NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

Notice is hereby given that the public agency named below has completed an Initial Study of the following described project at the following location:

EUCLID AVENUE RECYCLED WATER SYSTEM PROJECT

Public Agency:	Ontario Municipal Utilities Company
Project Name:	Euclid Avenue Recycled Water System Project
Project Description:	The proposed Project will construct approximately 20,128 linear feet (LF) of City owned and operated recycled water mains, install approximately 300 LF of lateral connections, and will convert approximately 2,440 LF of existing potable water main for distribution of recycled water within city limits. Project improvements will b completed using open-trench construction methods. The Project involves primarily underground infrastructure improvements and ancillary above-ground appurtenance within landscaped areas. The Project will also remove portions of existing landscaping and paved surfaces temporarily at existing irrigation system connection points. Upon completion of construction, the existing surfaces will be restored to pre-project conditions at all connection points and along the new and converted recycled water mains. Temporary construction activities and long-term operation and maintenance of the new recycled water mains will occur on Euclid Avenue, West F Street, North Vin Street, West Flora Street, East C Street, East B Street, and East Riverside Drive. The Project will extend Ontario's approved recycled water distribution system for
	consistency with The Ontario Plan. The Project will convert existing landscap irrigation systems from potable water to recycled water for sustainable maintenance o the following community facilities:
	• Center median along Euclid Avenue (between 4th and Holt Boulevard; and
	between E. Walnut Street and Riverside Drive),
	• City Civic Center complex,
	• Town Square Park,
	• James R. Bryant Park,
	Centennial Park, and
	• E. Riverside Drive Parkway (along the north side of E. Riverside Drive
	(west of approximately 200 feet east of Baker Street).
	The Project will also perform maintenance to existing irrigation systems, such as valve and sprinkler head replacements. Maintenance of existing trees that are in poor health will be performed with the Project and consist of removal and replacement of ten (10) Heritage Trees. Eight (8) of these trees are in the Euclid Avenue median between E. H Street and E. G Street. One (1) tree is in the northbound parkway east of Euclid Avenue paved street south of E. Granada Ct.
	The following recycled water system improvements are proposed with the Project:
	• Construct a new 8-inch diameter recycled water main (approximately 5,300 linea feet) is proposed within northbound Euclid Avenue between 4th Street and Holt Blvd
	• Construct a new 4-inch diameter lateral connections (approximately 35 linear fee between the new recycled water main in Euclid Avenue and existing irrigation system in the Euclid Avenue median and parkway will be provided between B Street and C Street, between C Street and D Street, and between F Street and E Street.
	• Construct a new 8-inch diameter recycled water main (approximate 1,530 linear feet in the eastbound lane of W. F Street between Euclid Avenue and Vine Avenue.
	• Construct a new 8-inch diameter recycled water main (approximately 200 linear fee in the northbound lane of N. Vine Avenue between W. F Street and W. Flora Street.

NOI to Adopt Neg. Dec., Mit. Neg. Dec.

	• Construct a new 8-inch diameter recycled water main (approximately 1,290 linear feet) is proposed in the westbound lane of W. Flora Street, east from Vine Avenue James R. Bryant Park.
	• Construct a new 2-inch diameter lateral connection to the existing irrigation system in James R Bryant Park is proposed.
	• Construct a new 8-inch diameter recycled water main (approximately 55 linear fee in W. B Street.
	• Construct a new 4-inch diameter connection from E. B Street to existing irrigatic systems at the Ontario Civic Center, Town Square Park, and Ontario City Hall.
	• Convert an existing 8-inch diameter potable water pipeline (approximately 2,34 linear feet) to recycled water along W. B Street and Lemon Avenue.
	• Construct a new 8-inch diameter recycled water main (approximately 110 linear fee in eastbound W. C Street.
	• Construct a new 8-inch diameter recycled water main (approximately 303 linear fee in eastbound E. E Street.
	• Construct a new 24-inch diameter recycled water pipeline (approximately 11,13 linear feet) in the eastbound and center lanes of E. Riverside Drive.
	• Convert an existing 8-inch diameter potable water main to recycled water (approximately 100 linear feet) in northbound Euclid Avenue between SR-60 and I Riverside Drive.
	• Construct a 2-inch diameter lateral to existing irrigation at Riverside Parkwa (approximately 40 linear feet).
	• Construct a 2-inch diameter lateral to existing irrigation at centennial Par (approximately 25 linear feet).
Project Location – Identify street address and cross streets or attach a map showing	The Project is near the southwestern city limits of Ontario, San Bernadino County, California as shown on <i>Figure 1: Regional Location Map and Figure 2: Local Vicinity Key Map.</i>
project site (preferably a USGS 15' or 7 1/2' topographical map identified by quadrangle name):	The Project is described in six segments below that are within developed city right- of-way. Portions of Segments 1 through 5 are within the boundaries of the Euclid Avenue Historic Property, Euclid Avenue Historic District and Downtown District (See <i>Figures 2A and 2B</i>). Segment 6 is within ROW of E. Riverside Avenue (east of Euclid Avenue) and in Euclid Avenue ROW between E. Walnut Street and E. Riverside Avenue.
	Segment 1: Euclid Avenue northbound lane from 4th Street to E. Holt Boulevard. The Project will remove/replace 8 trees and install four (4) laterals from the Euclid Avenue northbound lane to the center median.
	Segment 2: Westbound W. F Street from the east side (northbound lanes) of Euclid Avenue to N. Vine Avenue, northbound N. Vine Avenue (between W. F Street and W. Flora Street), westbound W. Flora Street (between N. Vine Avenue and the northwestern corner of James Bryant Park). The Project will install a Lateral and remove one tree at James R. Bryant Park.;
	Segment 3: Westbound E. B Street (between Euclid Avenue and W. Lemon Avenue); the Project will install laterals serving the Civic Center Area.
	Segment 4: Westbound E. C Street (between Euclid Avenue and west of Lemon Avenue). The Project will install Three (3) laterals adjacent to Ontario Town Square and Ontario City Hall (C St and D St roundabout) and will convert a portion of existing water mains to recycled water.
	Segment 5: Eastbound E. E Street (between Euclid Avenue to an unnamed alley to the east of Euclid Avenue). The Project will install laterals serving the Civic Center Area.
	Segment 6: E. Riverside Drive eastbound lane (between Euclid Avenue and 200 fee east of Baker Avenue) and from E. Riverside Drive intersection at Euclid Avenue. The Project will install lateral connections extending recycled water service to the

This Initial Study was completed in accordance with the Lead Agency's Guidelines for Implementing the California Environmental Quality Act. This Initial Study was undertaken for the purpose of deciding whether the project may have a significant effect on the environment. On the basis of such Initial Study, the Lead Agency's Staff has concluded that the project will not have a significant effect on the environment with proposed mitigation measures incorporated and has therefore prepared a Drah Mitigated Negative Declaration. The Initial Study reflects the independent judgment of the Lead Agency. The Project site IS on a list compiled pursuant to Government Code section 65962.5. The proposed project IS considered a project of statewide, regional or areawide significance. The proposed project SNOT considered a project of statewide, regional or areawide significance. The proposed project WILL affect highways or other facilities under the jurisdiction of the State Department of Transportation. The proposed project WILL NOT affect highways or other facilities under the jurisdiction of the State Department of Transportation. A scoping meeting WILL be held by the Lead Agency. A scoping meeting WILL be held by the Lead Agency. If the project meets the criteria requiring the scoping meeting, or if the agency voluntarily elects to hold such a meeting, the dat, time and location of the Scaping meeting are as follows: Date: NA Time: NA Location: NA Copies of the Initial Study and Draft Mitigated Negative Declaration are on file and are available for public review at the Lead Agency's office, located at:		The Project site is not included on any list of hazardous materials sites compiled
