

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Culvert Rehabilitation and Fish Passage

Lead Agency: California Department of Transportation (Caltrans)

Contact Name: Rachel Conway

Email: rachel.conway@dot.ca.gov Phone Number: (707)382-6467

Project Location: U.S. Highway 101 between PM M0.0 to 46.5 Del Norte County  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

Caltrans proposes to rehabilitate 20 drainage systems and remediate fish passage barriers at two of the locations on U.S. 101 from post miles M0.0 to 46.5. Proposed work would include replacement of culverts, downdrains, drainage inlets, flared end sections, headwalls, end walls, and disturbed pavement. A new bridge (at PM 37.46), guardrail with concrete vegetation control strips, cable railing, rock slope protection, and rock-lined ditches would be installed. Work would also include vegetation removal, dewatering and water diversion, and revegetation. The project is needed to repair deteriorating or failing drainage systems to prevent erosion and potential roadway embankment failure, and to allow fish to access habitat necessary for survival and spawning.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No significant or potentially significant effects are anticipated. The proposed project is anticipated to have less than significant Impacts to biological resources, greenhouse gas emissions, hazards and hazardous materials, and hydrology and water quality. No mitigation is required.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.
