

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Willow Hill Dam Valve Replacement Project

Lead Agency: City of Folsom Environmental and Water Resources Department

Contact Name: Emma Atkinson

Email: eatkinson@folsom.ca.us

Phone Number: (916) 461-6162

Project Location: City of Folsom, Sacramento County

City

County

Project Description (Proposed actions, location, and/or consequences).

The City of Folsom, in consultation with the California Department of Water Resources, Division of Safety of Dams, has determined that the upstream and downstream valves at the Willow Hill Reservoir dam have reached the end of their serviceable life and require rehabilitation and replacement. The project would replace the upstream slide gate valve structure and the downstream isolation valve, install a raised landing and gate operator infrastructure at the top of the dam, and place rip rap and armoring on a portion of the upstream face of the dam. No construction is proposed on the outfall pipe located south of the dam.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation Measure BIO-1: Avoid Impacts to Special-Status Plant Species (Less than significant with mitigation)
 Mitigation Measure BIO-2: Avoid Impacts to Northwestern Pond Turtle (Less than significant with mitigation)
 Mitigation Measure BIO-3: Pre-Construction Nesting Bird Survey (Less than significant with mitigation)
 Mitigation Measure BIO-4: Pre-Construction Roosting Bat Survey (Less than significant with mitigation)
 Mitigation Measure BIO-5: Avoid Impacts to Aquatic Resources (Less than significant with mitigation)
 Mitigation Measure CUL-1: Accidental Discovery of Cultural Resources (Less than significant with mitigation)
 Mitigation Measure CUL-2: Accidental Discovery of Human Remains (Less than significant with mitigation)
 Mitigation Measure GEO-1: Avoid and Minimize Impacts to Paleontological Resources (Less than significant with mitigation)
 Mitigation Measure TCR-1: Unanticipated Discovery of Tribal Cultural Resources (Less than significant with mitigation)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
