**Project Title:** City of South Lake Tahoe El Dorado Beach Emergency Repairs

**Project Location - Specific:** 1004 Lakeview Ave, APN 026-050-006

**Project Location - City:** South Lake Tahoe

**Project Location - County:** El Dorado

**Description of Project:** This project is located at El Dorado Beach (APN 026-050-006) in South Lake Tahoe. Due to severe erosion caused by the June 21 storm, super sack sandbags previously placed for shoreline protection have been exposed. The City proposes to place 40–60 cubic yards of clean sand to cover the exposed area as an emergency stabilization measure. Sand will be staged at Lakeview Commons and transported to the site using a Bobcat Toolcat. Work will be completed using hand tools, with no equipment entering the lake. Temporary BMPs, including straw wattles, will be installed. A long-term solution will be pursued in a future phase.

**Name of Public Agency Approving Project:** City of South Lake Tahoe Public Works Department

**Name of Person or Agency Carrying out Project:** Brianna Greenlaw, Associate Civil Engineer

**Exempt Status:** (check one)

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: Section 15307, Class 7 (Actions by Regulatory Agencies for Protection of Natural Resources)
- Statutory Exemptions. State code number.

**Reasons why project is exempt:**

The proposed project is Categorical Exempt from CEQA under Section 15307, Class 7, which consists of actions taken to maintain, restore, or enhance a natural resource. This temporary sand placement will stabilize the shoreline at El Dorado Beach and prevent further erosion, as well as the discharge of sediment and microplastics resulting from the exposure and degradation of super sack sandbags, thereby protecting water quality in Lake Tahoe.

**Lead Agency Contact Person:** Anush Nejad, Director of Public Works
