### **Re: Storage Star Facility Project – Mitigated Negative Declaration (MND)**

Dear Vivien Togonon:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the Storage Star Facility Project. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities. The following comments are based on our review of the May 2025 MND.

Please note this correspondence does not indicate an official position or approval by Caltrans on this project and is for informational purposes only.

#### **Project Understanding**

The project includes development of a 121,183-square-foot (sf) self-storage facility with four buildings near Interstate (I)-680.

#### **Travel Demand Analysis**

The project vehicle miles traveled (VMT) analysis and significance determination are undertaken in a manner consistent with the City's adopted VMT analysis methodology. Per the MND, this project is found to have a less than significant VMT impact.

#### **Construction-Related Impacts**

Project work that requires movement of oversized or excessive load vehicles on State roadways requires a transportation permit that is issued by Caltrans. To apply, please visit Caltrans Transportation Permits ([link](#)). Prior to construction, coordination may be required with Caltrans to develop a Transportation Management Plan (TMP) to reduce construction traffic impacts to the State Transportation Network (STN).

### **Equitable Access**

If any Caltrans facilities are impacted by the project, those facilities must meet Americans with Disabilities Act (ADA) Standards after project completion. As well, the project must maintain bicycle and pedestrian access during construction. These access considerations support Caltrans' equity mission to provide a safe, sustainable, and equitable transportation network for all users.

Thank you again for including Caltrans in the environmental review process. Should you have any questions regarding this letter, please contact Llisel Ayon, Associate Transportation Planner, via [LDR-D4@dot.ca.gov](mailto:LDR-D4@dot.ca.gov). For future early coordination opportunities or project referrals, please visit Caltrans LDR website ([link](#)) or contact [LDR-D4@dot.ca.gov](mailto:LDR-D4@dot.ca.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Luo Yunsheng".
