Operations would be seven days per week from 9:00 a.m. to 5:00 p.m. Pre-application review has found the project to be consistent with planning and zoning. Further project site information is provided in the Project Parcel Profile Report from the City's Zone Information and Map Access System (ZIMAS) (Exhibit B). Compliance with Los Angeles Municipal Code Sections 104.00 *et seq.* and 105.00 *et seq.*, as well as DCR's Rules and Regulations, does not waive or otherwise circumvent any other City or State requirements or necessary permits from the City, State, or other public agencies, such as the Los Angeles Department of Building and Safety, the Los Angeles Fire Department, or the Los Angeles County Public Health Department. **CEQA PROJECT ANALYSIS & FINDINGS:**

**Land Use/Zoning Designations**

Light Industrial / M2-2-CPIO

**Surrounding Land Use/Zoning Designations**

Limited Industrial / M1-1

Light Industrial / M2-2-CPIO

**Subject Property**

The subject site is a fully developed lot within the South East Los Angeles Community Plan Area. The lot is approximately 151 feet deep and a width of 40 feet along 41st Place. The site is currently developed with an Industrial - Light Manufacturing - One-Story building, built in 2017 proposed to be maintained.

The site has a Light Industrial land-use designation and is zoned M2-2-CPIO. The site is located within Council District 9, Central Alameda Neighborhood Council, and the lot is flat and contains a pre-existing building to be used by the Applicant.

**Abutting Properties**

Abutting uses include residences and food distribution center uses within 200 feet of the site. The immediate area along 41st Place is predominantly developed with Limited Industrial uses, zoned M1-1, and Light Industrial, zoned M2-2-CPIO. (See Exhibit B)

**CEQA Findings**

CEQA Guidelines, Sections 15301 & 15332, Class 1 & Class 32, consists of projects characterized as in-fill development meeting the following 5 conditions: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations; (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses; (c) The project site has no value as habitat for endangered, rare or threatened species; (d) Approval of the project would not result in

any significant effects relating to traffic, noise, air quality, or water quality; and (e) The site can be adequately served by all required utilities and public services.

These conditions are met as follows: The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations for the requested commercial cannabis activities.

a) The site is comprised of one lot totaling approximately 6,031 gross square feet, zoned M2-2-CPIO with a Industrial - Light Manufacturing - One-Story building originally constructed in 2017. No relief has been requested from any applicable provision or requirement of the Los Angeles Municipal Code.

b) The subject site is wholly within the City of Los Angeles, on an approximately 6,031 gross square foot property (i.e., less than five acres), and is substantially surrounded by Light Industrial uses. The surrounding area is Limited Industrial zoned M1-1, and Light Industrial, zoned M2-2-CPIO, and developed with a mix of residences and food distribution center buildings along 41st Place between Long Beach Avenue and Alameda Street.

c) The project site has no value as habitat for endangered, rare or threatened species. The project is located within an established, fully developed, neighborhood. The project site has no value as habitat for endangered, rare or threatened species. The project does not propose the removal of any trees on-site and/or within the adjacent public right-of-way.

d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

e) The site can be adequately served by all required utilities and public services. The project site will be adequately served by all required public utilities and services, given that the site is currently served by the City's Department of Water and Power, the City's Bureau of Sanitation, the Southern California (SoCal) Gas Company, the Los Angeles Police Department, the Los Angeles Fire Department, Los Angeles Unified School District, Los Angeles Public Library, and other public services. Compliance with Regulatory Compliance Measures as enforced through the Department of Building and Safety permitting process will ensure that any needed improvements are made in order to provide adequate delivery of utilities and services to the proposed project.

CEQA Section 15300.2: Exceptions to the Use of Categorical Exemptions. The City has further considered whether the proposed project is subject to any of the exceptions set forth in State CEQA Guidelines Section 15300.2, that would prohibit the use and reliance on the categorical exemptions. None of the exceptions are triggered. As the proposed project will result in no physical changes to the site, the project would not have physical impacts to the environment. As such, it would not have a combined impact with other projects in the area that would result in cumulative impacts. There are no unusual circumstances associated with the project, which is proposed in general plan designation and zoning classification that allow the proposed use. The project will not physically change the site or the existing structures. Therefore, the project would have no impact on scenic resources, historic building(s), and the site is not on the lists and the site is not on the lists that satisfy Government Code Section 65962.5, commonly referred to as the "Cortese List," as being affected by hazardous wastes or clean-up problems.

Based on the analysis above, the proposed project is consistent with the criteria for Class 1 and Class 32 categorical exemptions (tit. 14, Cal. Code Regs., §§ 15301, 15332) and does not require further analysis based on the exceptions in CEQA Guidelines Section 15300.2, and thus, DCR finds that no further CEQA analysis is required.

In conclusion, since the project meets all of the requirements for categorical exemption as set forth at CEQA Guidelines, Sections 15301 & 15332, and none of the applicable exceptions to the use of an exemption apply to the project, it is appropriate to determine this project is categorically exempt from the requirements of CEQA.

**DEPARTMENT OF CANNABIS REGULATION ACTIONS:**

The Department of Cannabis Regulation:

1. Determined, based on the whole of the administrative record, that the project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, Section 15301, Class 1, and Article 19, Section 15332, Class 32 of the State CEQA Guidelines (tit. 14, Cal. Code Regs., §§ 15301, 15332), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies;
2. Pursuant to Los Angeles Municipal Code Section 104.06(b)(2), approved the Annual License for Distributor (Type 11), Manufacturer (Type 6), Commercial Cannabis Activity at the Business Premises location; and,
3. Adopted the Project Analysis & Findings and Notice of Exemption.
