The Project proposes to subdivide the 19.58-acre site into a 120-lot single-family residential subdivision including a stormwater retention park/pond. Proposed infrastructure improvements also include extension of public streets and utilities for the proposed homes. The proposed residential development would complement and provide street interconnectivity with the planned residential development to the west. The Project would help address the need for housing within the City and region, and is located within an area of the City that is currently zoned and designated for residential land uses.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
