2270 Trumble Road
P.O. Box 8300
Perris, CA 92572-8300

Notice of Exemption

To: Riverside County Clerk
2724 Gateway Drive
Riverside, CA 92507

Project Title: Diaz Lift Station Influent Sewers Protection Structure
Project Location: 28076 Diaz Rd, Across Murrieta Creek
City: Temecula
County: Riverside

Description of Nature, Purpose, and Beneficiaries of Project:

The purpose of the Diaz Lift Station Influent Sewers Protection Structure project is to provide reimbursement to EMWD for the design and construction support to U.S. Army Corps of Engineers (ACOE) and Riverside County Flood Control District for the Murrieta Creek Flood Control, Environmental Restoration and Recreation Project. EMWD provided a design of the protection structure for the Diaz Lift Station sewers that cross the Murrieta Creek, since these sewers would be impacted by the channel deepening planned in ACOE's project. EMWD will also provide construction support services for this portion of ACOE's project. Beneficiaries of the project are EMWD ratepayers, as they would not experience an impact to services provided by Diaz Lift Station and its sewer lines.

Public Agency Approving and Carrying Out Project: Eastern Municipal Water District

Exempt Status:

☒ Common Sense Exemption 15061(b)(3)

Reasons why project is exempt:

It can be seen with certainty that there is no possibility that implementation of the project may have a significant effect on the environment, as the project consists of the reimbursement of design and construction support services provided by EMWD.
