Project Title: Amended: Eucalyptus Grove Pile and/or Kiln Burning – Rumsey, CA (SCH: 2025041128 ; Yolo County Clerk's: 57-04182025-045)

Project Location – Specific: Manzanita Ave and O'Leary Lane Rumsey, CA Parcel ID: 060241003000, 060241004000

Project Location – City: Rumsey, CA

Project Location – County: Yolo

Description of nature and purpose of the Project: This fuels reduction project is part of the Rumsey Buffer Fuels Reduction Project around the town of Rumsey, CA. The project site contains a large and dense non-native eucalyptus grove and an adjacent open oak shrubland/grassland, totaling approximately 25 acres. To manage fuels, Yolo County Resource Conservation District, CAL FIRE Brooks station staff and local fire agencies, have thinned the eucalyptus grove to open up the canopy and create vertical distance between trees. A previous NOE submitted for this project included broadcast burning and limbing/thinning, but did not state that pile burning and biochar kiln burning would be a possible applied practice.

To manage cut fuels from eucalyptus grove, CAL FIRE, local fire agency, and/or Yolo County Resource Conservation District staff will pile and open burn/biochar kiln burn vegetative material in accordance with CAL FIRE burn permits and Yolo-Solano Air Quality Management District permitting. Pile/kiln burning in subsequent years is expected to continually manage fuels in the eucalyptus grove and maintain this portion of the Rumsey Buffer project.

A Qualified Biologist with experience in conducting planning-level and species-specific surveys in the area, conducted a biological reconnaissance survey at the project site. Based on the results of the biological survey of both units, the project is managed to not cause significant adverse impact to

special status species with likelihood to occur near the project site.

Name of Public Agency Approving Project: Yolo County Resource Conservation District

Name of Person or Agency Carrying Out Project: CAL FIRE

Exempt Status:

☐ Ministerial (Sec. 21080(b)(1); 15268);

☐ Statutory Exemptions. State code number

☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));

☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

☒ Categorical Exemption. State type and section number: Class 4, Minor Alterations to Land CEQA Guidelines § 15304

☐ Statutory Exemptions. State code number_____

Reasons why project is exempt:

The project has been designed with input from a qualified biologist to avoid impact to special status species. The project site contains a non-native eucalyptus grove and an adjacent predominantly non-native annual grassland, both of which serve little to no habitat value for special status plants or animals in the region. Thinning of this grove protects the town of Rumsey, CA by limiting or slowing the spread of potential wildfire.

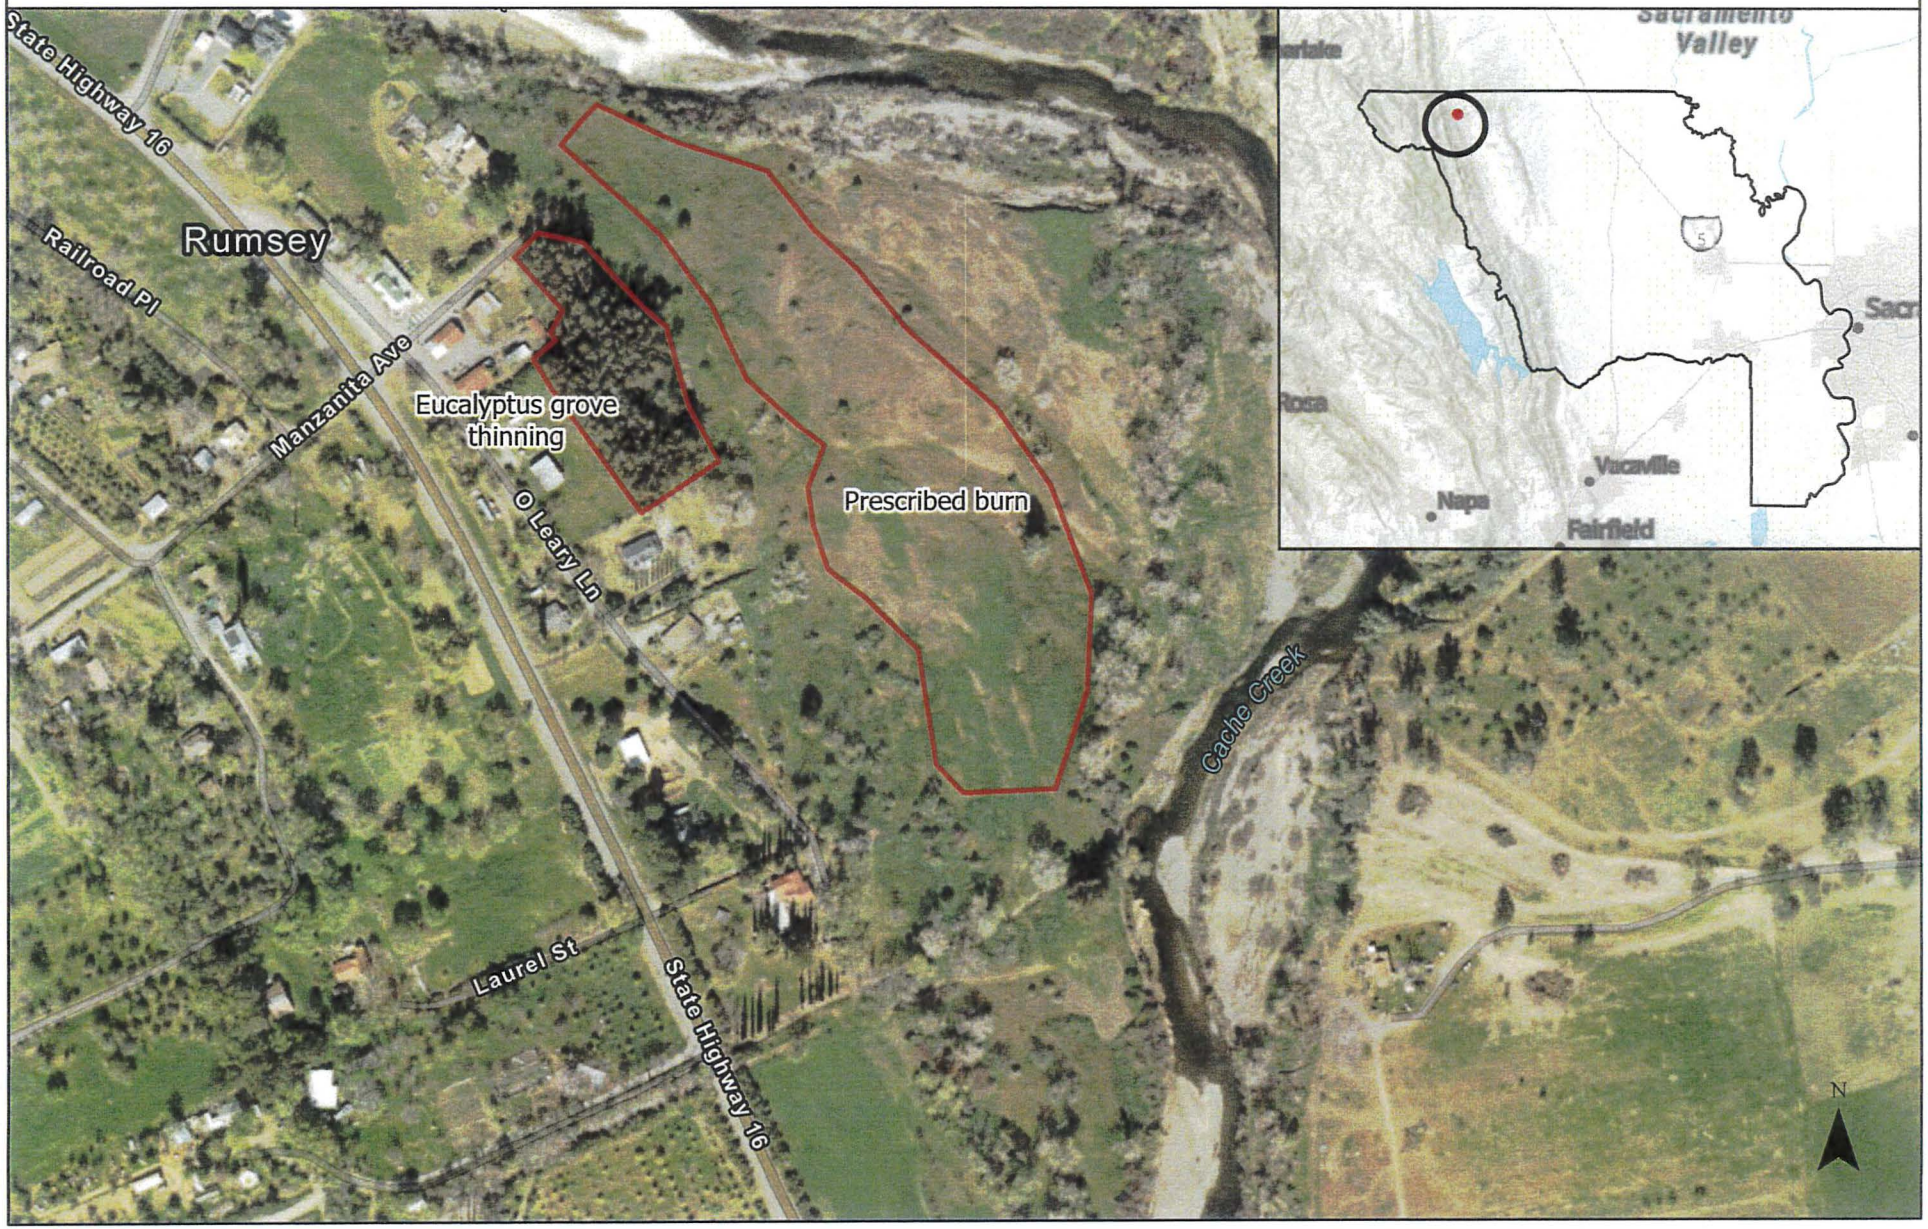

The project meets the requirements of Class 4 Categorical Exemption (minor alterations to land) Section 15304. Project implementation will result in alterations to the land that are best described as minor in scope, that will not significantly impact the aesthetic of the property, or biological and/or cultural resources, and that do not involve the removal of mature, scenic trees for any purpose. No exceptions apply which would preclude the use of a "Notice of Exemption" for this project. It has been concluded that no significant adverse environmental impacts would occur to aesthetics, agriculture and forest resources, air quality, biological resources, cultural resources, energy, geology and soils, greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use and planning, mineral resources, noise, populations and housing, public services, recreation, transportation and traffic, utilities and service systems, or wildfire.
