Project Title: Yeager Well Replacement Project

Lead Agency: State Water Resources Control Board

Lead Agency Contact:

Wendy Pierce

Wendy.Pierce@waterboards.ca.gov

(916) 449-5178

Project Location: 11083 Vale Drive and intersection of Vale and Mojave Dr., community of Morongo Valley, APNs 058326107 & 058326108

Project County: San Bernardino

Project Description: GSWC is planning to construct and operate replacement potable water supply well, Yeager Well 4, at its Yeager-Vale Plant. Yeager Well 2 will be decommissioned once Well 4 has been established.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect:

There are potentially significant effects to biological resources, unanticipated discovery of paleontological resources, and noise.

Mitigation measures BIO 1, 2, and 3 for nesting birds, crotch bumble bee and biological monitoring, NOI-1 Temporary construction noise barriers, and GEO-1 unanticipated discovery of paleontological resources would reduce potential impacts to less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by other public agencies and the public:

There are no areas of known controversy.

Provide a list of the responsible or trustee agencies for the project:
