Electronically signed by RICKENA MCCLAIN

LOS ANGELES COUNTY SANITATION DISTRICTS
Converting Waste Into Resources

Santa Clarita Valley Sanitation District of Los Angeles County
1955 Workman Mill Road
Whittier, CA 90601

NOTICE OF EXEMPTION

To: County Clerk, County of Los Angeles
12400 East Imperial Highway
Room 2001
Norwalk, CA 92650

Project Title: Valencia Power Distribution System Modifications Project

Project Location: The project is located in the Cities of Saugus and Valencia.

Project Description: The project consists of a replacement and upgrade of a large portion of the power distribution system at Valencia Water Reclamation Plant (VWRP). Much of the plant's electrical system is 30 to 50 years old and is obsolete and prone to failure. For the most part, the proposed scope of work involves replacement and redundancy upgrades to several transformers and numerous low-voltage switchboards. Also included is the installation of a new medium-voltage Switchboard 41B, that will improve the reliability of the south process air compressor systems, respectively. Redundant 2.4-kV/480-V transformers, 480-V switchboards, and associated feeder circuits will be provided for critical loads. The project will also include re-pavement of the entire plant south of the existing sodium hypochlorite and sodium bisulfite chemical facilities. The project will also install a third 2500-kW diesel engine emergency generator.

Public Agency Approving Project: Santa Clarita Valley Sanitation District of Los Angeles County

Person or Agency Carrying Out Project: Santa Clarita Valley Sanitation District of Los Angeles County

Exempt Status: (check one)

- ☐ Ministerial
- ☐ Declared Emergency
- ☐ Emergency Project
- ☒ Categorical Exemption – Section 15301,15302, and 15303 of the CEQA Guidelines
- ☐ Statutory Exemption

Reasons Why Project Is Exempt: The project is a minor modification and repair of an existing public facility with no expansion of use. The project is also a replacement of existing facilities where the new facilities will be located on the same site as the facilities replaced and will have substantially the same purpose and capacity as the structure replaced. Further, the project includes installation of small new equipment (generator).
