EXTERNAL:

Good Morning Salvador,
Please see the email below from Brian Deason regarding CEQA for the Reservoir 1 Sodium Hydroxide Conversion Project.
Please let me know if you need anything else at this time.

Thank you,

Patrick Wilson, PE | Drinking Water Operations Manager

Patrick,

My proposed response to DDW's comment regarding CEQA is:

The District reviewed the activities associated with the chemical change from soda ash to sodium hydroxide at Reservoir 1 WTP and determined the project is categorically exempt from CEQA because it involves maintenance of existing facilities with no expansion of use (Class 1 Existing Facilities) and installation of small new equipment (Class 3 New Construction or Conversion of Small Structures). Because the work was completed by District crews and all activities occurred within previously disturbed areas of an existing facility, the District elected to forgo filing a Notice of Exemption.

Please let me know if you have any questions.

Thanks,

Brian Deason

Good Afternoon Brian,
Please see the attached review memo. I believe it is on page 3 of the PDF under comment #6 the request for a CEQA document is being requested.

I have also provided a link below to the plans for your review.

<M:\Patrick\Water\Operations\Radenko Projects\Reservoir 1 Sodium Hydroxide\Reservoir 1 Sodium Hydroxide Drawings 01142022.pdf>

Let me know what you think when you have a moment.

Thank you,

Importance: High

Hello Patrick,

Attached is our response to El Dorado Irrigation Districts (EID) request to make a chemical change at Reservoir 1 WTP. A hard copy should arrive in the mail soon.

If you have any questions, please let us know. Have a nice weekend.

Hello Patrick,

Following up with my voice message, the status for Reservoir 1 WTP's request to move from Soda Ash to Sodium Hydroxide is still pending.

I may be able to give you a better status update on Tuesday, 8/23/22.

Good Morning Salvador,

I wanted to follow up with you regarding the District's request to move from Soda Ash to Sodium Hydroxide at our Reservoir 1 WTP (attached is the District's letter). I was hoping that you could provide an update of where this review is when you have a moment. Please let me know if you have any questions in the meantime.

Thank you in advance,

Patrick Wilson, PE | Drinking Water Operations Manager
