: 11/28/2011 Data Release Frequency: No Update Planned

#### Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/05/2017 Date Data Arrived at EDR: 04/21/2017 Date Made Active in Reports: 05/12/2017 Number of Days to Update: 21 Source: EPA Telephone: N/A Last EDR Contact: 04/21/2017 Next Scheduled EDR Contact: 07/17/2017 Data Release Frequency: Quarterly

#### Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/05/2017	Telephone: 703-603-8704
Date Made Active in Reports: 04/07/2017	Last EDR Contact: 04/07/2017
Number of Days to Update: 92	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Varies

#### SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017 Date Data Arrived at EDR: 04/19/2017 Date Made Active in Reports: 05/05/2017 Number of Days to Update: 16 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 04/21/2017 Next Scheduled EDR Contact: 07/31/2017 Data Release Frequency: Quarterly

#### Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# **GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING**

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 02/07/2017 Date Data Arrived at EDR: 04/19/2017 Date Made Active in Reports: 05/05/2017 Number of Days to Update: 16

Source: EPA Telephone: 800-424-9346 Last EDR Contact: 04/25/2017 Next Scheduled EDR Contact: 07/31/2017 Data Release Frequency: Quarterly

#### Federal RCRA CORRACTS facilities list

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 12/12/2016	Source: EPA
Date Data Arrived at EDR: 12/28/2016	Telephone: 800-424-9346
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 05/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Quarterly

#### Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44

Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 04/10/2017 Data Release Frequency: Quarterly

#### Federal RCRA generators list

# RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44

Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 04/10/2017 Data Release Frequency: Quarterly

#### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 04/10/2017 Data Release Frequency: Quarterly

#### RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44

Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 04/10/2017 Data Release Frequency: Varies

#### Federal institutional controls / engineering controls registries

#### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 12/28/2016	Source: Department of the Navy
Date Data Arrived at EDR: 01/04/2017	Telephone: 843-820-7326
Date Made Active in Reports: 04/07/2017	Last EDR Contact: 05/15/2017
Number of Days to Update: 93	Next Scheduled EDR Contact: 08/28/2017
	Data Release Frequency: Varies

### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 11/15/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/29/2016	Telephone: 703-603-0695
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 05/31/2017
Number of Days to Update: 66	Next Scheduled EDR Contact: 09/11/2017
	Data Release Frequency: Varies

#### US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 11/15/2016 Date Data Arrived at EDR: 11/29/2016 Date Made Active in Reports: 02/03/2017 Number of Days to Update: 66 Source: Environmental Protection Agency Telephone: 703-603-0695 Last EDR Contact: 05/31/2017 Next Scheduled EDR Contact: 09/11/2017 Data Release Frequency: Varies

#### Federal ERNS list

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 09/26/2016 Date Data Arrived at EDR: 09/29/2016 Date Made Active in Reports: 11/11/2016 Number of Days to Update: 43 Source: National Response Center, United States Coast Guard Telephone: 202-267-2180 Last EDR Contact: 03/29/2017 Next Scheduled EDR Contact: 07/10/2017 Data Release Frequency: Annually

## State- and tribal - equivalent NPL

#### **RESPONSE:** State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 01/30/2017	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/31/2017	Telephone: 916-323-3400
Date Made Active in Reports: 05/23/2017	Last EDR Contact: 05/02/2017
Number of Days to Update: 112	Next Scheduled EDR Contact: 08/14/2017
	Data Release Frequency: Quarterly

#### State- and tribal - equivalent CERCLIS

#### ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 01/30/2017 Date Data Arrived at EDR: 01/31/2017 Date Made Active in Reports: 05/23/2017 Number of Days to Update: 112 Source: Department of Toxic Substances Control Telephone: 916-323-3400 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 08/14/2017 Data Release Frequency: Quarterly

#### State and tribal landfill and/or solid waste disposal site lists

#### SWF/LF (SWIS): Solid Waste Information System

Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or i nactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 02/13/2017 Date Data Arrived at EDR: 02/15/2017 Date Made Active in Reports: 05/02/2017 Number of Days to Update: 76 Source: Department of Resources Recycling and Recovery Telephone: 916-341-6320 Last EDR Contact: 05/17/2017 Next Scheduled EDR Contact: 08/28/2017 Data Release Frequency: Quarterly

#### State and tribal leaking storage tank lists

LUST: Leaking Underground Fuel Tank Report (GEOTRACKER) Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

#### State and tribal Brownfields sites

BROWNFIELDS: Considered Brownfieds Sites Listing

A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.

Date of Government Version: 01/03/2017 Date Data Arrived at EDR: 01/04/2017 Date Made Active in Reports: 03/02/2017 Number of Days to Update: 57 Source: State Water Resources Control Board Telephone: 916-323-7905 Last EDR Contact: 03/29/2017 Next Scheduled EDR Contact: 07/10/2017 Data Release Frequency: Varies

#### ADDITIONAL ENVIRONMENTAL RECORDS

#### Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 03/02/2017 Date Data Arrived at EDR: 03/02/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 36 Source: Environmental Protection Agency Telephone: 202-566-2777 Last EDR Contact: 03/02/2017 Next Scheduled EDR Contact: 07/03/2017 Data Release Frequency: Semi-Annually

#### US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 09/30/2016	Source: Drug Enforcement Administration

HIST UST: Hazardous Substance Storage Container Database The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.

Date of Government Version: 10/15/1990 Date Data Arrived at EDR: 01/25/1991 Date Made Active in Reports: 02/12/1991 Number of Days to Update: 18 Source: State Water Resources Control Board Telephone: 916-341-5851 Last EDR Contact: 07/26/2001 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### CA FID UST: Facility Inventory Database

The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

Date of Government Version: 10/31/1994 Date Data Arrived at EDR: 09/05/1995 Date Made Active in Reports: 09/29/1995 Number of Days to Update: 24 Source: California Environmental Protection Agency Telephone: 916-341-5851 Last EDR Contact: 12/28/1998 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### Local Land Records

LIENS: Environmental Liens Listing

A listing of property locations with environmental liens for California where DTSC is a lien holder.

Date of Government Version: 03/06/2017 Date Data Arrived at EDR: 03/07/2017 Date Made Active in Reports: 04/21/2017 Number of Days to Update: 45 Source: Department of Toxic Substances Control Telephone: 916-323-3400 Last EDR Contact: 06/02/2017 Next Scheduled EDR Contact: 09/18/2017 Data Release Frequency: Varies

## LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 02/18/2014 Date Data Arrived at EDR: 03/18/2014 Date Made Active in Reports: 04/24/2014 Number of Days to Update: 37 Source: Environmental Protection Agency Telephone: 202-564-6023 Last EDR Contact: 04/21/2017 Next Scheduled EDR Contact: 08/07/2017 Data Release Frequency: Varies

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 03/06/2017 Date Data Arrived at EDR: 03/07/2017 Date Made Active in Reports: 05/23/2017 Number of Days to Update: 77 Source: DTSC and SWRCB Telephone: 916-323-3400 Last EDR Contact: 03/07/2017 Next Scheduled EDR Contact: 06/19/2017 Data Release Frequency: Semi-Annually

## **Records of Emergency Release Reports**

HMIRS: Hazardous Materials Information Reporting System Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 12/28/2016	Source: U.S. Department of Transportation
Date Data Arrived at EDR: 12/28/2016	Telephone: 202-366-4555
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 03/29/2017

## LDS: Land Disposal Sites Listing (GEOTRACKER)

Land Disposal sites (Landfills) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Date of Government Version: 03/13/2017Source: State Water Quality Control BoardDate Data Arrived at EDR: 03/14/2017Telephone: 866-480-1028Date Made Active in Reports: 05/02/2017Last EDR Contact: 03/14/2017Number of Days to Update: 49Next Scheduled EDR Contact: 06/26/2017Data Release Frequency: Quarterly

#### MCS: Military Cleanup Sites Listing (GEOTRACKER)

Military sites (consisting of: Military UST sites; Military Privatized sites; and Military Cleanup sites [formerly known as DoD non UST]) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Date of Government Version: 03/13/2017 Date Data Arrived at EDR: 03/14/2017 Date Made Active in Reports: 05/02/2017 Number of Days to Update: 49 Source: State Water Resources Control Board Telephone: 866-480-1028 Last EDR Contact: 03/14/2017 Next Scheduled EDR Contact: 06/26/2017 Data Release Frequency: Quarterly

#### SPILLS 90: SPILLS90 data from FirstSearch

Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

Date of Government Version: 06/06/2012Source: FirstSearchDate Data Arrived at EDR: 01/03/2013Telephone: N/ADate Made Active in Reports: 02/22/2013Last EDR Contact: 01/03/2013Number of Days to Update: 50Next Scheduled EDR Contact: N/AData Release Frequency: No Update Planned

#### Other Ascertainable Records

#### RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 05/02/2017 Next Scheduled EDR Contact: 04/10/2017 Data Release Frequency: Varies

#### FUDS: Formerly Used Defense Sites

The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

Date of Government Version: 01/31/2015 Date Data Arrived at EDR: 07/08/2015 Date Made Active in Reports: 10/13/2015 Number of Days to Update: 97 Source: U.S. Army Corps of Engineers Telephone: 202-528-4285 Last EDR Contact: 02/24/2017 Next Scheduled EDR Contact: 06/05/2017 Data Release Frequency: Varies

## DOD: Department of Defense Sites

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 12/31/2005
Date Data Arrived at EDR: 11/10/2006
Date Made Active in Reports: 01/11/2007

## SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Date of Government Version: 01/01/2017 Date Data Arrived at EDR: 02/03/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 63 Source: Environmental Protection Agency Telephone: 615-532-8599 Last EDR Contact: 05/19/2017 Next Scheduled EDR Contact: 08/28/2017 Data Release Frequency: Varies

US FIN ASSUR: Financial Assurance Information

All owners and operators of facilities that treat, store, or dispose of hazardous waste are required to provide proof that they will have sufficient funds to pay for the clean up, closure, and post-closure care of their facilities.

Date of Government Version: 02/13/2017 Date Data Arrived at EDR: 02/15/2017 Date Made Active in Reports: 05/12/2017 Number of Days to Update: 86 Source: Environmental Protection Agency Telephone: 202-566-1917 Last EDR Contact: 05/17/2017 Next Scheduled EDR Contact: 08/28/2017 Data Release Frequency: Quarterly

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013 Date Data Arrived at EDR: 03/21/2014 Date Made Active in Reports: 06/17/2014 Number of Days to Update: 88 Source: Environmental Protection Agency Telephone: 617-520-3000 Last EDR Contact: 05/08/2017 Next Scheduled EDR Contact: 08/21/2017 Data Release Frequency: Quarterly

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013 Date Data Arrived at EDR: 03/03/2015 Date Made Active in Reports: 03/09/2015 Number of Days to Update: 6 Source: Environmental Protection Agency Telephone: 703-308-4044 Last EDR Contact: 05/05/2017 Next Scheduled EDR Contact: 08/21/2017 Data Release Frequency: Varies

## TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2012 Date Data Arrived at EDR: 01/15/2015 Date Made Active in Reports: 01/29/2015 Number of Days to Update: 14 Source: EPA Telephone: 202-260-5521 Last EDR Contact: 03/24/2017 Next Scheduled EDR Contact: 07/03/2017 Data Release Frequency: Every 4 Years

TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2014 Date Data Arrived at EDR: 11/24/2015 Date Made Active in Reports: 04/05/2016 Number of Days to Update: 133 Source: EPA Telephone: 202-566-0250 Last EDR Contact: 05/26/2017 Next Scheduled EDR Contact: 09/04/2017 Data Release Frequency: Annually

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009 Date Data Arrived at EDR: 12/10/2010 Date Made Active in Reports: 02/25/2011 Number of Days to Update: 77

	Data Release Frequency: Annually

#### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 02/01/2017 Date Data Arrived at EDR: 02/09/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: 202-564-8600 Last EDR Contact: 04/21/2017 Next Scheduled EDR Contact: 08/07/2017 Data Release Frequency: Varies

#### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995 Number of Days to Update: 35 Source: EPA Telephone: 202-564-4104 Last EDR Contact: 06/02/2008 Next Scheduled EDR Contact: 09/01/2008 Data Release Frequency: No Update Planned

### RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 01/04/2017 Date Data Arrived at EDR: 01/06/2017 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 35 Source: Environmental Protection Agency Telephone: 202-343-9775 Last EDR Contact: 04/06/2017 Next Scheduled EDR Contact: 07/17/2017 Data Release Frequency: Quarterly

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

UM	TRA: Uranium Mill Tailings Sites	for federal government use in national defense programs. When the mills

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

#### ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

### EDR HIGH RISK HISTORICAL RECORDS

#### EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

## EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

#### EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

### EDR RECOVERED GOVERNMENT ARCHIVES

## Exclusive Recovered Govt. Archives

RGA LF: Recovered Government Archive Solid Waste Facilities List

The EDR Recovered Government Archive Landfill database provides a list of landfills derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Resources Recycling and Recovery in California.

Date of Government Version: N/A Date Data Arrived at EDR: 07/01/2013 Date Made Active in Reports: 01/13/2014 Number of Days to Update: 196 Source: Department of Resources Recycling and Recovery Telephone: N/A Last EDR Contact: 06/01/2012 Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

RGA LUST: Recovered Government Archive Leaking Underground Storage Tank

The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.

Date of Government Version: N/A Date Data Arrived at EDR: 07/01/2013 Date Made Active in Reports: 12/30/2013 Number of Days to Update: 182 Source: State Water Resources Control Board Telephone: N/A Last EDR Contact: 06/01/2012 Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

## COUNTY RECORDS

## SAN DIEGO COUNTY:

#### Hazardous Materials Management Division Database

The database includes: HE58 - This report contains the business name, site address, business phone number, establishment 'H' permit number, type of permit, and the business status. HE17 - In addition to providing the same information provided in the HE58 listing, HE17 provides inspection dates, violations received by the establishment, hazardous waste generated, the quantity, method of storage, treatment/disposal of waste and the hauler, and information on underground storage tanks. Unauthorized Release List - Includes a summary of environmental contamination cases in San Diego County (underground tank cases, non-tank cases, groundwater contamination, and soil contamination are included.)

Date of Government Version: 10/05/2016 Date Data Arrived at EDR: 12/06/2016 Date Made Active in Reports: 03/02/2017 Number of Days to Update: 86

Source: Hazardous Materials Management Division Telephone: 619-338-2268 Last EDR Contact: 03/10/2017 Next Scheduled EDR Contact: 06/19/2017 Data Release Frequency: Quarterly

#### Solid Waste Facilities

San Diego County Solid Waste Facilities.

Date of Government Version: 10/31/2015 Date Data Arrived at EDR: 11/07/2015 Date Made Active in Reports: 01/04/2016 Number of Days to Update: 58 Source: Department of Health Services Telephone: 619-338-2209 Last EDR Contact: 04/24/2017 Next Scheduled EDR Contact: 08/07/2017 Data Release Frequency: Varies

#### **Environmental Case Listing**

The listing contains all underground tank release cases and projects pertaining to properties contaminated with hazardous substances that are actively under review by the Site Assessment and Mitigation Program.

Date of Government Version: 03/23/2010 Date Data Arrived at EDR: 06/15/2010 Date Made Active in Reports: 07/09/2010 Number of Days to Update: 24 Source: San Diego County Department of Environmental Health Telephone: 619-338-2371 Last EDR Contact: 03/06/2017 Next Scheduled EDR Contact: 06/19/2017 Data Release Frequency: No Update Planned

### SAN FRANCISCO COUNTY:

#### Local Oversite Facilities

A listing of leaking underground storage tank sites located in San Francisco county.

Date of Government Version: 09/19/2008	Source: Department Of Public Health San Francisco County
Date Data Arrived at EDR: 09/19/2008	Telephone: 415-252-3920

## **OTHER DATABASE(S)**

NJ

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

#### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

## **GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM**

## TARGET PROPERTY ADDRESS

VACANT WAREHOUSE 700 CROCKER DRIVE VACAVILLE, CA 95688

## TARGET PROPERTY COORDINATES

Latitude (North):	38.410999 - 38° 24' 39.60''
Longitude (West):	121.948992 - 121° 56' 56.37''
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	591761.8
UTM Y (Meters):	4251734.0
Elevation:	108 ft. above sea level

#### USGS TOPOGRAPHIC MAP

Target Property Map:	5629044 ALLENDALE, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## **GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

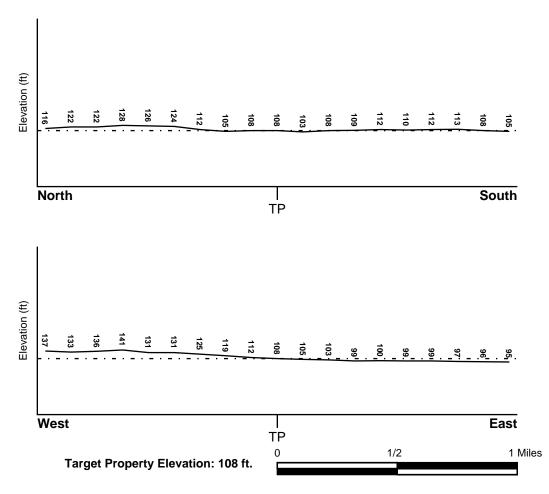

## **TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ENE

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

#### FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06095C0162F	FEMA FIRM Flood data
Additional Panels in search area:	FEMA Source Type
06095C0166F 06095C0164E 06095C0168E	FEMA FIRM Flood data FEMA FIRM Flood data FEMA FIRM Flood data
NATIONAL WETLAND INVENTORY	
NWI Quad at Target Property ALLENDALE	NWI Electronic <u>Data Coverage</u> YES - refer to the Overview Map and Detail Map

#### HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:		
Search Radius:	1.25 miles	
Status:	Not found	

## **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

	LOCATION	GENERAL DIRECTION
MAP ID	FROM TP	GROUNDWATER FLOW
12	1/2 - 1 Mile South	SW
13	1/2 - 1 Mile SSW	ESE
21	1/2 - 1 Mile SSW	SE

For additional site information, refer to Physical Setting Source Map Findings.

## **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

## **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

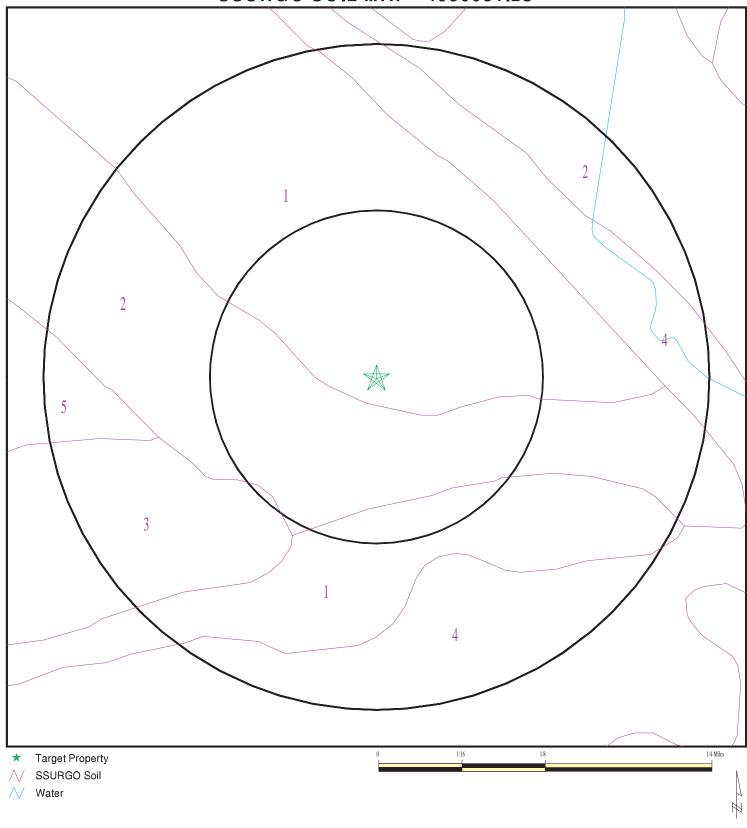

## **ROCK STRATIGRAPHIC UNIT**

## **GEOLOGIC AGE IDENTIFICATION**

Era:	Cenozoic Cate	egory:	Stratifed Sequence
System:	Quaternary		
Series:	Quaternary

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1	
Soil Component Name:	Сарау
Soil Surface Texture:	silty clay loam
Hydrologic Group:	Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
Soil Drainage Class:	Moderately well drained
Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

			Soil Laye	r Information			
Layer	Boundary			Classi	Classification		
	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	hydraulic conductivity micro m/sec	0011110000101
1	0 inches	20 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 8.4 Min: 6.1
2	20 inches	50 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.4
3	50 inches	79 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.4

## Soil Map ID: 2

Soil Component Name:	San Ysidro
Soil Surface Texture:	sandy loam
Hydrologic Group:	Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
Soil Drainage Class:	Moderately well drained
Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

	Boundary			Classif	ication	Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	Soil Reaction (pH)
1	0 inches	14 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 6.5 Min: 5.6
2	14 inches	27 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 0.42 Min: 0.01	Max: 7.8 Min: 6.1
3	27 inches	53 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 1.4 Min: 0.42	Max: 7.8 Min: 6.1
4	53 inches	68 inches	stratified sandy loam to clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.4

## Soil Map ID: 3

Soil Component Name:	Corning
Soil Surface Texture:	gravelly loam
Hydrologic Group:	Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
Soil Drainage Class:	Well drained
Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

	Soil Layer Information							
	Boundary		Boundary		Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	hydraulic conductivity micro m/sec	Soil Reaction (pH)	
1	0 inches	16 inches	gravelly loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 6 Min: 5.1	
2	16 inches	25 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 0.42 Min: 0.01	Max: 6 Min: 5.6	
3	25 inches	59 inches	very gravelly sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 1.4 Min: 0.42	Max: 8.4 Min: 6.6	

Soil Map ID: 4	
Soil Component Name:	San Ysidro

## LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

#### **TOPOGRAPHIC INFORMATION**

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

#### HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA Telephone: 877-336-2627 Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory Source: Department of Fish & Game Telephone: 916-445-0411

#### HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

#### **GEOLOGIC INFORMATION**

#### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

#### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

#### LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS) This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database Source: Department of Water Resources Telephone: 916-651-9648

California Drinking Water Quality Database Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

#### OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations Source: Department of Conservation Telephone: 916-323-1779 Oil and Gas well locations in the state.

## RADON

State Database: CA Radon Source: Department of Health Services Telephone: 916-324-2208 Radon Database for California

Area Radon Information

Source: USGS Telephone: 703-356-4020 The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones Source: EPA Telephone: 703-356-4020 Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

#### OTHER

Airport Landing Facilities: Private and public use landing facilities Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

## **EDR Environmental Lien and AUL Search**

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- · search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

*Thank you for your business.* Please contact EDR at 1-800-352-0050 with any questions or comments.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

## **Certified Sanborn® Map Report**

## Site Name:

Vacant Warehouse 700 Crocker Drive Vacaville, CA 95688 EDR Inquiry # 4956081.3 Client Name: Stantec

Stantec 3875 Atherton Rd Rocklin, CA 95765 Contact: Danielle Manning

06/05/17

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Stantec were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

#### Certified Sanborn Results:

Certification #	BB47-425E-B91E
PO #	NA
Project	PN TBD

#### UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results Certification #: BB47-425E-B91E

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

Library of Congress
 University Publications of America
 EDR Private Collection

The Sanborn Library LLC Since 1866™

#### Limited Permission To Make Copies

Stantec (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

#### **Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Stantec were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

## EDR BUILDING PERMIT REPORT

### About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

#### **ASTM and EPA Requirements**

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquires (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

#### Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

## **EXECUTIVE SUMMARY: SEARCH DOCUMENTATION**

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of Stantec on Jun 05, 2017.

### TARGET PROPERTY

700 Crocker Drive Vacaville, CA 95688

### SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

### **RESEARCH SUMMARY**

Building permits identified: YES

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

## **ADJOINING PROPERTY FINDINGS**

### ADJOINING PROPERTY DETAIL

The following Adjoining Property addresses were researched for this report. Detailed findings are provided for each address.

No Permits Found

## GLOSSARY

#### **General Building Department concepts**

- ICC: The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections): This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- Jurisdiction: This is the geographic area representing the properties over which a Permitting Authority has
  responsibility.
- GC: General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- Sub: Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- Journeymen: Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- HVAC (Mechanical, Heating & Air companies): HVAC = Heating, Ventilation, and Air Conditioning.
- ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release): Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- "Pull" a permit: To obtain and pay for a building permit.
- CBO: Chief Building Official
- Planning Department: The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- Zoning Department: The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- Zoning District: A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- PIN (TMS, GIS ID, Parcel#): Property Identification Number and Tax Map System number.
- State Card (Business license): A license card issued to a contractor to conduct business.
- Building Inspector (Inspector): The inspector is a building department employee that inspects building construction for compliance to codes.
- C.O.: Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

## GLOSSARY

### Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use(s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

#### Sample Building Permit Data

Date: Nov 09, 2000 Permit Type: Bldg -New Permit Number: 10100000405 Status: Valuation: \$1,000,000.00 Contractor Company: OWNER-BUILDER Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.
