Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g., Notice of Preparation or previous draft document) please fill in.

Present Land Use/Zoning/General Plan Designation:

Open Space/OS

Project Description: *(please use a separate page if necessary)*

The Project would construct a regional stormwater runoff capture facility within Lynwood Park to provide multiple benefits including improved flood control, water quality, and water supply (through infiltration to groundwater). The stormwater facility would involve two stormwater diversion structures which would divert water from LACFCD East Compton Creek storm drains located along Bullis Road and Birch Street into an underground capture, treatment, and infiltration facility situated beneath the existing soccer fields. The Project would also include in-kind replacement of existing facilities within the site that require demolition to implement the regional stormwater capture facility with new recreation facilities and features; a butterfly garden and ephemeral stream; native landscaping; and a concrete walking path as a new passive recreation opportunity in the park. The proposed Project would be constructed in one phase lasting approximately 18 months, beginning in Spring 2027.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".

☐ Air Resources Board	☒ Office of Historic Preservation
☐ Boating & Waterways, Department of	☐ Office of Public School Construction
☐ California Emergency Management Agency	☐ Parks & Recreation, Department of
☐ California Highway Patrol	☐ Pesticide Regulation, Department of
