Notice of Exemption/General Rule Exemption

Project Title and No.: San Luis Obispo Airport Taxiway A Mill and Overlay, Taxiway Connector / ED23-125

Project Location and APN:

975 Airport Drive,
San Luis Obispo, CA 93401
APN: 076-406-002

Project Applicant/Phone No./Email:

The County of San Luis Obispo, Department of
Airports / (805) 781-5218 /
comjohnson@co.slo.ca.us

Applicant Address (Street, City, State, Zip):

975 Airport Drive, San Luis Obispo, CA 93401

Description of Nature, Purpose, and Beneficiaries of Project:

The County of San Luis Obispo, Department of Airports proposes to apply a mill and overlay for the length of Taxiway A and its taxiway connectors at the San Luis Obispo County Airport in the City of San Luis Obispo. Th project includes cold milling of the existing asphalt concrete (AC) pavement to a depth of four inches. An asphalt overlay of four inches will then be placed within the limits of the existing pavement. The purpose of the project is to prolong the life of the pavement. Existing hold position markings and signage on all taxiway connectors to Taxiway A will be relocated 50 feet (ft) to comply with Federal Aviation Administration (FAA) safety standards. Electrical improvements will be needed to relocate the existing Runway 11-29 holding position signage, which is lighted. Trenching for electrical improvements will include the installation of new conduit and base cans. Relocation of existing signage will require new concrete pads. All trenches will be backfilled with native material. Taxiway connector redesignations will occur for Taxiways A, B, C, F, G, H, and L (renumbered A1 through A8). The redesignations require new markings/signage.

Name of Public Agency Approving Project: County of San Luis Obispo

Exempt Status:

- Ministerial {Sec. 21080(b)(1); 15268}
Declared Emergency {Sec. 21080(b)(3); 15269(a)}
Emergency Project {Sec. 21080(b)(4); 15269(b)(c)}
Not a Project
Categorical Exemptions {Sec. 15301, 15302, 15303, 15304; Class: 1, 2, 3, and 4}
Statutory Exemption {Sec.\_\_\_\_}
General Rule Exemption {Sec. 15061(b)(3)}

Reasons why project is exempt: The project qualifies for a Categorical Exemption (Class 1, 2, 3, and 4) pursuant to CEQA Guidelines Section 15301, Existing Facilities, 15302, Replacement and Reconstruction, 15303 New Construction and Conversion of Small Structures, and Section 15304, Minor Alterations to Land, because the project consists of alterations to existing infrastructure (i.e., electrical) and construction of additional safety devices (i.e., signage and lighting)cat an existing facility; replacement and reconstruction of asphalt surfaces; construction of additional electrical infrastructure; and minor grading for the placement of new concrete pads.

The project is not located in an area which may have an impact on an environmental recourse of hazardous or critical concern which is designated, precisely mapped and officially adopted by a federal, state or local

agency. Further, there are no unusual circumstances surrounding the project as the project area is located within an area of the airport that is already developed, and the project area is currently paved or disturbed/graded and/or frequently mowed by the airport.

The proposed project does not impact any scenic resources for any officially designated scenic highways. The proposed project is not located on a site which is included on any hazardous waste site list compiled pursuant to Gov. Code § 65962.5. The proposed project does not involve or does not cause a substantial adverse change in the significance of a historical resource. No cumulative impacts have been identified or are anticipated.

The airport property has been subject to several cultural resource surveys over the years. A recent cultural resource records search conducted by SWCA Environmental Consultants in 2022 confirmed that there are no known historic/cultural sites within airport boundaries. Both the project's areas of construction and staging area have been previously disturbed by prior airport development projects, infield grading and stormwater improvements, and other construction staging activities, respectively. No impacts to known historic/cultural resources will occur from the proposed project. However, if resources are discovered during construction, standard inadvertent discovery practices will be followed.

The project does not propose the removal of any trees or native vegetation. The proposed project will not affect, directly or indirectly, any federal or state-listed, threatened, endangered, or candidate species, or designated habitats under the Endangered Species Act. The project area has been heavily bladed and graded and does not provide habitat for any listed species. The project area will be contained to the airfield where there is no vegetation that will provide suitable habitat for migratory birds. The project will not impact any wetlands or streams.

Vehicle traffic patterns will not change as a result of the proposed project. The project will not result in additional noise generating activities outside of typical construction activities, which are expected to fall below the County's noise thresholds and within the current noise contours for the airport. Additionally, there are no noise-sensitive receptors within 1,000 feet of the project area.

The proposed project will not increase the amount of stormwater runoff as the impervious surface will remain the same. The proposed project will implement a construction stormwater pollution prevention plan (SWPPP) as part of its coverage under the State of California's General Construction Permit.

Existing pavement removed from the project area will be recycled either within the project area or hauled to a recycling and transfer facility that accepts construction waste by the contractor. The overall amount of solid waste that will be generated will be minimal.

The project will not create a new lighting source beyond what already exists.

This project is also covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be seen with certainty that there is no possibility that this project may have a significant effect on the environment; therefore, the activity is not subject to CEQA. [Reference: State CEQA Guidelines sec. 15061(b)(3), General Rule Exemption].

**Additional Information:** Additional information pertaining to this notice of general rule exemption may be found on the next page of this document and by contacting the Planning and Building Department, 976 Osos St., Rm 200, San Luis Obispo, CA 93408 (805) 781-5600.

# Notice of General Rule Exemption

---

**Project Title and No.:** San Luis Obispo Airport Taxiway A Mill and Overlay, Taxiway Connector / ED23-125

Pursuant to section 15061 of the State California Environmental Quality Act (CEQA) Guidelines, the preliminary review of a project includes a determination as to whether a project is exempt from CEQA. This checklist represents a summary of this project's review for exemption.

	<u>YES</u>	<u>NO</u>
1. Does this project fall within any exempt class as listed in sections 15301 through 15333 of the State CEQA Guidelines?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Is there a reasonable possibility that the project could have a significant effect on the environment due to unusual circumstances?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Is the project inconsistent with any Federal, State, or local law or administrative requirement relating to the environment?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Will the project involve substantial public controversy regarding environmental issues?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6. Does the project have the potential to achieve short-term environmental goals to the disadvantage of achieving long-term environmental goals? (A short-term impact on the environment is one which occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future.)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. Does the project have adverse impacts which are individually insignificant, but cumulatively significant? Cumulatively significant means that the incremental effects of an individual project are substantially adverse when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

On the basis of this initial evaluation, I find that the proposed project does not have the potential to cause a significant effect on the environment and is therefore exempt from CEQA.
