Applicant(s): Jose Orellana
10072 Avenue 416
Dinuba, CA 93618 (559) 333-1160

Project Title: Domestic Well for the Jose Orellana Property (CEQ 25-008)

Project Location - Specific: The Project is located at 10072 Avenue 416, approximately 130 feet north of Avenue 416 and 446 feet east of Road 100, approximately two (2) miles east of the City of Dinuba. (APN 021-170-035)

Project Location- Section, Township, Range: Section 10, Township 16S, Range 24E, MDBM

Project Location - City: just east of City of Dinuba

Project Location - County: Tulare

Description of Nature, Purpose, and Beneficiaries of Project: The Project site is located just east of the City of Dinuba and is within the Sultana Urban Development Boundary and is zoned C-2-MU (General Commercial with Mixed Use Overlay). The property owner is requesting an administrative variance for construction of a new (replacement) well to supply the property with water for the domestic uses consistent with the existing zoning. The location of the new well is unable to comply with the minimum setback requirements from the septic tank and leach lines/disposal fields. The contractor will install a 100' annular seal to eliminate the risk of contamination to the new well site. The beneficiary of the Project is the property owner.

Exempt Status: (check one)

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Common Sense Exemption: CEQA Guidelines 15061(b)(3)
- Categorical Exemption: **CEQA Guidelines Class 3 Section 15303 New Construction or Conversion of Small Structures**

Reasons why project is exempt:

This action is consistent with Section 15303 Class 3, New Construction or Conversion of Small Structures; in this instance, the new structure will provide water for the residence in the C-2-MU (General Commercial with Mixed Use Overlay) zoned property. Also, construction of a well is subject to Tulare County Ordinance Code Part IV: Health, Safety and Sanitation Chapter 13; Construction of Wells. Therefore, the application of CEQA Section 15303 is applicable and appropriate for this Project.
