

Mitigation Monitoring and Reporting Program Redhawk Golf Course - Specific Plan Amendment

A.1 STATUTORY REQUIREMENTS

The purpose of this program is to identify the changes to the project, which the Lead Agency has adopted or made a condition of a project approval, in order to mitigate or avoid significant effects on the environment. The City of Temecula is the Lead Agency that must adopt the mitigation monitoring and reporting program. Section 21069 of the California Environmental Quality Act (CEQA) statute defines Responsible Agency as a public agency, other than the Lead Agency, which has the responsibility for carrying out or approving a project.

CEQA statutes and Guidelines provide direction for clarifying and managing the complex relationships between a Lead Agency and other agencies with respect to implementing and monitoring mitigation measures. In accordance with CEQA Guidelines Section 15091(d) "when making the findings required in subdivision (a)(1) of CEQA, the agency shall also adopt a program for reporting on or monitoring the changes which it has either required in the project or made a condition of approval to avoid or substantially lessen significant environmental effects. These measures must be fully enforceable through permit conditions, agreements, or other measures."

Furthermore, Section 15097.d states "each agency has the discretion to choose its own approach to monitoring or reporting; and each agency has its own special expertise." This discretion will be exercised by implementing agencies at the time they undertake any of the individual improvement projects identified in the Draft IS/MND.

A completed and signed checklist for each measure indicates that a measure has been implemented and fulfills the City's monitoring requirements with respect to Public Resources Code Section 21081.6.

A.2 ACRONYMS AND INITIATIONS

dB(A)	decibel A-weighted
Leq	"equivalent continuous level"
NOI	Noise

**Mitigation Monitoring and Reporting Program
Redhawk Golf Course - Specific Plan Amendment**

Mitigation Measures	Responsible Party	Timing of Compliance	Signature and Date of Compliance
NOISE MEASURES			
MM NOI-1: In order to comply with the City of Temecula Noise Ordinance, noise levels from amplified speakers shall be limited to a maximum of 84 dBA Leq at a distance of 50 feet, and the speaker location shall be limited to the southeast corner of the Pavilion. A designated golf course representative/event coordinator shall complete a noise measurement at 50 feet downstream from (or directly in front of) the amplified speakers and ensure the noise level does not exceed 84 dBA Leq. A noise meter or cellular device-based decibel meter application shall be utilized to complete the noise measurement and adjust the speaker output volume. The speaker volume shall be adjusted to ensure that the maximum permissible noise level of 84 dBA Leq is not exceeded. The designated golf course representative/event coordinator shall maintain a logbook documenting the date and time of calibration (84 dBA at 50 feet) for each event that occurs. The designated golf course representative/event coordinator shall maintain each record for 90 days from the date of calibration. Upon request by the City of Temecula Code Enforcement, and only after the filing of a formal noise complaint by an adjacent resident, the logbook shall be provided to the City for verification.
