SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2025060498

Project Title: Vulcan Landing Way Pier Dredging and Maintenance (Lake or Streambed Alteration Agreement No. EPIMS-SON-50631-R3)

Project Location (Sonoma County): The project is located at the Petaluma River, in the County of Sonoma, State of California; Latitude 38.224254°, Longitude -122.606492°; 210 Landing Way, Petaluma, CA, 94952; Assessor's Parcel Number 019-220-049.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement (EPIMS-SON-50631-R3), pursuant to Fish and Game Code section 1602, to the project Applicant, Vulcan Materials Company.

The project is limited to dredging of an existing berth along the Petaluma River for boats and barges. The approximately 0.5-acre berth area will be dredged to a depth of approximately -8 feet mean lower low water (MLLW) plus 1 foot of overdepth to match the maintained depth of the federal channel of the Petaluma River. It is expected that approximately 2,519 cubic yards (cy) of sediment will be removed per dredging episode. The project will entail up to two dredging episodes with the same area and volume expected for each episode. Dredging activities will be conducted using a mechanical clamshell dredge with tugboats and scows to transport sediment to the disposal site. Dredged material will be transported to San Francisco Deep Ocean Disposal site (SF-DODS) or a permitted beneficial reuse site such as Montezuma Wetlands Restoration Project (MWRP) site or Cullinan Ranch Restoration Project (CRRP) site. Sediment will be tested and disposed of in accordance with Dredge Material Management Office (DMMO) standards. This project will temporarily impact approximately 0.5 acres of open water habitat. The project will not result in impacts to trees or other vegetation.

This is to advise that CDFW, acting as a Responsible Agency, approved the project described above on 9/16/2025 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the **Negative Declaration** prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures **were not** made a condition of CDFW's approval of the project.
4. A Mitigation Reporting or Monitoring Plan **was not** adopted by CDFW for this project.
5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

Notice of Determination

The Negative Declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as a Responsible Agency is available at CDFW's regional office.
