Project Description (Proposed actions, location, and/or consequences).

The City of Laguna Niguel is preparing a comprehensive update to its existing General Plan. The General Plan Update addresses State law requirements and relevant items addressed in Government Code Section 65300 et seq. The General Plan Update will guide the City's development and conservation through land use objectives and policy guidance. The General Plan is intended to be an expression of the community's vision for the City and constitutes the policy and regulatory framework by which future development projects will be reviewed and public improvements will be implemented.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Draft EIR has identified the following environmental issue areas as having significant and unavoidable environmental impacts from implementation of the Project: Air Quality and Cumulative Air Quality, Cultural Resources; Greenhouse Gas Emissions and Cumulative Greenhouse Gas Emissions, and Transportation related to Vehicle Miles Traveled. All other environmental issues were determined to have no impact, less than significant impacts, or less than significant impacts with implementation of General Plan Update goals, policies, and actions.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
