

## CEQA Notice of Exemption

TO:  Office of Planning & Research  
1400 Tenth Street, Room 121  
Sacramento, CA 95814

FROM: Community Development Department  
411 W. Ocean Blvd, 3<sup>rd</sup> Floor  
Long Beach, CA 90802

L.A. County Clerk  
Environmental Fillings  
12400 E. Imperial Hwy., Room 1201  
Norwalk, CA 90650

Exemption Number: CE25-014

Project Title (Application Number): PLNE59413 - Adult and Medical Use Cannabis Testing

Project Location – Specific: 1821 West Anaheim Street

Project Location – City/County: **City of Long Beach, Los Angeles County, California**

Description of Nature, Purpose and Beneficiaries of Project:

Project involved establishing an adult and medical use cannabis testing business (MJ21901328 and MJ21804201) within an existing building located at 1821 W. Anaheim Street, No interior or exterior modifications are proposed at this time.

Public Agency Approving Project: **City of Long Beach, California**

Person or Agency Carrying Out Project: Angel Arredondo with VRX Labs

Exempt Status: **(Check One)**

Ministerial (Sec 21080(b)(1); 15268);

Declared Emergency (Sec 21080(b)(3); 15269(a));

Emergency Project (Sec 21080(b)(4); 15269(b)(c));

Categorical Exemption. State type and section number: Section 15301, Class 1, Existing Facilities

Statutory Exemption. State code number: \_\_\_\_\_

Reasons why project is exempt:

The existing business is an adult and medical use cannabis testing business that is permitted within the IG, Industrial General Zoning District. The operations would be carried out within the existing building and no interior or exterior modifications to the building are proposed at this time.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT  
STATEMENT OF SUPPORT  
CLASS 1 (EXISTING FACILITIES)  
EXEMPTION DETERMINATION**

1821 West Anaheim Street  
Cannabis License # MJ21804201 (Medical Testing) and  
#MJ21901328 (Adult Use Testing)  
July 15, 2025

Section 15300 through 15333 of the California Environmental Quality Act (CEQA) establishes certain classes of projects as categorically exempt from the provisions of CEQA because they do not ordinarily result in a significant effect on the environment.

**Lead Agency:** City of Long Beach Community Development Department

**Applicant Entity/Business Name:** 8 Lane Investments, Inc.

**License Type(s):** Business Licenses for Adult and Medical Use Cannabis Testing.

**Project Description:**

The project is located at 1821 West Anaheim Street, Long Beach, CA 90813 within Los Angeles County (Figure 1 – Vicinity & Aerial Map). The site is on the north side of West Anaheim Street between Seabright Avenue to the West and Cota Avenue to the East. The site parcel, APN 7432-018-034, features an area of 15,703 square-feet.

The 15,703 square-foot subject site and surrounding properties are located on relatively flat lots. The channelized Los Angeles River is located approximately one-quarter mile east of the subject site, otherwise are no other natural features in the immediate quarter-mile vicinity.

The subject site is within the General Industrial (IG) Zoning District and has a General Plan Land Use PlaceType designation of Industrial (I).

The subject site is currently developed with two separate buildings totaling approximately 12,180 square feet in floor area. There are twenty-one (21) parking spaces located to the west of the buildings; parking has access from the alleyway to the north as well as along West Anaheim Street. The address which encompasses this request is a newly constructed building and contains approximately 2,880 square feet of floor area. The building subject to this exemption is one story, approximately fifteen (15) feet in height.

The project will require city approved permits which include any building permits, health permits, and a business license.

The primary operations will occur entirely within the enclosed structure and pose limited potential for environmental impacts on neighboring uses. All adult and medical use cannabis facilities are subject to stringent rules and regulations governed by Long Beach Municipal Code Title 5 – Regulation of Businesses, Trades, and Professions.

**1. Is the project site currently operating as a cannabis industrial site or a similar use, or has it recently operated for this purpose?**

The existing building is currently being used as a cannabis testing business. There is no previous use, as the building was constructed specifically for the cannabis testing facility. The building is served with existing public infrastructure which includes sewer, water, and gas services. The adult use testing was established in 2019 and the medical testing was established in 2018. An adult and medical use cannabis testing facility is identified as industrial use by the Long Beach Municipal Code, and is permitted by right in the zoning district.

**2. Does the project involve an expansion of existing structures that would be considered only minor?**

The existing 2,280-square-foot building footprint will not be expanded. No exterior modifications or improvements are proposed for this site at this time.

**3. Project Expansion:  
Size of expansion in square feet:**

This question is not applicable as this project consists of only interior tenant improvements to an existing 2,280-square-foot industrial building.

**4. Is the project site served by all public services sufficient to serve the project (e.g., water, sewer, electricity, and gas)? The preparer should indicate which public services serve the site.**

The project site is currently served by all city public services which include sewer, water, and gas infrastructure as confirmed by the current internal GIS city-data accessed on July 14, 2025. The site is also serviced by Southern California Edison (SCE) for electrical needs as confirmed by SCE's service territory map accessed July 14, 2025. As a condition of approval on the project, the applicant will be required to confer with applicable infrastructure departments to obtain approvals for any improvements on private property.

[SCE Service Territory](#)

**5. Is there evidence that the project site is located in an environmentally sensitive area?**

This project is not located in an environmentally sensitive area as verified on the GeoTracker website on July 14, 2025. This site itself is located in an industrial zoning district which allows for industrial activity and not in proximity to any important mineral resources; protected aquatic habitats, including wetlands; environmentally sensitive wildlife habitat; or areas known to include cultural, paleontological, and/or historical resources.

(<https://geotracker.waterboards.ca.gov/map>)

**6. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment?**

This project does not require a water right permit or another environmental permit. The project is fully developed and served by existing utilities as detailed in response 4.

## **EXCEPTIONS TO EXEMPTIONS**

**7. Scenic Highways**

This is not applicable as this project is not near nor visible from an official State Scenic Highway as confirmed from the Long Beach General Plan Mobility Element and the Caltrans website verified on July 14, 2025.

([California State Scenic Highway System Map](#))

**8. Is the project located on a site included on any list compiled pursuant to Government Code § 65962.5 (Cortese List)?**

The California Department of Toxic Substances Control does not identify this site as a hazardous site ([EnviroStor](#)) as confirmed on July 14, 2025.

**9. Would the project result in a substantial adverse change in the significance of a historic resource?**

This project is not located in an area of significant historic resources as verified in the city's GIS system that lists historical database from the National Register of Historic Places as verified on July 14, 2025. This existing 2,280-square-foot industrial space is not a recognized historic landmark nor in a historic building.

([National Register of Historic Places](#))

**10. Is there evidence of the potential for the project to contribute to a significant cumulative impact?**

This project proposes to reuse an existing 2,280-square-foot industrial space for adult and medical use cannabis testing. The operations of this facility do not provide evidence of the potential for the project to contribute to a significant cumulative impact as the use is located in an industrial zoning district which allows for industrial uses. The proposed project is a use anticipated by the City of Long Beach General Plan and Land Use Element and would not contribute to a significant cumulative impact that was previously not analyzed. The Long Beach General Plan Program Environmental Impact Report (PEIR) was adopted in December of 2019 (State Clearinghouse No. 2015051054). The project's impacts are furthermore mitigated by conditioned compliance with applicable code requirements which include, but are not limited to, noise, discharges, and material handling.

**11. Is there evidence of a reasonable possibility of a significant environmental impact due to unusual circumstances?**

The project does not contain any unusual aspects in the ongoing operations that may lead to a more substantial impact. The proposed use consistent with industrial uses allowed in the zoning district.

**Eligibility Determination**

Based on information contained in the administrative record, as reflected in the answers provided to Questions 1-11 above, the project or project element(s) are eligible for a Class 1 categorical exemption. The project or project element(s) fit(s) within the parameters included in CEQA Guidelines Section 15301, and none of the exceptions to this exemption defined in Section 15300.2 apply.
