Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Glenneyre Street Lighting Improvement Project

Lead Agency: City of Laguna Beach

Contact Name: Joshua McDonalde, Associate Civil Engineer

Email: jmcdonald@lagunabeachcity.net Phone Number: (949) 497-0728

Project Location: Laguna Beach *City* Orange *County*

Project Description (Proposed actions, location, and/or consequences).

The City of Laguna Beach Public Works and Utilities Department is proposing the Glenneyre Street Lighting Improvement Project. The project includes the provision of streetlight improvements along an approximately one-mile segment (0.96 mile or 5,100 feet) of Glenneyre Street, which stretches from Forest Avenue (north end) to Caliope Street (south end). The improvements include the installation of new streetlights (a total of 29) at various intersections along Glenneyre Street, which would require the removal of existing pavement and some soil excavation to permit the light pole installation. The new streetlights would be installed to adequately illuminate the intersections along Glenneyre Street that are in need of illumination, some of which are underlit and others that have no lighting. The additional lighting would help improve the safety of pedestrians, bicyclists, and drivers.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The public draft Initial Study identified potential impacts for the topical areas of Cultural Resources and Tribal Cultural Resourcee, all of which can be reduced to less than significant with implementation of the mitigation measures provided in the Initial Study, and ultimately enforced as conditions of approval. Refer to the detailed mitigation measures outlined in the public draft Initial Study.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None known or raised

Provide a list of the responsible or trustee agencies for the project.

Not applicable
