Project Location: Firebaugh (nearest) Fresno
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Proposed 3rd Lift Canal Lining and Modernization Project (Proposed Project) will include two improvement components:

- Replaced the unlined ditch with a concrete lined canal (approximately 2 miles).
- Construct a 13-acre Mid-stream storage reservoir connected to the 3rd Lift and 2nd Lift Canals.

The new lined canal would recover approximately 430 acre-feet per year of seepage losses.

The Mid-stream Storage Reservoir would be constructed adjacent to the 3rd Lift approximately ¼ of a mile west of Fairfax Avenue. The reservoir would be construed with 6-foot-tall levees around a 13-acre field with an estimated storage of 50-60 acre feet. The reservoir would be connected to the 3rd Lift Canal.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.
