Continuation sheet:

General:

- Environmental reevaluation will be required if the scope of the project changes to include additional areas or activities, or if previously unknown cultural or other sensitive resources are discovered. Contact Environmental Office if project changes occur or sensitive resources discovered. Please ensure the Environmental Office is invited to the pre-construction meeting and notified of the start of any construction activities.

Cultural:

- If cultural resources are discovered at the job site, do not disturb the resources and immediately:

1. Stop all work within a 60-foot radius of the discovery
2. Protect the discovery area
3. Notify the Engineer
4. The Department investigates. Do not move cultural materials or take them from the job site. Retain a qualified archeologist to assess the significance of the find. Do not resume work within the discovery area until authorized.

- If human remains are discovered, State Health and Safety Code Section 7050.5 states that further disturbances and activities shall cease in any area or nearby area suspected to overlie remains, and the County Coroner should be contacted. Pursuant to Public Resources Code Section 5097.98, if the remains are thought to be Native American, the coroner will notify the Native American Heritage Commission (NAHC) which will then notify the Most Likely Descendent (MLD). At that time, the landowner will work with the MLD on the respectful treatment and disposition of the remains. Further provisions of PRC 5097.98 are to be followed as applicable.

Hazardous Waste:

- The Caltrans Standard Special Provision, 7-1.02K(6)(j)(iii), which pertains to Earth Material Containing Lead, shall be added to the construction contract. A lead compliance plan prepared by a Certified Industrial Hygienist (CIH) is required and all soil must remain on-site.
- The Caltrans Standard Special Provision (SSP) 14-11.14 which pertains to handling, storing, transporting, and disposing of treated wood waste shall be included in the construction contract.

No permits are required for this project.
